A key issue that needs to be addressed I work for Evans delivery almost 3 years and was seriously injured on the job and they are fighting me for policy I paid for as a benefit through them. Which Evans delivery is a 2.5 billion dollar company but fighting me for pennies is that constitutional or greed. Just curious how much SC wcc was paid for mistreatment towards me. A clear reason why it taken four attorney to fight me. It's my opinion that it's plenty of money to be shared. But it clear that the case Wilkinson and Wilkinson vs palmetto transportation which attorney hedlund submitted that clearly shows the only way that i benefits from this policy is upon my death which the one beacon policy was a death benefit policy. And SC wcc endorse this policy also which lead to the misconduct of all five commissioners which should be removed from these positions. Benjamin Moses
