evidence "Trump"

Sylw 2/28/34

Dear President Donald Trump,
Please make sure SCo. upholds the law, policies, & procedures.
My Name is Craig Ninja Antonio Brewton & I am
requesting for a executive order for expungment of
my record, a pardon, & release from the SC state
custody from prison for excessive force, illegal
search & seizure, & injuries from an unlawful arrest
on 9/19/22 left with a spinous process fracture of
my C7 vertebrae, dislocated right shoulder that
required emergency surgery, & a wisdom tooth that
required emergency surgery that was punched out
by a Spartanburg County Sheriff Dep. Apple violating
my due process with excessive force & denial/delay
of medical care showing deliberate indifference
to me. I had emergency surgery on a infection
in my mouth on 9/24/26 left infected in my
mouth by Spartanburg County on purpose to make
me suffer. The Spartanburg Co. (SCo.) Sheriff's illegally
obtained a cellphone & money from a closed safe broken
into without consent destroying property in evidence
without any BWC evidence of any evidence retrieved in
violation of section code 23-1-240 failure to comply
with Attorney General's Law Enforcement Directive
activating BWC in a timely manner before & after a
S&S (search & seizure). There was procedural errors
by Judge Keith R. Kelly denying me pretrial motions for requested
suppression with a evidentiary hearing applying the exclusionary
rule as fruits of a poisonous tree & substantive/
substantial errors violating due process allowing the courts
to admit illegally obtained evidence violative of my 4th &
14th amendments, destroying a cellphone in evidence, not bringing
exculpatory favorable old bills from the safe & exculpatory
cellphone that's favorable to me both not preserved for
trial, & allowed Dep. Clark & Dep. Rojas to conduct a
S&S without BWC activated where property

was destroyed. Applying to my case Federal Rules of Criminal Procedure Rule 12(b)(3)(C) (Pleadings & Pretrial motions) wasn't followed by SC. Judge Kelly when I requested a filed motion for pretrial evidence (PTM #1 & PTM #2) suppression of evidence. I have been attacked while in custody

by the State non aggressive & need emergency release to get the medical care I need. I waited over a year on a half for emergency surgery with a infection & could have died from the Neglect. The State of SC is liable for my injuries & I need a release because of the 100% proof that my rights is violated with injuries neglected. I need a executive order for the reversal of my conviction because of the State of SC's errors & mistakes in my trial. 2).

The State of SC is required to hold a evidentiary hearing when requested that I'm entitled to, violative of my 4th & 14th amendments) before trial as Rules of Criminal Procedure of SC & Federal rules & laws not followed by SC. The Sheriff Chuck Wright is their sheriff that now is in Federal prison for misconduct leaving his evidence used against me without credit, unable to use for trial purposes, & his evidence should be impeached with misconduct allowed in my case also. Sheriff Wright has a similar common scheme stealing money from me & Spartanburg County & the misconduct needs to be fixed.

Please make South Carolina Great again. Please release me & make Spartanburg County great again so I can save my family. There is clear errors & a abuse of discretion by Spartanburg County Courts that needs fixing. I pay my taxes, paid my taxes, & I need my rights. I'm requesting to be released before Oct/24/2026 for these Constitutional violations please & thank you for doing a great job serving this country & our people. The Sheriff Wright has been impeached & now his evidence needs to be impeached. Also SC. was in violation of my Const. rights to

objection to the Report
& Recommendations with
clear errors of the law and abuse
of discretion by the courts.

Dear Judge William S. Brown,
This is my objection to the District Courts Report & Recommendations.
My name is Craig Ninja Antonio Brewton and in this open
case is errors of the law & a abuse of discretion abusing
a direct indictment warrant ^{#202244310205657} used at the PL's bond
revocation seen in evidence "18" on file showing the
illegal & unlawful "arrest without probable cause seen
in evidence "PI" defendant exhibit "4" an "26" being dismissed
at the preliminary hearing with obvious chain of
command issues with errors in my name ^{spelling} an address
on the warrants & the names on the bond revocation,
motion & hearings. This method of litigation is illegal and
unlawful against the U.S. Constitution amendments. This
letter is pursuant to file this objection to the Report
& recommendations. This case shows plain clear errors
from Spartanburg County (SCo.) seen in the **78** pages
of newly discovered ^{evidence} entered into evidence not available
at trial about the Sheriff Chuck Wright & the
Deputies (Dep.) that seriously severely injured Mr
Brewton (PL) on 9/19/22 at 11:06am seen in evidence
"XK", leaving the PL left with permanent partial disabilities
of his neck, cervical spine & his right shoulder that
was dislocated by Dep. Smith's arrest depriving the
PL of his 4th & 14th due process rights injuring the
PL seen in evidence "SRHS" that required surgery on
2/22/23 seen in evidence "surgery" with receipt
holding the Def(s) liable for the payments the PL made
for himself from the neglect from the Def(s)
that has the PL being in debt. SCo. Courts refused/
denied to give the PL a requested Evidentiary Hearing for
"search & seizure with unreasonable" required

1) Sheriff Wright, SCo, & Kathy White was responsible for the PL's Medical care. Suppression of the illegally obtained evidence using/applying the exclusionary rule as fruits of a poisonous tree with destroyed property, suppressed property, missing evidence, & Brady violations also. 1)

The illegally obtained evidence that was/is favorable to the PL being that it was a destroyed cellphone Q#17,405 leaving out \$11,000 missing from evidence old collectable bills dating back to the 70's & 80's from a closed safe that was locked, broken into without consent also without BWC by Dep. Rojas & Dep. Clark when the illegal search & seizure ^(SAS) was effected or turned on in a timely manner before & after the search to determine any times with excessive force (ECF) seriously injuring the PL without any appearance for pretrials & motions not following South Carolina (SC) & SCDC policies & procedures of the rules of the evidence & criminal or civil procedure was violative of the PL's 4th & 14th amendments of the U.S. Constitution. The PL was illegally searched & seized with his property in case No: 2022-CP-42-04835 found in the place searched that was not his home, the PL is a visitor without actual & constructive of any drugs leaving Dep. Smith without probable cause for the arrest that has effected the PL seen in evidence "SCP." When a persons rights has been violated of the 4th & 14th amendments obtaining evidence that was violative of the 4th & 14th amendments there should be a pretrial motions held for a evidentiary hearing is requested with serious injuries. The PL requested & filed on the record of SCo. also seen in evidence "PTM"1 "PTM"2 filed motions in the SCo. courts on the record what are pretrial motions filed on notarized as proof by the clerk of court (Amy Cox) by the PL. The Judge (Keith R Kelly) made a Jurisdiction error, procedural error, & a substantial error that effected the fairness of the outcome of the case admitting illegally obtained evidence also failing to comply with the procedures, rules, & steps in the legal process caused by

