Hello this is Jalen Lee Brothers 00408207 im an inmate at Kirkland facility I recieved my appeal letter notifying that I filled for my appeal I just want to make sure my case is inside the court room im not representing I just want to make a concern my trial every testimony and every evidence should've been recorded first afternoon the Judge Young denied a direct Verdict motion on both Charges first the victim stated in a recorded video about the description he stated he didnt know what distictive color the Suspect was wearing the victim stated the hospital told him that he was shot 6 times but only 4 shell casings were on scene 2 bullets match the shell casings and the other 2 bullets did not match also forensic dusted the firearm for fingerprints they swab the trigger and grip and touch DNA tested POSITIVE for both sled experts testified touch DNA doesn't justify that some one shot the gun for appeal courts I been in the law library appeal courts look for accomplice liability which means Presenting evidence that Proof that someone was present at a crime scene no gun shot residue testing was never tested to determine if I discharge the firearm there is no camera footages of the crime scene there is no eurdence Drawing I was present at the crime scene there is no Physical evidence such has DNA being found at the crime scene the Judge Young made the Jury go back to deliberate the Jury left a letter saying everybody didnt agree by law the Judge erroed and not granting a mistrial instead he made the Jury deliberate again after he was suppose to declare a mistrial nobody witnessed anything happen but the victim and by law the one-witness rule determines that any testimony stating by a single person testimony is unreliable the Judge Young ignored that fact I have seen the

letters to Supreme Court I would like a response I dont
feel like PCR is required I feel that looking at the errors in
this case Should be on immediate retrial or immediate overturn of
all my charges also the detectives in the case detective bunker
they never presented digital evidence they collected my phone and
they never presented GPS monitor evidence that can track my
every movement my phone never traced backed to the crime scene
and they never presented that evidence at trial there is multiple
errors in this case I had a runaway Jury know my case is
public a news article state that I attempted to kill Lonhom during
an arm robbery where is my arm robbery conviction and where is
the charge this is a major defamation of my character I feel
like I didn't have a fair trial at all Please send me a
response has soon has possible I been in the law library I
seen you guys submitted five sentences convictions within 6 months
1 year and 2 years so im just viewing the appeal cases I have
investigated while I had access to the law library I was never
charged in a act I got convicted over a firearm that wasn't even in
my possession when it was found the detective said I fled from him
he testified that he was off duty and he was still in uniform he
never had his body camera on and an arrest was never made
that day detective miller made an approach they also ignored the fact
that the fire department sworn that they seen someone matching a
description in the area the detective stated he didn't see anybody throw
a backpack during the trial and stated he didn't witness anything happen
I have sent multiple letters to Supreme Court my appeal has been filed
