The Declaration of Independence: A Transcription

[printer-friendly version](#)

IN CONGRESS, July 4, 1776.

The unanimous Declaration of the thirteen united States of America,

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For Quartering large bodies of armed troops among us:

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.
He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.
He is at this time transporting large Armies of foreign Mercenaries to complement the works of death,
desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the
most barbarous ages, and totally unworthy the Head of a civilized nation.
He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their
Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.
He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our
frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction
of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions
have been answered only by repeated injury. A Prince whose character is thus marked by every act which may define a
Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by
their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our
emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them
by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and
correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in
the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace
Friends.

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the
Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of
these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and
Independent States; that they are Absolved from all Allegiance to the British Crown, and that all political connection
between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent
States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other
Acts and Things which Independent States may of right do. And for the support of this Declaration, with a firm reliance
on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

The 56 signatures on the Declaration appear in the positions indicated:

RE: Ms. Brenda G. Harmon
DOB: 4/07/1953

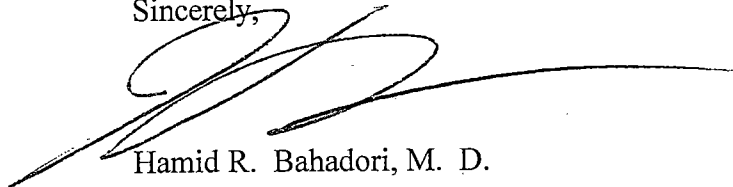

To Whom It May Concern:

The above named patient was seen by me on May 13, 2014. At this examination, I felt that she had trigeminal neuralgia that was caused, most probably by fractured bones in the upper right side of the mouth.

Of note, the patient was also seen by Dr Gregg W. McKenzie, D.D.S. on 5/2/2011 and he had the same opinion about the care of Ms. Harmon's facial pain.

Hoping you will find this information satisfactory, I am,

Sincerely,

A handwritten signature in dark ink, appearing to be 'H. Bahadori', with a long horizontal flourish extending to the right.

Hamid R. Bahadori, M. D.

Re: Brenda Harmon

Dear Joel:

I saw Mrs. Harmon on April 29th for emergency evaluation relative to #7.
Please evaluate and let's resolve this matter as quickly as possible in the best possible way. Her symptoms point to a fracture, but I did not note one on the radiograph.

If you have any questions, please let me know.

Sincerely,

Gregg W. McKenzie, D.D.S.

Re: Brenda Harmon

Dear Joel:

I saw Mrs. Harmon on June 8th for evaluation. There is clinical and radiographic evidence of endodontic involvement on #8. I have referred her to Dr. Trent Gillespie for care.

I indicated that an implant is needed in position #7. This area will require bone graft prior to implant placement. At this point, she is only interested in pursuing the root canal therapy on #8, and will revisit the implant issue with #7 at a later date.

If you have any questions, please let me know.

Sincerely,

Gregg W. McKenzie, D.D.S.

Brenda Harmon
Tooth Issues.

1

Atty, Ken Matthews
252-1242
1331 Laurel Street
Columbia, SC

1. April 6, 2011, Tooth #s 7, 8, 9, + 10, was drilled for
Crowns, pd. \$1400 cash. Temporary plate set
over drill by Kim Register. Dr. Joel Johnson
did the drilling.

2. Call came 4-25-11, informing me that the Crowns
(4), had come in and I was to be fitted with teeth
them on 4-26-11 at Dr. Johnson + his understudy
perform the task. (name Seneca McKeith) After leaving
Dr. Johnson's office + returning home within
1 to 2 hrs. Teeth #7 broke. I called Dr. Johnson's
office + inform him of this incident leaving a
message.

3. The next day am I got a call by Shelly to be in Dr.
Johnson's office within 2 hrs to fix the
tooth. I went + was drilled (#7), Dr. J. Johnson
placed a rod in tooth, replacing crown over rod.
I was given 3 shots in the upper right side of gum.

4. The next day the pain was still with me, so
I called + ask how long was pain suppose to
continue. Shelly Smith went to ask Dr. Johnson. She
came back to the phone + said by later that day,
4-27-11. The pain was escalating to an extreme
point, Areas of Pain; eye, ^(y blinks) nose, ears, throat +
mouth.

5. Pain persisted, escalating to a higher sense of
sensitivity. I called + went to Dr. Johnson's office
he drilled, stating it was my bite, giving me more

Cont

2

5. Shots, numbing me till I felt better. I'm not a dentist so I normally would go along with the program. He gave me an X-ray. I beared the pain but began to think about death from the pain.

4/29/11

4. The pain was now unbearable. I called Dr. Johnson at his home, since his office ~~was~~ is closed on Fridays. I got no answer, so I called Dr. Gregg McKenzie who worked me in. Since I had no appointment, when he attempted to give me an X-ray, I could not shut my mouth on the object. I cried at this point because of the pain. Dr. McKenzie laid the device on my tongue + bottom teeth + took X-rays. He came back + told me that I had "Cracked teeth in the root of tooth #7 ^{in the gum,} which was causing pain". He said, I had 2 options, he could give me a shot + a prescription for pain medicine to ease the pain or he could do the surgery to resolve the issue. I then asked him if he prefer that I let Dr. Johnson do it? + he said yes? He did not give me a shot but gave me a prescription. Larry dropped me off at Mother (nursing home), + he went + had the prescription filled. When we got home I took the medicine Vicodin for pain and Amoxicillian an Antibiotic. My speech became impaired but the pain left. I then called Dr. Johnson at his emer. # + informed

cont
#4. AS to what Dr. McKenzie said. He stated he
would speak with Dr. McKenzie and get back
with me. He didn't. I mentioned to Dr. McKenzie
that I came to him because he was a friend to Dr. Johnson
#7 + he worked on me before.
#3-11-11 Between taking the Vicodin + Amoxicillin, I
suffered with pain, taking pills to resolve the
issue.

5-11-11 Sunday was the same: No Church. I called
Atty. Matthews at home + asked him to represent
me because of pain + suffering.

5-2-11 Monday: Dr. Johnson shaved my teeth both
top + bottom only giving me shots for the top
gum. He said Dr. McKenzie thought it was a
cracked tooth in the gum.

*Being the person that I am, it is hard for me
to believe this. We are talking about health issue.
Dr. Johnson doped me up so good when I left his
office I felt no pain.

Tues
5-3-11 I was still feeling good from the rims of shots.
(Med.) I called Dr. Johnson + thanked him thinking
he really cured me.

Wed
5-4-11 Pain was returning.

Thur.
5-5-11 by P.M., on this day, severe pain was back with the
swelling of the face. I took Vicodin + Anti-biotic to
ease pain. Pain left body for a moment (hrs.),

Fri
5-6-11 Little pain, I prayed that it would stay that way.
It did until Sunday.

5-7-11

Sunday 5-8-11 I woke up little pain; went to church. Went out to eat; Ryan's Best; made a salad as I was eating

Emergency rm. A sharp pain shot through my teeth causing swelling in my face. My R eye began to ache & jump, my ears hurt, my nose, tongue & mouth, headache & jaws & neck. We left Best. I took Vicodin. I notice I didn't have many left with no refill left. I thought about the emergency room, but I remained in a suffering way.

Mon. 5-9-11 I went to ~~the~~ Dr. Sykes office since he had did a root canal on me before, to see if he could fix the problem. I was told that Dr. Johnson had to order it to be done, so that he (Dr. Sykes) could collect his pay. I said because Dr. Johnson created this problem he would pay. I knew that I would see Dr. Johnson the next day but the pain is really bad. My entire face was now swollen. Considering what I was told, I knew I had to suffer.

