 Titus Orlando Davis

My Name is Titus orlando Davis J.B Im 32 years old I hired Mr Todd Rutherford about 2 years ago for this Case. When We first Met he Said he would fight for me because at the time he understood I Was a user of the Deadly drug Fentanyl, I knew I was heading down a death Path in really wanted to change I Already had a doughter an didnt want her to see me die from drugs So with God help the help of my Council an Over 30 AAA drug Classes I Manage to get off the deadly drug, I reach out to Mr Todd Several time regarding my Case throughout the 2 years asking is there anything I could do to better My Situation I dug myself in he never text back only text was regarding money! We Never talk on the Phone or in his office to talk about ~~taking~~ taking a 9 year Plea or any Plea he only told me he would try to get house arrest in the beginning, Which I do now maybe not been Possible. even up to the date were he ~~Called~~ Call me to Come to Court to take/~~Sign~~ Sign my Plea, Which

his Secretary Call not him personally When I asked her What was the Plea offer She Ask have you ever been on house arrest or drug classes issued from the court? She said if She Calling me and not mr TODD himself then it was in my favor, That was a friday She called I had court monday to Singed the plea I go to court - he has a plea deal for 9 years, Which if that's the best he could do then I understand I dug myself in this hole from bad habits and hanging with other drug addicts, but I feel as he could have told me before I showed to court to take the plea he been my lawyer 2 years he Never said a word about Prison time until the day off me going to Court When I ask him about the plea he said take these 9 years or take 30 years. Before I hired him I only had 1 kid I have a 12 year old a 3 year old Son An a 2 month year old 3 Kids total now and he forced me in front the Judge Without being prepared

I told him I would not sign Plea that day he told me come to his office to speak with him the next day which he never showed up his Secretary Put me in a room by myself told me look over my discovery to right down anything Mr TODD could Say to the Judge which I wrote on the paper alot, the very next day which was Wednesday before walking into Court he told me to just Say yes Sir in front the Judge which I did I thought he would say something on my behalf he said nothing than when I tried to talk for myself to the Judge he nudge me shook his head told me not to talk I was Put under so much pressure I stayed up all night drinking alconol in was not in my total right mind in front the Judge. Mr TODD did not represent me in the right way in forced me to take this Plea deal I would like to fire him from my lawyer in get a fair shot with Some one that will fight for me in understand Please!
