Columbia, SC 29201

RE: Wayne J. Rogers v. Arthur Rogers
Appellate Case No. 2024-002104

Dear Clerk of Court:

In consultation with counsel for the Respondent in this matter, it was determined that after reviewing the transcript provided by the court reporter in this case that the transcript is incomplete and testimony from Thursday, October 17, 2024, was omitted. Counsel has communicated this to the court reporter and asked for an estimate of how much additional time will be needed to prepare the transcript. Because this transcript is necessary for the evaluation of this matter and for preparation of the initial brief, Appellant requests that the time for filing the initial brief be extended, and that the time period be set for thirty (30) days from the time Appellant receives the complete transcript. Appellant will update the court as soon as further communicating with the court reporter preparing the transcript is had. We appreciate the court's consideration of this matter. With kind regards, I am,

Sincerely,

Michael B. Dodd

hearing 10/15/24

Good morning, Cynthia.

In correspondence with opposing counsel in this case, we've determined that the transcript is incomplete. Apparently, there was testimony on Thursday October 17, 2024 as well that is a part of this trial. Based upon this, can you give me an estimate of how much additional time is needed to prepare the transcript for the rest of the trial? I've included the email from counsel below for reference. Thank you so much.

Mr. Dodd:

I was out of town last week but have just reviewed the transcript. Please be advised that the transcript is incomplete, because, as the transcript reflects, the trial was recessed until two days later, at which time more testimony and evidence was presented. This transcript includes all testimony from October 15, 2024, but omits the testimony from Thursday, October 17, 2024.

I respectfully request that you make arrangements with the court reporter to provide the remainder of the transcript.

Best regards,

Clayton L. Jennings
