SC Court of Appeals

In Re: Gregory Green v State of S.C.
Case no.: 2022-CP-10-798
PCR Application - Appeal

The correct relief requested and I have stated to All ~~court~~ since the beginning this Appeal process I have requested even through Arguments is: A Franks Hearing first and Foremost, vacation of sentence and if remand is granted, A franks hearing and the suppression of the evidence produced because of the 4th amendment violation invoked by Officer Sanchez. A franks hearing will prove that officer Sanchez knowingly and willingly provided false evidence and omitted exculpatory evidence in his warrant Affidavit which he knew was material to probable cause finding and misled the magistrate into signing the affidavit and reiterated these falsities at my preliminary hearing denying me the due process of fair judicial proceedings. These actions negate both the inevitable discovery and harmless error doctrines. The warrant is the tree of poison and several things used as evidence in my trial such as phone calls from jail which the prosecution even used as character evidence in his closing arguments, and DNA samples the detectives collecting from me which is highly suspicious because prior to these samples being collected, my DNA wasn't present at Any scene but my DNA has been in ~~SC~~ ^{SCOTUS} since 2002 and wasn't showing in Any tests prior while I was incarcerated for this charge are the fruits of this poison. I would also like copies of this forwarded to the Court Justices and SC Indigent Defense If possible.

Sincerely

Gregory K Green # 209039
