SMJ Adjudication or don't even consider SMJ Adjudication before wrestling power from the Constitution.

It is clear what the framers intended and what they did not intend. The Court is not permitted to ignore or rewrite or consider Constitutional Rights as mere **"suggestions"** when they are guaranteed rights and a part of SMJ Adjudication analysis.

The Court/Judge instead, MUST do a complete **SMJ Adjudication Analysis** that includes treating all Constitutional Rights as prerequisite/condition precedents, with a Judges true intention to uphold and defend Guaranteed Rights being a big part of that prerequisite/condition precedent evaluation based on ones sincerely held belief as sworn by the Oath, under severe penalty if not done so. Then the Court/Judge must do all to protect those rights throughout the case to show they did sincerely receive authority to Constitutionally preside.

If one or two of the issues are genuinely difficult issues, and legitimately appear unintentionally ruled upon during or after the case, with someone who understand the Constitution as a part of their being on the bench, then that is where a review would be necessary on post-trial motion, on a writ where both judges must also be evaluating their SMJ Adjudication analysis in the same way, before a judge hears that motion, , and so forth. No harmless error should ever involved constitutional issues, big or small.

Only then, when the Constitution still seems to be ignored, a litigant can then appeal, where these judges do the same analysis before review and Order, after a notice and right

to be heard are extended to the litigant, where the opposition MUST argue his/her position and not leave any defense up to the Judge who is presiding, which is totally Unconstitutional, where the mistake can and will/must be corrected.

Discipline for Bad and Corrupt and Criminal Judges: Any review for discipline, MUST be made to the People's arbiter review board of the Judiciary, for potential Disciplinary action, (not to other Judges and lawyers mainly, and in secret), for any legitimate failure in this process or in obvious mistakes. The penalties would be from a three strike rule where three obvious mistakes would require the Judge to resign and rerun at the next public, People's election if so chosen, all the way up to corruption crimes and the Judges being prosecuted before a jury, and imprisoned if the People find they were not making mistakes, but deliberate acts against Public Trust and all other crimes that could be brought depending on the circumstances.

The punishments are the guarantee the Court/Judges will properly analyze their SMJ Adjudication power to protect all litigants Guaranteed Rights as a prerequisite/condition precedent under their Oaths, without any schemes afoot and properly recusing/disqualifying when they know they should not hear the case and disclose any reasons to all parties who may accept or reject the Judge based on full disclosure. This way Judges/courts who use Guaranteed Rights to abridge or infringe upon and see them as mere **"suggestions"** the court might follow if convenient, will be quickly weeded out as honesty prevails and a proper analysis occurs, or the Judges is weeded out by going to

prison. Because the People are guaranteed Rights, no abridging or infringing upon them SHALL be tolerated.

And in any review, the standard can never be a harmless error when there are Guarantees being infringed upon. This must be a reversal as to that part of the case that may need a new trial or other remedies depending on the matter and the litigant's ability to work to resolve that difference. The standard must be De Novo, and if not found in the contesting parties favor, then a jury must be called on the issues surrounding that issue.

Jury Check and Balances: All law and facts must be determined by the Jury and all civil and criminal cases must be heard by a jury. This is the final **check and balance**, where they can hear what the law is and determine if that law fits the Constitution. . .not judges, as a right to jury nullify to protect the People. Punishments must be heard by a jury so Courts do not use Laffitte Strategies even when a jury has spoken. No Remittiturs/Additurs, no interfering with mandatory Jury findings that are the **Right of all People in all cases**, since a jury is the final word of the People overseeing government and not the other way around. **No Summary Judgments/Directed Verdict/alleged Evidentiary Hearings**, etc., can dismiss a case, because the Courts cannot be given the power of a jury. for the same reasons. That would include Sua Sponte Evidentiary hearings right after Defennses12b6 failure. . .where the 12b6 cannot be used as a gatekeeper for judges, but only used on the most most extreme cases where not one bit of a scintilla of evidence is shown, and where there is no hope that these would raise to a Cause of Action,

that can be amended as needed as of right. . .not just once, leaving it up to the Courts discretion, which cannot be trusted. When the lawyers all ran away once exposed, without notice or a right for P-Appellants to be heard, and to have the alleged evidentiary hearing with no discovery, no depositions, no subpoenas supported by the Supreme Court itself, Ex. 9, to rid itself of P-Appellant's troubling case that shows the Feigned/Colluding/Colluding of Murdaugh, shows the State involved in the LMCE for profit-tax-free thefts of awards, inheritances, having fake Plaintiffs, and cooked predetermined findings raising serious Structural constitutional violations that are never addressed or respected by the courts because they are being handled as mere suggestions rather than the Intent of the Framers to make sure guaranteed rights are guaranteed and discipline for Courts/Judges who do not perform a serious analysis of proper SMJ Adjudication are **severely punished**, under the direction of the People, including mandatory prison time and a complete change and reduction in their future opportunities for a good quality of life, having violated the Public Trust of the People and committed crimes in office further exploiting those most vulnerable, like what the Courts and LMCE are doing to the People they target for these thefts, including Whistleblowers who speak and lead movements against them for real change to create the Constitutional government they are guaranteed by State and Federal Constitutions.

Jury rights are constitutionally preserved "in violate," and the oath swears to uphold these rights per SMJ Adjudication and severe punishment for not doing so, especially if

shown the structural violations are intentional, and part of that showing is how the Court continues to treat these reviews herein. What the jury finds, like in Murdaugh, cannot be overturned, especially through Feigned/Colluding appealable issues, that undermine the power of the people.

The Supreme and Appeals Court ridiculous acts mimicking the Trial Court trickery and deceit, under color of law, that they are supposed to supervise, PROVES their intentional acts to ignore the Constitution and preserve their LMCE and its Murdaugh/Laffitte type members in their Unconstitutional Oligarchy, by destroying P-Appellant's meritorious case, and hiding the LMCE Court theft of P-Appellant's Award in RACKETEERING with the others mentioned, including the Carrier itself, and much more.

SMJ/Penalties: These and more statements of the law, but actually properly used by Courts, like demanding mandatory SMJ Analysis be properly completed ***BEFORE*** a Judge touches a case, with great penalties for these Courts and Judges violating their oaths, is the ONLY way, that Courts can and will come under the Constitution as presupposed and assumed by the Framers who wrote the Constitutions with this intent, and were OBVIOUSLY not giving the Government and especially the Courts any benefit of the doubt. . .**there were no doubts about what government would do had they given it a long leash.** Instead, they made sure that SMJ Adjudication/penalties were adhered to and greatly punished if violated (P-Appellant's do not support violence in any fashion, although the

framers did). At that point, exercising the Constitution as intended, Government will begin to act as Constitutional Governments, with similar actions, discipline and other operations overseen by the People. The cost/benefit and risk/reward ratios need to be harsh enough to force compliance. . .Self-policing and secretive results are Unconstitutional on their face.

Infringement/Abridgement: Alleged balancing Tests to protect Judges at the expense of the People's rights to oversee them and protect themselves and other people, where the Judges use this to take advantage of such tests for their benefit. . .like giving **immunity**. .. does nothing but help and encourage the Oligarchy and LMCE to commit crimes against the People under color of law. These are unconstitutional and lead to Murdaugh's many victims not protected by their government, and cases like Murdaugh 2.0 where P-Appellant's were targeted for catastrophic injury or wrongful death for the LMCE to grease its gears with claims they stole from Allianz Reserves with Allianz involvement. See **Asbestos cases** and probate cases for many more examples of same. The Constitutions are not about Judges having rights. . .it is about Judges having limits and People having rights.

P-Appellants are challenging all of these inappropriate entrenchments, and inappropriate links with other powers, as Unconstitutional and a part of how P-Appellant's case has been potentially ruined unless something changes fast, and it has caused criminals like Murdaugh/Laffitte and others to survive and thrive in the Unconstitutional SC LMCE that has captured the SC Govt. Juries Determine the facts AND the law to protect the Guaranteed Rights of the People: Further, the Court approved saying the Judges determine the law and juries determine the facts, that they regularly violate anyway. . .see herein. . .is also not accurate and has stolen another part of the power of the people to protect the people from government which the framers supported protecting the people against the government also.

There are **no better examples of why the Framers intended juries finding both the facts and the law**, than what is coming out of SC Courts summarized in P-Appellant's Trial, Appeal and Supreme Court filings, as juries, when not tampered with or affected by tampering, (like State/Fed Actors intentionally tampering with them to provide appealable issues to these criminals because they knew **Murdaugh/Laffitte** would never win before an honest jury and the Aristocrats needed to save their fellow Aristocrats in the LMCE by using state/fed ***ACTORS*** Becky Hill/Richard Gergel), are **independent bodies capable of judging the law and the facts**. Another example of why jury's must determine the facts and the law, is the LMCE's way to rescue Murdaugh/Laffitte, by destroying P-Appellant's meritorious case that tells on the Judges/Lawyers/State Actors/**Allianz**/Defendant Proxies, and so forth that exposes the Murdaugh/Laffitte IF/IRF scheme and the **Asbestos Docket**, which is an even more complex IF/IRF scheme, along with the actual theft of P-Appellant's award as the courts refused to enter the defaults of Defense and give P-Appellant's their victories because P-Appellant's had to lose for the LMCE to keep the money, to save the LMCE from exposure, to save the public understanding Murdaugh/Laffitte/Mullen and so forth and all the other events of the sham Murdaugh proceedings, including Receivership/expanded crimes and criminals/the key involvement of the carrier who holds the check and the unaccountable reserve accounts, and state wide (at least) RACKETEERING through the Courts themselves.

The 10th Cir. Judges, the lawyers no both sides, the SC Bar, the Commission on Judicial Conduct, the Appeals and the Supremes, along with Bamber and Judge Heath P. Taylor had to work together to get rid of P-Appellant's case. . .still in progress. . .without Discovery, Depositions, Subpoenas, Witnesses speaking, and try to rig the SCRCP Rule 12(b)(6), hiding defaults, making up fake claims that were outside of the entire case/procedure to dismiss on other grounds, that involved Allianz actually being a part of

the fake conspiracy, and when all that failed, they had very dangerous and unstable Aristocratic Judge Rivers Lawton Mcintosh, do a Sua sponte evidentiary hearing when there could not be one, to dismiss the case by limiting pages and time to impossible low limits, so there would be no way to do so, on unidentified issues of about 162 documents that the Defense never contested Ex. 8. And with this the Supremes ignored the physical abuse and impossibilities of the demand of Mcintosh with further abuses and weaponizing of their own, to assure P-Appellants case was gone, Ex. 9.

They also had many of their Aristocratic RACKETEERS retire early (Judge Maddox of the Dr. Maddox family), decline running for office again (Wagner), and attorneys run away because they were exposed as a part of the IF/IRF scheme of Murdaugh/LMCE, without Court/Due Process for P-Appellant's to contest, in obvious ex parte orchestrated schemes to hid their schemes. See Supremes, Ex. 9, which includes P-Appellants filing to the Trial Court with copy to the Supremes, and Mcintosh's ridiculous Evidentiary Hearing/list that was produced behind the schemes by the lawyers who were left, but were in hiding because P-Appellants exposed them. (See Taylor in the Laffitte case also, and see **Asbestos Docket, and why P-Appellants case also explains the basis structure of how the State LMCE is making billions off of illegal and unconstitutional litigation because they have no SMJ Adjudicative Power and financial interests in the outcome of these creations of the state like they tried to create claims by catastrophic injury or wrongful death of P-Appellants according to Judges own proxies.**).

In the Supremes denial of P-Appellants Writ of Mandamus, (Ex. 9), they claimed there was no evidence provided. . .when there is something called Prima Facie Evidence, that they know was submitted because one can't call an Evidentiary Hearing at that point in the proceedings, and the Evidentiary Hearing cannot be the reason for a dismissal. It is all fake. . .any reason to dismiss, and the lawyers/judges ran out of reasons, even made-up reasons, and the **Virgin Island Customs excuse** (Ex. 7) was already tried and didn't work for other reasons.

A fake Evidentiary Hearing was what they came up with after taking about 6 months off to let Judge Maddox retire early at the end of December 2024, because he was nailed and was also caught in an ex parte hearing with the Defense without P-Appellants being notice or present, Ex. 8 and was called out by P-Appellant's.

This extremely bad faith and **sanctionable Virgin Island Customs** claim by Defense attorneys, is more Feigned/Colluding of a case, with absurd Motions being permitted by these 10th Cir., Judges to get a judgment against P-Appellant's on any grounds no matter how ridiculous to hide their exposure of IF/IRF in the SC LMCE. See Murdaugh/Laffitte and **Asbestos Docket crimes, where P-Appellant's case is exposing the fundamental structure of these crimes through IF/IRF schemes and exposing the SC LMCE who are running these illegal Long Cons, and then sitting on these cases, presiding over their own guilt or liability once again.**

Supreme Court Writ of Mandamus to the Supremes Response to Defend and Protect the LMCE was Clear. Ex 9 . They needed to get rid of P-Appellant's case, refused to allow any type of Discovery, Depositions, Subpoenas, Witnesses, and even allowed Judge Mcintosh to personally review anything written by P-Appellant's before it could go into the record, which were the response to the Evidentiary Hearing writings, the claims against Government Racketeering in P-Appellants case, permitted those a part of the case to continue to preside and represent in the case, ignored the fact that no Evidentiary Hearing was permitted at that time in the case, and so forth.

The Supremes also claimed that P-Appellant's should just give up if they were worried about their health and safety instead of protecting them and providing ADA Reasonable Accommodations. (Ex. 9). This is something bullies were saying to P-Appellant's from the beginning of this case and forward. Finally, the Supremes claimed that their duty was to protect their Employees, which is the problem. They think that it is more important than protecting the guaranteed rights of the People from their employees, where there is a laundry list of tampering with records, hiding orders and so much more than what is written herein. Ex. 9.

Of course P-Appellants lost, but responded to the evidentiary hearing demand in a way that Judge Mcintosh could not **a)** continue to fish for the specific evidence and witnesses regarding P-Appellant's evidence against the Judges, which should not even been a part of why there was an evidentiary hearing or dismissal, and b) they used common

sense which is a part of the fair and impartial hearing to show that the Judges' own behavior in the case, purposely ignoring laws and even rewiring the constitution, the law, the Rules, and the Canons to serve its purpose, would not be something an honest judge/court would do, as it would be much easier to just follow the laws/rules etc. in place and have no drama. (Ex. 8). And used other reasonable law and questions that any reasonable person would see that these Judges from Trial through the Supremes were hiding the facts of Murdaugh/Laffitte, their LMCE, and therefore needed to destroy and keep hidden, P-Appellant's case.

The challenge has expanded after learning that the Asbestos scams by the state were being heard at the same time by the same Supreme Court that has no legal excuse for aggressively creating asbestos claims out of thin air with their Discovery/Sanction strategy they used on healthy corporations to give them fake standing to have a receiver, Protopapas take over. They did the same strategy with P-Appellant's with the Evidentiary/Sanction strategy. . .both are the same structure, and now Murdaugh, Asbestos scams and P-Appellant's case are all being heard in Columbia at the same time.

P-Appellant's case was being buried because of what P-Appellant's know about this very corrupt SC Government and Courts, through having to go through the horrors of the 10th Cir., including the10th Cir Judges attempting to create the claims against P-Appellants, through their proxies initiating a catastrophic injury or wrongful death to bring their IF/IFR claim with the cooperation of Allianz. . .but the State ACTORS proxies failed to finish the

job, and some later told P-Appellant's in their written admissions and their recorded statements (and others), that the 10th Cir. Judges were behind the violence these Proxies were taking to P-Appellant's long before P-Appellant's ever filed a suit in the 10th Cir against the proxies. . .and P-Appellant's still didn't know about State Actor involvement at the time of filing their suit yet.

