SC Court of Appeals

To Whom it may Concern:

on behalf of Brian A. Robinson #352371
now being held in Rembert, SC. Waterlee Correctional
Institute. Brian sent an appeal to Atty. Thomas
Shealy in Lexington, S.C.

The main reason (there are several) but the
one that is most important is the state
withheld evidence. They took Brian's phone
and Brian told them that there was a
text on his phone that would prove that
he didn't know that the other person Benjamin
Singleton had meth on him, and he had text
him and told him he could spend the night
at his house but not to have any drugs on
him. Brian & his girlfriend had spent most of
the night at a friend's house they had a sick
child. The police took Brian's phone and said
that the # on his phone matched up to the
of an informant. so the phone was working
then in court they said the phone wasn't
working. They could have gone to the phone
company (and even if the phone so mysteriously
quit working) and got a ~~print~~ print out
which would have proved Brian had nothing

2
to do with the Benjamin Singleton having meth
in his back pack. The girl that was there
they just sent her home. If Brian's atty
had done what he should he should have
asked for a copy of the text Brian
sent the Singleton man before he was
allowed to come to Brian's house. I
stood outside and watched the police tear
Brian's house apart all they got was a
jar with roach kill in it which they never
tested and the sink was stopped up so bad
it was holding 6 inches of nasty water
that I had tried to unstop. Someone had
been pouring grease down the sink for a
long time when I finally dug up the
drain line that's what it was. I had used
several types of drain cleaner. Since I
own the property, why was the girl just
let go, she was there as long as Brian
was. The Singleton man has other meth
charges against him so I have been told
and tried to implicate Brian to help himself
why can't someone get the phone and find
out the truth about the meth. I have
never heard any of Brian's friends say

that they have ever heard of Brian doing anything with meth. Brian is Bi-polar and has self medicated with pot and he admits that. What is so bad is to be Punished for something he didn't do. and I am quite sure the state is aware of the fact that Brian was not and never has been involved with meth. They have the evidence which was not presented in court. I am Brian's grandmother and I am not trying to make a saint out of Brian. But the truth needs to be told by those in authority it can certainly cause people to loose faith in our system when you are punished for what you didn't do and no one tries to help.

Sincerely,

Jo Eadon.
