I have a question concerning the status of the above referenced appeal to which I am a party.

We (the appellants) received an email from you on Wednesday of this week indicating that the transcript was past due. I immediately contacted the court reporter, and she replied that she was requesting an extension. The South Carolina Court Administration was copied with my email to the court reporter as well as her response to me at the email address of transcripts@sccourts.org.

My question is this: is any further action required on our part to comply with Rule 207 of the South Carolina Appellate Court Rules. The Court Administration is now aware of the status of this appeal, but Rule 207 is not clear if further action is necessary. If a hard copy letter to the Court Administration is still necessary, then, of course, we will send one to it.

I want to make sure we fully comply. Accordingly, I look forward to your reply.
