REF: Manerva Walker v. Trident Medical Center

Appellate Case No. 2025-001879

Manerva Walker

P O Box 1252

Summerville SC. 29484

To: Court of Appeals

Requesting a Petition/Motion for rehearing to reconsider new evidence and lying to a federal agent in an investigation. Once he retired from the government, he said he had to do it, because he had three years before he could retire. He was threatened. New evidence why my life is still threatened going on 31 years. When I filed an EEO Complaint in 1995, "on my supervisor", the EEO counselor told the Commanding General that my supervisor was "about day to day". This led to an investigation at the time, but I didn't realize it was a sex tracking. When Virginia Gluffre interviewed, she told her story of the involvement of Jeffrey Epstein. That's when God channeled in my mind, saying it was a sex tracking. Then it got worse when the Artificial Intelligence took it to another level to end my life.

I have evidence that Artificial Intelligence does more harm to the American people than good. There are two people in my law suit that will be the name and location of this device. It's an electromagnetism app in their cell phone. This is why you may see everyone walking around holding on to their cell phone, waiting on instruction to commit a heinous act on U.S. sold. This part on the Havana Syndrome refers to a group of neurological, cognitive, and behavioral symptoms first reported in 2016 by U.S. and Canadian government personnel working in Havana, Cuba. It's been in the U.S longer than that. I remember a case in 1997 that affected me financially. It has effect, many women and children. military, DOD, will never

be the same. I could not figure out why Trident Medical Center and Live Oaks Mental Health & Wellness frame me and falsely imprison me to keep me in a mental facility.

The Artificial Intelligence (AI). This case is supposed to be about me talking about God, and my dreams. "Really" Let me tell you about myself. I am profile. I can read body languages, sometimes emails, I can make you tell on yourself. The most of all, I can't get the diseases that the world gets. Even though they have hit me with this electromagnetism device. They have burnt me through chemicals in my eyes, then it rolls down and burns my face. "God gave me extended life". That's why they are still trying to take my life. This Artificial Intelligence (AI) is no match to God and I.

This is who I am, I can't change and want change. I can help you bring down this beast or let it consume the American people. God said, "what about the children?". Yes, they control our children. sex tracking. I can help bring these people to justice with a blank eye, with God's help.

When I ask God, do I have to work this case? He said tell them to negotiate. I always tell people I am in this world, but not of it. All my dreams come from God. After praying and meditation, "God said it will be in the day and a long day". Then a voice said, "where did they go?". Meaning it will be two in the field, one will go, the other will stay. This will happen 2026. This is not a joke. With my hand on the Bible. God is my witness. I know this out the ordinary, this is a falling world. For 26 years in the government, I have been telling people things for a long time. Now I am dealing with hold world. Somethings I will not talk about here. If you do nothing, life will happen. My life will be great, it is the American people being controlled. Everything happen was suppose to happened. This how change come about. God bless America's people.

Lying to a federal agent or department (18 U.S.C. § 1001) is a felony with a five-year statute of limitations from the time the statement was made.

Sincerely

Manerva Walker
