Civil Rights Division

To Whom this may concern this is a Detailed version of 2 complaints I am filing against all parties listed & I plan on getting the City of Hanahan Public officials to give a signature that will acknowledge their lack of wanting to challenge the evidence:

I submitted a copy of everything but they refused to address it by meeting with me & offering me some form of relief in the form of a settlement.

they feel I can not represent myself because I am Black & Mentally disabled so I don't have any form of civil rights that protect me from not receiving my payment & I must pay Mr. Ben Crump to get the Settlement but I do not trust Attorneys, so I do not know if Hood law firms Power will prevent Mr. Crump from taking this case so I will be representing myself Pro se when I file at the United States district court for a new trial until I know for a fact that Mr. Crump will take this case.