without a hearing
1) There is a conflict of interest with SCo. & Sheriff Chuck Wright in this case & in case 0:25-cv-01093-RMG. the decision maker's exceeding their power or authority causing reversible errors. The Judge made a plain clear error in following the SC & SCoDC policy & proper procedures admitting illegally obtained evidence into evidence to trial that was violative to the PL's rights of the 4th & 14th amendments. The PL has clear errors & violations in his case with both Deputy Clark & Deputy Rojas conducting a illegal S&S without BWC of the evidence of the times, only leaving the time of injury to prove the violations times. All of the deputies including Dep. Smith & Inv. J Gilstrap in the search warrant "SK" with obvious fabricated testimonies on the record with lies & perjury with also spoliation destroying evidence & suppressing evidence that should have been preserved for civil litigation. with exculpatory favorable ^{old} collectable ^{value} missing never seen ^{on BWC} evidence. The obvious injury & times that the PL was arrested in the picture proof evidence "K" of the PL seen arrested and not detained like in the reports unable to walk injured obviously & unable to get out the handcuffs to let the nurse diagnose his right shoulder dislocation to see if the PL could lift his right arm. The police & the hospital ^{staff} didn't follow the proper policy & procedures diagnosing the PL's right arm with handcuffs on. The SCo. Judge Keith R Kelly didn't follow the proper Court policy & procedures depriving the PL of his rights to have a evidentiary hearing held violative of the PL's 4th & 14th amendments due process substantive/sub-stantial & procedural rights. The PL still is injured with severe injuries seen in evidence "SRHS" as 100% proof, as of right now the PL has pains that have gotten worse by the day with cell mates dying without care, with the PL finally getting out of emergency surgery that had a infection on 9/24/26 still trying to recover from the infection & surgery left without the proper medical being a big liability seen in evidence "2" being the certified letter for demand with receipt sent on 10/4/23 left in a uncontrollable violent environment to die.

evidence: (8:26-cv-0307-RMG-WSE)

1) Please get President Donald Trump to sign off on this motion/objection for a executive order for expungment of the PL's record, pardon & release from the SC prison custody. The president is needed/required to view all of this evidence.

Also seen in evidence "2" shows the PL should have had some money as proof of income being the money & cell phone in the civil forfeiture seen in evidence "SCP."")

The PL had to have emergency surgery injured by Dep. Apple's unlawfulness seen in case #8:26-cv-01213-RMG injuring the PL more & more due process violations with serious injuries. There is clear error's on the face up for debate of the misconduct on the record of the very similiar misconduct towards the PL & SCo. done by Sheriff Chuck Wright as his common schemes of plans to deprive the SCo. & the PL's money that's exculpatory, favorable, & collectable valued evidence used against the PL in his current conviction without any constructive &/or actual possession of any drugs without a valid ID of any suspect on the scene without a active warrant for the PL is a major violation of SC state & Federal laws. The PL's obvious substantive rights was violated sending the PL to prison without emergency dental surgery in violation of policy & procedures SC & SCDC code H.S. -18.05 failing to comply with Attorney General's Law Enforcement Directive being allowed misconduct showing deliberate indifference to the PL's injuries & care. There is obvious misconduct in SCo. Sheriff's Office by Sheriff Chuck Wright seen in evidence "Wright." My cases & Sheriff Wright has a casual connection showing common similiar schemes with missing/destroyed evidence an money that has not been seen again with his unlawful & illegal allowed misconduct while in SCo. Sheriff's Office. This court should have a evidentiary hearing held to diagnose Mr. Brewton's very creditable notes up for debate to see the specific times, photos, also injuries with a unlawful arrest without the proper medical care leaving the PL to pay the neglected bills of his very serious surgery that he could have died from multiple times, & with fabricated testimonies/evidence with destroyed

property in violation of the 4th & 14th amend(s). The PL was also diagnosed at the SCo. Det. Center & still didn't get the PL emergency surgery after seeing that the PL couldn't lift his arm once diagnosed by the SCo. staff & the District Court should file a reopening of his case: 0:25-W-01073-RMG relating back to the first filed date before my statute of limitations ran out applying Federal & SC state laws of the rules of civil procedure 15(c)1. The PL's time shouldn't get wasted with a valid claim in this court that is being ignored seeing that Dep. Smith didn't have a valid warrant for the arrest or facial ID of his suspect on the arrest warrant. The evidence used against the PL shows clear obvious deprivation of his rights by the State of SC actions & applying Federal & SC Rules of Evidence Rule 609(a)1, 609(a)2, 609(e), 404(a), & 404(b) as proof that Sheriff Wright's evidence is inadmissible to prove guilt against the PL being without credit attacking the witness character for truthfulness by evidence of a criminal conviction to Sheriff Wright now in federal prison & from dishonesty on false statements to the Deputy Reports to obtain a current defective search warrant seen in evidence "SW" showing clear injustice injuring the PL seriously without any hearings showing prejudice to the PL not allowed a fair trial like guaranteed in the U.S. Const. ⁴Admitting illegal unlawful obtained violative of the PL's rights is very serious & prejudicial to the PL's cases. The error of SCo. can't be reversed prejudicing the PL's substantial & substantive rights. SCo. & The District Courts is/has not followed/following the proper policy & procedures applying the SC & SCDC the rules of evidence without a evidentiary hearing for suppression of the illegally obtained evidence violative of the PL's 4th & 14th amend(s) with also temporary restraining orders & Emergency Preliminary Injunction Relief ¹an also habeas corpus reviews ². The State has failed to show probable cause ³that the money proceeds ¹seen in evidence "EPIR" ²for clear errors. ³(for seizure & arrest) ⁴Dep. Smith decided to arrest me without probable cause,

was used in illegal drug transactions without drugs in the locked an closed safe without consent from anyone. 4).

The PL has on file evidence "PTMX" being a motion pursuant to Federal & SC state Rules of Evidence 609(a)1, 609(a)2, 609(e), 404(a), & 404(b) to impeach Sheriff Wright's evidence seen with his name on it in constructive & actual possession of the unlawful/illegally obtained evidence an knew of his Dep(s) misconduct, allowed the misconduct knowing of the Constitutional violations, & had a scheme to steal funds from closed safes & accounts of funds from the PL & SCo. also without BWC of the S&S. The PL has witnesses & clear affidavits with merit stating the facts an claims to the case with ^{clear} injuries, S&S, & deprivation that has occurred from the ^{allowed} misconduct from Sheriff Wright while in the SCo Sheriff's Office that was allowed by SCo, & their policy makers that makes this case a error of the law depriving SCo & the PL of their funds without the proper pretrial motions, hearings, & jury trial to debate the clear facts of federal laws being over \$10,000. The State of SC has adopted a common scheme stealing money without BWC allowing Sheriff Wright to commit acts of misconduct against both the PL & SCo's funds & account of SCo. The State of SC is held liable with Dep Smith & Spartanburg Medical Center's registered nurse A. Ashleigh are liable for supervisory liability for deliberate indifference not following SC & SCDC policy & procedures of handcuffs when diagnosing a shoulder injury as serious as a dislocated limbs & left with a fractured C7 spinous process fracture along with Kathy White ignoring medical notes for medical appointments. 5)

By law of the U.S Constitution this is a valid claim with plain clear errors in the court's depriving the PL of his substantive/²⁾rights & procedural rights showing major prejudice in the PL's cases.³⁾ The evidence seen in

"SCSC" is enough evidence that shows 100% proof of

4) The States process is presently ineffective injuring the PL More seen in case no.

8:26-CV-03070-RMG in violation of cruel & unusual punishment with deliberate indifference.

3) With the clear errors on the face of the record this court can not accept the report & recommendation for this case with the PL in imminent dangers.