In the Supremes, denial of P-Appellant's writ of Mandamus regarding this totally Unconstitutional **Evidentiary Hearing** by the RACKETEER Judge, Mcintosh took it upon himself to hide and not file any documents that showed the government involved in their case, and also refused to file P-Appellant's suit against all the RACKETEERS **among other documents**. Ex. 11.

The Unconstitutional evidentiary hearing was manipulated to be used in place of a summary judgment that the Defense could not use without Discovery/Depostions taking place. That could not happen because the RACKETEERS could not allow any of the Defendant/Proxies to talk any further than they did after P-Appellants filed their suit on 3/17/22, but before defense lawyers were involved on April 15, 2022. During this down time is when P-Appellant's got 2,000 pages of Defendant Group Texts from some Defendants admitting to all and more than P-Appellants even knew including admitting that the Judges and others were leading the attack of P-Appellant's in the underlying case long before P-Appellant's even knew there was a case. And that Defendant Proxies were meeting with the Judges and others to scheme a way to catastrophically injure or create wrongful death of P-

In summary, the jury is the community of peers, that protects the people from tyrannical government/LMCE/Oligarchies/etc., and determine the LAW AND the FACTS. The **juries duties to determine the law and the facts** were not separated into the Judge determining the law and the Jury determining the facts, as they are today due to the Unconstitutional rewrites of the Constitution, where Judges of limited power are rewriting the Constitution to give them more power. See, *In re Murchinson,* @ 136.

The jury finding both the facts and the law is classic constitutional position that has deep roots in Anglo American law **that juries exist not only to find facts, but also to protect the people from unjust government or unjust laws while modern courts often say juries decide facts there is substantial history and Supreme Court authority recognizing the jury as a protector of liberty and a check on government power**. The court cannot take away the jury nor limit their decision based on laws they may deem unfair to the people. There is no doubt from even the quotes provided, what the framers intended. They did not trust the Courts based on pinky swears, but oaths and protections written into the constitution that are guarantees not suggestions.

Immunity Unconstitutional: Although Immunity has been waived by the government agents in the Trial, Appeal and Supreme Courts, the Legislature, Judges, AG, Governor, SC Bar, SC Commission on Judicial Conduct, and many other State Actors like the Attorney General, the 10th Cir. Solicitor's, the Anderson Sheriff's Department Sheriff and Deputies and Allianz as an Insurance Corporate Pay to Play entity of SC, immunity is not Constitutional under any circumstances and is in the line of the Courts rewriting the Constitution to give it the very power the Constitution denies it. There is no Guaranteed Rights of the People that need to compete with Court claimed Constitutional Balancing Tests that protect their LMCE. See, Harvard Law Review _____, and Argument.

Judges rewriting its Constitutional limited powers to give it more power, ignoring SMJ Adjudication analysis and oaths, creating Frauds on the Court by the Court for predetermined outcomes with interests, considering Constitutionally guaranteed rights as mere suggestions, ignoring jury power, using Summary Judgment/Directed Verdicts/Evidentiary Hearings and even 12b6 to gate keep meritorious cases that attack or expose the Oligarchy and their LMCE for profit tax-free, is all obviously Unconstitutional. And manipulating the rights of the People, like having a jury trial, but the state's weaponizing that right of the people to help criminals get out of jury findings, like purposely having state/federal actors provide Aristocratic Defendants stealing the People's awards, with Feigned/Colluding/Colluding Appealable issues giving by the state/fed ACTORS themselves, once it is clear that the Defendant Aristocrats will lose their Jury trial, are

In this SMJ Challenge, the case is the SMJ Challenge and one of the P-Appellants are the targeted party being violated by the court.

Thus, the attorneys passed on an answer to the SMJ Challenge, missing his deadline to answer, in spite of the Courts making the entire Murdaugh matter void ab initio for reasons already stated anyway. Murdaugh has therefore Defaulted its chance to be heard or decided in their favor, as their Attorneys have defaulted on answering the SMJ challenge, among other reasons.

The Biased Supremes forcing their own arguments (or lack thereof, rather than let a Neutral Court, insist their attorneys make their own arguments as a delay tactic for other strategies to try to defeat P-Appellants in coordination with the Appeals Court Unconstitutionally presiding over P-Appellants **Murdaugh 2.0** case, defaulted Murdaugh's appeal in that even Neutral Judges cannot be Judge and Prosecutor or they are no longer Neutral.

The fact that the Supremes are involved in a Feigned/Colluded /colluded case anyway, and have not stopped all proceedings because of the SMJ Challenge that they are hiding from the public, while ruling on moot matters, Ex. 2-5, that were timely withdrawn (motion #3, #4 of the motions, Ex. 2-5), due to Court malfeasance, where the Supremes had no further SMJ to rule, makes this entire event even more ridiculous, irrational, unsupported and lacks common sense. c. **"No one should be a judge in his own cause"; Nemo judex in causa sua**: *In re Murchinson*, 349 U.S. 133, 136-37 (1955). And even further, the facts have shown that Murdaugh is a Feigned/Colluded case, or enough information has been provided to show bias, which does not have to be proven. The Judges are definitely not Neutral and their bizarre Unconstitutional behavior in Murdaugh/Laffitte and P-Appellant's Murdaugh 2.0 are self-evident of those truths.

P-Appellants are challenging all of these defaults, malfeasance of Government/ Judges/Clerks, cover ups, inappropriate entrenchments, and inappropriate links with other powers, as Unconstitutional and a part of how P-Appellant's case has been potentially ruined unless something changes fast, and it has caused criminals like Murdaugh/Laffitte and others to survive and thrive in the Unconstitutional SC LMCE that has captured the SC Govt. See argument.

Separation of Powers Do not Exist in SC Unconstitutional Oligarchical LMCE.

the State Aristocratically entrenched Branches like the Legislative, Governor, and Judicial Branches, work allegedly like so: As of early 2026 South Carolina is one of only two states where the legislature retains the primary authority to elect judges (election by selection of more Aristocrat/Groomed Elite), however, **in a drastic effort to keep the Judges from being voted in and out by the People themselves as a true check and balance**, the system was modified by a **new lipstick on a pig** law effective July 2025 to, not give the People the vote, but instead give the Aristocratic Entrenched Governor a "seat at the table" for the first time in the initial ALLEGED screening process, which is not only **another lipstick event**, but does not overhaul the General Assembly either from serious corruption and structural Constitutional violations. And because of these slight of hand changes and the fact the Aristocratic Entrenched **legislators still hold the final vote to elect Supreme Court of Appeals Court, Circuit Court, and Family Court Judges** in a joint public session, cases like Murdaugh/Laffitte/P-Appellant's Murdaugh 2.0 case will continue without accountability.

These alleged **"improvements" are as Feigned/Colluded as the cases** that support this SMJ Challenge herein.

These Lipstick changes went into effect in July 2025 that altered the Judicial Merit Selection Committee (JMSC), which allegedly vets candidates (Please see Hellh*les who claim that Alex Murdaugh was responsible for the Luke Rankin appointment in the past). The JMSC was expanded from 10-12 members giving the Governor the authority to appoint

four of those 12 members (1/3). Previously all members were appointed by the legislative leadership. Groomed Elite, Carmen T. Mullen's husband and attorney, Aristocrat, George Mullen, is called a "Political Animal" and he is the one funding Ranking the most, which explains Judge Mullen's usefulness to the LMCE, and her Teflon status.

So the **Executive Branch Aristocrat Governor McMaster,** an **Aristocratic family member of Aristocrat Laffitte's** working with **Aristocrat Limehouse** form the **Federal Judicial Branch, and the Federal Government Judiciary, (where McMaster's worked) to reduce Aristocrat Laffitte's sentence in Federal Court, through familiar and network relationships, that also reduced Aristocrat Laffitte's punishment in the Aristocratic SC state Courts for no legal reason is deemed a separate power?** This is yet **another Feigned/Colluded** process to fool the public, because these **Aristocrats will not voluntarily lose Power and Entrenchment perks and rule over the profane/vulgar Public, including P-Appellant's, which keeps SC as an Oligarchy with a tax-free, for-profit Legal Machine Criminal Enterprise, to the perpetrators.**

In February 2026 a **new lipstick bill** 4516 advanced through the house that would **further give the Governor all the JMSC voting for Judges <u>from the people</u>, provided more lipstick** and **giving the Entrenched Aristocrat Governor control** over appointing all 12 members of the JMSC and removing legislators from the panel entirely. However, the entire General Assembly still votes for the Judges, so it is a lipstick event. Therefore, now the lawyer-legislators that go before these judges will know that the Aristocratic Lawyer-

Legislators will tell the 12 Aristocratic JMSC members that Judges [name] isn't going along to get along, for the same end result.

This is the latest ruse of LMCE taking turns selecting the Aristocratic JMSC members who still selects the Aristocratic/Groomed Elite Judges. It is all slight of hand in their **Long Con** to fool the people and keep control of the Power/LMCE.

It is like the Supremes all of a sudden releasing quarterly generalizations about disciplining Judges. They already lie, but what good does it do if the people can't oversee it and verify who and what happened and why? **It is all ruse. Lipstick. They fear the people and are doing everything they can to keep the oversight from the people, which would take care of all these problems written in this challenge and motion to strike.**

No accountability, and no punishment gives complete corruption in the hands of the controllers. In SC, it is an Entrenched Aristocracy with their Groomed Elite.

The magistrate judges are appointed by the Governor also, but they must be confirmed by the Blackmailed Senate (see **State Lawmakers Get 'Blackmailed' for Misconduct, Former Lexington Senator says,** By Joseph Bustos, **August 8,2025),** and recommendations are often made by local Senatorial Delegates. Probate judges remain elected directly by the public in partisan elections, however NONE of these JUDGES are Accountable to the People's own oversight and their Discipline . . .as seen in the incredibly Corrupted **Alan Wilson/SLED ruse in the Probate theft by Tammy Bullock,** being dismissed from criminal prosecution in spite of her being audio and video taped in

the act. The People voted out her superior covering for her, but she did not get punished under the SC Oligarchy/LMCE. In the LMCE, the perpetrators are protected, as Laffitte/Murdaugh are showing, while P-Appellants case is being destroyed to help protect these Aristocrats.

Note one of the alleged suggestions for improvement in accountability of Magistrates should ever involve them answering the Courts. . .this is a joke. .. more than a ruse. This is why Probate is so corrupt. See Queen Pierce and Jason Boyle cases, Oconee County. But these are the same illusory steps to keep delaying the People over seeing their government.

These alleged "improvement" are just another way for the Entrenched to retain Power and keep the elections from the People to oust the "corps of sappers and miners constantly working underground to undermine the foundations of our confederated fabric." See, Jefferson, infra. **It is more lipstick on the pig. The process is entirely corrupt and the Entrenched Aristocrats/Groomed Elite, are trying anything to not have to allow the people to pick their own judges and for the People themselves to be over the Judges, and the Secret Disciplinary system of Judges and lawyers, and doing it without secrets and with the disbanding of the Bar all together as a monopoly. As with juries in all trials, the people are the ultimate check and balance needed that will break up these Entrenchments/Oligarchy/ LMCE, an entirely corrupt process.**

Just this last year, **Attorneys John Lay and Peter Protopapas have been new additions to the JMSC (more herein, but Aristocratic McMaster/(Laffitte family) was**

involved). John Lay was also the **Receiver in Murdaugh, and in question in this Motion in the Murdaugh case,** who was approved for **Receivership by the Supreme Court, over all State Courts/Legal Processes. This came out of left field as Lay was no in any government position before, and appears to be a thank you for helping the government appointee, as SC is filled with various awards and positions given to those who play ball.[10] Palmetto winners including Randolph Murdaugh, III Judge Jean Toal, Judge Casey Manning (who stopped the deposition of Judge Carmen Mullen in the Murdaugh case), several Laffittes, and the list goes on . . .**

Legislators should never pick judges, and write the law they expect the judges to follow and then practice before these judges while they hold the keys to the judges future. The judges selected are gladly becoming LMCE members, but in structure this is still not a proper one. They also cannot pass the job off in part or in full to another branch of government who is also Aristocratically entrenched with them as a part of the SC

Aristocratic entrenchment of Aristocratic blood, Kin and groomed Elite in government that controls SC Politics, Courts, Laws, and Discipline.

"Fixing the problem" by adding Aristocratic Governor McMaster or another, like candidate Alan Wilson (AG) into the mix is lipstick on a pig as the Governor himself has family ties to the entrench Laffitte's and close ties to U.S. Attorney Emily Limehouse who colluding with the Federal Court to continue to decrease sentencing for Laffitte after the Federal Judge gave Laffitte the appealable issue that any first year law student would know that was not legal for the court to tamper with the jury. Only an Aristocrat or his groomed Elite will fill these positions as SC operates this way in its Oligarchy/LMCE.

The Oligarchy in SC is extremely Unconstitutional, and the People MUST oversee their government and choosing Judges including having the people having their own judges as candidates is the only way to break up the Oligarchy minus the Federal Government coming in to permanently take its power away (details are not included here for time/space). See, James Barton case Link_____, where Judges Mcintosh and the LMCE took out a genuine candidate for Sheriff on Feigned/Colluded criminal claims to stop an outsider from being sheriff in Oconee County. A legitimate candidate will never survive the SC, fixed process. This challenge and motion to strike, vacate, pronounce void ab initio against the wrongdoers while protecting the innocent (Southern Bank & Trust, Co., infra), have caused all these matters to be relevant as the causes of P-Appellant's very Meritorious case being destroyed.

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . Further, **the Supreme Court is responsible for the underlying courts existence and behavior.** They **also oversee the secret Disciplining of the Bar**, the secret Disciplining of Judges and lawyers, both by Disciplinary Counsel, **Aristocratic Attorney William M. Blitch** (formerly of the AG's grooming office if grooming was needed), who is hiding his own Aristocratic background for good reason. So when the Supreme Court, Appeals Court, and Trial Court Judges are reported to the Commission on Judicial Conduct, that is heavily favored by Judges (14), lawyers (4) and lay people (8), meaning a 28;8 ratio of the LMCE to the hand selected 8 alleged lay people, while the Judges/Lawyers/William Blitch are also performing these RACKETEERING and criminal acts to destroy P-Appellant's **Murdaugh 2.0** case, while Feigned/Colluding/colluding Murdaugh's show trial/appeal, with the **state and state connected lawyers involved to protect fellow Aristocrats and groomed Elites**, some documented here. This again violates the separation of Powers within the judicial branch.

Reviewing the Judicial branch AND THE SUPREMES OUTLANDISH ACTIONS, EVEN BREAKING THE CRIMINAL CODE OPEN, which is a big part of this Challenge, and Fraud on the Court by the Court, shows that the Judicial Branch WILL NOT BE FOLLOWING ANY LAW THEY DO NOT WANT TO FOLLOW. . .EVEN THE GRAND DADDY OF THEM ALL. . .SMJ. THE FACT THAT THE COURTS ARE ALL REVIEWED BY THIS SUPREME COURT SHOWS WHY THE CONDITION OF THE SC COURTS IS SO CRIMINAL IN ITS BEHAVIOR. IT SHOWS WHY THE LAWERS ARE SO CRIMINAL IN THEIR BEHAVIOR. IT SHOWS THAT SC IS AN OLIGARCHY,

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . AND NOT A CONSTITUTIONAL REPUBLIC WITH ITS OWN DEVINE RIGHT OF KINGS RULES/IMMUNITY. THERE IS NO LAW WHEN THERE IS NO REMEDY. THE CLOSED SYSTEM OF THE COURT AND GOVERNMENT HAVE ALLOWED THE SC ARISTOCRATS/GROOMED ELITE A SILENT COUP OF SC, AND THEY ARE NOT THE ONLY ONES INVOLVED IN THE LMCE. THIS IS WHAT THIS COUNTRY IS FACING AND WHY THE PUBLIC IS MERELY THE CASE COW OR USELESS EATHERS, DEPENDING ON THE SITUATION WITH NO REAL POWER UNTIL THEY MAKE CHAGES. FORTUNATELY, THE PEOPLE ARE SEEING IT because the courts have to hide their criminality, and create fake improvements because they still fear the people knowing what they are doing.

