**MOTION to be Reheard**

I am filing a motion to rehear. We received the letters for the Deficiencies that we corrected in a timely manner that was stamped and dated we spoke with Kaitlyn at courts of appeal that say that she does see where we did turn the paperwork in so she told us to go ahead and file a motion to be rehear and this is what we're doing now! We sent Motion to stay and proof of service that was dated for February 5, 2025. On last week, I spoke with someone at Court of Appeal and she told me she had all my letters and everything was complete and there was no more deficiencies and if there was, they would send it to us. We never received anything. We are also filing a motion to stay until a higher up judge can hear my case. I feel like I have been discriminated against and col Of interest because the landlord and judge are friends. I have attacked proof that when we had court in October 1 paid th 4,800 the courts asked for and stated he never got them. He accepted the payment than never cancel the court hearing and stated that he never received payments and began Asking for that same amount again. We only owe November rent and December but he won't accept the money!
