Good morning:

Attached please find the February 25 2026 Amended Record on Appeal. This filing is intended to replace the Record on Appeal previously filed by Appellant on February 12, 2026.

Since that time, counsel for Home Inspection One, LLC advised that certain exhibits were missing from the Record. Counsel has since made the necessary corrections and is now attempting to refile the Amended Record on Appeal to ensure the Record accurately reflects the materials that were before the trial court.

Specifically:

Item 6 (HIO's Motion to Compel Plaintiffs' Discovery Responses and Motion to Deem Requests for Admission Admitted, filed April 3, 2024): the exhibit containing HIO's Requests for Admission was incomplete, as the referenced attachments (Exhibits A and B) were missing.

Item 8 (Order Granting HIO's Motion to Compel and Motion to Deem Requests for Admission Admitted, entered July 24, 2023): Exhibit A to the Order was omitted.

Thank you for your assistance.

Respectfully,
Reagan Singletary
