SC Court of Appeals

I am a U.S. citizen, and I must reclaim my civil rights. My heart could stop beating at any moment; I cannot wait to die! Why did I call the police? Why did they hurt me? Tony committed multiple crimes and acted like a tyrant in South Carolina without facing legal consequences.

B. Where is the judicial justice in York County? I have been deprived of my freedom for three years and dare not even go to work. When I attempted to deliver court-stamped documents, I encountered various forms of obstruction and errors—particularly at three local post offices, where a multitude of mistakes were committed. I suspect that I am under constant surveillance, obstruction, and physical tracking; it is truly terrifying. Am I still a citizen of York County。

C. Since October 2025, I have not dared to visit my local post office to mail letters; instead, I have traveled to Charlotte, North Carolina—a trip I have made about ten times—just to handle my mail. Furthermore, I no longer dare to seek medical treatment at local hospitals; I have shifted to receiving care at a hospital in Charlotte, North Carolina. My brother is gravely ill... Recently, I considered traveling to China

to visit my relatives, but out of fear of surveillance and being tracked, I do not dare to go. These are truly terrifying circumstances; am I still a citizen of South Carolina?