1) signed 2) substantial 5) The Deps had a warrant for Marcus Barlow not the PL.

of the illegal and unlawful arrest seen in the case for the PL's current conviction that is lawfully unlawful & illegal against the U.S. Constitution rules & regulation. The SC's judges actions was⁵⁰ unquestionably erroneous & deprived the PL of the State & Federal laws & rights showing injustice with the so obvious & prejudicial substantial rights⁵¹ that the courts violated that should be redressed with serious physical injuries at hand, up for debate for the PL's fast & speedy release. The SC did not follow the laws & the policy and procedures of the law with allowed misconduct⁵² by the Sheriff on the State of SC. The PL's case was in the wrong jurisdiction being in the SC state court when obviously \$10,405 is federal jurisdiction that⁵³ needs review of the defective warrant, search warrant, & Brady violations with ECF on serious injuries that the State of SC didn't pay for leaving the PL & the State of SC in debt. When ever there is misconduct & a audit⁵⁴ in the/a office of the State, the courts should hold a pretrial hearing with all of the multiple cases⁵⁵ in the past 5 years in the State of SC if a evidentiary hearing is requested like seen in "PTM"¹ & "PTM"² evidence. Any money past \$9999 is federal jurisdiction that is why funds are seized if it is over \$10,000. The deputies did not hit on the house or the closed safe with a drug dog to follow the SC, SCDC, & Federal policy, procedures, & laws. This case is misconduct derived from Sheriff Chuck Wright now in ^{federal} prison for misconduct, & hearing shall be held to sort out the misconduct, errors, & purposely^{done} mistakes of bad faith of the law. The Def(s) showed constituting unnecessary & wanton infliction of pain making the PL wait without surgery seen in this case & in case 0:25-cv-01073-RMG (errors, ² with misconduct ³ required/ ⁴ review ⁵ & kidnapping the PL) 10/2/26 Craig Moya Antonio Munton lack the jurisdiction

6) SC's arrested me without a arrest warrant for malicious prosecution, false arrest, & false imprisonment. Judge Kelly caused a abuse of discretion denying me my pretrial motion for suppression seen in evidence "PTM"¹ & "PTM"² not following SC & Federal rules of criminal procedure Rule 12(b)(3)(C) (Pleadings & Pretrial Motions). The Dep(s) arrested me without a facially valid warrant.

There is a chain of command misconduct in this case applying SCRC in Proc. Rule 6(b) & Rule 2(c) without probable cause at the preliminary hearing. Dep Smith injured the PL first then got a search warrant signed late by a judge after my rights was violated with very serious injuries seen in evidence "SRHS" with the times. Sheriff Chuck Wright as Spartanburg Co. policy-maker allowed misconduct towards the PL knowing of the unlawfulness of the Deputies injuring the PL in their official capacities & their individual capacities. Sheriff Wright allowed the obvious obstruction of evidence & the attorney general's being the policy makers allowed repetitive acts of misconduct. The Attorney General Alan Wilson & Assistant attorney general Carly H Davis knew of my complaints to Sheriff Wright & the Spartanburg Co. Sheriff's Office and ignored my complaints with my clear injuries. This is a morell claim to sue everyone in this complaint for the Const. violations. Spartanburg County & The City of Spartanburg encourages excessive force on African Americans to prove a point showing deliberate indifference to the PL's injuries. The Dep(s), Sheriff Wright, & the Attorney Generals tacitly authorized & were indifferent to my prison physician's misconduct only allowing me the bare minimum constituting unnecessary & wanton infliction of pain with my injuries on my punched out wisdom tooth for over a year and a half. There is clear errors in the procedural misconduct & the due process violations injuring me without treatment at Spartanburg County first before being shipped to prison. Evidence "SRHS" shows that Spartanburg Co. knew that I was injured & Kathy White ignored the Spartanburg Regional notes from the medical doctor and encouraged the mistreatment to Mr Brewton with allowed misconduct by the State. I'm requesting a evidentiary hearing to hear my debate for my release as soon as possible before Oct. 24 2026 please I'm still in daily pain in need of a real doctor before this issue/situation gets even warser than it already is. There also is a violation of the PL's Const. right to a speedy trial & an error in the grand jury indict. & preliminary hearing Fed. Rul. Crim. Proc. 12(b)(2)

This is a motion pursuant to Federal & SC Rules of Evidence 609 (a) & 609(e) attacking Sheriff Chuck Wright's witness character for truthfulness by evidence of a criminal conviction & from dishonesty an false statements in the Deputy Reports, affidavits, & search warrants using impeachment of evidence by a criminal conviction of the Sheriff Wright. The evidence used in Mr Brewton's criminal conviction lacks credibility & are extremely prejudicial without BWC of the search & seizure where property was destroyed & stolen from a closed safe being favorable exculpatory evidence. With the 100% proof & evidence of error of the law that can overturn the prior conviction record & is a abuse of discretion denying PL his entitled an requested evidentiary hearing for brady violations, franks hearing, & suppression of illegally obtained evidence applying the exclusionary rule violative of his 4th & 14th amendments requested as a filed pretrial motion. There is fraud in the courts with the unfair use of power to cheat Mr Brewton out of his entitled pretrial motion for suppression as fruits of a poisonous tree on the record during trial. There was jurisdictional errors caused by the decision-makers exceeding their powers abusing the use of a direct indictment without probable cause & mistakes in complying with the rules or steps in the legal process of pretrial hearing & motions requested. The courts procedural error with the mistakes of complying with the rules an steps in the legal process to the pretrial motions filed evidence "PTM" & "PM" caused a reversible error that affected the PL's substantive rights & caused his substantive rights to be violated effecting the outcome of the cases. The prejudicial errors in the PL's criminal case an conviction has caused damage or detriment to the PL's legal rights & claims. The Spartanburg County (S.C.) Court of (GS)

2 (a) General Sessions abused its discretion admitting evidence violative of the PL's 4th & 14th amendments. The search warrant is/was defective on the 4th amend. grounds & the exclusionary rule applies with impeachment of the evidence seen in evidence "*F". Evidence "SW" also states fabricated lies that Mr Brewton was detained when he was actually arrested seen as proof of the time of arrest in evidence "*K" arrested at 11:06 am before the search warrant was signed late at 11:56 am on 9/19/22 after the PL was unlawfully searched & seized with severe injuries. Evidence "14" & "RC" shows the fabricated Deputy Reports that I admitted to Dep. Smith that I had just finished smoking weed, that was a lie in court on the record also on that I was detained. Evidence "*H" & "*D" shows that both deputies Clark & Rojas did not wear or have on BWC during the illegal search & seizure destroying property failing to complying with attorney general law enforcement directive being in violation of section code § 23-1-240 & acts of misconduct destroying exculpatory evidence (cellphone) also showing acts of spoliation seen in evidence "*D". Evidence "*F" also shows that former Sheriff Wright had & has constructive & actual possession of the illegally obtained evidence used against the PL in his current criminal conviction that should be overturned. Former Sheriff Wright has been sentenced & convicted to federal prison for misconduct in the Sco. Sheriff's Office making Sheriff Wright's evidence without credit being illegal & unlawful to use in court for trial against Mr. Brewton. The PL did not have actual &/or constructive possession of any drugs or keys when arrested. There is also acts of bad faith in the criminal case & the acts of misconduct will effect the outcome of the criminal & civil cases with prejudice. The charges should be dismissed, expunged, & the PL should be released. The PL's appeal is pending applying federal & SC rules of Evidence rule 609(e) the evidence should be suppressed during the pendency of the appeal. Please forward this motion to the SC. Court of Appeals for release.