This lack of Accountability, Integrity and Transparency of Judges/Lawyers in a secret discipline process, all run by a fellow Aristocrat through the AG's office, in a disguised Oligarchy with LMCE for profit businesses, tax-free-RACKETEERING, is **obviously not close to anything that passes for Constitutional behavior regarding Separation of Powers Mandates, Open courts and Transparency**.

The SC LMCE is entrenched with Aristocratic kin and Groomed Elite colleagues **all of one mindset** where the legal system is **NOT** about the Constitution as it must, by law, where only suggestions are given to the State in spite of the Constitutional writings and framer intent, as herein illustrated, including the handling of the SMJ Challenge alone. Excellent examples illustrating the Oligarchy is Murdaugh/P-Appellant Murdaugh **2.0** cases, the IF/IRF related **Asbestos Docket**, where Lawyer-Legislators directly benefit by writing

. . . SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . the laws and being appointed by Kittredge proxy, retired Judges Toal, and so many more IF/IRF schemes, and other state crimes they hide. (**A close look at the alleged Plaintiffs in these personal injury type cases, where catastrophic injury/wrongful death/asbestos cases are involved, will tell a bigger part of the story in these matters**).

Judges judging lawyers and Judges judging Judges are **not a part of a Separation of Power** model and having **Aristocrat Racketeers** in P-Appellants **Murdaugh 2.0** case, **Aristocratic Attorney William M. Blitch CANNOT be in charge** of Disciplining both Judges and Lawyers TOGETHER, nor in SC any type of Disciplining due to the bigger issue with Aristocratic entrenchment, as they all are working together in the Oligarchy/LMCE, and this is Unconstitutional and ridiculous to say the least.

P-Appellants reported all lawyers and Judges (numerous times), and even warned the Commission on Judicial Conduct, more than once that Judge Rivers Lawton Mcintosh was a very dangerous person and not mentally stable. **All was ignored, not surprisingly**. And then the Lawyer-Legislators, on notice of all of this in writing, called **"Murdaugh 2.0**, in **Anderson County,"** re-"elected" by selection, both Mcintosh and Sprouse of the 10th Cir., while the Murdaugh and Laffitte was still in the news, with no contact, no investigation, and with only **Governor McMaster office, related to Laffitte**, and very tight with **Aristocrat U.S. Attorney Limehouse,** writing that there was nothing he could do, when all government and lawyers, are under mandatory reporting of wrong-doing, including crimes, under various Rules of Pro Conduct by lawyers (*RPC Rules 8.3)*, judicial ethics rules (*S.C. App. Ct.*

R. 502), government employment obligations (*S.C. Code Ann.* § *8-1-80 (2023*), and *8-27-10 (2023))* and so forth.

The Aristocratic and Groomed Elite on these panels are another illustration of the Oligarchy/LMCE in SC. Judge Mullen and Judge Maddox both answered on their Judicial applications, that they would report wrongdoing within the Judiciary if they suspected it, which shows how serious these questions are asked and answered (sarcasm). . .and how important the judicial review applications are really taken and vetted by their Oligarchy.

Several Supremes and Appeals Court judges have been on the Commission for Judicial Conduct, and in spite of its many harsh critics, with clear Unconstitutional structure of these Courts, Judge Kittredge still makes the most unreasonable argument for why this secret system that stops at the Supreme court's door for final review of the Bar/Commission process and if someone gets disciplined or not. LINK.[11]

---

[11] Kittredge claims that the lack of judges being disciplined is a sign that Justice is being served properly in SC, when they are the ones keeping Discipline secret and deciding over their own. This is not reasonable, rational, nor is it common sense. Judges must use solid reasoning in their communications, and cannot be **irrational, unsupported by the record, or contrary to common sense** [which] **cannot stand."** *County of Sacramento v. Lewis*, 523 U.S. 833, 845 (1998), see also, *Ornelas v. U.S.,* 517 U.S. 690, 695 (1996).

This unreasonableness by Kittridge to try to twist a very negative stat about the lack of Accountability, Integrity and Transparency in the Legal System, into a positive, cannot be explained by cognitive dissonance which is an innocent way of improperly dealing with a matter to cope with findings the person does not like. This is an intentional, irrational argument to hide the Oligarchy and its LMCE and to try to continue to keep oversight and Discipline within the LMCE, which is needed for it to survive. This argument is being made by the Chief of the final review of the entire legal system, who is purposely ignoring Constitutional Law, and his own U.S. Supreme Court cases that allegedly govern him. See, *County of Sacramento @ 845,* and *Ornelas @ 695* above.

To be fair to Kittredge, he is not the initiator of such absurdities, to cover up Oligarchy/LMCE, but he clearly intends to continue the Unconstitutional heritage of SC Aristocratic Entrenchment/Groomed Elite, which he benefits from personally and professionally at the expense of the People, while claiming to be a strict constructionist. This illustrates the deception SC is using in all areas. . .using deceptive words and claims to hide Unconstitutional realities, without accountability because that loop is closed by the LMCE. There shall be no Nobility in title nor in action in the U.S. nor SC according to several Constitutional and Case law proclamations. See Argument that makes it clear that the U.S. and its states were not to be Aristocratic/Elite Entrenchments, that Courts, as part of the government are accountable to the people, and that branches and within branches, there are Separation of Powers/Checks and Balances, that protect against SC-type governments.

There is no separation of powers within even the SC Courts themselves, and who is watching the Supremes when they act as in this writing when they review themselves, which his Unconstitutional? *In re Murchinson*, @ 136-137. The Answer cannot be the other Separate powers when they are not, and the Disciplinary loop ends with the Supreme Court. This is the Oligarchical LMCE P-Appellant's are dealing wtih.

There are Structural Constitutional violations in this SC Judiciary set-up within its own branch that should appear obvious and P-Appellant's challenge this as part of the fraud on the court and SMJ Challenge. Due Process is violated in many ways, including a Judge cannot be judge in his own cause, and that a fair trial in a fair tribunal is a basic requirement of due process, among other valuable quotes of law, that the SC Judiciary and Legal Industry is ignoring to run their LMC Entrench as Aristocrats/Groomed Elite without accountability and Tumey v. Ohio, 273 U.S. 510, (1927). This Oligarchy is also violating the illegality of running anything other than a Constitutional Republic, Equal Protection, Due Process and of court several Federal Statutes and the U.S. Constitution and almost all of the Framers **intent in the U.S. and SC.**

The intent of framers is again clear against Entrenched Judicial Aristocratic rule:

Thomas Jesserson said, **". . .there is also an artificial aristocracy founded on wealth and birth . . .and the artificial aristocracy is a mischievous ingredient in government."** *Letter from Thomas Jefferson to John Adams (Oct. 28, 1813). Thomas Jefferson in a separate letter, feared the Judiciary becoming an Aristocratic/groomed elite power center*

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . by stating, ***"The judiciary is the subtle court of sappers and miners constantly working underground to undermine the foundations of our confederate fabric."*** *Letter from Thomas Jefferson to Thomas Ritchie (December 25th 1820). See, James Madison warnings, Federalist No. 51,* warning that small Aristocratic/Groomed Elite could dominate a government.

Further, **Bars are monopolies**, that keep the knowledge of the law hidden from the People, are acting as a **government sanctioned, Secret Society,** because in SC the law is whatever the Entrenched say it is, as illustrated by the Supremes own handling of this challenge, the Murdaugh/Murdaugh 2.0 cases and the Appeals/Trial Courts following their lead with no accountability, integrity or transparency as a part of the process, as they protect themselves and each other. These secrets among their SC Bar and other Bars, who benefit from the public, local, state, national and intentionally created ignorance of law and procedure by a system that will not disclose and make simply and equally accessed REAL LAW OF THE LAND, since the Constitution is a mere suggestion.

The **Sherman Act** covers this Monopoly of the Bar, and the collusion between the Bar, Courts, and Lawyer-Legislator with the Governor and the Courts, the Legislature and the Executive Branches and the State and Federal Branches in Laffitte's matter through these imbedded improper and Unconstitutional relationships, networks, goals and schemes, who share bloodlines, illegal interests, and even frequent the same clubs, groups, Debutante Balls, Cotillion, Yacht Clubs, Fox Hunts and so forth that are **private and rarely**

ever even advertised. These groups of "coming out" balls for the Aristocratic youth to meet and marry other Aristocratic youths (SC allows marriage of 1st cousins), and other exclusive clubs where they all can talk without being on the record with each other, with each other, Insurance carriers, big Corporation heads, Lobbyists, fixers, cleaners, and others who are considered immune to the law, mostly because of these entrenchments, illegal court cases like **Murdaugh/Murdaugh 2.0**, pay to play schemes and so forth, like the immunity the carrier gets from the law, prohibiting any 3rd party victims like P-Appellant's and Murdaugh/Laffitte's victims, from suing carriers for bad faith as 3rd parties and is clearly Unconstitutionally violating the Rights of the People and their right to redress and discipline government for its crimes and wrongs.

Further, The Department of Insurance, SC (.gov), requires Allianz to comply with statutory Accounting, where the carrier must follow **NAIC (National Association of Insurance Commissioners)** guidelines, which require them to disclose **"Loss Reserves" for pending litigation.**

However, the SC LMCE has blocked that protection from fraud by the carriers by creating a The "Post-Loss" Exception. The **SC Supremes** recently adopted a "post-loss" exception (in *PCS Nitrogen v. Continental Cas. Co.*, 436, S.C. 254, 871 S.E.2d 590 (S.C. 2022)), that involves Murdaugh's Lloyds of London (listed as a group of underwriters), and Defense attorneys including John Lay, GWB, allowing for the assignment of insurance rights *after* a loss has occurred but before a judgment is final. This is likely a legal loophole used by the **LMCE** to transfer the Allianz and other carrier "awards" to culprits before the victims could secure the funds, and this could very

well describe P-Appellant's case, Murdaugh and the Asbestos Docket, and why P-Appellant's case needs to be destroyed now more than ever.

The people must be restored over government in SC to oversee their government and protect their life, liberty and property from these deadly schemes and LMCE perpetrators. **For example, see Appeals Socialite Judge Kristi Fisher Curtis infra.**

The point for these RACKETEERS in P-Appellants case at the moment, is to deny block-time and pages needed to appeal all of the RACKETEERING and Fraud on the Court by the Court, of the 10th Cir., Trial Court, Agents, Allianz, LMCE and so forth, the Appeals court, and the Supreme Court. Ex. 9. As the reader can see this is just the summary in just this SMJ Motion to STRIKE, VACATE, VOID AB INITO against the Murdaugh Supreme Appeal, the Asbestos Appeal, and the P-Appellant's appeal, where the Court must treat this as Void against the perpetrators, and enter judgments for the victims, P-Appellants, Real Victims of Murdaugh and Real Victims of the Asbestos Racket, the real Plaintiffs and the real Corporations being financially assaulted by the SC Oligarchy.

As usual, this Entrenched Appeals Judge (as are many others), married or is/was a well off attorney/Judge Aristocrat/Groomed Elite, and the two have a background of crossing paths with serious power players and Aristocrats entrenched in SC politics and so forth, which is too much to list herein, but the same scheme of Aristocratic/Groomed Elite Entrenchment.

The Judge, **Curtis**, proudly lists her signaling of her exclusive social clubs, among MANY OTHERS as. . . Sumter Assembly (**Debutante Club**), The Epicureans (**Debutante Club**), Bon Pied **Dance Club** as just three of her Social Clubs which are **highly exclusive, "see and be seen" clubs** for fellow Aristocrats and Groomed Elite. **Judge Rivers Lawton Mcintosh,** was actually the **President of the Debutantes**. These are Aristocratic/Groomed Elite and Power-Guests Networking and Private deal making events along with some other lesser reasons.

How many public readers even heard of these? It is because the public is not invited, and the public are the vulgar and profane to the Aristocrats. So, reasoning required from a normal man perspective is foreign to these Entrenched who have to use such standards to Judge/Legislate/Govern. And using the constitution of course is mere suggestion.

Normal People do not even relate to these things nor are they aware of these often unadvertised gatherings where often, young Aristocrats are being "presented" to their potential Aristocratic/Groomed Elite Mates as bloodlines are still very important in SC as seen from the Unconstitutional Entrenchment in Government and favored LMCE predatory arrangements and unofficial immunities.

There is much more, regarding the Trial, Appeals, Supreme Courts, and their coordination together to fight those who fight back, or are victims who do not know how to fight back, that is too much for here as P-Appellant's investigations go far deeper than the cursory understandings given here that show even more extremely Unconstitutional

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . entrenchments with P-Appellants case and Murdaugh/Laffitte's cover up case. Rest assured the **Appeals striking out, on the Jasmin Smith trick**, and then **Feigned/Colluding another Fraudulent Order, at the same time the Supreme Court ruled on a moot filing withdrawn long ago, rather than address the SMJ Challenge, which is not a choice but mandate if the constitution is followed, is not a coincidence.** Ex.5, Ex.6. They need to end P-Appellants case by Fraud by the Court (and its agents) on the Court, for Feigned/ Colluded Murdaugh's scheme to continue as it was planned (most likely with a type of Laffitte Strategy). They also need to stop P-Appellant's from discussing the LMCE, IF/IRF due to the **Asbestos Docket controversies**, and Oligarchy/unconstitutional structure of SC government with its Entrenched, closed system for tax-free profit and control.

These Entrenched Aristocratic networks and groomed Elites working as one, are so different than the Constitutional public and regular humanity, where the latter who knows something is very wrong, often have to be shown the real LMCE operations right before their eyes because they have been taught that somehow government schools taught their students the truth. The Public knows something is wrong, but they don't know the depths and details. They are seeing Epstein government clients full of unspeakable filth and crimes, but they do not know that Epstein was a power broker, who linked powerful people and blackmailed the powerful to do as he wished, as he helped them also. More of the Entrenched government workings (See Ex-Senator warning supra). The Public does not

think of layered crimes, like IF/IRF and even more so the more complex **Asbestos Docket LMCE crimes.** But they are learning.

The Public is also busy feeding their families and trying to give their families a good quality of life, without the privilege, while learning they will never "be happy" and own nothing (World Economic Forum-Klaus Schwab). With their little free time they relax for "Bread and Circus" provided from the screens they serve, and do not have time or energy to keep up with such matters until they are caught in the LMCE Litigation Vortex themselves and are forced to learn quickly or are just plain fed-up. The public is there. (See Dr. Kennedy's Book writing while practicing law in Virginia, Holodeck Law at, https://www.tulanelink.com/tulanelink/holodeck_02a.htm)[12]. Many legal reformers are those who had to wake up quickly to what is being described herein, and this is the tip of the iceberg for what P-Appellants can describe, first-hand as witnesses with proof sources.

Tricks by Judges to not file, properly file or Answer Motions to obstruct Appeals: Neither the Trial, Appeals, nor Supremes can avoid answering Motions in Order to try to avoid Appeals and P-Appellant's have duly noted their attempts to get a real Answer/Order. of government, lawyers, Allianz and others was denied filing by the Trial Courts, etc., All the ADA Reasonable Accommodations sidestepped, not filed, mislabeled, taken out of context, use of a Laffitte attorney faking orders and impersonating judges, refusing to clarify alleged vague orders that really never existed, and finally a denial without say anything about ADA, nor giving reasons why nor taking individual needs submitted by P-Appellants considered, and so forth by the Appeals Court, and whether the Supreme Court writ of mandamus as a prosecutor rather than as neutral judges, making sure they defended their "employees over the Constitutional mandates given to the P-Appellant's, even while they marginalize and use cliché's to downplay obvious evidence of Unconstitutional Actions by the Trial Judges, and then ignore the grand daddy of all Motions. . . the SMJ Challenge by late filing, then misfiling, then ruling on anything but the real motions making it look like they ruled, and now coordinating all these actions ex parte, with the trial/appeal participants, including lawyers, firms, and so forth to force an Unconstitutional ending to P-Appellants case.

