Dear Appellate Clerk,

I am preparing an appeal for a case that originated in the magistrate court and was subsequently transferred to the Court of Common Pleas. The magistrate court downloaded the complete records from each hearing onto jump drives. Before proceeding, I would like to confirm whether this digital record is sufficient to be included in the official record on appeal, or if an official transcript of the proceedings is required by the South Carolina Court of Appeals.

Could you please advise if the jump drive record meets the appellate record requirements, or if I must have the audio and/or proceedings transcribed by a certified court reporter? Any guidance you can provide on ensuring that the record is complete and acceptable for the appeal would be greatly appreciated.

Thank you for your time and assistance.

Sincerely,

Emily Prioleau, (843)693-0184
