SC Court of Appeals

CASE NO 2014-001663

7/14/15

Your Honor:

I understand what the Appellate Attorney is saying that whether or not Telly ever harmed his mother, But I do know one way or the other because this was some year ago and I was not there my ex wife as of 1995 called me and told me this.

How ever further in this case I feel that a few of my 2nd Acknowledgment Rights were violated and not acknowledged in this trial as well as all proper testing was not done on all parties concerned. i.e. GC kit was done on me, the 2nd person in this situation the Detective state that what on what made statement of on the night of this incident.

The fact that had a weapon in my hand on my property and in my home did not give Telly the right to take it away from me. I believe that if DNA Test had been performed on the weapon it should have found it to have been just I stated (over)

and the way that the state was willing to accept it had I taken the deal that I was offered.

Your Honor I loved Tecky in spite of all the things over the past few years that he had done contrary to what I had talked with him about the 1st being taking care of his family not some other woman's family who evidently had support, but just didn't want to take it. Her parents lived in Jacksonville FLA. However she told me that her parent wanted to run her life concerning who she should or could have a relationship being my son.

So after he's left his 3 children I would assume that he won under the assumption that nobody could care for many children he had and was not able to support them as well as someone else.

To look at the reason came to be back in South Carolina in the 1st place was because this woman had cause or had beat up in FLA. (over

How EVER How he put to me was that he knew he had not been treating this woman right, but this same situation did not work right in on his children mother (3) and that fact that he was suppose to be paying child support.

Earlier in 2012 Telly put the call out to all his family members that he was going to take his life now this is before the beating he took because Michelle had left him.

He stayed here with me for a little over a month before he told me of the things that was really bothering him. He stated that every time he got paid in Fla. Legitimately, they took most of his money for child support. Then he tells me that he got a call from his mother telling him that he had received a phone call to the effect that he needed to come for an interview so he went back to Florida.

calls back asking for money to come back here and I told him to stay

(over)

in Florida and handle his business
and call me on Friday, this Sunday
night. So he calls my brother and
told him of his woes and in turn
had the money wired to him.

To make this short I did the
best I could. Once I found out
that he had circumvented the instruction
that I had given him. As things escalated
they got worse instead of better. All
of which lead up to the situation at
hand. And not a day back here goes
by without me wishing I didn't love
him so.

Thank you for any
consideration given
Johnny Dely