Tues 5-10-11 - I went to Dr. Johnson, and talked with his assistant McKee. Until Dr. Johnson came in the rm. I could sense his feelings of aggravation with me & this problem. A minute later Kim came in to polish the teeth he had shaved (top & bottom) but the pain wouldn't let no one touch them. Dr. Johnson came in and told me that I needed a root canal in #8, and #7 need to be redone or check. He informed Shelly (front desk) who set up an appointment with Dr. Sykes for Wed. 11:00am 5/11/11. When I got home still in pain, Dr. Sykes called & said, I needed

Cont
5/10/11

995.⁰⁰ to pay up front before he even look at my mouth. So I suffered. I called Dr. Johnson's office & told them what was said. Shelly (front desk), said let me call you back. I called Atty; Matthew & confirm his representation of me to retrieve punitive damages for pain & suffering. Shelly called back & told me that Dr. Gillespie would see me at 4:00pm, Thurs. 5/12/11, at 618 8th St., Columbia, S.C. I ask could he see me sooner, she said she would try. At 9:00pm I took pain (Vicodin) med. & slept until 1:00am then feel back to sleep.

5-11-11
Wed.

- Woke up, Can't touch nose, eyes hurt (not bad), throat, nose and slightly in ears. I called Shelly and asked why couldn't Dr. McKenzie do it considering he was willing to do it before. She said he ~~was~~ ^{wasn't} a periodontic and I needed a deodontist. I mentioned again about seeing him earlier. About 11:20am, the phone rang, it was Dr. Gillespie's office asking if I could come in today at 3:30pm. I immediately said yes. LARRY PTSD - tinnitus. Suffered. Around 6:pm pain subsided and I was relieved & happy. The swelling was diminishing and it was very pleasant. I began to think maybe I was wrong.

5/12/11

The next day all hell broke loose, my

cont
5/12^{le} Face was swollen on the entire right side, I could barely open my mouth, my eye was hurting. I notice that the hurtful pain had shifted from the front area where Dr. Johnson had given me the shots, to the right & left of both jaws, more so to the right where most of swelling appeared. I became frantic and began to call Endodontists, none would take on the job. I called Dr. Gregg McKenzie, told staff about my face & pain. Dr. McKenzie still feel that tooth #7 was cracked in the gum, caused by the jarring of Dr. Johnson. However, he feels that I must get an O.K. from Dr. Johnson to remove that tooth even though it is infected.

I then called Atty Matthews & explain to his secretary of what is happening. It is now 9:52am and I have yet to hear from Dr. Johnson or Dr. McKenzie. I was at my wits from pain but I knew I had to suffer. I took pain pill & And went to bed.

Fri
5/13/11 - I woke up with pain, scrambling my mind with what to do. I put my thinking

Don't CAP (mind) to figure out what to do. I H

5/13/11 Went to the emergency room with a swollen face, explained what had happened. Informing the hospital that there was 2 different outcomes from 2 different M.D.'s and I didn't know what to believe. I requested a PANORAX (X-ray), from the hospital because they were a neutral party. I filled out papers and was later given an X-ray of the mouth, and Dr. Gregg McKenzie was right. My mouth or tooth had been fractured in the gum from drilling performed by Dr. Johnson. I went and got a copy of the X-ray and went straight to Dr. McKenzie's office and reported what the X-ray had found. Went home took pain med.

5/14/11
SAT. The next day I woke-up pain was at the same general area but not severe. The pain medicine eliminates the pain for a certain length of time, however the pain always returns. I should not have no pain nor should I have to take pain medicine. I'm spending extra money that I don't have due to mistakes made in my mouth. As long as the pain is bearable I refuse to take a pain pill.

SUN
5/15/11 The next morning I woke-up with a nasty headache as if the pain was heading towards the brain.

Sunday 5-15-11 cont. - The only thing I thought about is what the tooth can cause. Blindness, loss of hearing, etc. What has happen is I have AN NASTY Abscess on my gum Abode #7+8. I have a large bump full of infection near my right eye. I'm still having problems touching my teeth, and my ~~three~~ teeth touching one another (top + bottom). My teeth's are very sensitive to cold (anything w/ice in it). I'm very tired of Waking up to pain, and I'm very tired of having to take pills, But I have no choice. I know nothing can be done until Abscess disappears. Swelling still persist on right side of face. Took Anti-body went to bed.

Mon 5-16-11 - Woke up at 3:51 AM because of pain in mouth. Pain in same area, so that's nothing new, what is new is the realization that I can't chew. It is very, very, hard for me to try + chew meats like pork chops, chicken, steak, etc., but easy to swallow soft foods. Bacon (fried) is no longer an option! Along with corn on the cob. Larry had surg. this morning 5/16/11, on his gums removing extra bones, so I had to keep myself alert for the both of us. We came home, I went back out to visit with my mother. The pain had eased up a little. However, when I returned home the pain returned to a minimum but I could feel the rise from levels of discomfort so I went the bed. I woke up still having this nagging pain, having no choice but to tolerate it, for the

5/16/11 Rest of the day. As days go by, since this (#9) happened to me, each day I notice different things I can't do (like eat), or pain shifting. However, I did inform Dr. Johnson of what the ER-Richland found Saturday, 5/14/11, which is a fracture. I did ^{sat} make a date to have

5/17/11 → The next day, I woke up to the same agonizing, Tues. nagging pain. I now have to swallow my food in bits + pieces, or slide my food down my throat placing it on the left side of my mouth. The other Alternative is just simply eat baby food. I can't even bite an Apple like I use to, Shameful, isn't it!!! Not a carrot or any other rutage vegetable. The pain is hurtful to touch in front of tooth # 7 + 8, where shots were given. Swelling persist. At 7:20 PM, I went to bed. At 5/18/11 12:28 AM I awoke to swelling (pain), I gargle mouth ^{wed} out with warm salt water. 1:37 AM, I went back to bed. At 4:21 AM I awoke for the day, but the pain had worsen so I took a Loritab, within 25 min., I was sleep. Another Abscess appeared in my gum, so I took an Antibiotic (Amoxicylin). When I awoke, I notice my mouth was tight and rather hard to open. I notice how lightly I have to use the tooth brush when brushing my teeth. At 4:00 PM, pain was easing back. I'll be so glad when ~~that~~ (Dr. McKenzie) can take this pain away from me, its been too long, 3 wks today.

5/19/11 → on this day, I woke-up with a nagging, aching,
 Thurs. pain, stemming from my eye to my shoulder
 r/side. I took some medicine. I woke Larry
 and told him how I felt and added saying I
 was tired of pain. I thought about the sharpness
 around the edge of my teeth, where Dr. Johnson
 shaved them. They have yet to be smooth out.
 I fell back to sleep. When I awoke 6:15^{am} I
 called Dr. Kenzie, and ask if he could remove
 this tooth today or tomorrow, placing the re-
 quest on his voice mail.
 Conf. Dr. McKenzie called back at 8:20^{am}, 'be in his
 office at 3:15^{pm} to have tooth removed.' I agreed
 I noticed early am the longer it takes to have
 the tooth removed, the worst the pain, swelling &
 suffering it gets. I mentioned this to Dr. McKin-
 zie's staff when they returned the call this A.M.
 and they agreed. At 3:15^{pm} had tooth removed.
 Though I'm numbed, I feel the pressure off my
 eyes, ears, mouth, neck & shoulders, not quite
 off my jaws. But the eyes, 'Thank you Jesus'
 the pressure is gone. I'm still numb. Dr. Mc-
 Kenzie had a hard time getting the tooth out
 of my mouth, however, he applied A Lot of pre-
 ssure to get it out. Took med. 4:30^{pm} watch
 T.V., when all of a sudden, pain emerged
 in my mouth as though I was cut from
 the top of my mouth to the bottom of my
 chin. It was the anesthesia wearing off.

Cont
5-19-11
Thurs.

11

There was nothing I could take for this type of pain, the only thing I could do was wait. It lasted all night until the next A.M.

5-20-11 → The next day, through the amazement of having Friday's tooth #7 removed, joy overwhelmed me. I

have no pain in my eye(s), or ears. I do have pain above #8 where Dr. Joel Johnson, said, I need a root canal. In this particular area, this is where the shots were given for each action before either Dr. did anything to my mouth. Again, I called & thanked Dr. Gregg McKinnzie, because I felt 92% better. Most of all I thanked God. Later, that day, I notice I was drinking cold water, hot tea, and other cold & hot drinks without feeling the sensation of pain from the tooth, #8, but it was still sore and tender. It had developed another abscess above it, and that made it sore. It began to feel like a loose tooth. When Dr. Johnson reinserted the rod up the gum, he pressed so hard until the tooth lowered itself. This is when I began to have pain in this tooth.