Insurance Fraud/Insurance Reserve Fraud Scheme (Ex. 1). This **bad faith state prohibition regarding suing Carriers for bad faith, given by the Courts and Legislators** (pay to play), carried by, of course, **Judge Jean Toal**, *Kleckley v. Northwestern Nat'l Cas. Co.*, 330 S.C. 277, 498 S.E.2d 669 (Ct. App. 1998). **Judge Toal, a Phi Beta Kapp,** further protects carriers and the IF/IRF schemes they run in these **Long Cons** with the State. . .like those in the **Asbestos Docket**, **Murdaugh/Murdaugh 2.0**, from the **3rd-party victims**

injured so they cannot interfere with the **claims/carrier relationship the IF/IRF schemes would be manipulating**. . . which **Toal runs and the Lawyer-Legislators, including those on the JMSC, are heavily involved in and overseen by Phi Beta Kappa Kittredge**. **Asbestos Dockets are a very complex method of IF/IRF scheme** that runs through **Delaware as an extra layer** of masking the financial flow of money including Dark Money, and encourages Insurance Fraud and Insurance Reserve Fraud schemes just like 3rd Party prohibitions in other types of IF/IRF also do. See **Asbestos Docket Crimes in the LMCE.**

P-Appellants are challenging all of these inappropriate entrenchments, and inappropriate links with other powers, as Unconstitutional and a part of how P-Appellant's case has been potentially ruined unless something changes fast, and it has caused criminals like Murdaugh/Laffitte and others to survive and thrive in the Unconstitutional SC LMCE that has captured the SC Govt. See argument.

Separation of Powers by the State's Unconstitutional Connection with the Federal Courts Exists in SC's Oligarchy and surrounding Jurisdictions: The lack of Separation of Powers between state/federal court is **no better illustrated than the McMaster/Limehouse/ Gergel/SC AG's office/Supreme Court/former Senator Defense Lawer/ and Aristocrats Murdaugh/Laffitte example.** This is clearly an orchestrated series of steps coordinated between the state and federal courts, to limit punishment of Laffitte and Murdaugh, using P-Appellant's case that must be destroyed to pull of the scheme without exposure.

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . A public office isn't a gilt-edged invitation to public plunder . . . not all South Carolinians are clear on that point . . . Not discussed previously but also, those parties and entities that claimed innocence but were involved on Murdaugh/Laffitte side of the coin, PMPED and agents, Parker Law Firm and agents, Nautilus (W.R. Berkley Corp.) and agents, Lloyds of London Umbrella policy and market arm and agents, Palmetto State Bank and agents, etc., were at least grossly negligent, if they were not involved. And SLED did all it could to make sure it didn't investigate thoroughly to find anyone to charge, as these are the Aristocrats being protected.

For example, there is no way a law firm doesn't catch the accounts being fudge or a CFO not understanding that to pay to the Order of a named Corporation is different that making checks out to "Forge" suddenly. The SC Bar unfortunately oversees these Trust Accounts and did not find anything wrong even though mandatory rectifying of these accounts by the firm would have found such irregularities if they were performing these every month. And the same can be said, and was said in the deposition of the carriers, for the nonsensical story of the attorneys for the carriers/claims adjusters, the Bank and so forth. Business is just not done that way in insurance and the legal industry as claimed by these companies, as industry staff know to well.

However, after they were not investigated with any Neutral investigations if any, they **all or almost all sued Murdaugh, and all or almost all did so** in Federal Court to memorialize their alleged innocence and victimhood. . .which also got them to be able to cut in line of the real victims for the last $1.8 Million after the attorneys and receivers ate at

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . the front of the line. And that very small $1.8 Million was the amount that Dr. Maddox could create with her fake addiction story as an "expert" and wife of RACKETEER Judge Maddox involved in the same types of crimes as Murdaugh. And of course Murdaugh/Laffitte would have said Murdaugh did everything and Murdaugh claimed that he was solely responsible to save the LMCE, and allow these non-victim "Victims" to further rape the real victims by stealing more money from them in the awards line through the Receivership determinations when the Receivers were connected to Judge Kittredge and the Laffitte's. This cannot be made up. . .it is too spectacular for words, where truth is stranger than fiction. And this is the SC Oligarchy crating made for TV Feigned/Colluded trials/Appeals for their fellow Aristocrats to be freed. And the best part is that Judge **Gergel** oversaw some or all of these cases. . .but even if only one, it is too much and the entire link between state/federal court is an additional protection for the LMCE against the People trying to hold their government accountable and get justice.

Feigned/Colluded show trials and appeals are not permitted. P-Appellants have yet exposed other cases and more on these cases, covering the entrenchment but it is much worse then herein. P-Appellants provide the key basics, that the court is trying to hide, as they are aware, as P-Appellant's would like to give every opportunity to the extremely defiant SC Courts/Appeals/Trial Courts/other entrenched branches to come to their senses first, as there will be no going back from other legal, nonviolent actions of the Legal Reformers no matter what happens to P-Appellants to get justice in or out of court soon.

The goal now is to give that opportunity to SC government and all involved to do right by the People, including P-Appellants and the Murdaugh victims (which P-Appellants do not represent), while continuing to set the record once the collusion and Racketeering were proven by P-Appellants in recordings, written admissions, the record itself, the incredibly unconscionable behavior or the SC Courts up to and including the Supremes, all being mirrored for online preservation to help the public hold their government accountable and where the public can protect their life, liberty and property in a Constitutional Republic. See Laffitte Fed/State Courts colluding to reduce Laffitte punishment, which is now the model for the Murdaugh reduction of punishment also. Supra.

P-Appellants are challenging these Separation of Power Constitutional Violations as a part of why the Supremes have no SMJ over the Murdaugh case, that all findings and filings of theirs must be struck and vacated and found void ab initio, and how these bad acts of Murdaugh/LMCE perpetrators have negatively affected P-Appellant's meritorious case beginning at the trial court where IF/IRF is permitted and encouraged by the LMCE, which has potentially ruined P-Appellant's well documented case, unless something changes fast, and it has caused criminals like Murdaugh/Laffitte and others to survive and thrive in the Unconstitutional SC Oligarchy/LMCE that has captured the SC Govt., erasing the Constitution itself. See Arguments. P-Appellants must be restored and made whole by Neutral judges and neutral investigations to prosecute the LMCE perpetrators. **See Asbestos Docket LMCE Crimes.**

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . P-Appellants Motion to Challenge SMJ not yet properly addressed by a Neutral Tribunal, or any Tribunal, nor properly filed by the Supreme Court, ALONG WITH THEIR FRAUD ON THE COURT BY THE COURT MOTION, ALL NOT FILED ON PURPOSE AND NOR ADDRESSED, and NOW P-APPELLANTS MOTION TO STRIKE AND VOID AB INITIO THE ACTIONS OF THE SUPREME COURT ON MURDAUGH: P-Appellants have challenged SMJ/Fraud on the Court/Neutrality, other structural Constitutional violations, and so forth, and have moved to strike, vacate and void the opinions/judgments of the Supreme Court by a Neutral Hearing body if their be on in SC's Unconstitutional Oligarchical system of government judging its own Oligarchy which is also Unconstitutional. The ridiculousness of this entire experience, not new to P-Appellants unfortunately, is self-evident of the corruption of SC Governments and lack of any kind of Constitutional protections for the People, including using the injured as cash cows for profit for the Government's private body of LMCE members, and tax-free at that.

This is in line with what the Framers and early leaders intended to control Arbitrary Power and Usurpation of and by Government in power grabs they would take if not checked. This was to keep the Courts from becoming what they are in SC today. . .part of an Oligarchy, running a LMCE business for profit, using the People as currency and resources for them to steal awards, inheritances and so forth, under color of law. When the Constitution was made a mere suggestion by waiving SMJ Adjudication analysis and punishment for violations, that is exactly what happened, and why there is a SMJ Challenge

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . and now Motion to Strike, Vacate, and Void ab initio all Supreme Court fingerprints on this matter and force Murdaugh to serve his full time. All of this has greatly affected P-Appellant's case so that the Courts can bury its truths to save Murdaugh/LMCE lies and cover up.

In P-Appellant's case, the actions P-Appellant's are contesting and the Constitutional protections P-Appellants are demanding the Courts/Government to commit to in order to become a Constitutional Government would stop rogue LMCE Judges and others from actually having proxies create catastrophic injury or wrongful death in the Targets (P-Appellants), so the Courts and State Agents working with Corporate Insurance that is protected in SC, under the Judge Toal Kleckley case, which needs to be OVERTURNED as a very dangerous finding against the People and for the Oligarchy/LMCE exploiting the people. The LMCE perpetrators can create claims to steal and not be held accountable through the exact method being used against P-Appellants from Trial Court to Appeals, to Supremes, and victims of Murdaugh/Laffitte, back to Appeals and so forth, where Guaranteed rights are never protected, thus abridging and infringing upon P-Appellants alleged Guarantees, by causing P-Appellant's to spend money on useless motions that won't matter, and run out P-Appellant's appeals through such Feigned/Colluded proceedings like the end of a back and forth tennis match, which is Unconstitutional.

Further, to keep facts from a jury demanded, and have no facts ever heard and no discovery that would tell on the Judges underlying involvement in P-Appellant's actual facts

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . of their case, even more so, if this gatekeeping process is not leading to **instant prison time** under the Framers intent, rather than these same Judges getting Aristocrat Murdaugh out of prison instead, **which is a mockery of the captured legal system and a mockery to the People being played.**

A judge, like Mcintosh and so many others, who purposely misuse and even rewrites the Constitution, Rules of Civil Procedure/Evidence, Canons, and becomes the Sua Sponte Prosecutor, deserves no deference whatsoever, but a long prison sentence for he and his fellow Aristocrats/Groomed Elites and agents/proxies, and Allianz also. Judges who are Feigned/Colluding/colluding cases, like all involved in P-Appellant's case and in Murdaugh's case likewise.

Supreme Court Authorities and their Mandatory Duty to Adjudicate SMJ: See Argument but in brief, **courts who refuse to rule on jurisdictional motions and do so through neutral judges when they are the subject of the SMJ matter must not they are acting Unconstitutionally in the Murdaugh case at present and it already needs to be found void ab initio due to the Court's handling of P-Appellants motion to challenge alone:**

1. SMJ must be decided first: "Jurisdiction is a threshold question that must be resolved before proceeding to the merits. *Steel Co. v. Citizens for a Better Environment*, 523 U.S. 83, 94 (1998).

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . A public office isn't a gilt-edged invitation to public plunder . . . not all South Carolinians are clear on that point . . . Because some South Carolinians have tolerated law breaking, winked at it or worse, . . . The conditions are a shame on the state."** Credits within. §§§§

2. Hypothetical jurisdiction forbidden: "For a court to pronounce upon the merits... when it has no jurisdiction is... ultra vires." Steel Co. v. Citizens for a Better Environment, 523 U.S. 83, 101–02 (1998).

3. Courts must independently verify jurisdiction: "Courts... have an **INDEPENDENT OBLIGATION** to determine whether subject-matter jurisdiction exists." (**EMPHASIS ADDED**). This is a Condition Precedent/Prerequisite to uphold and defend Constitutional Guaranteed rights of the People, as seen through the Framers intent and great concerns about Government Arbitrary Power and Usurpation as is happening in SC in P-Appellants/Murdaugh/Laffitte cases, all for the benefit of Aristocrats helping Aristocrats. Arbaugh v. Y & H Corp., 546 U.S. 500, 514 (2006).

4. Parties cannot waive SMJ challenge. "Subject-matter jurisdiction may be raised at any stage of the litigation." Kontrick v. Ryan, 540 U.S. 443, 455 (2004). And lawyers cannot . waive their arguments opposing this motion. Murdaugh has defaulted so by voidness ab initio Feigned/Colluded cases being heard to save Murdaugh, and default, Murdaugh loses his Supreme Court appeal. P-Appellants case must have entered their entries of Judgement to begin their being made whole before this all gets worse with more legal arguments here and elsewhere.

5. Jurisdiction defects invalidate judgments: "A judgment rendered in the absence of jurisdiction is void." United States v. Walker, 109 U.S. 258, 265 (1883). And no judgment on P-Appellant's challenge, by a neutral judiciary, voids the Murdaugh case challenge also.

. . . SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . A public office isn't a gilt-edged invitation to public plunder . . . not all South Carolinians are clear on that point . . . Because some South Carolinians have tolerated law breaking, winked at it or worse, . . . The conditions are a shame on the state." Credits within. §§§§

6. Courts must dismiss sua sponte: "A court lacking jurisdiction cannot render judgment but must dismiss the cause." *Louisville & Nashville Railroad v. Mottley*, 211 U.S. 149, 152 (1908). Thus this Motion to Strike and void ab initio the appeal of Murdaugh. If a neutral court would like to dismiss Murdaugh, that would also work if it is final, but the case at the Supreme Court must be over and final.

Antonin Scalia in, *Steel Co. v. Citizens for a Better Environment* agreed with challenging judicial power grabs: **"For a court to pronounce upon the merits of a case when it has no jurisdiction is, by very definition, for a court to act ultra vires."** 523 U.S. at 101–02. If Kittredge were a real strict constructionist of the constitution as he claims he would agree and nothing herein would be relevant. Politicians lie no matter their wardrobe.

Therefore, in summary, Courts must rule on all jurisdiction first, to include SMJ Adjudication SMJ with Conditions Precedent/Prerequisites being Constitutional Guarantees; Courts cannot avoid Jurisdictional challenges; Courts cannot invent arguments for Defendants; Judges cannot act as prosecutors or protect attorneys and/or parties; Any judgment entered without jurisdiction is void. Judges involved who are the subject of the SMJ Challenge cannot hearing their own matter. Thus this Motion to Strike, Vacate and void ab initio the Murdaugh Supreme Court Appeal by Neutral judges must be heard and stand, and Murdaugh must stay in prison and serve his full time, the Judges recuse for Neutral Judges if any, the underlying case must be fully investigated (not SLED)

for more Defendants and Crimes, including Judge Mullen and other Judges involved in the more encompassing investigation, and a reassessment of the Receivership and findings, and who should and should not receive the recovery. Charges need to be filed and convictions pursued of those involved, and the REAL victims paid without any assistance from their attorneys or other state actors trying to save face, although P-Appellant's do not represent them in any way.

Laffitte needs to be returned to its original time, taking away all time served and SC needs to reinstate its actual sentence, so P-Appellant's won't have to challenge SMJ in that case also.

P-Appellant's case, that has been irreparably harmed by the Courts trying to save Murdaugh and hide their LMCE, needs its Judgments entered for P-Appellant's against Defendants, with a neutral jury for matters that need a jury to determine damages, including, but not limited to, Uncapped Punitive Damages and all other matters for the jury that they see fit. P-Appellants need all RACKETEERS and the State to Set up a settlement conference to make P-Appellant's whole and investigations into the allegations of P-Appellants by Neutral Investigators (not SLED). Charges need to be filed and convictions pursued of those involved. The LMCEs need to leave P-Appellant's alone from this time forward with assurances that P-Appellant's be and stay safe.

The SC Oligarchy, in all branches, must finally be broken apart and those involved prosecuted and convicted and any future opportunities to re-establish this Oligarchy again,

also be destroyed, unlike what happened after Reconstruction that allowed them to reassemble.

The Constitution must be re-established in SC, and sincerely held beliefs in the oaths taken by new Government Agents, with the understanding that the Oath and the Guaranteed Rights are Conditions Precedent/ Prerequisites that must be analyzed by the Judge and accepted with a sincerely held belief in the Oath, and proceed with the limited powers given it to follow the Constitution. Any small issues that may still be at issue at the end of the trial, that were not resolved, needs serious, argument before the jury to determine law and facts to protect the people the Government, as rights guaranteed and not mere suggestions.

