K-9's Used: Yes Number of K-9s: 1
Names of K-9s: Mia

Handlers: Stephen Pearrow

Total numbers of Volunteers Involved in Search: 1

Brief Summary of Incident: Crime Scene Investigators requested STARR and K-9 to report to RCSD headquarters at 5623 Two Notch road. The investigators had placed three cardboard boxes outside shed on the RCSD property. They ask if dog could be deployed at the boxes to see if an alert and/or indication could be detected at one of the boxes. Two of the boxes were blank and the third had a blanket that was taken from the scene at 615 Heron Glen Drive. I asked investigators not to tell me what boxes were blank and which one had the target odor. K-9 was deployed about 20 feet from the boxes and K-9 searched the area at and around the boxes. K-9 alerted on one of the boxes and then a true, confident, indication was made on the same box. I called indication to the investigators and was told that the box the K-9 indicated on was the box with the target odor.
