S.C. SUPREME COURT

Gabriel Rios
(Plaintiff)

vs.

State of South Carolina
(Defendant)

Appeallate Case No. 2026-001110

Motion: Amendment & Suppliment Record

Request Motion to Admendment & Suppliment Record

This matter is being respectfully requested that this Honorable South Carolina supreme Court grant Petitioner Motion to Amendment & Suppliment Record his appeal brief, as a important concern in aide of this courts decision making process.

Petitioner rightfully contends the Court of Appeals erred in reversing the PCR Court. When such reversal was not based on the PCR Courts legal error, and was more based on "the weight of the credibility of witness testifying".

The Court of Appeal dose not sit aswfact-finder or to weigh the credibility of witnesses. The 911 tape was withheld where the Victim (knowing the Petitioner well), did not "identify" Petitioner as the suspect. The first time this 911 tape was heard "was during the PCR hearing". After the Corrupt Cop coerced the Victim that it was the Petitioner, did she accuse him.

Therefore, the PCR Judge engaged each and every prong in order

to grant the application. Simply because Petitioners newly discovered evidence identifies "how the misidentification occurred" (ie. through misguidance by a public official).

The time between Petitioners Wrongful Conviction and the officer finally getting caught in the act, cannot discount the justice required to exonerate an innocent man.

Conclusion

Petitioner prays this Court would grant Motion Admendment & Suppliment Record.