Separations of Powers must be established, by replacing all Government agents with new agents, not entrenched, taking the sincerely held belief oath with severe punishments for intentional violations of same and a timely correction or true errors that are never considered harmless error when Constitutional Rights are infringed or abridged.

The jury must hear facts and law, and Judges **ARE NOT** permitted to perform findings that would take the case from the jury or limit evidence or make any other decisions if the litigants want them to be examined by the jury before the trial. All Judges are picked by the People, all Discipline is open and overseen by the People, no Bars are permitted to oversee the law or practice of law, and cannot cater to one type of population at the exclusion of the public for a small fee at most. The Bar is not permitted to monopolize any part of

The people are over all judicial oversight and Discipline, and other government oversight and Discipline. The People shall create the levels of Discipline and the punishments for severity of discipline. No immunity shall be permitted to protect public servants. Judges must remain neutral at all times and they are to act like public servants not Kings or masters. People reviewers will visit courts and other government offices, Departments and proceedings without announcement to oversee with access to all parts of the process and buildings. All Courts and other proceedings of Government can be recorded by individuals without announcement. Court reporters must be independent from the courts and under the same People's oversight and Discipline as all others involved in the court process. The electronic filing system must be revamped to allow all litigants full access and the public able to search by names, judges, type of cases, and other such search engine criteria so they can easily watch the entire Judicial system and research it. The Clerks of Court need to be replaced and all replacements of all government toughly vetted by the People through tax dollars. There are many more items argued that must be corrected in order to rid SC of the Oligarchy and its tax-free LMCE.

These principles together form part of the **constitutional backbone of a structural due-process argument herein that must be heard as a condition precedent/prerequisite BEFORE a Judge/Court is granted Constitutional Power to decide a case.** These guarantees are not heard as mere suggestions after the fact, but heard and properly decided BEFORE the matter is accepted to be heard or filed. See Argument.

P-Appellants facts and arguments using the Courts own authorities, the Constitutions and the framers clear intent along with the P-Appellants/Murdaugh mirror image cases, and the entrenchment of the Aristocrats/Groomed Elite across these branches of SC Oligarchical Government and the behavior of the Courts, which is self-evident of corruption in this and P-Appellants' case, are **devastating herein, with the Supreme court (and the appeals court) refusing to analyze the adjudication subject-matter jurisdiction power, which is self-evident**

of their own interests in these matters, which should have caused immediate recusal by the court who cannot Judge their own interests.

SMJ Adjudication as a Condition Precedent/Prerequisite: Although it is P-Appellant's argument that Courts have long ago gone way too far in rewiring the Constitution without expressed power to do so, these Courts have recognized that constitutional principles evolve through the presentation of new arguments addressing structural threats to the integrity of judicial institutions. These Unconstitutional liberties when rewiring the guarantees of the Constitution, these Courts have gone way too far to erase guaranteed rights and structural defects by ignoring SMJ in Adjudication and what that analysis entails to include **Prerequisite/condition precedent guaranteed rights** as the test as to whether a court or judge could exercise power, and what the punishment would be when they violate that very important analysis by placing their own capture government officials in the place of delving out discipline. Punishments for such violations must be extremely severe and final to all involved, including the disciplinary parties and solicitors/AG.

P-Appellants have raised many matters under the SMJ Adjudication, that if not heard and granted, by neutral arbiters will continue to allow an Unconstitutional government and Court to continue to use the public as exploitered currency at its pleasure.

South Carolina has two state mottos: "Animis Opibusque Parati" (prepared in mind and resources) and **"Dum Spiro Spero." (while I breathe, I hope).** These two

. . . SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . mottos exemplify SC Aristocratic rule over human beings as chattel/**resources to use as currency,** and the latter refers to the **self-claimed victimization the SC Aristocrats feel anytime they are made to follow the law, as a part of their defiance.** This is not meant as name calling but has been written about in other motions by P-Appellants with the detailed history.

The bottom line is when chattel challenge this old guard with facts and law, the response is defiance and the groomed to maneuver the facts and law to support what they are doing after the fact, as in what Jasmin Smith, Laffitte, Firm are doing to try to after the fact prove they did not operate to intimidate P-Appellants and end their case. . .because the Laffitte's are part of this sham Murdaugh case with the Court/State's approval, as there is no justiciable case (case in controversy), and they need to shut down P-Appellant's case, which is actually one way to given P-Appellant's clear standing, is with direct obstruction. At least they are consistent in their criminal methods.

P-Appellants therefore present these arguments both under existing precedents and, only if a court objects to protecting Constitutional Rights of the People, and the State acting with the law, as a good-faith expansion of the law, moving to strike all Murdaugh proceedings at the Supreme Court level, that are necessary to revert back and then preserve the constitutional requirement of neutral tribunals and open courts in SC.

All of these unlawful actions by the Supreme Court, and refusing to perform a **prerequisite/condition precedent SMJ Jurisdiction Analysis, with appropriate penalties, that would stop such obvious behaviors, with the harsh punishments due those in leadership that are using that position for LMCE/Oligarchical, Unconstitutional reasons, have left P-Appellant's no choice but to challenge SMJ, Fraud on the Court by the Court, lack of a Justiciable Case (Case in Controversy)/ Feigned/Colluded case, the recusal issue, and irregularities in filings and docket sequence, mislabeling and delay issues where the court continued and heard the Murdaugh case anyway, leading to a "Void Judgment ad ab initio"; dealing with the "Structural Violations;" "Institutional exposure" in that P-Appellant's case is being buried without an Constitutional protections whatsoever, but just a repeat of the Trial Court's outrageous conduct and more; "Appearance of bias and impropriety" that with the evidence summary presented in Ex. 1, and herein and elsewhere, is clear that "Fraud on the Court by the Court; has been committed as a part of a predetermined plan and effect; "Selective procedural advancement, and so forth."**

These claims are not said in anger by P-Appellant's but in resolve to finally correct very serious violations of the State that do not protect no award, nor inheritance, nor illness, nor property, nor assets, nor family nor life, nor liberty. Dismissing P-Appellants Document, by these Judges involved would also be void ab initio, and a Neutral set of Judges, if there be any, knows that none of these fraudulent acts of the court can be justified by any law, as P-

Appellants provide just small portions of the overwhelming arguments in a restrained constitutional manner for serious correction and change in SC to keep litigants safe and receiving justice.

P-APPELLANTS HAVE BEEN IN GREAT DOCUMENTED DANGER FOR SOME TIME IN THIS MATTER THAT ORIGINATES WITH THE STATE/COURTS. This is very serious, and in doing this, **P-Appellant's having already had witnesses and State Proxies admit that the Judges in the 10th Cir. and other state actors and more, were setting P-Appellant's up for a catastrophic injury or wrongful death** so they could start the **Insurance Fraud/Insurance Reserve Fraud claims** against P-Appellant's, **using the Defendants with the help of Allianz** was the plan for P-Appellant's **at the underlying level of their case (admitted to P-Appellants in written admissions, recordings and other means).** This clearly appears also to be a part of the Murdaugh cases with many criminals involved. . .not just three, and on a much greater scale then the Murdaugh case proposes with state limited investigation and receivership, intended to continue to narrow the chance of any or many real facts being told to the Public and allowing many in the LMCE to escape prosecution in what became a Feigned/Colluded case of cover-up.

This is why P-Appellants could never get any Discovery, Subpoenas, witnesses, and so forth, for the entire time in the 3 years of trial court stonewalling, even when they asked the Supremes in a writ of mandamus for assistance as ADA Qualifying victims of Judges Mcintosh, Maddox, Sprouse and others, with Mcintosh being a very dangerous man. .

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . .beyond being a very bad judge. The Courts have heard this before and know full well about Judge Mcintosh's propensities and it is counted as an asset in this world of IF/IRF/LMCE business dealings under color of law. **See Asbestos Docket LMCE Crimes.**

The Supremes needed P-Appellant's case gone. They still do, and by any means as P-Appellants are documenting in part herein. They even broke the law to ignore SMJ and go forward with Murdaugh anyway, when every first year law student knows SMJ is the granddaddy of all Motions and challenges and all must stop until this matter is heard by NEUTRAL JUDGES WITH P-APPELLANTS HAVING NOTICE AND A RIGHT TO BE HEARD.

Because of all the physical danger and severe and deadly threats P-Appellant's have experienced in this case, much recorded and otherwise documented through official means, and because Dr. Kennedy has dealt with the extreme malfeasance in Virginia Courts also, as a practicing attorney who would not play ball there either, P-Appellant's remind this Court, that under the **Whistleblower Protection/Retaliations**, and related laws and statutes, RICO, Civil Rights and Qui Tam Acts, various Retaliation Laws and Witness Protection/Tampering Laws, ethics/canons acts, 1st Amendment, Petition Clause, Due Process, Obstruction of Justice, and so forth, that further prove P-Appellants SMJ Adjudication Challenge is true, and that this further is an additionally act of RICO standing on its own facts, when P-Appellant's are filings expose criminal racketeering and other Constitutional Crimes by state actors, where the court cannot chill and/or punish as it would be considered retaliatory on top of all the other Structural issues herein listed in

summary form (there is much more). Either with or without these protections it would be another clear violation of Constitutional law to retaliate against Whistleblowers showing racketeering and other Frauds on the Court that can be avoided when the Court follows the Constitution without personal, financial and retaliatory interests in the cases they are hearing, which is part of the SMJ Adjudication challenge, and prerequisite/condition precedent arguments.

Further, since P-Appellant's are very aware of how these matters can go off the rails when **defiance**,, anger and self-defense by Judges are their motives because they know what is being said is true, **P-Appellant's have the original evidence stored with their trusted fellow reformers, and long ago created** the **"Dead Man's Switch"** instruction, as some of the State Actors already know. If the **10th Circuit, or the higher Courts** take intimidation or punitive action against P-Appellants for exercising their rights in all legal and nonviolent ways, P-Appellants and their reformers will act in legal and nonviolent ways to make sure P-Appellant's story is told with the evidence, of the bigger picture and all the crimes and frauds this and the U.S. and other state governments are forcing on the people through deception.

The reformers will use the LEGAL evidence that P-Appellant's have purposely withheld from all this, thus far because P-Appellants have supplied more than enough already to be victorious in their case, and all the subsequent damages done to them, and in this challenge. The more P-Appellants release, the more lies will be created. P-Appellants are

allowing the State to lie all they want, and only then will other evidence be released if not released by the Dead Man Switch itself.

As sad as it is that SC has reached such a point that the People need protections from it, P-Appellant's have gone through poisoning, beatings, dealing with violent and deadly proxies and others in this matter, and otherwise enough, just because they wanted to be made whole on a valid set of claims where the LMCE had other plans, long before P-Appellant's realized the tangled web this State is weaving across the state for profit using the people as chattel and currency.

P-APPELLANTS WILL NOT COWER TO BULLIES...NOT THEM OR THEIR PROXIES USED, NOT THE LAWYERS COLLUDING, NOT THE JUDGES REACKETEERING, NOT THE CLERKS, AND OTHER STATE ACTORS OBSTRUCTING NOR THE APPEALS AND SUPREME COURTS FRAUDS ON THE COURT BY THE COURT, NOT ALLIANZ, AND NOT A LAFFITTE ATTEMPT TO INTIMIDATE AND DECEIVE, NOT MURDAUGH VICTIM ALLEGED ATTORNEY AND LAWYER-LEGISLATOR JUSTIN BAMBERG NOR JUDGE HEATH P. P-Appellants have paid a very serious price while going through cancer during this time, and receiving many physical injuries directly by the judges to weaken the target and then

weaponize the injuries to defeat two older ladies fighting Disabilities, some cause by the Judges. Theses ADA qualifying Disabilities are being weaponized by the Trial, Appeal and this Supreme Court, when ADA Disability Qualified Reasonable Accommodations were/are **demanded as of right and must be granted by mandate, with no discretion considered. Instead, they are ignored, Orders written vaguely that do not directly address ADA Reasonable Accommodations but** use deceitful Orders and non-orders in letters (not appealable), and actions and so forth to obstruct and deny justice as the Constitution is a mere suggestion and not law, in spite of their dishonest taking of Oaths.

It has been proven herein that all the SC Court levels use this same trickery to deny mandatory rights by Court Feigned/Colluded claims and rules that do not apply, or by Feigned/Colluding what is actually be said by the litigant, to try to keep the litigant from raising the issues to Constitutional levels where the matter must be heard DE NOVO, and not just by the Court checking the box in favor of the lower court, even if the Courts have to refuse to provide an Order all together (which is difficult to appeal), or refuse to file the motion/mislabel the motion and so forth, as seen at all levels, i**ncluding, but not limited to, the Appeal ADA Reasonable Accommodation demands,** and herein in this **SMJ Challenge hidden from the public and ignored, and not ruled upon by the Supremes while they go forward anyway.** The Trial, Appeal and Supremes make it their practice to rewrite and otherwise obstruct records, facts, law and arguments and so forth to sabotage real facts and law in a case that must be able to be presented with meaningful due process

and a full right to present a full Appeal, and which is guaranteed by Constitutional guarantees.

These types of examples, are examples of why SMJ Adjudication analysis is so important and must be evaluated as a Condition Precedent/Prerequisite before a judge ever has SMJ to Adjudicate at all. These courts bad and intentional, Unconstitutional actions are self-evident and they tell on themselves. (See **Laffitte Attorney Jasmin Smith** infra and in Ex. 1).

Underlying P-Appellants case: In the underlying case, through State Actor Proxies according to some of them giving written and recorded admissions and other evidence before and later, outside of the Court proceedings who had stonewalled P-Appellant's from going forward against the 10th Cir., Legal Machine Criminal Enterprise (LMCE) perpetrators and agents/proxies for 3 years by Judges/lawyers alike, P-Appellants have had to fight off attempted poisonings through friends of Judge Maddox and Mcintosh, have had to defend against direct physically violent attacks, including the use of fists, razors, steel pipes, and guns being pointed at P-Appellants by meth head friends of Judge Mcintosh and Maddox with video, hired M-13 gang- international goons sicked upon P-Appellants, escaping the plan to burn P-Appellant's unit down with them in it more than once with video, and so forth. P-Appellants even had bullying from this Trial Court and Supreme Court's themselves, trying to force P-Appellants to quit if P-Appellants were worried about their health and safety. Ex 9. This bullying went on throughout the trial court case, and now on

appeal also, with the Appeals Court trying to use a Laffitte law partner, **Jasmin Smith**, to trick and intimidate P-Appellants to give up.

There is no protection from the LMCE when a person, or in this case, P-Appellants thwarted its easy, tax-free money through their Long Con thefts of litigants awards, inheritances, and so forth, that SC government has set up as part of a statewide illegal profit-ring, under color of law, using the public as their human resources and cash cows, very similar to their asbestos docket workings, especially when **P-Appellants are now exposing the scheme called INSURANCE FRAUD/INSURANCE RESERVE FRAUD (if/irf). This is what P-Appellant's case exposed, and it exposed the Murdaugh case as the same scheme, with many more defendants, and bigger sets of crimes in coordination under the LMCE umbrella run by the state, that makes all of these P-Appellant cases, Murdaugh/Laffitte cases, and ASBESTOS CASES FEIGNED/COLLUDED CASES and FIXED cases with all but the victims a part. All of this are reasons why P-Appellant's case must be buried.** The SC LMCE is a for-profit, tax evasion/tax free Long Con with built in Dark Money Laundering media, through carriers, Delaware secret Corporate friendly mechanisms, as well as many other laying, including some donating to universities and other such places to assist in this process. Donating Dark Money to Law Schools is a two-birds with one stone strategy, where the receiver of such a scholarship is then groomed to be the next handled lawyers, Clerks, and eventually go up the pipeline to protect the aristocrats and perpetuate the Oligarchy. **It would not be the first time universities in SC**

were suspected of Dark Money dealing. See, Operation Lost Trust, and See Asbestos cases.

