Narratives

Title: Narrative

Narrative:

M15 and E51 dispatched to uncx pt at Georgetown Hwy & Birthright Ave. E51 arrived to find a large tree trimming truck in the center median, partially in the westbound lane. Appeared to be an MVA, so E51 requested another engine. E51 took a blocking position and witnesses stated the driver was still in the truck and they did not think he was breathing anymore. E51 requested another ambulance for a possible cardiac arrest.

E51 personnel, with the help of one of the witnesses, removed the driver from the truck and set him on the ground. Confirmed cardiac arrest. BLS care provided until M15 arrived.

GCSO spoke to SCHP and advised them of the situation. SCHP would NOT be responding, since the truck did hit anything. E51 remained on scene until the truck could be removed from the median.
