Again, the May 18, 2026 transcript request was originally order September 4 2026, the same time the Aug 15 2024 transcript was ordered and acknowledged Sept 9 2026 by the reporter and since delivered and entered into the record, the untimely Webex delay in assignment follows the pattern of administrative estoppel that has plagued this proceeding since Feb 2020 beginning with SCLLR.
The record is reflecting my email as proof the deficiency was cured the day after payment was received rather than the Clerk of Appeals Court date stamped receipt the day payments were received?