P-Appellant's will stop exposing this when they receive real justice by the Courts, State and private parties/Allianz, to make them whole, by following the law, and when the victims of Murdaugh get paid and made whole, who P-Appellants do not represent, but P-Appellants are responsible citizens and believe in people standing with people who are illegally hurt by greedy government. The Murdaugh victims need to receive their money stolen from them and damages, which money is not lost, but in government pockets through LMCE perpetrators being protected by the State through these **Feigned/Colluded cases** herein challenged by the SMJ Adjudication Arm of Constitutional Law, that does not give Adjudication power to anybody, but after a very careful analysis of their ability to Adjudicate by Defendant the constitutions which include the People's Guaranteed Rights being protected by sincerely held oaths. This is what the Constitution stands for and presupposes, as thes are Conditions Precedent/Prerequisites of the Judges receiving the power to adjudicate that particular case, and as it should have been done in P-Appellant's and Murdaugh/Laffitte cases a long time ago. Otherwise, Judges/Courts who do not honor their Oaths, can hear the cases without good intent, and then when it comes time to review Constitutional Violations, nothing stops them from doing the same on review. Constitutional Guarantees are not mere suggestions. The are Guarantees in order for a Judge/Court to hear the case at all.

Feigned/Colluded cases, fixed cases, any judges that things he/she can make u p the law or ignored the law, judges that need to recuse initial that don't (financial and other interests), Aristocratic/Elite entrenched government and their judiciaries who have different goals that Constitutional Goals for the protection of the people and so forth, as argued within do not are Judges and courts who have no SMJ to adjudicate the cases in issue in this Challenge under the Murdaugh challenge of SMJ. There are plenty of examples mentioned, and P-Appellant's case itself is being affected negatively by Murdaugh, because it tells on Murdaugh and on the **Asbestos crimes of the state against the people that P-Appellant's case is blowing wide open!**.

The Cout needs to save its Aristocrats Murdaugh/Laffitte and limit the investigation of any of their crimes and scope of crimes, limit **Asbestos victims (not just Plaintiffs, but Corporations also), through their Toxicity Strategy that is clearly unconstitutional, and both of these goals means P-Appellants case must never see the light of day and it must be buried in violation of the most basic Constitutional rights of P-Appellants.** Since P-Appellant's were victims of the Murdaugh schemes and identified it while the case was still "live" at the trial court, they were able to put on the record, and expose much of the Insurance Fraud/Insurance Reserve Fraud, the Judges, Lawyers, other State Actors, and the carrier, Allianz, were doing by hiring Proxies to create catastrophic injury or wrongful death in both P-Appellants, so they could set up fake claims and collect the award with Allianz cooperation, and then money launder this Dark Money along with many other

proceeds from the State's other Dark money operations through the Legal Machine Criminal Enterprise, right though the Allianz Reserves (Insurance Reserves Fraud), for untraceable disbursements in mass.

As can be seen from this model, money laundering can go through attorney trust accounts since the bar oversees that and they are part of the LMCE. Churches, Foundations, government accounts where all play dumb when billions are found in accounts, Secret Societies insurance and other accounts, State insurance funded accounts, "mortgages" that are actually "payoffs", "loans" that are actually payoffs, alleged drug abuse claims like Dr. Maddox claimed in Murdaugh's case, Receiverships that do not work for the victims, State Actors who overcharge and those overcharges get approved by the state to be disbursed to many, and there are many other ways also.

The **Asbestos docket** is a key to the IF/IRF schemes run by the State, in that instead of Judges Maddox, Mcintosh, Sprouse and others creating the catastrophic claim or wrongful death to start a fake claim with Allianz, they use real or fake Plaintiffs, and perform these operations through multiple Unconstitutional steps, and then funnel this money through additional reserves accounts and through Delaware, for many additional levels of secrecy, all run by the state for the state LMCE. The funds come out the other side to members of the Legislature, including newly appointed Judicial Merit Selection Committee members selected by Aristocrats of SC who are all entrenched in this LMCE together for exponential profits in the billions with no accountability, transparency, or integrity all

described herein, but P-Appellant's case is in the middle of this, where it must be destroyed by the Courts, State Actors and other interested parties so they can keep their operation secret, under color of law, called the LMCE. **See Asbestos Docket LMCE Crimes that P-Appellant's case exposes the structure of these Feigned/Colluded cases, and the SC LMCE made of entrenched Aristocrats/Groomed Elite running Long Cons through their Oligarchy with no accountability because there is no SMJ Adjudication and appropriate punishments in the Court. All Guaranteed Rights are treated as mere suggestions so that the Courts can run these Long Cons right through the courts themselves .**

In Litigation Vortex, Attorney Kennedy described how Courts act as a self-perpetuating predatory system that consumes litigants especially those who enter court believing justice is straightforward or accessible this is the entry of the Litigation Vortex, where Courts can then set up the theft of Awards/Carrier cooperation and money laundering, steal inheritances, set up IF/IRF schemes even more complex to initiate Asbestos Docket crimes on a large scale with all their Aristocratic/Groomed Elite Attorneys lining up to get a piece of the pie.

colluding lawyer, Micael Dodd to help P-Appellants lose in spite of their meritorious case. Fortunately , P-Appellants heard all the nonsense coming from Dodd and recorded there conversations proving the collusion and RACKETEERING later with the Judges.

In taking on such a dangerous challenge with very dangerous people who have already displayed violence and "near misses" very serious, that have been perpetrated against P-Appellants, P-Appellant's still continue to make further commitment that they will only act legally and nonviolently in all matters, whether inside or outside of Court proceedings into the public sector and oversight agencies in and outside this local.

Strike P-Appellant's trial court finding and enter judgment for P-Appellants on their own Murdaugh case as Entries of Judgment were filed, and provide for other remedies that correct the years of abuse by the Court, Lawyers, Allianz, State Actors, Proxies and so forth.

By the Court and Clerk further participating in some of the self-evident proof that the Supreme Court could not hear the case as neutral adjudicators required in SMJ Adjudication analysis, when the Court and Clerk and Judges of the Supremes then hid P-Appellant's filing from the public record, and mislabeling the filing (when they did finally file it) so the public would be blind to what was actually happening, and by the Court/Clerk ignoring the good faith P-Appellants motion to Challenge Subject Matter Jurisdiction Adjudicative Power/and the accompanying structural constitutional violations also filed, based on lack of SMJ Adjudication power and Fraud on the Court by the Court itself, the court is providing more of the proof as to why it cannot hear the case or take part in its litigations due to lack of concern to act as a neutral, and Constitutional Court in violation of the Constitution and its oaths of office, and as a part of that, to provide open court and transparency to those observing in court and online. Motion to Strike P-Appellant's trial court finding and enter judgment for P-Appellants on their own Murdaugh case as Entries of Judgment were filed, and provide for other remedies that correct the years of abuse by the Court, Lawyers, Allianz, State Actors, Proxies and so forth.

a generic motion filed "MOTION" with no motion attached for the pubic to review, and without even changing the prior wrongs of mislabeling the February 11, 2026 Motion that was improperly labeled and finally filed on February 13, 2026, that can't be changed at this point to correct damage already done, It is clear that the Court and Clerk do not want to bring these to the attention of the public, and call the first filing that actually had 4 different motions. . .a SMJ Challenge which was #1 on the list, and **#2**, Fraud on the Court by the Court. See infra for full details on how ridiculously obvious the Supremes oversight really is. The SC Government after all these hundreds of years (250 is one starts at 1776. . .but it started before that, in Britian/Europe where a truly lawless and defiant group rebelled for permission to **do as they whilst and making that the whole of the law.** It is still happening today in SC Government.

The other two motions originally filed (#3, #4) became moot due to the Obstruction of Justice by the Court itself hiding information from the public, Ex. 2-5,. . .why would a Court act criminally? Especially when what P-Appellant's said and brought to the attention of the Public, is not true? Motion to Strike P-Appellant's trial court finding and enter judgment for P-Appellants on their own Murdaugh case as Entries of Judgment were filed, and provide for other remedies that correct the years of abuse by the Court, Lawyers, Allianz, State Actors, Proxies and so forth.

Violating these very important perquisite Guarantees of the Constitutions is a part the exact problem illustrated and why the **Courts must be judged first by the SMJ**

. . . **SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . Adjudication powers, and **the prerequisite/condition precedent guarantees that are incorporated by reference under this analysis by the Oath of Office that swears to uphold and defend the Constitutions**.

All the Orwellian filing by the Clerk of Court happened before Murdaugh was heard. . .there was obviously no power of the Court to hear Murdaugh when they had to hide, mislabel and file two days later. **SCRCP Rule 5(d) provides the general filing requirements** for the clerk as a ministerial office. **SCRCP Rule 10(a) on Caption Requirements,** and further, **State ex rel. McLeod v. Crowe, 249 S.C. 519, 155 S.E. 369 (1967)**, of an Open Government/Court and its transparency mandate. **SC Article I, § 9 (Meaningful Due Process). Article I, § 14 (Open Courts Clause), Equal Protection, Abuse of Discretion**. . .and in this case's facts, Fraud on the Court by the Court.

In spite of all these very serious, Willful violations of Due Process, Judge Kittredge's claims in opening statement on February 11, 2026, regarding his Court being an "Open Court," right after the filings were read behind closed doors and ignored, with no neutral reviews in public, Neutral Judges. ANOTHER LIE BY THE COURT TO MAKE SURE THE MURDAUGH CASE GOES FORWARD. . .WHICH SHOWS THE SUPREME COURT IS A PART OF THIS FEIGNED/COLLUDED PROCESS AND INTREFERING WITH P-APPELLANTS CASE. that correct the years of abuse by the Court, Lawyers, Allianz, State Actors, Proxies and so forth. See infra and Ex 2-5.

Extreme malfeasance by these incredibly fraudulent, intentional degrees described briefly herein and in Ex. 1, and other documents filed at the Appeals and Trial Court, further makes the Supreme Court ineligible to hear this (and perhaps others P-Appellant's are reviewing), Constitutional Case under the Structural, Constitutional Arguments provided herein all based in SMJ Adjudication, but also based on their own separate grounds as well. Motion to Strike P-Appellant's trial court finding and enter judgment for P-Appellants on their own Murdaugh case as Entries of Judgment were filed, and provide for other remedies that correct the years of abuse by the Court, Lawyers, Allianz, State Actors, Proxies and so forth. The Court must recuse and so must all courts that are a part of or beholding to the LMCE. The LMCE is not a secret except to the public. If you know and you didn't report it, you are recused and a part of it.

Retaliation is proof of lack of SMJ. Any punishments pondered against P-Appellants for exercising their Constitutional Rights to Challenge in Good faith the claims made, or if denied, to demand an expansion of same, as this is the only way the People can/will have a chance to be protected from corruption in the Courts with no recourse, will also show further that this Court cannot be neutral and is attempting to chill further challenged that further violate the Constitution of the U.S. and SC.

. . . SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . And further, with the Courts prior knowledge of what their LMCE is doing and have done, and what their underlying judges and others are doing or already did (See herein and Ex. 1 for a brief summary of just part of the problem), and for the Supremes to still not recuse or report the wrong doing of themselves and others to neutral law enforcement for prosecution, has made this Murdaugh case, and P-Appellant's case that has been exposing this for years, from a long time ago until now and continuing, in line with Constitutional Law, Case Law, Canons and so forth, massive Fraud on the Court by the Court, Rule 501, and 502, SCACR.

Judge Maddox and Mullen both swore to report anyone, including judges to the authorities if they were doing anything in violation of the rules, codes, Constitution and so forth. . .it is right on their applications for the Judicial Merit Selection Committee (JMSC). How is that working out for the people?

SMJ: These Judges purposely failing to report fellow judges and lawyers to the authorities for wrong-doing is another reason why SMJ Adjudication analysis was intended to and must continue to include prerequisite/condition precedents to include upholding the guaranteed rights of people, with strong, neutral oversight of people giving very strong punishments and discipline for not doing so, which will keep a state Constitutional and keep out the free-for-all by the state acting as an Oligarchy and creating a LMCE, where people are chattel and resources.

P-Appellants presented in good faith a Constitutional Legitimacy[14] test for the Courts to act, including, but not limited to a SMJ Challenge and ***prerequisite/condition precedent OF FOLLOWING ALL GUARANTEES OF THE CONSTITUTION, AND EXAMINGING ANY*** Fraud on the Court by the Court or otherwise so this Motion would not be necessary. This Motion blocks the Court from hearing and/or deciding the Murdaugh case (and P-Appellant's case as well), on that or any other date, until a Neutral body can hear the SMJ Adjudication arguments upon meaningful notice and meaningful right to be heard, and moves a Neutral Court has time to strike any opinions or order acts as void ab initio, and any action against P-Appellants in retaliation for exercising their Constitutional Rights to challenge.

Also being challenged within the Legitimacy of the Court in the sense that legitimacy assumes they are following the Constitution. This illegitimacy, including, but not limited to, the lack of SMJ Adjudication Power and Prerequisite/condition precedent Due Process/Fraud sometimes by the Court, on the Court and other prerequisite/condition precedent challenges therein, is the Constitutionality Structural violations of a Court, including, but not limited to, moving or removing **prerequisite/condition precedent guaranteed rights of the People, partially enumerated by the Constitution/Amendments as illustrative examples of same**, which is a part of

evaluating SMJ Adduction power. Instead, what P-Appellant's believe is a bad faith reducing these guaranteed rights of the people to only mere **"suggestions"** the Court *may* follow if the Court so chooses, creating an **"After-the-Fact Doctrine,"** which removes the "guaranteed rights" of the People given by the Constitution, that cannot be abridged and infringed upon, by the limited powers of the government and its Courts.

The Court exercising Unconstitutional Power, to accept a case for hearing, where they do not pass or even process through the SMJ Adjudication standards, as such analysis was not even considered, is an Unconstitutional infringement on the People, where the Court is Unconstitutionally taking away a check and balance within Structural Constitutional framing regarding how the Court's operation must proceed that then abridges the People's guaranteed rights. This Unconstitutional abridgement and infringement of the People's rights, removes these guarantees, that the Court/Judge is about to enter a case, with the oath and agreement that they are not going to infringe or abridge the People's Constitutional guarantees, there is no fraud on the court either by the Court or by the litigants to the best of their knowledge, that they are going to provide due process, and only a good faith mistake would then need to be challenged, and not the RACKETTERING or other Criminal or Civil perpetrations by the Court or the parties to create a Feigned/Colluded or less than honest case and/or result, and so forth. These are prerequisite/condition precedents with more argued in the argument.

A Court or parties planning to Feigned/Colluded a case, or create cases not in controversy, or other Structural violations of the Constitution, prior to the hearing ever starting, as a plan to cover-up for their Aristocratic/Groomed Elite Legal Machine Criminal Enterprise members of which much of SC is a part, is not grounds for the Court to accept Subject Matter Jurisdiction (See Ex. 1, for just a small sample with much more available).

A guaranteed right is not a right and not guaranteed, if there is no remedy to enforce it up front before any case is heard through the SJM Adjudication process, and the Court's ignoring the SMJ Adjudication process, as if guarantees are mere "suggestion," while the Court subtly "modernizes" the Constitution so the courts can treat these Structural violations and guarantees from the **prerequisite/condition precedent, guaranteed rights they are,** into a position of review after the fact, as error, with more captured judges reviewing the error, means that these rights are **not guaranteed** and may or may not be honored by a court expanding its power over the people without Constitutional authority, such as has happened in SC with a closed government filled with these Aristocrats or those groomed elite that are in the positions to check/balance such entrenchment but will NOT do so, easily creating this Legal Machine Criminal Enterprise as an Oligarchy of Aristocrats/Groomed Elite controlling the state, rather than a Constitutional Republic for which the People stand and oversee their government.

