The State of South Carolina (PL) v Craig Ninja Antonio Brewton (Def)	Motion pursuant to Federal & South Carolina Rules of Evidence 609(a)(1), 609(a)(2), & 609(e), 28 U.S.C.A.

This is a motion pursuant to Federal & SC Rules of Evidence 609(a) & 609(e) attacking Sheriff Chuck Wright's witness character for truthfulness by evidence of a criminal conviction & from dishonesty an false statements in the Deputy Reports, affidavits, & search warrants using impeachment of evidence by a criminal conviction of the Sheriff Wright. The evidence used in Mr Brewton's criminal conviction lacks creditibility & are extremely prejudicial without BWC of the search & seizure where property was destroyed & stolen from a closed safe being favorable exculpatory evidence. With the 100% proof & evidence of error of the law that can overturn the prior conviction record & is a abuse of discretion denying the Def his entitled an requested evidentiary hearing for brady violations, franks hearing, & suppression of illegally obtained evidence applying the exclusionary rule violative of his 4th & 14th amendments requested as a filed pretrial motion. There is fraud in the courts with the unfair use of power to cheat Mr Brewton out of his entitled pretrial motion for suppression as fruits of a poisonous tree on the record during trial. There was jurisdictional errors caused by the decision-makers exceeding their powers abusing the use of a direct indictment without probable cause & mistakes in complying with the rules or steps in the legal process of pretrial hearings & motions requested. The courts procedural error with the mistakes of complying with the rules an steps in the legal process to the pretrial motions filed evidence "PTM" & "PTM"2 caused a reversible error that affected the Def's substantive rights & caused substantive rights to be violated affecting the outcome of the case. The prejudicial errors in the Def(s) criminal case an conviction has caused damage or detriment to the Def's legal rights & claims. The Spartanburg County (Sco) Court of

2 (cont) General Sessions abused its discretion admitting evidence violative of the Def's 4th & 14th amendments. The search warrant is defective on the 4th amend. grounds & the exclusionary rule applies with impeachment of the evidence seen in evidence "*F". Evidence "SW" also states fabricated lies that Mr Brewton was detained when he was actually arrested seen as proof of the time of arrest in evidence "*K" arrested at 11:06 am before the search warrant was signed late at 11:56 am on 9/19/22 after the Def was unlawfully searched & seizured with injuries. Evidence "14" & "RC" shows the fabricated Deputy Reports that I admitted to Dep. Smith that I had just finished smoking weed, that was a lie in court on the record also on that I was detained. Evidence "*H" & "*D" shows that both deputies Clark & Rojas did not wear or have on BWC during the illegal search & seizure destroying property failing to comply with attorney general law enforcement directive being in violation of section code § 23-1-240 & acts of misconduct destroying exculpatory evidence (cellphone) also showing acts of spoliation seen in evidence "*D". Evidence "*F" also shows that former Sheriff Wright had an has constructive & actual possession of the illegally obtained evidence used against the Def in his current criminal conviction that should be overturned. Former Sheriff Wright has been sentenced & convicted to federal prison for misconduct in the Sc.o. Sheriff's office making sheriff Wright's evidence illegal & unlawful to use in court for trial against Mr Brewton. The Def did not have actual or constructive possession of any drugs or keys when arrested. There is acts of bad faith in the criminal case & the acts of misconduct will effect the out come of the criminal & civil cases with prejudice. The charges should be dismissed, expunged, & the Def should be released. The Def's appeal is pending applying Federal & SC Rules of Evidence Rule 609(e) the evidence should be suppressed during the pendency of the appeal. Please foward this letter & its contents of evidence to the Appellate Defense Counsel.