5/21/11 Sat. Each time my tongue touches tooth #8, I feel like it's about to come out. I can't eat like I use to, but I'm glad I don't have pain in my eyes & ears, my throat & neck, etc.

Cont.
5/21/11

12

I went 22 days with hurtful pain whereas I
sometime saw the other side (death). As for
tooth #8, I prayd that I get that fixed too.

5/22/11 → woke up with little pain in mouth, with the
exception soreness above tooth #8.

5/23/11 → Call Dr. McKenzie to inform him how I was
doing. Again I thanked him. Asked about implant,
was told I needed a ^{consultation} Consultation, 85.00,
before implant because he may or might not
be able to do it. I decided to wait and
call back around the 1st of month (June),
due to lack of funds for month. Call Dr. J.
Joel, and told Shelly what was happening.

Continuance

Dental!
ATTY. Ken Matthews

Tues: 6-14-11 : Today I'm going to Dr. Gillispie (Dentist),
for a root canal that was originally suggest-
ed by Dr. Joel Johnson after he put in the
'crown' 4. It is taking a long time to
get my mouth to look like what I paid
and still paying for. This means more shot's
in the gum that hurts when the needle in-
serts into the gum, when I arrived to
Dr. Gillispie, the visit was an evaluation. I
was told I had a very nasty infection over
tooth #8, plus I was in need of a root
canal. I knew this. Dr. Gillispie explain how
the p is done. I asked about the infection, ?
"Can the infection travel from one tooth to the
next?" He said, no. However, Doctors feel that
you don't know and that you have no intent of
finding the truth. I was given a return date & left.

Wed. 6-15-11 I called Dr. McKenzie Office to see if he could
get me scheduled for an earlier date with Dr.
Gillispie since the date I was given was just
at a month away. He wasn't there. I did learn
a new word "fistula" which means an abnor-
mal passage for bacteria to travel. So Dr. Gillispie
was wrong.

Thurs. 6-16-11 I can feel the slow travel of pulse in the mouth
from the Abscess. This is the 3rd one since
I went to Dr. Joel Johnson.

Fri: 6-17-11 I keep waking up through the night because
I worry about the infection and diabetes.

2. my mouth feel puffy n nasty. I know that
6-17-11 it is not the Doctor's mouth. Did nothing
much, visit mother.

SAT.
6-18-11; Same as Friday. Some pain, not much.
Tooth #8 feels as if it is slipping out of the gum, but
can't because of the cement that holds it in place.

6-19-11 I woke-up worrying about the infection and diabetes,
sun. combination. I realized the headache, ^R eye pain is
due to the infection in the gum. It feels like
it felt, before, the Antibiotic last month. I'm
having so much trouble trying to get this issue
resolved. It is taking an awful long time I
noticed another small infected bump sits on top of
the larger Abscess. I will contact Dr. Gillispie
tomorrow. The infection has a fistula range in
my mouth that is causing my Nose, neck, throat,
Nose, etc., to minor ache.

6-20-11 No pain this morning in the mouth, but the
now, feel of tooth #8 falling out as I press the
back of it with my tongue. Slight pain in
R/ear, but nothing major. It is really a long
time for anyone to be dealing with this
situation of the mouth.

6-21-11 Woke-up early. Slight headache. At the
Tues. corner of the right nostril, (center/outer) layer,
is puffiness + soreness, especially when tou-
ching. Infection is a dangerous bacterial when
its in your head, especially your mouth. It can
lead to brain damage or loss of hearing, sight

can't smell, etc. I have tried my best to keep the infection from spreading & smelling by constantly gargling with warm salted water and peroxide.

6/22/11: It dawned on me that I could die from problems with my tooth, that is giving me astronomical problems with my mouth. The thing that irks me most is, Dr. J. Johnson has yet to return my money or ask how I am doing. How blatant is that? I know that he doesn't care, but we're talking about human life. At this particular moment I'm not having any hard pain, and I feel no drainage of infection except for the R eye aches in minor form.

6/23/11: Kue (ma + Larry) noticed that the r/side of my face was (is), swollen. I also can feel the pain from tooth #8 shooting upwards in a right slant angle towards the R eye. Not severe, but noticeable. I don't go to the home much anymore because of my mouth, which mother keep asking me when they're going to be finish with my mouth. I will call Dr. Gillispie tomorrow, tooth #8 is very sensitive to touch.

6/24/11: I woke up at 3:21 am with pain in my mouth + my R eye hurting. My face was swollen and my head ached in a louder sense. I felt sick as the infection was now taking control of my body. I put some water in a pot + placed over the burner so that it could boil. Once it boils, I will pour a little in a cup adding table salt to clean my mouth + take down some of the swelling. My R eye, throat, neck, ear, + nostril aches. I called Dr. Gillispie's office and his nurse said she would have to speak w/him before making an appointment.

Can't
6-24-11 AND she also wanted to know how I knew
Fri; that the infection was spreading, since that
is why I called. My face had enlarged and
parts that makes my face was aching terribly
at this point. When she said she would call me
back, I called Dr. McKenzie and made an
appointment for 10:15 am this day. Dr. Gittispiro's
~~office returned the call but I told his office I~~
~~had made an~~ I went to Dr. McKenzie's office
face swollen + mouth aching. He gave me a
shot in the gums, Antibiotic + pain killer. We
talked for a moment. I left. I took meds as
prescribed.

4/25/11 Tooth #8 is sensitive to touch, especially if
sat. The tongue touches the back of the tooth. I
am taking an Antibiotic for the infection. It
seems (Antibiotic) to be working since I'm taking
them exactly as prescribed Pain is flaring up
on R side of face, same areas of pain.

4/26/11: Pain is not very aggressive but intense.
Sun. Taking Anti-bodies as prescribed. I'm very
tired of dealing with unnecessary pain, from
a procedure that was suppose to be simple.

4/27/11: Trying day, I had to call all dentists involved
mon to try + get help. It appears that none of the Dentists
want to help. I called Dr. McKenzie + insisted
that I was coming and he was to pull this tooth
#8, even if I had to wait, and if he didn't want me

6/27/11 There then he was to call the police and have
me escorted by the police then I could tell the world
more. About what I felt they was doing when Dr. J. Johnson
did this ungodly deed to my mouth and they (Dr.'s)
trying to help him. After talking for a while I
hung up, because the pain had increased to a high
or level of intensity. I got a call back, from Dr.
McKinzie's office (), it was explained that
the tooth # 8 was split in the gum at the same
time of the fracture in tooth # 7, by Dr. J. Johnson.
However, I went to Dr. McKinzie's office early,
being given a 1:30 PM appt. I was numbed but
talked into having a root canal by Dr. Jett, but
when I got home I received a call from Dr. Gillispie
office. He would do the procedure Tues. At 8:00 AM.
I called Dr. McKinzie's office + informed him
of the change I had made.

6/28/11 Went to Dr. Gillispie's At 7:20 AM, had the root
Tues. canal At 8:00 AM — medication was inserted into tooth,
and will have to be removed at a later date. The surg.
went well and I am so glad. I go back to Gillispie on
July 19, 2011, at 1:00 PM.

6-29-11: Today, in the am. I thought it was a mistake having
wed. A root canal because the pain was still there. However,
as the day progress the pain went away, not completely
but the majority of any sort of pain has gone. I'm play-
ing that the problem has been taken care of.

6/30/11 Late in the evening 9:18 PM, on Wed. I felt a
Thurs. sharp pain in my left eye and soreness around the
left nostril. I didn't think much about it, because
Dr. Gillispie had put some medicine in the gum-tooth
8, where he did the root canal. When I awoke this
morning I felt the pain on the left side of my face,
escalating like the right side had done days earlier.

