Appeal Case # 2015-001745

SC Court of Appeals

I Darrick Cooper am asking for an appeal based on the fact that in my case there were statements that were untrue that were told by the prosecution under oath. No where are they able to prove I was saying these tribulouse things nor were they able to prove that law enforcement was there other to harras, not to protect or serve. Both of my charges would not have occurred without them being there. At the same time I wish to argue my plea because I didn't understand the way it was worded by my attorney. Who would plea to the maximum amount of time, I would have taken it to trial if that were the case. I did in fact ask for a jury trial when the tapes were not produced that the prosecution said they had of me. My motion was not granted with these charges. I only recieved them because I was under duress by the officers that responded. That's why I used the vehicle that I thought was alright for me to drive and that's why I didn't stop for the blue lights because I thought my safety was at stake. For me my appeal rest on the fact that I asked for a jury trial and was not considered or herd by the court. The prosecution could not produce there evidence and I did not understand what I was pleading to. Under these intractions I feel I should be herd once more this time in front of a jury of my peers and if not a jury at least have a better understanding of what's

going on and what I'm agreeing to and not
feeling like I'm being influenced by any out-
side factors. Thank you for your time and consider-
ation
