Forma Pauperis

I hope this letter finds you well. I am writing to formally request relief from the fees associated with the review of my case being presented to the Supreme Court. Due to unforeseen circumstances, I've recently undergone surgery and am currently disabled. As a result, I find myself in a financial situation where I am unable to cover the required fees at this time.

Given these circumstances, I kindly request that the fees be waived. If, however, the fees cannot be waived, I would greatly appreciate any consideration given for an extension that would allow me additional time to gather the necessary funds to cover the deficiency.

I sincerely hope for your understanding and support regarding my predicament. Please let me know if any further documentation or information is required to facilitate this request. Thank you for considering my application, and I look forward to your timely response.

Warm regards,

Shasha Rawlinson