^{don't}
7/20/11 I kept during house work, but it more evident to feel
to 30-11 And Certainly to view. I had infection across the
Thurs. the entire front of my upper teeth where Dr. J. Johnson
And did 4 crowns. I immediately stop everything I
was doing and called Dr. McKenzie's office. Betty
answered the phone, I asked her was this suppose
to happen? She said "no". She told me to "hold on"
And quickly Tonda came on the phone. She said, "Dr.
Gillispie was out of the country but his emergency
service was being handle by Dr. Leath Ayers. I told
her, that each time I go to another Doctor it cost
me money I don't have. She asked if I still have
some of the Antibiotics Dr. McKenzie had given me.
if I do, take 2 now and 1 every 6 hrs. as prescribed,
And call her later in the day." She stated again, "Dr.
McKenzie was out of the country doing missionary work
helping the poor." She said, "I will be leaving about
2:00 pm." I told her I would call tomorrow.

7/21/11 → A Couple (few) days had passed with no signi-
ficant problem with my mouth. I was taking the
antibiotic faithfully, noticing there was no pain
And the infection was diminishing. Dr. McKenzie's
office was closed until the 11th of July, and Dr. Gil-
ispie was out of town. I had put my trust in
these two Doctors, considering if I had to go to
another Doctor, I would have to open another A-
ccount, besides it would make the situation a
little more complicated. There's no pain and little
swelling, with some (tiny) infection showing in the
gum. I am still toothless, considering I paid for a
crown in area # 7.

7/31/11 - Pain has subsided since I am ~~now~~ now taking meds
\$un, as sch. I see little infection. Very low on med.

7/4/11 - No pain; still taking Antibiotic. I run out of Meds tonight.
mon.

7/5/11 - no med, no pain.
Tues

7/6/11 - so far in the am., no pain ^{little} infection.
Wed.

7/7/11 - I pray that the infection is gone. No pain in the
Thurs. mouth, and I see little (very) infection in the gums.

7/8/11 - I continue to pray: At 3:15 PM Dr. Gillispie's office
Fri. called, "asked how I was doing" I replied "better" she called
to set up an appointment for me to come in for final surg.
to tooth #8, (root canal). Monday, July 11/11, 9:00 AM.

7/9/11 The day went fine: I still have no tooth in Area #7.
Sat. It has been 3 mos. or better that I don't have what I paid
for. I have experienced excruciating pain beyond belief thro-
7/10/11 ugh this process.
Sun

Sunday was pretty much like Saturday. Anticipation
for relief on Monday.

7/11/11 ~~was~~ went to Dr. Gillispie's office for completion of
mon. root canal. However, due to sensitivity in tooth, the
same procedure that was done on the 26 of July was
done today. Whereas medicine was inserted into the
tooth. After the procedure was done today, I was resch-
eduled for Aug. 9, 11, (11:00 AM), for completion of this root-
canal.

7/12/11 I had very little effect from the procedure done
Tues. yesterday and no effect from the wearing off of
medicine injected into Gum. I'm feeling fine
with the exception of a minor twitch in the left
eye.

7/13/11 - no infection, at least no sign of infection. No
Wed. pain.

7/14/11 - It appears to be that the infection ^{was} ~~is~~ vaporated
Thurs. from my Gum, with very little pain in the mouth. I
Thank God!
over

7/19/11 → It has been a while since I've written down how
Tues. my body (mouth), is reacting to all the discomforts that
I have endured since the sufferings of surg. &
dental treatments. It is because whatever pain that
is with me, is un-noticable. It appears that the
infection has dissipated. However, early this AM, 2:00pm,
I awoke with a screaming headache but as I write
at this moment I don't feel anything. Having little or
no discomfort, I will not write anymore until the
final surg., on tooth #8, on August 9, 11, at 9:00 AM.

Cont

5/13/11 - It has been a while (wks), since I wrote wed: Anything concerning my mouth. But the last few days I have been feeling the hole in the back of tooth #8 and I have a queasy feeling about it. It is more prevalent by each additional day, and I feel afraid that the filling of the tooth is seeping out. I am so afraid that the infection may come back. I'm in no pain, but worried. I went and made a pynt. to Dr. Gillispie, they looked the tooth. Nothing significant as for drainage.

Thurs: - The worryation disappeared for a while.
8/4/11 There is no pain ^{AN} ~~that~~ I notice. The day went fine.

8/5/11; Everything seems to be O.K., Slight headache Fri but otherwise I feel fine. However the hole in tooth #8, feels as though it is getting deeper where as, my tongue can enter the hole.

8/6/11 - Pretty much the same as Sat.
Sat;

8/7/11 Woke up with a headache, (not bad), and Sun; r/eye hurting. The hole in back of tooth #8 is definitely noticeable. My r/nostil is hurting somewhat but pain (overall), is not to extreme. I have the jitters because of surg, which I am to have Tues, 8/9/11 on tooth #8. What I went through with the infection in my Gums, travelling through pfts

Cont
8/7/11 of my body, thinking about death.
Sun;

Mon 8-15-11 → For the last wk. plus, I felt no pain where it (pain), being noticeable. However, this morning I woke up at 2:21 AM, with a hurtful pain in the left corner of my right eye. The fear of the infection returning to my body is a frightful thought. Later that morning the pain that I had experienced earlier was gone. I'm still without a tooth #7, for which I have paid, and I still have a gaping hole in the back of tooth #8, for which I'm still paying. The hole is larger in diameter, where I can feel the hole becoming larger.

8-16-11 - Woke up with minor, and I mean minor problems Tues: in the mouth area. No noticeable pain. However, the hole in the back of tooth #8, is beginning to put greater fear of anxiety on my mind, because of the infection I had ~~in~~ I actually saw death. Seeing Attorney Matthews added a little anxiety as well. It is so wonderful to be able to write things down to remember daily emotions, feelings, because it was an apparent memory blank when I was with Atty: Matthews.

8-17-11 I called Atty: Matthews Office to remind him Wed: that the notes I had given to him from Day 1 could explain more concerning who I had seen & why. ~~It also~~ They (notes), gave a better reference as to what was said at the time.

8-18-11 I ~~arise~~ woke up 1:37 AM because my husband, Thurs: Larry was having Sur, to remove a basal, tumor.

Cont. Cont.

8-18-11 Thurs. under his eye. However, I saw a young lady I knew that once worked at Two Notch Wal-Mart Pharmacy. She and I got into a conversation about past times and what happened w/me (mouth), and Dr. Joel Johnson. She confirmed, knowing Dr. Joel Johnson & his wife Pam along with his two sons that yes, Dr. Johnson is an ALCOHOLIC. She stated while working in the Pharm., at Two Notch Wal-MARK, Dr. Joel & Family was her customers, but apparently there was a break-up in their marriage due to Alcohol.

8-19-11 I could never understand why my tongue keep Fri; getting cut (sore). I realized it is because when Dr. J. Johnson shaved my teeth's May 11, 2011, he undercut the top, as well as the bottom, leaving the teeth to be sharp-edges. I notice the undercut in top & bottom. Tooth #7, that was taken out was almost a nub.

8-20-11: The day was going along fine until I cut Sat: my tongue.

8-21-11 - No pain that I notice. I feel the hole in Suni: back of tooth #8. The tooth will not grow longer, therefore, it is still shorter than 1st, put in. My bottom ~~three~~ teeth's are short as well, because of his action of shaving them. Anxiety is once again, building up because I'm preparing myself to go to Dr. Gillispie, who is also a dentist.

8-22-11 no pain in my mouth, but relative fear
mon; is in my head, As the fact for me to
go to the Dentist come wed, Anxiety.

8-23-11 I ~~did~~ Wake-up with a headache, with
Tues: pain in my r/nostril, And r/eye. I suspect
that it is more of Stigma Anxiety than any
other ~~system~~ symptom due to the fact I
have a dental Appt. tomorrow. However,
I'm glad the hole in back of tooth #8
will be closed, it is nothing but a nag-
ging, irritating obstacle to feel.