Q(s) of 9 To the Clerk of the Supreme court of SC (Evidence "SCSC")

A) relationships

This letter is for the Office of Disciplinary Counsel. I have found 100% proof of new evidence stating the clear facts of substantial errors of praedural misconduct in the client & attornies (Ms Jennifer Elizabeth Wells & Christopher A. Grubbs)[A]. This evidence shows 100% the dates that I (Craig Ninja Antonio Brewton) tried to get Ms. Wells & Mr Grubbs to file a motion or motions for pretrial motions to suppress evidence with a evidentiary hearing applying the exclusionary rule as fruits of a poisonous tree with a franks hearing also with Brady Violations on dates Nov. 29/2024 - Dec. 3/2026. The supreme Court of South Carolina knew of my concerns that I needed assistance & took no action on this letter by the courts on March/18/25 when I claimed evidence of ineffective counsel with my requests for motions notified by the courts from Mr Brewton seen in evidence (*L). Evidence "PTM" shows the notarized stamped Spartanburg County (Sco.) Clerk of Court "Amy Cox" on Feb/16/26 of the motion sent & signed by Craig Brewton on Dec/3/26 taking two whole months by the courts to notarize my letter to Sc.o. courts showing the neglect by Sco. to my situation. Judge Keith B. Kelly denied mr Brewtons pretrial motion requests not following the policy & procedures of evidence of State & federal dealing with the #17,405 favorable exculpatory old evidence & cellphone that was suppressed from the criminal trial both very important evidence that can't be replaced without BWC evidence of the illegal search & seizure. Where property was destroyed showing very strong evidence of Brady violations that need sanctions. On Nov. 29 2024 Mr Brewton wrote, mailed, & notarized his pretrial motion to dismiss as a warning to this situation to Ms Wells & Mr Grubbs on both ignored his motion & both got fired for ineffective counsel because of the neglect to the Constitution violations being the main defense in his case seen in evidence "PTM" as proof of the Constitution violations to the lawyers. Evidence "conspiracy" shows a letter to Mr Grubbs & to Ms Wells conspiring to show the lawyers the motions & paper work from the Supreme Court on 2/19/2025. The judge gave them the documents showing them that I needed assistance with the Pretrail motions purposely giving Mr Brewton ineffective counsel as a favor for

former Sheriff Chuck Wright for the purpose of the misconduct, being that Ms Wells was a prosecuter for Sheriff Wright making Ms Wells major conflict of interest in my case. Please notarize this letter & evidence "PTM", "PTM"2*L), & "conspiracy". File these documents in the Ms Wells case of ineffective counsel against Mr. Brewton. Mr Brewton has had brain trauma & concussions & can't remember the file name an needs the clerks of court to get this to the write position even to the president of the U.S. if possible also filed in Ms. Wells open case as new evidence with 100% proof of the conspiracy to use Excessive Force (ECF) & acts of deliberate indifferent to serious physical harm an injuries with ineffective counsel causing a error of the court denying the PL's filed pretrial motions as a abuse of discretion by the SC. courts. Please expedite a oral argument about this situation. I am in a prison with very violent men & I need a speedy release for the facts that I'm here illegally using evidence from former Sheriff Chuck Wright now in federal prison for misconduct in Sc. Sheriff's office. The courts should notify President Donald Trump to schedule Mr Brewton release with a executive order for expungment of the (Mr. Brewton) record for Pardon for a speedy release now please applying Federal & SC Rules of Evidence 609(a) & 609(e). The evidence was insufficient to establish probable cause that the Def (Mr Brewton) was being arrested at the time of his decision to flee the police unlawful) arrest (state v Ricky Brannon (No. 4428). Fleeing the police officer's demand to stop did not constitute resisting arrest fearing for his life being a African American minority surrounded with white Dips. searching for their guns. The judge errored in the probable cause for resisting arrest not being under arrest before he ran/not being the person on the arrest warrant to challenge his current conviction (The State v Burton (no 25745). The trial's court's error in admitting evidence of search & seizure was preserved for appeal with evidence "PTM" of "A" "PTM"2 as real proof of the request to suppress evidence on constitutional grounds with a objection on the record to Judge Kelly.

