Dear Ms. Allen:

I just received a copy of an exhibit transportation order in the case of State v. James Lamont Moore. Thank you for noticing that the exhibit order had not yet been signed. I just wanted to note that the order I received yesterday included State's Exhibit # 3 but also included "unofficial transcript" of the exhibit. This "unofficial transcript" was not included in the proposed order sent by opposing counsel, presumably because it is not a part of the clerk's file. It is my understanding this "unofficial transcript" would have been something generated by opposing counsel. I don't know if another transportation order might need to be done to avoid confusion. It is my belief that the only exhibit that needs to be included in the order is State's Exhibit # 3.

Thank you,

Christina Catoe Bigelow  
Assistant Attorney General
