My name is Darrin Miller Walker **SC Court of Appeals**  
the public defender office did they job on this case  
Sir, On october 28 they took me too the kamberg county  
court house saying that i was gone too a pre trial  
hearing then my attorney came too me telling me  
they were putting 2 more charges on me and  
the solicitor office was getting the indictments  
ready and ~~were~~ we were gone in front judge Early  
then he ask me did i still wanta go to trial  
knowing they were putting two more indictments  
on me, I said yes he said ok, that was Bradley  
memillian public defender, So my understanding was  
we were gone too trial the next day October 29, 2013  
Then this lady ms McClain public defender but not  
my public defender, She came in telling me that  
she is my public defender boss and its her job too  
come make me understand what Bradley memillian  
couldn't make me understand. She sent over every thing  
my attorney sent over wit me and i told her that  
i didn't do those things too that child and still want  
too too trial. She then told me if i didn't make no  
never mind if i did what they say i did are not  
if that child get sp of that stand crying the jury was  
gonna fine me guilty of all those charges no matter  
what and i still said that i want too take it  
too trial because i didn't do those things, we  
that pre trial hearing that my attorney said  
gone too the court house for, they let

too the county jail and as soon as i got back in the door good they were calling me right back too the court house now it's ms mearl and my attorney together this time but she doing all the talked. These were her words quote for quote who cares if you did those things do you wanna go to prison for the rest of your life if you go in front judge Early with these charges and take a trial the jury is gonna find you guilty and when they find you guilty judge Early is gonna give you anywhere from 30 to 48 years, you have no defends it's your word against that child word and her crying. Now after she told me nobody didn't care if i did it are not I knew that that i wouldn't get a fair trial. She had me thinking that the judge was gonna just give me this time the jury was gonna find me guilty my attorney Bradley mcmillian wasn't gonna fight for my life because she was his boss, and nobody care, just another black man gone down because he couldn't afford an attorney too take his case. So how do i suppose too win my case against the state of South carolina? I'm not good at this letter thing, please can we meet face 2 face before the next level of this case. Here's a copy of all my paper work from day one, now there are some disc the third disc of it the police told if she didn't say i did those things too her are gonna lock her mother up and every

gonna fall back on her and that's when she said  
what she said, So please if it's not asking too much  
Will y'all please read over all this paper work and  
get those disc and listen too all of them please.

Thank you very much,

Sincerely

Darrin Miller Walker,

Darrin Miller Walker,

I felt like the only way i was gonna get outta  
Jail was to take that deal and fight for my life  
in the streets. Even if it means gone back too jail  
the bamberg police department is dirty, the public  
defender office is dirty, the solicitor office is  
dirty. Somebody need to look into all of them.