Casey Major Brewton 9/26/26

The PL also has required surgery from having his wisdom tooth punched out by Depty Apple causing irreparable harm with injuries that required surgery to stop the pain from the SCo. Sheriff's assaults from excessive force. Mr Brewton received surgery on 2/22/23 on his right shoulder & oral surgery on 9/24/26 both severe injuries to mr. Brewton requiring the courts to hold preliminary emergency injunction relief with a evidentiary hearing to suppress the evidence to overturn Mr Brewton's current illegal & unlawful conviction following policy & procedures of SC & federal laws. Mr Brewton needs the Supreme Court of South Carolina to uphold the U.S. Constitution & expeditiously fax Donald Trump (President) a request for a executive order for release with a exectutive expungment of Mr. Brewton's record Before Oct 24 2026 as soon a possible to make america great again. Please foward this letter & evidence to the appellate defense counsel for Mr Brewton

The State of South Carolina

vs.

Craig Ninja Antonio Brewton

Motion to suppress all evidence fruit of a poisonous tree doctrine. Case no. 22090924 Arrest Warrants 2022A4210200673

This is a third motion to suppress exclusionary rule all evidence found on 9/19/22 during an illegal search & seizure with excessive force. Deputy Matthew Smith unlawfully blocked in a car driven by the Plaintiff (PL), seizuring the (PL) & the car at that moment. The sheriff officers had an arrest warrant for Marcus David Ross Barlow. Mr. Barlow was never on the scene making the search invalid, unlawful, & making Christopher Rojas police report an act of perjury lying about Mr Barlow being on the scene fleeing. The officers also confiscated legal money from a combination code bag (safe) & safe with two handguns not producing all of the funds into evidence leaving out $7,000 ($17,105) & destroying key exculpatory evidence (cellphone) without body camera being on for footage & without a present supervisor to supervise the illegal acts of misconduct. The state has conspired to cover up the victim's injuries along with excessive force (ECF) by placing the victim in jail in a cell without proper medical. The victim sustained serious physical injuries at 11:06 a.m. 9/19/22 & the search warrant was issued without probable cause after the injuries to cover up the acts at 11:53 a.m. on 9/19/22. I have never called 141 Tecanna Drive my home, I have never told the police that the residence is mine to put on my information as my place of residence, I was not in physical possession of any drugs, the residence (Tecanna) is Mr Barlow's home, I was not seen placing anything in the house, & I was not there for any drug transaction. The State destroyed potentially exculpatory evidence in bad faith violating my due process rights, & a brady violation by Christopher Rojas destroying cell phone.

Evidence "PTM" 2

The state maintained exclusive control over the evidence in which it is useful evidence of purchase of gun recipts, stimulus refund recipts, tax refund recipts, & transactions of proof of revenue from babysitting, cutting grass, & cutting trees. The smell of hemp/cannabis is not probable cause with a closed door & without exigent circumstances. Judge Mark Hayes II wrote a letter to both my private attorney & public defender to inform lawyers not to represent me showing bias & prejudice causing a breakdown in client (criminal def) & defense counsel (right to counsel). When the government deliberately interferes with the confidential (Judge Hayes) relationship between a criminal def & defense counsel violates 6th amendment right to counsel prejudices the criminal def. The judges acts caused the criminal def to fire both lawyers with the breakdown in the relationship leaving the def. Pro se. Any statement derived from the unlawful (illegal) search & seizure should be suppressed (State v Luna) with a Franks Hearing (Franks v Delaware) because of fruits of a poisonous tree. Due to outrageous government misconduct with Sheriff Chuck Wright being sentenced, this is apples from the tree of his misconduct. This is an extraordinary circumstance with me being seriously physically injured that can be solved by dismissing the indictment that has the probable cause tickets dismissed & also violates the warrant clause by misspelling Mr. Brewton's first Name (Criag) also making the warrant invalid. I have been injured more & harassed more in jail & outside of jail on bond showing a clear violation of my rights that allows me to be immediately released. Due to fast & speed trial violations also I should be released*