It was 4:19pm when the phone rang. It was
Suzanne from Dr. Gillispie's Office. She said
"Brenda, this is Suzanne from Dr. Gillispie's
Office, Are we going to see you tomorrow - At
1:00pm" I made a joke about it being at 10:00
since they canceled my Appt. that was Sat.
May 9, 2011, at 10:00pm. She said no, it's at
1:00," I said "yes I see it on the Calendar."

^{Suzanne} The conversation began to change - fact -
"this is your last time w/ Dr. Gillispie, then
you go back to Dr. Johnson and he does
the closing." I said, "Dr. Joel Johnson, re-
peating myself, Dr. Joel Johnson. You mean
to tell me I got to go back to Dr. Johnson."
I continued, ^{by} saying "I'm afraid of him, he
messed me up til I saw death, I'm not going."
She said, "go to whoever you want Dr. Gillispie

Cont 4
8-23-11 will be finish". We hung up with words of
Good-bye. After I hung the phone up, I
Tues immediately called Atty: Matthew. Becky
answered and I began to inform her as
to what was said from Dr. Gillispie's
Sec., and she (Becky), connected me to
Atty: Ken Matthew's line. I informed him to
what was said, telling him "I ~~was~~ was
not going back to Dr. Joel Johnson" and
he agreed, that he would not go either.
He stated for me to request another
Dentist.

8-24-11 The anticipation of going to the Dentist had
Wed. developed into 'I don't want to but I need
to'. But when I arrived the fear diminish-
ed some due to the friendliness of staff.
Since I had gotten the call yesterday concern-
ing Dr. Gillispie final treatment, I decided
to ask him to do the final filling. He said
he would. I asked 'when can you do it' &
he replied 'right after the treatment', then
I asked 'how much, \$, would be added on-
'to my bill' and he said 'we'll waive it'.
He completed the tooth #8, as well as buff it to
a smooth surface in the back. I was so glad
that I no longer had to feel that nagging hole
in the back of tooth #8. Shortly afterwards I
left, thanking him & staff.

8-25-11 - I woke up with no pain and excited about Thurs. the hole in back of tooth #8, being closed as well as all works be completed. I called Atty. Matthew office after making an appt. for Monday, 8-29-11, for consultation with Dr. Greg McKinzie's office, informing Atty. Matthew of the process as to what is happening to me. Becky wasn't in so I left a message another aide of his. I will call tomorrow to make sure he got the message.

8-26-11 - Still excited that I don't have to feel the hole Fri; in back of tooth #8. I don't feel bad (Achy), at this moment. I called Atty. Matthew to see if he received the message I left for him yesterday. The day is going along fine.

8-27-11 - For the last month or so I have been experiencing a nagging shock wave of pain from the gum to my eye, only when I'm laying down. When I get up on my feet the pain is bearably noticeable. Therefore I often say (write), there's no pain, at least to the point where I can actually say I'm hurting. However, at this moment there is no pain to notice.

8-28-11 - woke up to the same feelings that I had Sun; yesterday. When I'm laying still (trying to sleep), I notice, I have pain shooting from my gums, side, to my eye.

8-29-11 MON. - I woke up with no pain at all, but a high anxiety of bad nerves, because I had a Dental Appt. When I arrived at Dr. McKinzie's, I was feeling no pain,

8-29-11 ^{cont'd} I had a little anxiety. When Dr. McKenzie
came into the rm., we talked about tooth #8 and
tooth #11. I told him, 'At this particular time I was
not concerned with replacing tooth #11, but informed
him that I would have him put an implant in at
a later date. I said, it will be O.K. to make an
imprint (impression), of my mouth but the major
concern was tooth #7. I also asked him (Dr. Mc-
Kenzie), how long would this process take? He
replied, 'Once he cut the gum & insert the plastic
bone, it takes 3 mos. to heal, then he would
attach the tooth to the plastic bone and that
normally takes about 6 wks. to heal.' He left
the rm. and I was left with one of his assist-
ant. She made an impression of the upper teeth. We
went to the ^{front} desk, and I left.

8-30-11 ^{Tues.} - This morning began no different than the
last few mornings except my thought concerning the
forseeable surgeries I'm to have in my mouth. I tried
not to see (look) at it in a negative way, but an en-
hancement to my natural beauty from my smile. I
tried not to exalt myself with the anxiety that stimu-
late me in having negative views concerning Dentists.
I know that Dr. McKenzie is a very good dr., how-
ever I want no more infections in my gums. I spoke
with the insurance company and later determine that
I would have surg., on #11, as well.

8-31-11 ^{wed.} The day began with pleasantness, free from pain.
I had an appt. w/ Dr. Gregg McKinzie, which that
went into discussion about tooth #7, and tooth #11.
However, we spoke about religion - Dr. J. Johnson

Cont

8-31-11 - but, not long. The quote was 'that' she
Wed. think she's going to get some money, by
Dr. McKenzie. I said I don't think decisively,
but if a man claim to be of God, then why should
he lie."

9-1-11 - I woke up free from pain, but later in the day I
Thurs. began to feel as though I was carrying a heavy
load in tooth #8 which made me feel as though the
infection had returned. However, I went to Dr. McKen-
zie, since I had a 9:00 AM appt. Dr. McKenzie later
called informing me of what he found from tooth #
11. He quoted, 'there's enough bone where I can put an
implant', we spoke to each other with a few more
words then we hung up.

9-2-11 - Today started early with a nagging ache as in
Fri. the center of the tooth #8. I knew that I would
be seeing Dr. Gillispie today, so when I did I
asked him, 'if there's any way the infection can
return?' He asked me, 'is it hurting,' telling me
that it will go away and to come back in 3
months. I made the final payment and left.

9-3-11 - The day went along fine. The was at no
Sat. means severe.

9-4-11 - The day went well.
Sun.

9-5-11 - Holiday, some pain but not extreme. I am beginning
Mon. to believe that what I am experiencing (pain) in my
mouth connects to my diabetes (sugar). It is not
an all-day feeling, mostly when I lay down. I
never forget to inform Doctors/Hospitals that I am
a diabetic.

9-6-11 - Woke-up to minor pain, which turned into a nasty
Tues. fear of anxiety with me thinking about the upcoming

Cont
surgeries to be performed in my mouth. I am really
scared that the infection may return. I have learned that
mouth infections from the gums can travel to the brain +
leave you in a catatonic state. Having diabetes it is my
intention to wait on my mouth to heal before any more
cutting. At this particular moment I feel fine.

9-7-11 - Minor pain in mouth that is aggravating, because it is
continuous + I can feel it. It's not a strong hurt
but it is noticeable. Slight headache. Otherwise the
day was fine.

9-8-11 - I woke up with the same feeling I had when I
thru's had severe infection leading to my eye. The pain
was worsening and lasting longer. I did not ache
where I could not perform, so I went about my
daily activities.

9-9-11 - I awoke with very noticeable pain in my mouth.
Fri; I noticed I had two small bumps on my gum
between # 7 + # 8. I called Dr. McKenzie's office
to talk with Ronda (Acct.), to inform her of my
due (upcoming Surg.), but ended-up talking about
the pain in my mouth and the bumps on my gums.
She told me that it was infection and that I should
come in, asking me if I could get there in 30 min.
It was 9:30 am, so I had to be there by 10:00^{am}.
When we arrived, I was X-rayed. Dr. McKenzie
came in read the X-rays, put me antibiotics + left.
Before X-rays were taken, I asked a lot of ?'s, as
to why I'm having so many infections in the same
area. No good answer was given or they just couldn't
explain. I left went to see my mother, then home.
I made an appt. to see Dr. Gillispie, since it prob
was in # 8, and I was told to go back to him by
Dr. McKenzie. When I got home I call Atty.
Matthews, spoke w/Becky and told her about this problem.

Cont
Sat, 9-10-11 - I had taken the Amoxicillin (Antibiotic) as prescribed and I still felt some pain in that area.

