v.

Appellate Case No. 2014-001608

---

## ORDER

---

The State moves to strike certain documents from the appendix filed in this matter, to supplement the appendix with additional documents, and to require petitioner to correct the Table of Contents in the appendix. Petitioner objects to the motion to strike, but consents to the motion to supplement and to require petitioner to correct the Table of Contents. The motions to strike and to require petitioner to correct the Table of Contents are denied. However, we grant the motion to supplement and accept the supplemental appendix as filed.
