SC Court of Appeals

To

Transcripts transcripts...

Aug 17 at 9:51 AM

Someone in the transcript department asked me to download the form and submit it that way because the online system will not process it because no court reporter is on file. It was done Webex or something like that. The lady in transcripts attempted to do it with me on the phone and couldn't. I continually received an error message. She provided me with the email to send the form to.

Please let me know how to proceed when the online system will not process the application. Instead I receive an error message to refresh the page and it starts the application process all over again. I tried at least seven times.