If State or Federal Government can just change the Constitution into something that favors more power and control for themselves, that gives them more power and destroys

Constitutional Protections guaranteed forthe People, at the stroke of a pen, then there is no law, but what the King grants, which is extremely unconstitutional.

Judges with financial and other interests in the outcome of Murdaugh (Ex. 1), cannot hear their own challenges against them based on SMJ Adjudication Power prohibitions proven by the above and the Frauds on the Court by the Court, summarized in only just a part, in this filing, and in Ex. 1, as there was too much to list in that motion but the Appeal Court and the Trial Court are well aware of their Frauds on the Court by the Court and lack of SMJ Adjudication power with the Judges being told on by their own proxy Defendants that they were actually involved in the underlying case itself, as a part of the Insurance Fraud/Insurance Reserve Fraud scheme like Murdaugh's, and that they hired proxies to create the catastrophic injury/wrongful death of P-Appellants themselves along with Allianz Corporate & Specialty.

Concealing filings, mislabeling a SMJ Challenge, Refusing to docket a paper, hiding the identity of the filer, delaying filings to rule first violates all of the above and calls for a Void Judgment doctrine, in ab initio in this matter under Constitutional Grounds and the other grounds stated. Further, due to so much fraud on the court by the court and P-Appellants judicially caused ADA qualifying Disabilities, it is not a good use of minimal energy and writing/sight ability to write a Writ of Mandamus also even though the standards are obviously violated. ADA qualified P-Appellants demand that this motion correct all defects included.

There were also other extreme malfeasances in filing and in also based on the other three motions that were all supposed to be filed on February 11, 2026, the last two withdrawn as moot due to the conduct of interested Judges who cannot hear the case as described in Ex. 1, Ex. 2-5, and infra, and herein all as Constitutional, Structural, and Jurisdictional reasons to strike and void the hearing and any other actions by the Supreme Court in Murdaugh and P-Appellants actions.

Because even the actions herein are obviously coordinated among State Actors, and they are following unlawful orders to Unconstitutionally act against P-Appellants good faith legitimacy arguments, this is more proof that a Legal Machine Criminal Enterprise is in place.

Therefore, P-Appellants are also sending copies and summaries of their documents to various oversight agents/agencies, inside and outside SC to put them on trial as well, and let them prove they are going to be as accountable as those they alleged to oversee. P-Appellants welcome any change in past Unconstitutional position. Also the legal reform movement has taken it upon themselves to mirror all records by outside source and posts to assure the record stays as is or any change that is made is proper and corrective, and so others can review timely and be made aware of SC not operating as a Constitutional State and working against the People, for P-Appellant's own interests also, and for documentation in other actions to be filed.

SC Court Unconstitutional Behavior regarding SMJ Analysis: Presently, in SC, although language of the Constitution is sometimes used, and allegedly "nobody is above the law," is the quoted mantra in public by government servants, the Government has removed many prerequisite/condition precedent guaranteed rights of the People and made the after through, alleged fail-safes, mere suggestions, that the People have to fight for and most often lose because the guaranteed rights are not treated as guaranteed rights any longer by Courts who had no Constitutional power to erase such an important check and balance against them and for the People.

In doing so, the Courts have allowed the Murdaugh Dynasty to make up their own Murdaugh Country laws, without oversight where government silence becomes consent and participation. In turn, after many years of criminal and questionable practices, Murdaugh and many coordinated others were able to create a Legal Machine Criminal Enterprise, of which the Public witnessed only a very small part of the LMCE, controlled by the LMCE as to what they saw and didn't see.

Reasons why Mullen was not punished, reasons for certain depositions to be taken but not questioned, reasons for certain persons of interest at the least, getting judgments in federal court to cut in line for limited money ahead of the real victims, selection of Receivers, selection of U.S. Prosecutors, Judges and Murdaugh's Kin giving appealable issues that are not question as to real motive, but only using cover-up conspiracy theories, Having Dr. Maddox, Judge Jesse Cordell Maddox's wife be the expert to testify to where the

Murdaugh money went, suggesting there was no money to look for any more, when her husband is related to Mullen, and is accused of Murdaugh scams in the 10th Cir., and so forth. . .are all LMCE tactics used to "save" its Aristocratic/Groomed Elite members when they get caught in crimes, even after 100 years of Murdaugh having a get out of jail free pass before that, but got too greedy and sloppy to remain under cover even by the government.

The Nerve, By Rick Brundrett, November 30, 2023.

The overseeing of this entire Murdaugh alleged trial and all the above cases were the duties and responsibilities of the Supreme Court of SC, even before any crimes were discovered in the Murdaugh cases. The Courts and law enforcement and even the other branches who are related or fellow groomed Elite, purposedly took no action against Murdaugh Country for 100 years, allowing any kind of Murdaugh ideas of law be the law, even when a Federal Judge was flabbergasted by what he witnessed in SC justice, and even with Murdaugh, many are not satisfied with what they saw, but they do not know all the reasons why it happened this way.

Looking at P-Appellant's Murdaugh 2.0 case, this could never happen if the Courts were running Constitutionally with proper oversight by the Supreme Court, and even when P-Appellant's wrote a writ of Mandamus seeking assistance while very injured from the Judges themselves along with the continued railroading to get rid of their case on the most bizarre Unconstitutional Grounds as discussed herein and elsewhere, that any judge knows on its face are not Constitutional or even sensical, the Supreme Court saved the Trial Court RACKETTERS, and their lawyers, and Allianz and other State Actors and Defendant Proxies in very obvious matters that a first year lawyer would know could not be supported by any law or rule whatsoever.

SUBJECT MATTER JURISDICTION

P-Appellants challenged the Murdaugh proceedings in the Supreme Court on the basis that the Supreme Court does not have SMJ. P-Appellants did not at the time, know that the Asbestos case scams were also being appealed. Murdaugh, Asbestos scams and P-Appellant's exposure of both through their case are each why P-Appellant's case is being buried in the Appeals Court at the same time Murdaugh's Feigned/Colluded case is being appealed on false and fraudulent grounds that are conducted and orchestrated through the Supreme Court. The Asbestos scams are being heard by the Supreme Court to keep power over as much of this asbestos docket as possible, in spite of it being totally Unconstitutional by posing as the Neutral arbiter, when they are running the Asbestos Docket. Both of these cases (Murdaugh's former scams that creates great state tax free profit in the LMCE, that needs to be freed for the LMCE, but until he is he must be protected as a fellow aristocrat LMCE predator, and the Asbestos Docket cases that create unaccountable millions and perhaps billions of for profit, tax-free dollars for the LMCE must be saved in the same or in alternative ways using the vested interests of the Supremes and their Unconstitutional oversight of these appeals and the LMCE). These

great profits made by these criminal state actors, are what P-Appellant's case is exposing. . .how, and why, which makes their case targeted for destruction in the LMCE to keep its secrets.

In P-Appellant's case, Murdaugh 2.0, P-Appellant's provided much evidence and many examples regarding two main Unconstitutional secrets of SC Government, that clearly show it is not a Constitutional Government, in spite of SC government claims to Defend the Constitutions of SC and the U.S. for the People.

P-Appellants' case addresses and illustrates the lack of self-determination evident in all freedom that are protected by fair and unbiased laws in the Constitutions, that are lost or that never really existed in SC government in spite of its claims; a government that gives the perception of liberty with no real laws that the SC government actually follows that would uphold and defend these Constitutions, but for what the Kings of the SC Oligarchy grant.

Specifically, how P-Appellant's Murdaugh 2.0 and Asbestos Cases are related and why P-Appellants case is being destroyed for the Courts to hide their schemes to assist fellow Aristocrat/LMCE Perpetrator, Murdaugh, and keep a big part of their LMCE profiteering flowing through their LMCE by gouging the Asbestos victims using the same schemes and scams as P-Appellant's to create victims by Judges and lawyers and other hired proxies themselves:

1) Shows that the SC Government has been totally captured by an Aristocratic/Groomed Elite with similar Unconstitutional goals, and no accountability, that provide it profits at the expense of the exploited People, using the lure of a free State, i.e. its controlled Courts, as a ruse that baits people into its trap for perpetrators' tax-free profit, all called the **Legal Machine Criminal Enterprise, (LMCE)**. This LMCE is run by one merged branch of government, not three as the People are told. . .this one branch is the Aristocratic/Groomed Elites branch, that has a relational, profit mindset for all of them under the guise of three branches of government with no real checks and balances nor Separation of Powers. SC is one Oligarchy wearing three different wardrobes to create a perception of Constitutionality that is only illusory. P-Appellant's case exposes this, and how the Murdaugh case is Feigned/Colluded for his benefit by his fellow Aristocrats, and the Asbestos cases are Feigned/Colluded by the State itself, against the victims (REAL Plaintiffs and many Corporations, and sometimes Insurance carriers also, who have not chosen to be a part of the IF/IRF schemes of the State of SC in their Asbestos cases litigation).

2) Show that this LMCE in SC, under color of law, perpetrates specific types of crimes it creates by victimizing People or comes upon victimized People naturally, and either way, the state directs both into a single processing plant called the SC Courts/Legal Machine Criminal Enterprise, that allows the state to steal the awards or inheritances or other such funds, from any and all of those victimized People they process. The State

LMCE then needs money laundering operations of the dark money proceeds these state thieves produce, to remain hidden from the People, under such schemes (P-Appellant's and Parts of Murdaugh), **and SIMILAR STATE SCHEMED STRUCTURES** (PARTS OF MURDAUGH, AND THE ASBESTOS CASES), as the **INSURANCE FRAUD/INSURANCE RESERVE FRAUD LONG CONS (IF/IRF),** a multi-layered series of crimes, where some crimes and cover ups are more complex and layered than others, but all are attempts to hide the vast scope of the state crimes and the large numbers of state criminals involved using IF/IRF structure to attain its goals. This strategy was a part of the Murdaugh case and larger crimes not reported to the public, and in P-Appellant's case that exposes this. There may be some of this in the Asbestos cases, but often the State used Delaware in place of what normally the carrier can do in helping the state redistribute wealth and money launder it through its reserve accounts.

It is important to note the IF/IRF scheme is often used in SC, but it is also not always the carrier, but the structure of the IF/IRF scheme is still used, like using Delaware, attorney trust accounts, fake shell corporations, foundations, Universities, and so forth as the money laundering process rather than the carrier. But it is the literal use or just the structure of the IF/IRF scheme that is being addressed in the bigger picture.

In strict IN/IRF schemes, there is a state actor coordinated stealing of the litigants assets by the LMCE/carrier/agents, (see FN ____, for the RACKETEERS in P-Appellant's

case). The carrier, Allianz, provides its money launder medium, its own reserve accounts to wash and disburse illicit dark money to the perpetrators, and new recipients of the LMCE. This scheme and many other thefts of the LMCE, usually exploiting the Public, and using the Courts as the LMCE processing center, then disbursement to parties not related to or due the award.

In Murdaugh, from what little facts the public really knows due to the state cover-up to limit its state criminals and the scope of its crimes, Murdaugh, Laffitte, Westendorf, Fleming, their firms and Bank, Mullen, Odom, Manning, Sled, Receivers and firm, Becky Hiers Hill, PMPED/Parker Law firm, Bamberg, Nautilus, Lloyds of London clients, and so forth are the most obvious suspects of the direct crimes in a much larger ring, that included all of P-Appellant's RACKETEERS including Judge Heath Taylor, Emily Limehouse, Judge Gergel, the State Ag's office and attorneys, Defense attorneys, and so forth.

In the **Asbestos cases**, the Courts through Insider Judge Toal/lawyer LMCE perpetrators, run by Kittredge and his Supremes now, act to seek out, create litigation, and then create chaos in the case, usually around alleged Discovery noncompliance, to create a very large **Discovery/default/sanction** against the corporation that was a previously viable and healthy corporation without judgement from the court regarding asbestos claims. This twisting of the procedural rules by the Judges created the victims needed for them to do a hostile takeover of the company. Interesting P-Appellant's didn't get their Discovery for the full three years in the case, and no such actions were taken against

Defense/Defendants, but they were helped by the court and even the Supremes, to keep Discovery from P-Appellants up to and including their last act, and the Writ of Mandamus Ex. 9 answer by the Supreme Court denying any type of Discovery/Subpoenas yet having an evidentiary hearing on same. An impossible task that creates chaos in the reverse. In this Court strategy they would use a Sua Sponte, **Evidentiary Hearing/Default/Sanction strategy**, with the courts misusing the rules of procedure again, to gain control of what they were stealing with no interference of the Courts victims, under color of law.

In the **Asbestos scams**, the Courts then appoints their insider Receiver (just like a Laffitte Receiver overseeing the Murdaugh funds, and looks like they helped the Perpetrators hide money more at the expense of the Real Victims than to help them). Toal's favorite receiver for Asbestos cases is newly selected JMSC members, **Peter Protopapas**, who was also, "coincidently," just selected by **Aristocratic Governor McMaster**, to be a member of the **JMSC** in another inside job appointment from the alleged improved judicial "election by selection" state scam where **improvements are lipstick on a pig**. A good investigator would see how Laffitte Palmetto State Bank may fit into these Asbestos Schemes also in the LMCE.

The Receiver, in the Asbestos scams, then steps into the show, to take over the Corporation, and fight the carrier, who is not a part of the scam in many of these cases, because the Court is fixed with its own interests to steal the entire recovery and money launder through Delaware Corporate law and not have to share with the carriers. Perhaps

there is a real Plaintiffs, and perhaps not, but there is no accountability to even oversee that or any other part of this LMCE created scam, where they receive tax-free profit on most of the recoveries, if not all in their LMCE.

In asbestos scams the IF/IRF structure of stealing money and money laundering is still present, but it is laundered through **Delaware, donations to universities and other types of methods** since the carrier is not the state's friend usually in these cases. But the scheme is structurally the same as IF/IRF and the LMCE at the heart of all this, and an entrenched group of Aristocrats/Groomed Elite, is also the same as P-Appellant's describe. . .and some of these perpetrators are involved in P-Appellant's, Murdaugh, and Asbestos cases.

Please note another **JMSC newly chosen member is John Lay, the Receiver in Murdaugh** with partners and others related to Murdaugh and whose firm also does Asbestos Litigation along with wife **Aristocrat Emily Limehouse's** (prosecutor of **Laffitte** in Federal Court) of **Aristocrat Thomas Limehouse**, **Aristocrat McMaster's governor attorney** for many years until recently. And this **Thomas Limehouse, Jr. is son of the son of Thomas Limehouse who was arrested in an FBI Sting of State Legislators** taking bribes and so forth in **Operation Lost Trust**. **The LMCE** has existed for a very long time. . .**back to the Lords Proprietors and going forward**.

P-Appellants and Murdaugh are typical, fairly straight forward IF/IRF schemes, which by themselves are complex and hard to see if one is not aware of the scam, like the

Public without the education of knowing it exists in advance of these "show trials" and "show appeals," due to the public thinking in terms of a criminal and a crime or perhaps three criminals, all working together, but would not think of the TV broadcast as a State staged narrative where all are on the same side. Those only happen once the Murdaughs/Laffittes of the state are caught in Public exposure because of the Beach case or another troubling matter for the state. Asbestos scams got the attention of the People when SC Defiance reach international waters and they could no longer control the narrative. . . P-Appellant's case is not a national case as of yet, as P-Appellant's are providing chance to the Court to make this right for all involved here and make real change to the government for the People without going national yet. But P-Appellant's also are experienced enough to know that it doesn't' take national coverage either.