My cases shows the Defen's evil motive to get Craig Nix, Antonio / Grant on 9/24/26

The PL wants a executive order of expungment of his record with a pardon & release signed by Donald Trump "the President" from prison. This is character evidence of financial crimes admissible to prove "conduct money common share's & destruction of evidence.

Motion to dismiss for lack of
jurisdiction

This is to dismiss the charges used against Mr Brewton in his current conviction. This motion to dismiss is for the lack of jurisdiction. The State has made a mistake trying this case in General sessions when the evidence found was over \$10,405. This case should have been tried in federal court dealing with the evidence over \$10,000, with injuries, & brady violations. Spartanburg County has made a jurisdictional error trying this case with a conviction that is illegal and unlawful. This jurisdictional error is enough to reverse the courts decision to dismiss the current charges in Mr Brewtons Current conviction. The correct amount that was seized was \$17,405 stolen from a closed locked safe, without consent, & without BWC of the illegal search & seizure where property was destroyed not having proof of the start & the finish of the search & seizure. The only time documented is the time of Mr Brewton's injuries at 11:06 am on 9/19/22. Mr Brewton's cellphone was destroyed in evidence, with his safe destroyed, & \$17,405 was never seen or found being that both the money & the cellphone was favorable, exculpatory, & collectable old bills saved up. The search warrant was signed late at 11:56 after Mr Brewton's injuries. The State has failed to comply with Attorney General Law Enforcement Directive code 23-1-240 activating BWC at an in a timely manner.

Rule 609(a)(1) & (a)(2), 609(e), & Rule 404
(a) & (b), 28 U.S.C.A. suppressing illegally
obtained evidence & impeachment of evidence

This is a motion pursuant to Federal & SC Rules of Evidence ^{rule} 609(a), 609(e), 404(a), & 404(b) attacking Sheriff Chuck Wright's witness character for truthfulness by evidence of a criminal conviction from dishonesty on false statements in the Deputy Reports, affidavits, & search warrants committing acts of perjury causing a prejudicial effect to the accused using impeachment of illegally obtained evidence violative of the accused 4th & 14th amendments. Sheriff Chuck Wright's character evidence is not admissible to prove conduct, exception, other crimes of character evidence generally, other crimes, wrongs, or Acts. The evidence used against Mr Brenton applying Rule 403 with the exclusion of relevant evidence on the grounds of prejudice, confusion, & waste of time having Mr Brenton locked up. This case shows bad act money schemes stealing money from Mr Brenton & from Spartanburg County on their bank accounts by Sheriff Chuck Wright. There was unfair prejudice in the General Sessions trial in Spartanburg County against Mr Brenton. The evidence used in Mr Brenton's criminal conviction lacks credibility & is extremely prejudicial without BWC evidence/footage of the Search & Seizure (S&S) of the start time & end time of the unlawful S&S where property was stolen from a closed safe being favorable exculpatory evidence, ^{with} a cell phone destroyed in evidence, & with missing collectable money. With this case is 100% proof & evidence of clear errors of the law that can overturn the prior conviction record & a abuse of discretion in Spartanburg Co. filed pretrial motions on file. There is fraud upon the courts with the perjured testimonies at trial, fabricated affidavits, fabricated Deputy Reports, & Search warrant causing a unfair use of power to cheat Mr Brewton out of his entitled pretrial motion for suppression as fruits of a poisonous tree on the record during trial. There was jurisdictional errors caused by the decision-makers exceeding their powers abusing the use of the direct indictment without probable cause, abusing the use of a dismissed probable cause charge (resisting arrest) at the bond revocation illegally arresting Mr Brewton making mistakes in the courts complying with the rules on steps in the legal process to the filed pretrial motions seen in evidence "PTM" & "PTM" 2. These mistakes & errors caused a reversible error that affected the PL's substantive/substantial rights & caused his substantive/substantial rights to be violated effecting the outcome of the cases. The prejudicial errors in Mr Brewton's criminal case an conviction has caused damage or detriment to the Defs legal rights & claims. The Spartanburg County (S.C.) court of General Sessions abused its discretion admitting evidence violative of his 4th & 14th amend(s). Evidence "H" & "D" shows that both deputies Clark & Rojas didn't wear BWC or have it on during the illegal SBS destroying property failing to comply with Attorney General Law Enforcement Directive being in violation of code 23-1-240 & with Brady acts of misconduct destroying favorable exculpatory evidence.

(cellphone) also showing acts of spoliation an needed sanctions seen in evidence "D". Evidence "F" also shows that Sheriff Chuck Wright had/has 100% constructive & actual possession of the illegally obtained evidence used against Mr Brenton in his current criminal conviction that should be overturned. Former Sheriff Chuck Wright has been convicted/sentenced to Federal Prison for misconduct in the Spartanburg Co. Sheriff's Office making Sheriff Wright's evidence without credit, being illegal, & unlawful to use in court for trial against Mr Brenton. Mr Brenton didn't have actual &/or constructive possession of any drugs, keys, or anything when he was arrested. There is also acts of bad faith in his criminal case & the acts of misconduct will effect the outcome of the criminal & civil case causing prejudice. The charges should be dismissed, expunged, & Mr Brenton should be released. The Det's appeal is pending an applying Federal & SC Rules of Evidence Rule 609(e) the evidence should be suppressed during the pendency of the appeal. Please reverse this conviction of 25 years. Mr Brenton wants a executive order of expungement of his criminal record, with a signed pardon, & release signed by the President Donald Trump for release from prison as soon as possible god speed God bless. This case is 100% character evidence admissible to prove misconduct common money schemes & destruction of evidence by Sheriff Chuck Wright while in office that was allowed an encouraged by Sheriff Wright. There is jurisdictional errors when this case is a federal case with evidence over 10 000, a federal case held in the SC State court is the wrong jurisdiction.

This is a motion pursuant to Federal Rules of Evidence Rule 609(a)(1) attacking Sheriff Chuck Wright's witness character for truthfulness by evidence of a criminal conviction & 609(a)(2) from dishonesty & false statements in the Deputy Reports, affidavits, & search warrant. The evidence used in the PL's criminal conviction has the lack of creditability & are extremely prejudicial. With the proof & evidence of error of law that can overturn the prior conviction record & abuse of discretion denying the PL his entitled evidentiary hearing for brady violations, the exclusionary rule, & suppression of evidence obtained violative of his 4th & 14th amendments requested as a filed pretrial motion with also a requested Franks hearing. There is fraud on the courts with the unfair use of power to cheat Mr Brewton out of his entitled pretrial motion for suppression requested on the record during trial. There was jurisdictional errors caused by the decision-makers exceeding their powers abusing the use of a direct indictment without probable cause. The courts procedural error with the mistakes of complying with the rules on steps in the legal process to the pretrial motions filed causing a reversible error that effects substantive rights & substantial errors that affected the PL's substantive rights & the outcome of the case. The prejudicial errors in the PL's criminal case an conviction has caused damage or detriment to the PL's legal rights & claims. The Spartanburg County Court of General Sessions abused its discretion admitting evidence violative of the PL's 4th & 14th amendments. The search warrant is defective on 4th amendment grounds & the exclusionary rule applies with impeachment evidence seen in evidence "SW" that states Mr. Brewton was detained when he was actually arrested seen as proof of the time an arrest in evidence "AK". Evidence "14" & "RC" shows the fabricated deputy reports that I had admitted to Dep. Smith that I had just finished smoking weed that was a lie in court also & that I was detained. Evidence "AL" & "AD" shows that both deputies did not wear BWC an have BWC on during the illegal search & seizure destroying property failing to comply with attorney general law enforcement directive being in violation of § 23-1-240 & misconduct destroying exculpatory evidence (cellphone) showing acts of spoliation seen in evidence "AD". Evidence "AF" also shows that former Sheriff Chuck Wright had/has constructive & actual possession of the illegal evidence used against the PL in his criminal conviction that should be overturned. Former Sheriff Chuck Wright has been sentenced & convicted to federal prison for misconduct in the Spartanburg County Sheriff's Office making Sheriff Wright's evidence illegal & unlawful to use in court for trial. There is acts of bad faith in the criminal case & the acts will effect the outcome of this civil case with prejudice. The charges should be dismissed/expunged & the PL should be released. The PL's appeal is pending applying SCRE rule 609(e) pendency of appeal.

