RE.: Olga Teslenko v. Joe Kocsis  
Appellate Case No. 2024-001734

Dear Ms. Kitchings:

I am following up to confirm whether my Motion to Accept Late Filing and Correct Deficiencies, clocked on June 16, 2025, has been formally docketed. This motion accompanied my Initial Brief and included a corrected Designation of Matter and corrected Proof of Service.

I see that the corrected Designation has been docketed. However, the corrected Proof of Service has not yet appeared in the record, and the version currently docketed appears to be the earlier, incorrect version (with a mismatched document title and date).

May I kindly request confirmation that the motion has been filed, and that the corrected Proof of Service will be included in the official docket? I've attached the clocked corrected POS here for reference.

Thank you for your time and assistance.

Respectfully,

Dated: June 23, 2025
