Please refer to rule 208 SC appellate Court rules (SCACR) this rule not followed but this court. Which clear show favoritism my this court. So under the law from the previous document and recent documents I received concerning briefs and destination of matter which is now 60 days that this court have violated court procedures which will be a part of what I can see will be my opening statements submitting a writ of certiorari to SC supreme Court. Because it clear that corruption is in the court agency also and will also submit these documents to the local news and social media because as I said this case was unconstitutional and shows a clear case of misconduct. Benjamin Moses