This is a motion pursuant to Federal & SC Rules of Evidence 609(a) & 609(e) attacking Sheriff Chuck Wright's witness character for truthfulness by evidence of a criminal conviction & from dishonesty an false statements in the Deputy Reports, affidavits, & search warrants using impeachment of evidence by a criminal conviction of the Sheriff Wright. The evidence used in Mr Brewton's criminal conviction lacks credibility & are extremely prejudicial without BWC of the search & seizure where property was destroyed & stolen from a closed safe being favorable exculpatory evidence. With the 100% proof & evidence of error of the law that can overturn the prior conviction record & is a abuse of discretion denying PL his entitled an requested evidentiary hearing for brady violations, franks hearing, & suppression of illegally obtained evidence applying the exclusionary rule violative of his 4th & 14th amendments requested as a filed pretrial motion.

There is fraud in the courts with the unfair use of power to cheat Mr Brewton out of his entitled pretrial motion for suppression as fruits of a poisonous tree on the record during trial. There was jurisdictional errors caused by the decision-makers exceeding their powers abusing the use of a direct indictment without probable cause & mistakes in complying with the rules or steps in the legal process of pretrial hearing & motions requested. The courts procedural error with the mistakes of complying with the rules an steps in the legal process to the pretrial motions filed evidence "PTM" & "AM" caused a reversible error that affected the PL's substantive rights & caused his substantive rights to be violated effecting the outcome of the cases. Motion for a evidentiary hearing for

evidence used against the PL in his current
conviction/sentence with a presidential/executive pardon.

(memorandum) 1) brady violations

This is a motion for a entitled evidentiary hearing to be held for 1) suppression of the evidence used against the PL violative of the PL's 4th & 14th amendments of the U.S. Const. for his current conviction/sentence. The evidence used against the PL in his current conviction was illegally/unlawfully obtained at 11:06 am. on 9/19/22 after the PL was seized & injured seen in evidence "AK" also with a search warrant signed late at 11:56 am on 9/19/22 seen in evidence "SW" after the PL was injured & illegally searched & seized by Sheriff Chuck & his deputies from operation "rolling thunder". Sheriff Chuck Wright has been sentenced to federal prison & convicted for misconduct with evidence in the Spartanburg County Sheriff's Office & the Sheriff Wright & his deputies have/had constructive & actual possession of the evidence used against the PL in Spartanburg County Court of General Sessions being illegal. The evidence is without credit for trial & was brought up at trial about in a pretrial motion for suppression, & should not be able to be used against the PL with the allowed misconduct in the Spartanburg County Sheriff's Office & Sheriff Chuck Wright. There is/was a abuse of discretion by Spartanburg County Courts & their Judges denying the PL a pretrial motion that the PL was/is entitled to a evidentiary hearing for the suppression of evidence obtained violative of the 4th & 14th amendments (seen in evidence "PTM" of the filed Pretrial Motion). I'm requesting a executive & Presidential pardon for the PL's release from SCDC prison after viewing this motion, evidence "AK" & evidence "SW" by President Donald Trump. The PL (Mr Breton) is in imminent danger with a infection in the PL's mouth in his wisdom tooth that was punched out by Spartanburg County Sheriff's & needs to be released to get emergency medical surgery on his fractured wisdom tooth that hurts extremely bad, bleeds, is infected, causes fever, & swelling of the jaw with stiffness that has been neglected from surgery for over a year & six months injured, seen in evidence is proof that Sheriff Chuck Wright had actual possession & constructive possession of the evidence used against the PL in the Court of general sessions for Spartanburg County making the evidence illegal & his current conviction unlawful seen in evidence "F". The 3/27/26 conviction should be reversed & the PL should be released for surgery with a emergency Presidential pardon signed off on the motion by the executive. Expediently forward this motion to be signed off for release To Timothy M. Cain the chief U.S. District Judge & President Donald Trump.

8:26-cv-01213 RMG-WSB

Plaintiff's (PL) claims against Defendants Thomas Apple & Richard Batton for vicarious assaults & batteries from Sheriff Bill Rhyne & Sheriff Chuck Wright who failed to investigate for supervisor liability arising from two incidents allegedly occurring while he was housed at the Spartanburg County Det. Center (SCDC) as a pretrial detainee. First PL alleges that on 4/26/25, Dep. Apple instructed him to return to his cell everytime that he was on duty because he was on lockdown, but was just out on rotation earlier that day which can be seen on SCDC camera footage. PL alleges that he requested to speak with a supervisor & seek medical attention from a prior incident when Dep. Apple shoved the PL in the room hurting him already.

(PL)

