The South Carolina Court of appeals

Plaintiff: Pro SE: Ken Moorehead

V

Defendant: State of South Carolina

Appellate Case No. 2025-002587

**RECEIVED**  
**Jan 15 2026**  
**SC Court of Appeals**

Request for Extension of time

I, Ken Moorehead request an extension of time for fixing the error in the petition.

1. The situation that currently living in make it takes more time for things to get done and I have limit access to resources

2. I need time to read or check the legal requirement or law books to comply with rule 240 and 267 in the appellate rules

3. I need time to research or check laws or rules to check or be able to give points or authorities or memorandum of authority

4. This will take time to research with the limit of being able to use computers and because the library near me does not currently carry legal decisions in book form
