Ubokudom v. USC Appellant's Record On Appeal...

Stamped-USC-Emergency writ mandamus\_0001....

**SC Court of Appeals**

**Dear Clerk of the Court,**

I am writing to respectfully request assistance regarding the electronic record for the above-referenced case on C-Track.

While my **Brief** and **Motion to Supplement the Record** have been successfully uploaded, I have identified two critical omissions in the current C-Track record that prevent the court from having a complete file:

- 

**Missing Record on Appeal:** The official Record on Appeal is currently not appearing in the C-Track system.

- 

**Missing Attachment for Motion to Supplement:** While the Motion to Supplement the Record is visible, the **Emergency Writ of Mandamus** that was attached to that motion is missing from the upload.

To ensure there is no delay in the Court's review, I have attached both the **Record on Appeal** and the **Emergency Writ of Mandamus** to this email. Please let me know when these documents have been successfully uploaded to the C-Track system so the court can review them.

Thank you for your time and diligent assistance in ensuring the record is complete.

**Respectfully,**