Evans CI

PO Box 2951202

Bennettsville, SC 29512

After which an altercation allegedly occurred between PL & Deputy Apple shoving the PL again trying to hurt him more. PL alleges that he had a swollen bloody nose & a broken/fractured wisdom tooth as a result of the incident that requires emergency medical surgery. Second, PL alleges that on 12/22/25, he repeatedly banged and kicked on his cell door seeking medical attention for choking on a chipped tooth from eating on the right side of his mouth unable to eat on the left side of his mouth from deputy Apple's assault. PL alleges that after the door opened, he exited his cell thinking he was let out & entered the hallway to go speak with medical who he saw earlier. PL alleges the Sergeant Batton pointed a taser at him while he was non-aggressive after he just got finished tazing someone & subsequently deployed his taser on the PL while he was facedown on the ground defenseless despite PL's compliance to get facedown on the ground. During the incident the PL was cuffed on the back with prior surgery & injury on his right arm that they knew of & hogtied style carried the PL out of the dorm in cuffs on the PL improperly violating SCDC & Spartanburg County policy of handcuffing a injured inmate with a prior arm/shoulder injury that required surgery injuring the PL more seen in evidence "SRHS" on file. PL further alleges he told the Def(s) before cuffed about his injuries & that he needed an ambulance that the Def(s) delayed & denied professional hospital medical treatment following these incidents by the Def(s) & by Nurse Mary Jane showing deliberate indifference as pretrial punishment along with the ECF from tazings & beating. The PL suffered continuing dental issues still till now as a result. In addition to alleging Excessive force (ECF), PL asserts that Def(s) actions were motivated by evil motives of retaliation locking down the PL on lockdown with BMU disciplinary to stop the PL from using the law library for his case also in retaliation to his grievances & complaints he previously filed against Sgt Batton seen in case 8:24-cv-09655-RMG-WSB being a conflict of interest in these cases. PL further alleges that 3 or more Def(s) engaged in a conspiracy to use ECF & deliberate indifference to violate his Const. rights & makes various references to racial discrimination & equal protection being that SCDC allowed Robert Ray Foster Jr to get emergency surgery being a white male before being sent to prison & not allowed to the PL emergency surgery before being convicted racial profiling the PL violating the PL's Due process punishing the PL with ECF & deliberate indifference not allowing the PL to go to the hospital when injured. PL seeks \$444,000,000 punitive & compensatory damages & relief under 42 U.S.C. § 1983 & 1985. The Def(s) are involved in a monell claim & because of the Def(s) unlawfulness of the Def(s) misconduct from ECF & denial of medical being deliberately indifferent to the PL serious irreparable fractured wisdom tooth & injuries, it was clearly established before & at the time of the misconduct informing the Def(s) of the PL's injuries in a certified letter on 10/5/23 labeled evidence "2" to the Def(s) & to the courts also ignored being told in person getting cuffed. The Def(s) aren't entitled to the qualified immunity defense being & acting plainly incompetent to my clearly visual injuries & knowingly violating the federal laws of & against ECF & being deliberately indifferent to African Americans (AA) like the PL's serious physical irreparable injuries leaving the PL unable to eat without pain, with permanent partial disabilities of the cervical spine & of the right shoulder. The SC state police Department & the Def(s) in the Colors of Spartanburg county engaged in patterns & practices of ECF & being deliberately indifferent to race based acts of misconduct against AA minorities in violation of the 14th amend. The policy is the moving force which allows injuries, ECF, & deliberate indifference against AA & the PL. The Def(s) was under the SC colors of Statute, ordinance, regulation, custom, & or usage of SC that caused the PL a U.S. citizen to be subjected to deprivation of rights & injuries & the Def(s) are held liable. The Def(s) have shown acts of suppressing, insurrection, & rebellion against U.S. Const. Federal laws. Sheriff Bill Rhyne & Chuck Wright are the lawmakers & allowed the Const. violations even Craig Ninja Antonio Brewton 8/2/26 though they was notified about the PL injuries. The PL also wrote grievances to keep Dep. Apple away from PL prior to the incident.

Both Deputy Apple & Sgt Batton has committed brady violations with injuries while violating SC policy SCDC policy HS-18.01 & SCDC SC policy OP-22.13 requiring front cuffing because of medical injury conditions & physical restrictions. The Def(s) have failed to comply with attorney general law enforcement directive being South Carolina policies. All of the Def(s) in this complaint are to be sued in their official capacities & their individual capacities. The Def(s) used ECF as punishment manifesting injustice because of the clear errors of law with the arresting officers not having probable cause for the PL's detention & current conviction. The Def(s) knew that the PL filed a motion for suppression in Spartanburg County Courts seen in evidence "PTM" & punished the PL & treated the PL very badly denying him emergency medical surgery. There is a abuse of discretion with the Spartanburg Co. Courts denying the PL's pretrial motions for suppressions & punished the PL. The Def(s) knew that the PL was injured at 11:06 am on 9/19/22 seen in evidence "X/K" & the search warrant was signed late after the PL's injuries at 11:56 a.m. on 9/19/22 seen in evidence "SW" making the PL's arrest & current conviction unlawful/illegal from the unlawful search & seizure. The evidence "CB" shows that the PL's injuries has gotten worse with picture proof. This complaint is new evidence with the other 14 pages newly discovered. Attorney General Alan Wilson vs to blame allowing misconduct with Assistant Attorney General Carly H Davis allowing brady violations ignoring complaints, lawsuits, & clear errors of the law with cautions. The District Attorney's office is held liable for failure to train their deputies & prosecutors as was deliberately indifferent to the need to train their deputies & prosecutors about their brady acts & violations prejudicing the PL left with injuries showing prejudice to his cases. Spartanburg Co. courts used a abuse of discretion using a dismissed resisting arrest (probable cause) charge to revoke my bond at my bond revocation hearing seen in the motion to revoke my bond on 2/8/24 causing a error of the law denying the PL's pretrial motions to follow the SC & SCDC state policy & procedures. The PL wants a executive expungment of his record with a Pardon & Release by the President Trump. The Sheriff's & the Spartanburg County staff are held liable when they knew that surgery was required noted by MD David Kerner seen

Cory Nijm Underwritten 9/10/26

In ED provider notes in SMC Emergency Center on file as 8 pages of evidence "SRHS" showing clear deliberate indifference causing irreparable harm an injuries left with a infection to die with from violating the PL's due process rights with excessive force (ECE) to a pretrial detainee & denial/delay of SC & SCDC State Policy & Procedure's (P&P). The Def's have violated the following SC & SCDC P&P's H.S-18.02 (emergency care), HS-18.05 (Dental Health), HS-18.19 (refusal of medical care), G.A.-06.08 (inmates with disabilities (ADA), OP-22.50 (serious incident review), OP-22.01 (use of force, & ADM-11.17 (employee conduct). This evidence is derived from the unlawful & illegal arrest & detention.

This case is illegal evidence obtained from violating the PL's 4th & 14th amendments of the U.S. Constitution, Kathy White, Chuck Wright & Bill Rhyme are held liable for a supervisory liability claim knowing about the PL's injuries in the Medical Providers notes ignoring the notes, grievances, & showed deliberate indifference to the PL's injuries that they knew about. The treatment tortured the PL leaving him with irreparable injuries, left in severe pains from a injury being punched unconscious knocking out his wisdom tooth By Dep Apple that required surgery neglected left infected in his mouth for over a year an a half denying the PL emergency surgery at SCDC. The PL already has permanent partial disabilities of the neck, cervical spine, & right shoulder that required surgery. The hog tying of the PL didn't help the situation by Sgt Batton & the handcuffs put on the PL on the back when told them about his injuries did not help also. Spartanburg County & the City should have known about the PL's injuries from a certified letter sent to Amy Cox the clerk of court. Amy Cox should have told them to be very careful handling the PL but did not an neglect the allowed misconduct by the Def's. The Def(s) encourages misconduct by the staff ignoring P&P's of SC & SCDC. This case is for a monell claim against the Def(s) in their individual & official capacities. The Def(s) being the policy-makers ignored P&P's of SC & SCDC allowed misconduct to the PL. This case shows 100% evidence of Due Process violations & the PL should be released. Sco. is a conflict of interests injuring the PL multiple times seen in this case & in cases (8:24-cv-02655-RMG, 7:25-cv-10435-RMG, & 0:25-cv-01073-RMG). The PL is requesting preliminary injunction relief with release & money in his inmate trust account before release ranging from \$1.9 million \$119 million up for debate.

Craig Ninja Antonio Brewton (PL) / C.A. No: S-26-cv-01213-RMG-WSB

Thomas Apple & Richard Botton (Def) / Memorandum in support to Plaintiff's motion
ET AL / expediting emergency preliminary injunction
relief & evidentiary hearing.