So, I continued to take medicine. I really want to know why I am having so many problems stemming in my mouth since I went to Dr. Joel Johnson. What are they covering-up? As the day continued to 3⁰ clock, the pain escalated like it did before. I could feel the infection begin to travel in my face & ears. I knew then that the bone in #8 was fractured as well. The pain was identical and the Doctor, (Dr. McKenzie) was doing the same thing, putting me on Antibiotics. I remembered being told in May that tooth #8, was the root was fractured, however the root was gone 38 yrs prior.

9-11-11 - 4:23am, I'm up, hurting in the mouth from tooth #8, sun¹, because infection is getting worst. My eye, nose, is hurting. I'm so tired of having pain in my mouth.

9-12-11 Could not sleep, so I woke up early with high moni. Anxiety about going to the Dentist - Dr. Gillispie. I (was), arrived early and was seen 2 min. After I arrive. The nurse took me in the back & began to examine my gums. There was a little soreness w/ sensitivity which I always have when my tooth is being tapped with an iron object. I took her finger and layed on the area where there is pain, telling her about the bumps. She said, 'I don't see anything'. I said 'of course you wouldn't, I've been taking Antibiotics for a few days faithfully from Dr. McKenzie who suggested as well as supplied them

9-12-11 to me. Suddenly, in come Dr. Gillispie examining
now, the same way and saying the same as his assistant.

I replied the same. Dr. Gillispie spoke in a tone
as if I was bothering him. He said, 'take the rest
of the antibiotics, wait a week then come back &
see me.' I ask, 'so you're saying don't have any-
thing done to my mouth until the infection is
cleared-up,' he said, 'exactly.' We talked further
for a few min., more, I left went to the front
was given an Appt. card for Oct. 3, & left. However,
Dr. Gillispie did feel that the swelling persisted.

Sept. 13, 11 Tues: I didn't take antibiotic last night, because I
feel as if there is a conspiracy between the Dental
Doctors to cover-up what happened to me by Dr. J. John-
son. Because I know infection is a bad thing, I will
Jump start the taking the med. at 3:00 PM. Minor pain
called

Sept. 14-11: The day started out nice, no pain or drain of in-
Wed. fections in my mouth. It is a terrible feeling when the
mouth is hurting. It makes the entire body painful.
It ended fair.

Sept. 15-11: Same as above. I started walking to ease my
Thurs. mind from my problems in the mouth.

Sept. 16-11: Same as above!
Fri;

Sept. 17-11: no pain: last day to take antibiotics is
Sat, Wed. the 21 of Sept. Received a phone call, 8:45 AM,
mother hips were broken. I rushed to the home,
Magnolia Manor, it was her fibria's both legs.

Sept. 18, 11: Mother had surg., no explanation given as
Sun: to how her fibria's got broken. I felt no pain still
taking anti-biotics.

Wed. Sept. 21, 11 - last day I took anti-biotic, now I will wait
to see if infection comes back.

Cont

9-24-11 - It has been a few days since I quit tak-
sat. ing the Anti-biotics and there is no noticeable
pain and I'm very glad about that. ?, who in their
right mind want any kind of pain.

Sun,
9-25-11 - no infection:

mon.
9-26-11 - I felt fine, no noticeable infection or pain in my
mouth. Will set a date for surg. --- the day passed
me by.

Tues:
9-27-11 - Pain began to ease back into my gum - right side
(top). The right nostril aches as if the bone is
damage. All I know, before dealing with Dr.
Joel Johnson, I had no such pain. However,
the pain I feel now (today) is not excruciating.

Wed:
9-28-11 - The pain in the gum + nostril began to worsen.
I called Dr. McKenzie's office, Betty answered
and connected me to Tonda. We talked extensively,
about the increased pain in my mouth + nose. I
mentioned that when I am taking anti-'s I feel
no pain. I also mentioned that the problems
I seem to have have went on too long. She
said "it could be that the infection have spread
into my sinus." We talked about what happened
to my mother, I asked her to say a prayer.

Thur -
9-29-11 Having problems sleeping. I woke-up around
1:27am with pain in tooth #8, R/Nostril + R/eye,
with other parts of the face. It felt as thou
infection was spreading heavy into the facial
point of its entirety. It was 3:30am when I feel
back to sleep.

Fri
9-30-11 - In the wee hours of midnite there was a lot
of discomfort but no hard pain. I slept better but
that could be because I was tired. 8:00am the
notice of pain had cease somewhat in the 'gum but

the ^{R/}nostril was still aching & the ^{cont}Year. I'm pray-
ing that the headache(s) don't return.
9-30-11 Fri -

Sat. 10-1-11 - Late Friday evening I was beginning to feel normal without agonizing pain in my mouth. There was still pain, but little to notice, however, the r/nostril was still painful and more of an acute pain to the r/eye. Later in the day, I felt free from all pain, this is when I thought maybe the infection was about to leave my body. I was a happy camper. For six (6) months I have been dealing with trauma from my mouth.

Sun 10-2-11 - The entire day went smoothly, with little pain except the tooth felt heavy (#8), with pain in the r/nostril & little pain in r/eye.

Mon 10/3/11 - The day is starting out fine. I have a dim headache and little pain in my r/nostril & r/eye. I'm to see Dr. Gillispie at 3:00 pm. Everything continued to go well, but tooth #8 still felt heavy. Saw Dr. Gillispie nurse

Tues: 10/4/11 - I couldn't sleep, because of nerves, thinking about the upcoming Surg, to be performed in my mouth in tooth area #7. I thought about it so hard, until the headache returned. However, there was no noticeable pain throughout the day.

Wed 10-5-11 - The day was free from pain, but the noticeable feeling, when I touch tooth #8, it felt and feels as if I can push it out of my mouth. Otherwise the day went fine.

Thurs 10-6-11 - Tooth #8 felt heavy, no other activity in mouth. Pain comes & goes.

10-7-11 Fri - made arrangement for Surg. w/ Dr. McKinzie. Fri; 10-14 11, 3:00 pm. Call Atty. Matthews, informed Becky. Tooth #7

Sat, 10-8-11 - The entire day was pleasant and free from pain in my mouth.

Sun, 10-9-11 - I Awoke at 5:40 AM, no pain but a thought about the upcoming Surg., and the length of time it may take me to heal.

mon 10/10/11 - No pain, rainy day: Larry went to Leesville.
Tues. 10/11/11 - no noticeable pain.

wed. 10/12/11 - The day was peaceful, no pain.

10/13/11 - High anxiety, nerves due to scheduled surg. tomorrow in my mouth, tooth #7, placing plastic bone in the gum - preparing for implant. Went to Dr. McKinzie's office paid \$1,473.50, towards bill. Received Antibiotic + a prescription for pain. Had prescr., filled. Later started process of meds.

10/14/11 - Surg., High anxiety, no pain though, nerves in high. Fri; Alert: Went to Surg. At 2:20. I took Vicodin before leaving. After Surg., an hr. later the pain was substantial. I thought I was dead, alive, dead again. I hurt like no other pain ~~existed~~ except when I had the infection. Dr. McKenzie called checking on his patient.

10/15/11 - The pain persisted all through the night. I could not sleep, so I got up slept in the chair on + off. I went back the bed after taking the antibiotic. I tried to sleep but the pain was too much. Somehow I fell asleep and woke up exactly at 6:10 AM, took my Antibiotic and slept some more. At 10:00 AM the severe pain was gone. I was still sore in the mouth and areas around the face, but felt much better.

10-16-11 - I woke up no aching pain, but swelling had left the side of my face traveling to the lip, the front of the mouth. My lips ~~was~~ are very large in diameter with no hurtful pain. It is amazing how different Dentists work with patients. I am the same person, but different outcomes.

10-17-11 - I woke up early in the A.M., 4:58, not because of pain but, because I slept free of pain. The swelling is dimini-

10-17-11 (Mon.) Don't
wishing to its normal look & size. I thank God.
What a difference a Doctor (Dentist), makes. There is
still minor pain with the swelling that persist, however I
capture that to be normal. I'm taking anti-bodies as per-
scribed.

