

Dear Clerk(s),

Sept. 11, 2026

My neurological symptoms include almost any physical or cognitive disability imaginable, and have regressed to their worst point in perhaps a decade or more.

If possible, please send physical mail for any Court communication - it's the easiest way for my husband to find really important information on the days I cannot read.

If a very time-sensitive response is required (or brief conversation), please leave a voicemail on my personal line at 425.435.0607 so that it can be captioned and read by me (or my husband if necessary.) You may leave sensitive information if required.

Thank you for any assistance you are able to offer, and I really apologize about this if it creates additional difficulty.

Sincerely,

Elspeth Murday

*Elspeth S. Murday*