This is a memorandum in support to the PL's motion expediting the long awaited emergency Preliminary Injunction Relief hearing & Evidentiary hearing. The PL filed the motion for special circumstances demands with the emergency preliminary injunction relief requested in the case S-26-cv-01213-RMG-WSB on 7/27/26 & no special circumstances was met regarding the demand/requests. The PL finally got his long awaited emergency surgery on 9/24/26 done on his infected wisdom tooth that was purposely punched out by Deputy Apple over a year & a half ago. The Def(s) now has a minimum payment of ^{2 million} \$19 million debt that has accrued over the 2 month span that the PL has waited for emergency surgery risking his life. The \$19 million ^{or 2 million} is a penalty & fines for the repetitive acts of misconduct neglect, excessive force (ECF), & deliberate indifference. No money was placed on the PL's trust account or books. The Def(s) are in Debt from the irreparable harm & injuries. The injury (wisdom tooth) has been removed, but the PL still has irreparable injuries being permanent partial disabilities of the cervical spine, neck, & right shoulder with prior surgery on his right shoulder. The PL is left with the wisdom tooth that can never be replaced & still hurts. The PL's demands was every 3 day consecutive span the PL waits without emergency surgery from the date the Preliminary Injunction relief motion was signed/ filed (7/27/26), theres a \$100,000 punitive & compensatory fines an penalties for the misconduct risking the PL's life left with a infection without emergency surgery on his wisdom tooth, left without antibiotics, & left without money on his account while in custody or release with the available funds ~~and~~ (\$19 million) paid on his account with charges fully expunged on not just the probable cause tickets with the punitive fines if any. The PL request every week that he waits for injunctive preliminary

relief that an extra million be added to the ^{2 million of} 19 million. The
PL wants \$19 million before release if there isn't a hearing held in 2 weeks. The
PL needs money on his books to eat on a soft food diet from his
mouth hurting in severe pain, needs money for the proper clothing
being in a cold jail cell, & money for the loss an enjoyment of life
depressed not able to call his family without a tablet an unable
to buy canteen like every other inmate. The PL can't receive
money from his family not being on his visitation list & can't
put money on his phone to call anyone without people on his
visitation. The evidentiary hearing is requested for suppression
of the illegally obtained evidence in constructive & actual possession
of Sheriff Chuck Wright now sentenced & convicted to federal
prison for misconduct in the Spartanburg County Sheriff's
Office. The illegally obtained evidence is used against the PL
in his current General Sessions conviction in Spartanburg County
Courts is unlawful without credit. The credibility of the
illegally obtained evidence of Sheriff Wright obtained without
any BWC of the seizure or search getting the evidence is up
for debate at these hearing & is to see if the PL's current
conviction is unlawful, illegal, & injustice that is extremely
prejudicial to the PL's cases & to the PL's substantial rights.
The PL also has a \$605 payment that he has to make needing
money on his account for case: 8:24-cv-07655-RMG seen
in evidence "USCA" sent with this memorandum. The PL also
needs money for hygiene from dry rashy skin, money to buy mgs
& towels to bathe ^{with} from getting his rags stolen from being
washed, & eating utensils also stolen. The PL makes one
phone call for 1 minute every month & the PL needs money to
call his family that he has been away from since 2024.
The PL also needs money for a Typewriter to do his legal
work & also a television to view the news like every other
inmate has. The PL has lost the enjoyment of life broke
financially & broken physically. The PL also needs money
for hair cuts & legal materials to send off his legal work
always running out of paper, pencil, pen, & envelopes. Please
inform everyone to follow the ³⁾ policy & procedures of pretrial motions that
are requested as a motion, ^{then} *Leona Nize Victoria Smith* 9/26/26 *Heredia*

The PL has experienced Pretrial Punishment from Spartanburg County & mistreatment. The PL is requesting a expedited executive order of expungement of his criminal record from the charges of his criminal conviction by President Donald Trump with a executive pardon for release as soon as possible for the irreparable injuries, harm, & repetitive Constitutional violations. This case & the PL's current conviction on sentence is derived from a illegal search & seizure (S&S) unlawfully/illegally obtaining evidence violative of the PL's substantial due process rights & procedural due process rights of the 14th amend in the U.S. Const. There's procedural errors in his case being denied pretrial motions filed/requested for suppression in Spartanburg County^(SC) that the PL was entitled to have ignoring SC & Federal policies & procedures. The PL has experienced deprivation of life, liberty, & property on pretrial hearing that are guaranteed as procedure by the State of South Carolina & Federally. The S.C. courts has made a mistake in complying with the rules & steps in the legal process for Mr Brewton's cases. The Substantial errors affected Mr Brewton's substantial rights conducting a illegal S&S where property was destroyed, stolen from a closed safe, & without BWC of the illegal S&S to show the search times from start to finish in a timely manner that affected the outcome of the case that's reversible on appeal. There also was jurisdictional errors caused by the decision-maker's exceeding their power & authority abusing the use of a direct indictment used at the bond revocation of the PL that was dismissed at the Preliminary Hearing on 12/1/22 showing a abuse of discretion causing a error of the law also denying his pretrial motions without a hearing that was fair. This case is evidence to his repetitive history of due process violations claims. Mr Brewton's trial wasn't fair & was bias on prejudicial admitting evidence illegally obtained violative of the PL's 4th & 14th amend(s) rights. Please expeditiously expunge his record, pardon, & release Mr Brewton. The PL has irreparable injuries an harmed by South Carolina Dept of Corr. also left with a punched out wisdom tooth that required surgery on 9/24/26 & a dislocated right shoulder that required surgery on 2/22/23. The PL is in pain left with permanent partial disabilities of the neck, cervical spine, & of his right shoulder that hurts to lift & move.

4 of 6

The PL is likely to succeed on the merits being that all of the irreparable injuries that the PL has dating back from 2022 is from Spartanburg County Sheriff's & the balance tips in the PL's favor being that the PL has procedural & substantial errors of due process rights in his criminal case causing injustice convicting the PL with illegally obtained evidence that was not supposed to be admitted as evidence at trial. The emergency preliminary injunction is in the public interest being that the evidence used against the PL in his current conviction is uncreditable unlawful evidence from Sheriff Chuck Wright without BWC^{on} in violation of section code 23-1-240 allowing his deputies to break the laws of search & seizures. Sheriff Chuck Wright is now in federal prison convicted. The injunction can not fix the injuries or the deprivation of liberty, but can prevent more injuries, no longer allowing acts of repetitive misconduct seen also in case 8:26-cv-03071-RMG. The PL is in prison from a error of the laws Federal & SC procedures of pretrial hearings/motions that proves that the PL wasn't supposed to be convicted & arrested in the first place causing more injuries having the PL fighting for his life. The injunction can only momentarily compensate the PL for the deprivation, pain, sufferings, & injuries temporary compensating the PL to enjoy prison life like everyone else without being broke financially & physically unable to get the medical needed and do the regular things in life with pain suffering from the attacks from disregard of the U.S. Constitution. The Penalties & fines is to deter the future U.S. Constitution violations from happening in the future everwhile in custody. The PL needs medical attention for x-rays on his arms from the abusive applications of handcuffs from SC Det. Center (Kirkland) long awaited since July. The PL wants \$19^{million} \$19 million if he is not released by Oct. 24 2026 there will be punitive, compensatory, & emergency injunctive relief. The PL wants the funds on his account before release on his trust inmate account. The PL also has a fee to pay seen in case No. 26-6782 in the U.S. court of appeals seen in evidence "USCA"

