APPEAL FROM
THE PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA.
PSC docket No. 2014-187-E
Case No. 2014 -002120

S.C. SUPREME COURT

Joseph Edward Wojcicki - the advocate for SCANA/SCE&G victims.
Appellant,

v.

South Carolina Electric and Gas/SCANA, South Carolina Office
Of Regulatory Staff /Public Service Commission,
Respondents.

THE APPELLANT'S RESPONSE TO SCANA (NYSE:SCG) LAWYER'S LETTER.

I have just received a letter from SCANA lawyer, Mr. K. Chad Burgess. Mr. Burgess' presented "opposition" is a typical criminal blockade of the evidence. In this case, it is Wojcicki's Engineering Analysis proving 300 % false claimed assumption of S.C. Base Load Review Act that was used as a legal ground for several kWh rate increases, forced to be paid by SCE&G customers and do sabotage the Bush-Obama stimulus assigned specifically for U.S. nuclear power plants.

Georgia utilities got \$6.5 Billion for their twin project in Vogtle. SCANA could get the same. S.C. peoples and businesses expect return their money but not obstruction of justice in this SCANA's (NYSE : SCG) affair that follows Enron (NYSE:ENE) and Dynegy (NYSE:DYN) scandals.

The Mr. Burgess' letter seems to have a private character as SCE&G employees could be in jeopardy as Enron's history shows.

Again, it is not important who is the messenger and the way message is delivered (an example: Bobby Harrell vs. Alan Wilson case) but the message about multi-billion dollars robbery /fraud and millions victims including veterans and retirees. The scale of the fraud is global as Enron's was. Here, victims have no real representation, except of the engineer-relator Wojcicki opposing lay lawyers.

To this case shall be enclosed another PSC Order # 2014-881 presenting more errors dated 2014 Oct 29, a few days before SC Election day.

The ethics of SCANA lawyer being hidden behind a possible victim – SCE&G Company is questionable.

Respectfully submitted,

Joseph Edward Wojcicki

The energy Consultant, FCA of BLRA technical investigator and the only one independent relator.
