

The South Carolina Court of Appeals

The State, Respondent,

v.

Nina Bates, Appellant.

Appellate Case No. 2013-002022

ORDER

The Court received correspondence from attorney Megan J. Flannery regarding the failure to file the notice of appeal within ten days of service of the notice of appeal. We interpret this letter as a motion to file the notice of appeal out of time. The motion is granted and the notice of appeal is accepted as filed. Furthermore, the notice of appeal contains a written explanation showing that there is a reviewable issue in this appeal from a guilty plea. Accordingly, the appeal shall be allowed to proceed. The appellant must notify the Court within ten days of the date of this order that the transcript has been ordered and satisfactory arrangements for payment made.