This is a motion for a temporary restraining order on the Defendants (Def) in this lawsuit & the S.C. Sheriff's who will taze, choke, slam, & mase him on site, is what inmates said the Def(s) will do overheard in the Def(s) conversations to inmates about the PL when asked about Mr. Brenton. The Def(s) has called the PL a nigger intimidating the PL multiple times after the assaults & excessive force (ECF). The PL wouldn't want to see their faces at the emergency preliminary hearing or the evidentiary hearing, to see if the PL can properly conduct himself & litigate this case by himself without the presence of people who want to hurt the PL an his family suffering from anxiety & PTSD very bad from the torture. The S.C. staff has already broke the PL's mother's finger in retaliation to his Constitutional 1983 claims. The PL does not want any more smoke off their guns. The PL only wants drug test to be issued to the S.C. staff especially to Dep. Thomas Apple & Sgt Richard Batton who is well know around the jail as weed smokers, pill poppers, & drunkards on the job. The PL has suffered irreparable harm & irreparable injuries emotionally & physically. The PL is scared for his life an has anxiety, depression, PTSD, with a brain injury from multiple tazings, & doesn't want to be seen near them or in a court with a lot of people right now being ashamed of the prejudicial accusations. The PL is scared to death that they will attack & try to kill him or his family.

Memorandum in support to Plaintiff's
motion for hearings & amend the Amended^{Clarified}
Complaint

This is a memorandum in support to the PL's motion for hearings (evidentiary hearing, exclusionary hearing, diamond hearing, franks hearing, & suppression hearing). The evidence used in his criminal proceedings was obtained through an unlawful search warrant & that the warrant was supported by false or fabricated information showing acts of bad faith causing a error of the law, a abuse of discretion, & injustice. This action concerns the PL's allegations against Spartanburg County Detention Center (SCDC) Deputies Thomas Apple & Richard Batton arising from separate incidents that occurred in retaliation while the PL was detained at the SCDC violating the PL's due process rights of the U.S. Constitution being the 14th amend. On a legal basis the district court can conduct a suppression or other evidentiary hearing concerning the state criminal conviction if evidence was obtained violative of the PL's 4th & 14th amend(s) & if the PL requested emergency preliminary Injunctive Relief/Temporary restraining order with irreparable injury the policy & procedures warrants the Def(s) to entertain the PL's requests. The evidentiary hearing is to see if the PL's due process was violated by Dep Apple & Sgt Batton torturing the PL & also leaving the PL injured, ^{held} out of presence of the jury to try to negotiate, litigate, & discuss this very ugly situation without violence. The evidence used in the PL's criminal trial was obtained violative of the PL's Constitution rights of the 4th & 14th amend(s) seen in evidence "K" arrested & injured at 11:06 am before the search warrant was signed late at 11:56 am seen in evidence "Sw" that entitles the PL to a evidentiary hearing that was denied by the State & should be held by the District Court overturning the PL's current conviction, sentence, & arrest making it illegal an unlawful. The evidence used against the PL is former Sheriff Chuck Wright without BWC^{on} of the illegal search & seizure with missing evidence, destroying evidence, & destroying property in violation of SC & SCDC policy & procedures section code 23-1-240. The evidence lacks

2 of 3

credibility that is extremely prejudicial to the PL's cases on substantial rights with Sheriff Wright & sentenced & convicted to federal prison for misconduct in the Spartanburg County (SCA) Sheriff's Office (SCSO) causing substantial errors that affects/affected the outcome of the case, reversible on appeal. The jurisdictional errors caused by the decision-maker's exceeding their power & authority caused procedural errors & mistakes in complying with the rules or steps in the legal process of pretrial hearing & motions requested. The PL hopes that this court & any other court follows the proper policies & procedures obeying the rules & regulations. There is injustice in the General Sessions Court of Spartanburg ~~SC~~ Co. from a abuse of discretion causing a error of the law towards the PL that made & makes his detention & conviction unlawful & illegal. Since the PL should not have been arrested anyway in the first place. Deputy Apple & Sgt Batten tortured the PL leaving him with irreparable injuries, left in severe pains from a injury being punched, knocking out his wisdom tooth by Dep. Apple that required surgery, left infected in his mouth for over a year & a half denying the PL emergency surgery at SCDC. Along with injuring the PL's right shoulder handcuffing the PL wrong on the ~~back~~ back when the PL requires front handcuffing from surgery violating SC & SDC policy & procedures HS-18.01 & OP-22.13 requiring front cuffing or side cuffing because of a physical restriction & a medical condition ignored at Kirkland R & E & at SCA. disregarding the extra pain, with injuries, & the Policy & Procedures (P&P). The Sheriff's & the SCA staff are held liable when they knew that surgery was required noted by MD David Kerner seen in ED provider notes in SMC Emergency Center on file as evidence "SRHS" showing clear deliberate indifference causing irreparable harm & injuries left with a infection to die from violating the PL's due process rights with excessive force (ECF) to a pretrial detainee & denial/delay of medical care to a pretrial detainee as punishment in violation of SC & SCDC State P&P. The Def(s) have violated the following P&P's H.S-18.02 (emergency care), H.S-18.05 (Dental Health), H.S-18.19 (refusal of medical care), G.A.-06.08 (inmates with

3 of 3

disabilities (ADA), OP-22.50 (serious incident review), OP-22.01 (use of force), & ADM-11.17 (employee conduct). This evidence is derived from the unlawful & illegal arrest & detention being unlawful illegal evidence obtained from allowed misconduct from a unlawful illegal arrest obtained violative of the PL's 4th & 14th amend(s) of the U.S. Const. that entitles the PL to a evidentiary hearing to see & determine if the sentence, conviction, & detention is or was illegal an unlawful causing injustice to the PL. Applying Federal Rules of Evidence Rule 609(a)1 & 609(a)2, 28 U.S.C.A. using impeachment by evidence of a criminal conviction, an the evidence should have an should be inadmissible in court to use against the PL causing injustice to the PL an is prejudicial to the PL's cases with acts of bad faith allowed misconduct by the State of SC, Sheriff Chuck Wright, the Deputies, & the staff of Spartanburg County. This case is an shows strong evidence violative of the PL's 14th due process rights that was raised in court an should require a undeniable evidentiary hearing with 100% irreparable harm with injuries. The State an their prosecutor Tyler Bryant Brown said on the record at trial court that there was no due process violations & brady violations. This case is 100% proof of due process violations & brady violations with repetitive acts of misconduct at SCDC to Kirkland R & E South Carolina Detention Center. Credibility determinations must be made before there is more misconduct causing more damage & a evidentiary hearing must be held because the justice scale tips ^{the} in SC's Sheriff's favor, left with a 99.99% that they will ^{not} win with Former Sheriff Chuck Wright on their side. The PL has never met the opposition an would like to see who's working for the people, who has messed up his life. The PL is in prison feeling like a loser & would like the fair opportunity to get to meet the Policy Makers who let my uncle & my 2 bestfriends die, an try to become friends following the PR Ps of SC & SCDC. The Def(s) & SC's Sheriff's tend to transform into Mr Smith, off of the movie The Matrix, sometimes to punish the PL having him fearing for his life &
