***** EXTERNAL EMAIL:** This email originated from outside the organization. Please exercise caution before clicking any links or opening attachments. ***

Good morning,

Please accept the attached filings for submission in the above-referenced matter.

The Designation of Matter was timely filed in the lower court on or before the May 18, 2026 deadline, as reflected by the time-stamped filing. I also made repeated efforts to timely submit the appellate filings electronically; however, due to the size of the brief and accompanying materials, the documents repeatedly failed to upload properly through my scanner/device and would only permit transmission through an external link.

Additionally, the incorrect file was inadvertently transmitted during the upload process. The attached documents are intended to replace the previously submitted files for the Designation of Matter and Appellant's Brief.

Upon receiving notice that external links could not be accepted, I immediately undertook efforts to correct the issue and re-submit the filings in the proper format. Despite multiple attempts, the documents are still experiencing upload limitations due to file size. Accordingly, to ensure complete transmission of the filings and supporting materials, I will also be providing hard copies by U.S. Mail immediately.

Appellant respectfully requests that the filings be deemed timely based upon the original good-faith submission attempts and prompt corrective action following notice of the technical issue.

Thank you for your time and consideration.

Respectfully submitted,

Nikia Renee Noisette
Appellant Case No. 2026-000306