10-18-11 - Today began on the norms of what is normal for me. Very little
Tues. pain, with some swelling, but not noticeable to the watchful
eye. I had a Doctor's appt. with my Primary Care Doctor,
and the visit went well. I lost weight.

10-19-11 - There is still some pain. Not enough to say that I'm
wed. Actually hurting, but enough to say that I had to
be cut on. Some swelling, about the same as yesterday.
The stitches are still in the mouth. It is still hard for
me to believe the difference in how 2 Doctors, that
work in the same aspect of medicine, perform their
duties so different to the patient. The action of eat-
ing hurts more than when mouth is stable.

10-20-11 - This morning I woke-up with more pain in the mouth
Thurs: more so than the last few days. The swelling seems
to lag to the jaw, not decreasing back to normal. My
r/ear hurts when touched internally. Every-thing else
appears to be O.K. I'm in more pain when eating, w/
extreme pain r/side bottom nostril. I went to Dr. McKim-
iel's office, showed staff how good mouth is healing,
and informing Tonda-Acet., where pain persist r/nostril
bottom.

10-21-11 - Pain still lags around nose r/side. Otherwise fine.
Fri: However, it still hurts when I chew. No headache,
no eye pain, no ear pain and no neck pain.

10-22-11 - Face seem to eliminate most of swelling, the only pain
Sat. that I notice is above r/nostril above lip (internal) where
bone was fractured.

10-23-11 - Enjoyed Church. Health issues are the same as yes-
Sun. terday.

10-24-11 - So far, same as last 2 days.
Mon.

10-25-11 - The pain ^{below} ~~above~~ my nostril (right), where bone
Tues: WAS fracture still gives me some pain, And it is
becoming a nagging situation. met w/ Atty Matthews
yesterday, 10:15. I had 3² for him, but I left his office
with more questions in my mind than when I went to
him. No good outcome, but no bad outcome either. no
pain elsewhere.

10-26-11 - Pain still persist under nostril, no other visible
Wed. or noticeable pain.

10-27-11 - Same as yesterday. Went to Dr. Sykes, and picked
Thurs: up a copy of what he did on my mouth. Jan. 28, 08,
I took a copy to Atty Matthew. I wrote the
quest, How can you fracture a tooth, when no
tooth was there? The reason Dr. Johnson put the
post, because the tooth fell out. Went to Dr. Greg
McKenzie, he removed (Joanne), stitches, looks
very good. Next Appt. Dec. 27, 11, for X-ray. Dr.
McKenzie also wanted to know whether I was going
back to Dr. Joel Johnson, when I said 'no', he
said "you can go to whoever you want to", ~~he~~ I
said "I'll take your recommendation" he said,
"We can do that, with no problem."

10-28-11 - no pain, I'm thankful. tooth #8, touching bottom
Fri, tooth. Needs Adjusting.

10-29-11: No pain. Mind boggling, it's as if Dr. McKenzie & Dr.
SAT: Johnson is saying I did not get a post in my mouth.
Thank you for ink pens, calanders & paper. I decided
to request X-rays from Dr. McKenzie on Monday 10-31-
11.

10-30-11 - no pain in tooth area, except under ^R nostril where bone
Sun: WAS fracture. Make sure to call Attorney Matthew.

10-31-11: - went to Dr. Gregg McKenzie's office & picked
Mon: up X-ray with post in mouth inserted in tooth
#7. Pain is vacating nicely.

11-1-11 - woke up at 3:46 AM pain in tooth area #7. I thought
Tues: maybe it was cold air, since I have been feeling
the same for the last day or so. However, the pain

11-1-11 ^{don't} It's escalating to some of the same type of problems I had with the broken bone. I am a diabetic & I now think it's the plastic bone. I went back to bed around 4:30am pain still persists. Areas being affected: Left, Right, R/cheek, R/side of neck, R/jaw.
Appointment: Dr. McKenzie, 3:00pm. I arrived early, got to talking with another patient and forgot to check-in. I checked in 3:01pm and was called by Cindy a few min. later. X-rays were taken, it appears to show healing normal, w/exception there may be some infection. I was given antibiotic (Amoxicillin). I learned the X-ray that was given the day before was truly mine. I thought Dr. McKenzie put in a plastic bone on 10/14/11, however he put in the same thing as Dr. J. Johnson. When Dr. McKenzie came in, we spoke a little about how the post was inserted into my mouth by Dr. Johnson. I explained to him that the permanent crown had fell out, leaving a space. Dr. Johnson inserted the post directly in my gums. At that point he said, "that is not why you're here now." He continued to do his thing, having Cindy take another X-ray, and giving me antibiotics. I went to the front, talked to Tonya & left. I was given an Appt. Card to return 11-14-11, at 11:30am

11-2-11 - I'm taking antibiotics as prescribed. No major ~~med~~ pain. Off to see my mother.

11-3-11 - Having a very small amount of discomfort in mouth (#7 area), Thurs; nothing to be alarm about. With all these infections, I wonder if they will take a toll on my body, other parts. The realization of pass (Dr. Johnson) pain & swelling from putting a post in tooth 7, what a difference from Dr. McKenzie doing the same (placing a post) thing after the surgery series, in the same direct area, makes a difference the same way, without a tooth being in place, just a hole.

11-4-11 - No visible pain of notice. Spent day w/ mother, in change Fri. mother is in pain.

11-5-11 - taking antibiotics ^{cont} as prescribed, no pain or
sat, swelling.

11-6-11 - no pain, no swelling.
Sun.

11-10-11 - For the last couple of days, there's been no
(mon, Tues, Wed, Thurs) pain to speak of. There's no swell. All is good, except
tooth #8 is touching bottom. I feel pretty good at this
particular moment. I'm waiting for the tooth, #7, to be
inserted into the gums.

11-11-11 - The days are the same no pain. Went to Dr. Mc-
14)-11 Kenzie, appt. 11:30 AM, all's fine.

11-14-11 - Doing much better. Only a slight discomfort in the
mon: right nostril, but no noticeable pain.

11-15-11 - Same as yesterday.
Tues:

11-16-11 - Same discomfort, no noticeable pain. Late in
Wed: the day, nagging headache.

Nov. 17-
11-17-11 - minor pain in nostril. Continuing headache.
Thurs-Fri Woke-up 3:21 AM with a nagging pain.

11-19-11 - Same irritating, (nagging) pain that just seem to
sat. Lag in Gum areas of #7 & 8, I'm not alarm, I feel it will
eventually go away.

11-20-11 - The day started beautiful. It was late into the
Sun, day when the annoying pain sprang. The pain is
not something you would normally notice, but when
your body feels different in itself, that's when you
notice. The pain isn't loud, it's just something you
notice when it's under the nostril. It's not even
hurting, but it changes how one reacts to activities
that is normal for you. I believe this pain is my
sinus, when the infection was most de-

11-21-11 - The nagging ache in sinus continue. I feel that
mon, this is permanent. No other pain at this moment.
Sometimes I get a sinus headache.

11-22-11 - Woke up with a Conit nagging pain, as though the infection had returned. I had some of the antibiotics left, so I decided to take them. The pain/infection began to dissapate but I continued to take them. The only reason the infection seem to keep returning is because of the cemented crown that was placed over a bad root that did not receive ventilation, stemming from the fractured tooth #7. I'm beginning to feel like a yo-yo, with my mouth. However, there's no pain elsewhere.

11-23-11 - It's 'Thanksgiving eve' and I feel fine this A.M. I'm Wed; still taking antibiotics - what I have left - and the infection is clearing up. It has been 7 months plus, and I'm still having complications from a raw deal of performance in Dental work. I'm paying out all this money but not seeing the end result. Between teeth #7 & 8, I'm an antibiotic junkie. The end does not justify the means.

11-24-11 - Same as above.
Thurs (THANKS giving)

11-25-11, Woke-up, 1:23am w/ pain ranging in my ear & throbbing Fri; (Nagging) in my eye, stemming from tooth #8. I thought it might be the infection returning so, having a few antibiotics left I took them for the next 3 days. However, the pain left after taking 3 pills on this day.

