R.E. State of S.C. v Alexander B. Wilson
Case # 2011-GS-43-0698

Dear Ms Barber

I'm writing you to let you know what happen
in court trial. And why I'm appealing my conviction

The jury could not give a fair verdict because they
could not determine and was not inform the different
between Not Guilty by Reason of Insanity and Guilty but
mentally ill. The jury was paid by giving them free
lunch to give a guilty verdict.

Dr. Thomas V Martin testified that because of
Capgras syndrome, that I have I could not distinguish
between morally or legally right morally or legally wrong

The voice I heard told me that it was okay to kill.
my so call mother He is saying that I took it on the

The Jury was giving free lunch on the Judge. Then they deliberated and came back with a guilty verdict.

Then Judge Young sentenced me to Natural Life, something the prosecution was not seeking. My lawyer and I was not informed, and I have not signed any document and did not know of the state intention.

The Indictment that the prosecution read in open court said that the state is going to prove I willfully with all intention plan to kill with malice intend my so call mother. My lawyer is saying that the state did not prove that beyond a reason of doubt. Because no reason and no motive have been established.

This is the same thing I told Mr. Robert M. Dudak at the Division of Appellate Defense.
