Subject: As I was carefully reading SC code ann 42-1-360 which is ambiguity and ambiguous because it states and owner operator doesn't qualify for worker comp benefits under there rules. Which I'm asking the court and the respondents a legal answer to my hair brain theory. After my accident in May of 2022 I was out of work for a year and a half do the injury but clear point of this email that I wasn't receiving and income or benefits under policy I paid for through Evans delivery but as the court and the respondents states I was and independent contractor truck driver is that was the case then under federal regulations and criterias i would have been able to hire another driver to operate my truck under the (fmcsa) guidelines and compliance rule but in reality I couldn't do this because I don't possess these why criterias which takes away my right to earn and income under the law if had the proper document to prove compliance stated by (fmcsa) that's a puzzling theory that I want the court to address.
