Subject: Marion Bowman Appendix

Dear Debbie:

We've completed our review of the documents Al Simon found and the documents in the clerk of court in Dorchester's file. We propose to replace the dark pages in the Appendix with clean copies from what Al Simon obtained. As for the documents Al found that were not in the Appendix, we propose to prepare a Second Supplemental Appendix containing those documents. I just spoke with Mr. Simon and he agreed to this procedure.

We will first have to re-redact the clean copies that will be going into the Appendix. This portion of the Appendix contains a tremendous number of redactions that are not amenable to automated redaction. We hope to have this process completed soon.

Please let me know if this solution is acceptable. As always, give me a call or email if you have any questions or concerns. My direct dial is 803-734-1573.
