Ms. Kitchings

This is Quannell McEllwain and I'm writing in regards to my appeal. To my knowledge my public defender has already sent to you all the proper paperwork for the appeal process to be in progress. So my grounds/issues would be that there were new evidence introduced during trial that I never had any knowledge of until it came out at trial, the motion and my transcript will further support this issue. I ask that as soon as possible could you please send the counsel that is going to be representing me on this appeal out to speak with me as soon here after you receive this letter.
