Dear Clerk of SC Court of Appeals This is
Dashavan K Knox I feel like my lawyer didn't
have my best interest in my case he was focused on
another case that i had nothing to do with only thing
he did was get me a bond and get me on a ankle
monitor and after that he didn't apply himself
to help me with my case none while i was not incarcerated.
I wanted to go to trial the day i was forced to take the
30 year Plea he was like he already been telling the
Judge i was going to take the Plea and he wasn't ready to
go to trial so just take the Plea I feel like he
got me out the way and got my case over with and
just got my money. The evidence that the Solicitor
had stated during court was false evidence.
Also i was told i was guaranteed to get a certain
amount of time if i took the Plea. I feel that
i deserve a fair chance this time with someone
who has my best interest and actually can prove
my innocence instead of using my lack of law
knowledge and just take advantage of that.
