This email is to clarify the information I sent on September 22 2025 I received two letters from the court one the denial of the case and this letter not understanding it because it wasn't sent to me on September 18 2025 along with the denial letter but sent along with the denial letter. Which shows be it undocumented so here is the letter I received. Which shows in my opinion ambiguity in many ways because it contradicts the denial letter. Which I'm requesting under the freedom of information act (FOIA) concerning is this letter must be submitted before I receive the briefs and destination of matter documents from the defendants. And also under the same act I'm requesting contact information for chief judge H Bruce Williams.
