This email of notice that I've deposit, My reinstatement request to the court my via mail on January 17 2026. Would also ask the court to reinstate this because I wasn't given a hearing at all based on what I've research as scwcc base it's ruling on "stare decisis" which was clearly shows that this case outcome was already decided also show unconstitutional and bias. What's transparent is that I never was meant to be heard as demonstrating by this court which was intentionally acts of dehumanizing under article 8 of the civil code. Which is also now transparent of the first hearing a commissioner falling asleep no transcript recorded but a reporter presented. Why was I treated is such inhumane was because it's show there superiority. And there justification of mistreatment that I should be treated this was which lead them all the unfair acts of a theory that is illegal! By all standard of the law so I'm asking this court give me my fair day in court as I was denied by the scwcc under the fifth and fourth amendment of the Constitution. Respectfully, Benjamin Moses