This matter will not be over until all of these matters see justice, no matter what the Courts do, by all legal and nonviolent means. But because the State has been caught in the act by the P-Appellant's case, they must bury it to be able to help Aristocratic Murdaugh, a LMCE perpetrator for tax-free profit, and be able to minimize and control the damage in the Asbestos cases, to where they can throw a bone and not give up their Billions in tax-free profits for the LMCE. P-Appellants is the case that must be kept quiet and destroyed/erased in order to reach its other goals without the public understanding the outline directly above.

§§§§

In IF/IRF, many criminals are involved around the state, and the actual scope of the crimes and ruthlessness of the crimes are beyond understanding for those not exposed to the LMCE. So when the State prosecutes these few criminals and few crimes on TV, the audience may ask why didn't they investigate this person, or that situation, or call this person to the stand or ask that question, it appears like the Prosecutor is choosing his plan based on some legalese of the law that permits him to have to do things a certain way, when in fact the audience is right, but defers to those "who know better." Thus, the made for TV Murdaugh saga has everyone talking about Becky Hill wanting to sell books rather than Becky Hiers Hill being a State ACTOR and Aristocratic KIN to Murdaugh Dynasty giving him obvious Appealable issues to have another bite at the apple with a friendly State Court ready to overturn the conviction due to Becky Hiers Hill's "mistake," or "greed", rather than the State is working to free Murdaugh, one of their LMCE perpetrators, who got caught. They are giving Murdaugh him a fresh bite at the apple, by using other State ACTORS to get it for him, where the Supreme Court can overturn the conviction and so forth.

Failure to File and follow SMJ/Fraud on the court Chalenges by the Supremse:

P-Appellant's ignored motion to Challenge SMJ and Murdaugh's appeal based on this **FEIGNED/COLLUDED case, is not justiciable**, and Fraud on the court by the court, which is also not justiciable.

Once Murdaugh/Laffitte/Fleming/Mullen/Odom/Westondorf/Carriers/Law Firms/Bank and other alleged perpetrators were caught or in issue, was **staged for the**

public, and all proof/illustrations of the above, **are purposely ignored by the Court and the Clerk working together to keep those filings from the public, while going forward with the appeal of Murdaugh, which are extremely illegal and criminal actions, that show how much the LMCE Courts need Aristocrat Murdaugh freed. The state seems to be daring P-Appellant's to take this public which is unwise at this time.**

Murdaugh stagings are using Murdaugh, the AG's office (Waters), and the Defense ex-Senator (Harpootlian) to make it look like the Courts are so fair that they would even allow such an unlikeable person as Murdaugh to have a fair trial using State ACTOR kin Hill as the gift-giver for fellow Aristocrats to applaud behind the scenes. This is all **FEIGNED/COLLUDED . . .it is Theatre**.

Defense Attorney, Harpootlian actually "lost" his Senate Race during this time allegedly "defending" Murdaugh, because this process of freeing the Aristocrats and keeping the LMCE and its IF/IRF schemes (and others) a secret from the public is bigger than one LMCE man's "election" when they have many Oligarchical candidates to replace him. But if the LMCE/IF/IRF is understood by the People, the entire Oligarchy collapses as it is built on lies and illusions. Harpootlian will be back as part of his reward.

This is why the Murdaugh-P-Appellant Murdaugh 2.0 cases are so important as are these **Asbestos cases**, where **P-Appellant's case must be hidden and buried to save Aristocrat Murdaugh and the Oligarchy he works for, and let the Asbestos victims fight**

the very perpetrators of the crimes under color of law, not knowing they cannot even hear the case due to a lack of SMJ Adjudication and Feigning/Colluding.

In the **Asbestos Docket** cases, run by Phi Beta Kappa member, ex-Chief Judge of the Supremes, Jean Toal, for Phi Beta Kappa member, present Chief of the Supremes Judge John Kittredge**, the scheme structure is the same as Murdaugh and Murdaugh 2.0, but it is an even more extremely complex IF/IRF scheme that is harder to follow due to many more layers of violations of Due Process at the trial court level by Toal, Teflon Judge Mullen and Judge Seal, and then multi-layer funneling and washing of the dark money and distribution on a trip through Delaware with most Plaintiffs and settlement amounts hidden so there is no chance at accountability.** Delaware state is any corporation's friend who wants to structure in anonymity . . . but not for purposes of the Asbestos scam of the LMCE. The problem is the STATE of SC is not supposed to be a corporation, i.e. it is not supposed to be Courtroom, Inc., but, instead it is supposed to be a Constitutional government with transparency in all it does.

Further, in an Order dated, **May 29, 2019**, The Supreme Court stated **Teflon Judge Carmen T. Mullen** and Groomed Elite, Seal, Jr. shall reside over asbestosis cases as **Judge Toal** sees fit, signed at the time by **SC Chief Judge Donald Beatty, who Kittredge took over for in 2024 and has continued to charade as he is hearing the Asbestos and the Murdaugh cases even with a SMJ Challenge on Murdaugh. . .Feigned/Colluded cases** against the People, that **again is affecting P-Appellant's cases because P-Appellant's**

case must be buried in order to keep up the State Charade as its for profit-tax free Oligarchy running a RICO-LMCE, under color of law, and hearing cases that affect its profit margins, pretending to be separated out and neutral because no SMJ Adjudication analysis and severe Punishments are incorporated by law, with the Supremes overseeing all of these issues.

This complexity of the Asbestos Docket scams are described by some victims of Mesothelioma, but mostly by Corporations that are revived or are healthy, but still put into the receiverships Litigation Vortex, never to come out again. . .with Money (See Litigation Vortex as a part of Holodeck Law, by Attorney Linda Kennedy, (FN___), all by Judge Toal, and the Teflon Judge, Mullen (see Murdaugh and many other complaints).

So then the receiver is appointed, usually new **Judicial Merit Selection Committee** Member, **Attorney Peter Protopapas**, to control the corporation without justification, with he, and several other lawyer legislators controlling the **Asbestos laws** and/or the Judges who decide where this money is distributed and the process it goes through for washing. The goal is in part to get to the Insurance Carrier who insured the Corporation, even if the Corporation is extinguished or whether it is not and may even be in good standing without any judgments for such actions, receiving no notice or right to be heard in a meaningful way and meaningful time.

Note John Lay of GWB, who was the Receiver for Murdaugh, selected by Tinsley, and not contested by Limehouse, has Laffitte attorneys on staff, including Jessica Laffitte who

was Phi Beta Kappa Kittredge, Phi Beta Kappa law clerk, on the Receivership team to protect victims of Murdaugh? Further, Murdaugh was allegedly instrumental in getting Luke Rankin appointed and to chair the JMCE for all these years also.[30]

The sad thing is there is a 30 billion dollar Asbestos Trust already available to the victims of Mesothelioma. But the SC Government, is so greedy and defiant of the law, that they have to bully and be so aggressive in stealing other people's money for their LMCE, stealing billions of unaccountable dollars from secret Plaintiffs, if any exits, that they are actually grabbing businesses from overseas and performing these double meaning. . ."**Toxic Strategies**" on also, where **there is no Subject Matter Jurisdiction in Adjudication**, (nor often Personal Jurisdiction many times, which is being fought by the Appellants). **And the Supremes are the adjudicator of their own business interests, criminality and liability, to decide if they get to keep plundering for profit or whether they should alter how they do this, that will still have to be against the law to operate**

[30] Following the Alex Murdaugh trial senator Rankin became a primary target for critics of South Carolina's judicial selection process critics argued that the JSC which rank in LED allowed powerful lawyer legislators like Murdaugh's defense attorney Senator Harpootlian to exert undue influence over the judges they appeared before senator Rankin was also a vocal opponent of some proposed judicial reforms that gained momentum after the Murdaugh scandal he specifically defended current system after efforts to give the governor more power, **as lipstick on the pig illusion doctrine, in selecting judges though he eventually oversaw the compromise reform bill in 2024. What is known to many is highly suspect, even if giving the Supremes the benefits of exponential doubts. Obviously, going on low hanging fruit alone, these Asbestos cases give at least an appearance of impropriety and financial interests by the State ACTORS and cannot be permitted, nor can they even hear their own case under the LMCE/IF/IRF schemes P-Appellant's case is exposing.

This is why P-Appellants and their case are being hidden and destroyed to save the LMCE and its IF/IRF structure for its money-making schemes using the public as its cash cow by baiting them into the Litigation Vortex Courts for processing, where they never appear again. . ..with money. SUBJECT MATTER JURISDICTION is More then SC Courts are Claiming it is[31]:

Black's Law Defines Subject Matter Jurisdiction (SMJ), as ". . . the extent to which a court can rule on the conduct of a persons or the status of things." And Jurisdiction is defined as a "Court's power to decide a case or issue a decree." *In Steel Co. v. Citizens for a Better Environment*, 523 U.S. 83, 94 (1998), SMJ "refers to a tribunal's power to hear a case." Further it states that, "Without jurisdiction the court cannot proceed at all in any cause." *Id*. Court's often pair the Black's definition with *United States v. Cotton*, 535 U.S. 625 (2002), SMJ "can never be forfeited or waived." In *Arbaugh v. Y & H Corp.*, 546 U.S. 500 (2006), SMJ . . ."refers to a tribunal's power to hear a case," and that SMJ can be raised at any time. Also see, *Union Pac. R.R. Co. v. Bhd. of Locomotive Eng'rs*, 558 U.S. 67, 81 (2009). *Marbury v. Madison*, stated that courts exceeding jurisdiction violate the Constitution. T U.S. 137 (1803).

Subject Matter Jurisdiction must also be Proven With **Certainty with burden on the Court,** not the litigants who would not know most often that the Court intended to fix a case or was involved in a sham hearing**.** Courts repeatedly hold that jurisdiction cannot be presumed. **See** *Grace v. Am. Cent. Ins. Co.*, 109 U.S. 278, 283 (1883). That means they

must go through the SMJ analysis as a Prerequisite/Condition Precedent, which in all three cases addressed, the Court would fail this analysis miserably and does not have the power to adjudicate these cases, and their findings against any victim is Void as to the wrongdoer.

The Supreme Court itself stated that there are many types of Jurisdiction (and analysis) that a prospective court must analyze before taking power over a case, discussed herein and below. See *Steele*. Subject Matter Jurisdiction for example has many analysis that a Court and Judge must consider before they accept Constitutional authority over the case, as all power is granted the Court only through its expressed SMJ, but only one recognized by the Modern Court that is erasing the guaranteed rights of the People recognized as illustrative rights by the Constitution that cannot be abridge or infringed upon by the State of limited power.

In summary, in regard to all Jurisdiction analysis of the prospective Court/Judge, that *Steele* refers to, the requirement that Jurisdiction be granted to the Court ***PRIOR*** to any action is received or taken with that Court, (in filings or for hearing the matter or opining on the outcome), is based in this SMJ analysis made by the Court/Judge ***BEFORE*** the Court acquires and is granted the power to hear the matter given by the Constitution.

As seen in the Constitution and the intent of the Government approved Framers, to protect the People from Usurpation and Arbitrary law or rogue government, (see many quotes in the fact portion with Jefferson, Madison, Revere and others), and case law, it is clear that two of the SMJ analysis, the SMJ Topic Power analysis, AND the SMJ Adjudicative Power analysis' are two of these different analysis' that the Court must determine and be in compliance and be granted power to oversee the case ***BEFORE*** accepting the case in question, as only after these analysis'

will the Constitution grant the Court/judge the power to hear a case (filings, hearings, opinions). Adjudicative Power SMJ is only granted by the expressed limitations of the Constitution itself. See U.S. Constitution Amendment 5 and 14, *U.S. Const. amend XIV, the sincerely held* Oath taken, the Neutral Decisionmaker requirement, the Justiciable analysis (Case in Controversy), Due Process, Equal Protection, Oaths, and others.

Subject Matter and Personal Jurisdiction Requires Constitutional Conditions Precedent/Prerequisite before a Court can determine if they have the Power to Adjudicate at all: Courts cannot exercise jurisdiction if fundamental constitutional conditions precedent requirements are missing. In addition to what is already listed, other examples of conditions precedent that protect the guarantees of the Constitution included: **Due Process, under** *Caperton v. A.T. Massey Coal Co.*, 556 U.S. 868, 876 (2009), "it is axiomatic that a fair trial in a fair tribunal is a basic requirement of due process." A tribunal that is not neutral **cannot constitutionally adjudicate under SMJ.** "Every procedure which would offer a possible temptation to the average man as a judge... not to hold the balance nice, clear and true between the State and the accused denies the latter due process of law." *Tumey v. Ohio*, 273 U.S. 510, 532 (1927). When Courts and Judges cannot hear a case based on their sincerely held Oath to Defend all Constitutional Guarantees to limit itself, and uphold and protect the People, they are not fit to hear the case, or even make a ruling on jurisdiction of any type.

Conditions Precedent/Prerequisite requirements of the Court occur ***BEFORE*** the Court/Judge is granted that power to hear/rule. And the analysis is part of the court/Judges

MANDATORY responsibility in order to be considered a Constitutional Court/Judge able to take SMJ authority and other and to then rule of Personal Jurisdiction over the case.

As the U.S. Supremes stated, there are many types of jurisdictions, See, *Steele*. But P-Appellant's are focusing on one of two main SMJ analysis that are often confused and summarized incorrectly as just one SMJ analysis. The law on SMJ, in contrast to what the Courts have been making the legal system and pubic believe, that there is only one issue that concerns SMJ (Topic), is CLEARLY and DECEPTIVELY WRONG. IN DOING SO, THE COURTS HAVE CRIMINALLY REWRITTEN THE CONSTITUTION THROUGH QUIET COUP TO MEANS THAT all other analysis of Jurisdiction other than topical are moved to post-trial considerations with lesser Standard of Review if any, including appeals, and limited appeals to the Supremes, at the approval, to rule against them violating this Constitutional requirement that would take much of their fake power away if they ruled properly.

The problem is that if a Judge is going to provide a predetermined outcome, which is the norm in the LMCE, like in Murdaugh, P-Appellants and the Asbestos cases, for the reasons stated in the facts and summarized herein, then the courts/judges are also going to ignore Constitutional matters on review, after the fact, where they have placed many of these guarantees meant for SMJ Analysis ***BEFORE*** any actions are taken by the Judges.

This problem can be resolved by **1. Forcing Judges to analyze SMJ Adjudication before they take a case; 2. Forcing all Guarantees of the Constitution prerequisite/conditions precedent into their rightful position again as being analysed before Judges take a case. 3.** Removing the Supremes as the final say on Disciplining

. . . SC "put on parade South Carolina's tradition of laws designed for corruption . . . left a visiting federal judge stunned at what he saw . . . Judges and the People take over that role as this is not a separation within the power to perform secret, hearings and disciplines if any. **4.** Make the punishments for violations by Judges, especially intentional violations, **very severe** to stop the Public Trust problem and people being so abused and ruined by these aggressive courts pursuing with great vigor and over zealousness, with no law to support them, the riches of others to redistribute to themselves and others in the LMCE. **5.** Return to making all law and facts determinable by the Jury as it was before the Courts changed it. **6.** And finally, to remove another gift to the judges and government from the judges, by Unconstitutionally writing into the Constitution any type of immunity where the Courts never had power to do so. **7.** Disbar the Bar Monopoly. . .no more licenses, no more greedy attorneys being part of the Aristocratic/Groomed elite/wannabees. There are other changes that need to be made to return the system to what it was before all this corruption, but these are a great start and there would be little need for appeals if the courts understand the penalties for involving themselves in LMCE or other illegal activities. ALL JUDGES ARE VOTED IN BY THE PEOPLE ONLY WITH NO FUNDING, BUT TAX PAYER LIMITED FNDING NOR POLITICAL AFFILIATION ATTACHED TO THE JUDGES. They work for the People as do all other state, county and local officials.

On review of any SMJ errors in guaranteed abridge/infringed upon, these Constitutional Guarantees become mere **"suggestions,"** so that they are not guarantees at all, as all three of these cases have also done to Guaranteed Rights, that cannot be abridge or