11-26-11 - I notice my bones were stiff & hurting like never Sat. before. Around my neck & shoulder, back muscles, etc. It was the Flu. It got so bad (pain) I couldn't move. The joints ached.

Wed; - The Flu was about over. I woke-up with an 11-30-11 Aching pain in the same areas of my eye & ear, most as ear. I'm thinking it is a permanent sinus problem that I have developed from what happen to me. It is my intent to go to another Doctor.

12-1-11 - The realization is, there is a problem. I did not rise with Thurs; as much pain as the day before but I did awake with pain.

- Cont
- 12-1-11 - The infection is prevalent, stemming from tooth #8. My
Thurs. Sinuses was worsen shooting pain straight to my R eye,
& R ear. Because of the prolong effect that I'm having from
the crowns, (fracture bones, irresponsible acts), from Dr.
J. Johnson, I'm suffering the most. I called Dr. Gregg
McKinzie's office & Cindy answered. I informed her of
what the pharmacy Dr., said yesterday. That the antibiotic
Dr. McKinzie is giving me does not work. He's given
me 7 bottles x 30 pills and I still get infections. I asked
that he call in a different type of antibiotic, and I
was going to another dr. to find out why the infection
keep returning. I called Amy Matthews, spoke with
Becky 8:40am, and informed her of what was said and
why. I need to make an appt. to a ENT-Doctor.
- 12-2-11 - nagging pain in sinus area. Same as above date. I must
Fri; make time to contact an ENT Doctor.
- 12-3-11 - There is some pain in mouth, not bad though.
SAT. Eyes hurt a little.
- 12-4-11 - no pain, but touching the tooth #8, with my tongue
Sun; it feels as if it is coming out.
- 12-5-11 - Early morning minor pain, however, I noticed a sharp
mom. per pain when air enters mouth or when mouth is opened.
That means, there is nerve damage in #8. I'm on Anti-
biotic, hopefully it will restore
- 12-6-11 - Not a lot of discomfort this am, however, plenty dis-
Tues: comfort late evening yesterday. This am, I'm feeling
what has become normal, R eye & R nostril is giving
pain. Sensitivity to mouth. Hot coffee, which I drank
every morning, warms the gum, cold air or cold food
products, irritates the gums. The pharmacist might be
right. I have nerve damage. The tooth, #8. Always feel
as if the tongue can push it out.
- 12-7-11 - No sensitivity this am. Keeping body warm. Having
Wed; same problems with mouth; pain in #8, causing eye to
ache & R ear feels as if I'm going deaf.
- 12-8-11 - Today am. feels as though these symptoms are get-
Thurs. ting worse.

Cont

12-9-11: Pain in my mouth is sporadic, it comes & goes, lately
Fri, it stays longer. When cold air or cold food touches
the gum, the mouth experience A chill (ache), that
hurts terrible. All through this day my mouth aches.
I really don't know what is causing the sensitivity
of pain, but I do know that the Sinus is causing
the R/eye & R/ear to ache.

12-10-11 - This Am. the Sinus is feeling the brunt of
Sat. pain. I'm tired of having this problem.

12-11-11 - Same - I: R/eye, R/ear hurting most of day.
Sun.

12-12-11 - Headache mostly All-day: Sinus bothering
most. me, R/eye, R/ear, hurts

12-13-11 one drab day. Headache persist, gums hurts.
Tues. tooth # 8, cold chill.

12-14-11 - A persistent pain shoots from #8 to R/eye
Wed: & R/ear every day.

12/15/11 - Pain woke me up. my R/eye & R/ear experience
Thurs. me hurtful from nostril-tooth #8. I know
these Doctors know what is causing
this daily pain. I've taken all the pills
but pain still persist.

12-14-11 - The realization of daily symptoms of pain,
Fri, happens every day with my mouth. Some
days are worst than others. But every day
pain is there. All the pills I've taken, don't
or help the ever ending symptom. Nerve damage.
Age. My R/eye, R/nostril, & R/ear, suffers

Cont
Routinely.

Sat., — It is a never ending to aches & pains stemming
12-17-11 from my mouth. I think these Doctor's Kneels
this, but fail to tell me.

12-18-11 - woke up early, 4:41 AM with a tooth ache. I realize
Sun; there's no tooth there, #7. The Aching stopped 2 hrs.
Later, but the headache continues. My nostrils are
sore, however, I notice the shock of touch felt as it
was returning. The R/eye & R/ear, R/side of neck
is doing its daily thing, not hurting no worst. It is
very tiresome experiencing pain on a daily routine.

12-19-11 - No great pain to notice but the same return feelings
Mon; Are back. R/eye R/ear R/side of neck and of course
R/nostril. The sad thing is the continuation of pain,
especially since cold weather is approaching. The good
thing is, it's not getting worse. Call Dr. Mc Kenzie,

12-20-11 - Every since I had work done on my mouth, 4-6-11,
Tues; I have had nothing but dissatisfied dehs & arehs
from my mouth. Aches & pain, that last a minute
to all day. Some days the experience is longer,
and some days are shorter. Regardless, of how long
or short I should not feel anything out of the
norms. This morning is worst, R/eye, Aches badly.

12-21-11 - Woke up early 3:23 AM #8 throbbing. This
Wed; is getting worst, and the cold air or ^{cold} beverages
heighten the sensitivity. This is not an all
day feel but it does re-act more than once a
day.

Lally Surg.

12-22-11 - My R/ear Ached all morning. My Sinus feels
Thurs. as if its sore, and my R/eye hurts as if
its going to completely close.

12-23-11: Same feelings with the mouth as the last
two days. However, when my tongue touches the

^{cont}
12-23-11 back of tooth #8, it feels as if the tooth came fall out.
Fri. The pain is there, for most of the day. The R/ear
of the R/eye won't quit because of the nostril,
sinus, R/side.

12-24-11 - Woke up with a sinus headache. Facial - hurts.
Sat. It is now later in the day, & tooth #8 and space
where tooth #7 is hurting bad upon ~~tooth~~ touch.
It feels as if the rod that was inserted
10-14-11. It is sharp and gums are getting sore.

12-25-11 - All day I had soreness in the area #7, where post
X-mas was implanted. It felt as if post was trying to come
Sun. out of Gums. #8 was the same old pain that I have
been experiencing daily, except today the pain was is
louder. The area of Gum is sore and tender.

12-26-11 - I called Dr. McKenzie & left a message. The area
Mon. #7 is turning black and bulging out. #7 is no
different from yesterday. It (mouth), is becoming
very painful.

12-27-11 - I woke up with sharp pain across the R/side of
Tues. my face. The entirety of mouth is begging to feel
the sharpness. At 8:10 AM, a call came from Dr.
McKenzie's office, requesting that I be in his
office at 1:15 PM, however, Larry has an appointment
to remove bandages or such because of Surg. he had
on Dec. 20, 11, for Cancer removal. I waited til
After 8:30 AM, and called Atty. Ken Matthew, in-
forming Becky of what was happening. I also
took pictures of my gums (mouth), before
calling Dr. McKenzie back. When I did call, I
was fired-up, angry because of what is
happening to me. I know these Doctor's
know what is wrong. They are covering-up

Cont what is wrong with my mouth. I told
Tues, exactly what I think. The cover-up about
12-27 the bones being broken. And the Lord is
showing him that wrong don't make a right.
11:55 AM, R side of face is swollen, with sharp pain
in the gums. Went to Dr. McKenzie, mouth was
hurting when I arrived. Took X-rays, touching
the gums. The gums were very sensitive to touch.
According to Dr. McKenzie, "it may be that I
need a root canal in #6." However, He's going
to perform a bone-graft, giving me an IV sedation
on Jan. 3, 2012. I asked, "is this because of
the fractured bone?" He replied, "no." He continued
to tell the nurse to prepare me for sedation.
I showed Dr. McKenzie exactly where pain is
coming from

12-28-11 - Woke up with pain throbbing sharp in Gums.
Wed. R/Eye aching as well as R side of face including
R ear, along R side of Neck.

12-29-11 - Went to bed later than usual because of pain,
Thurs 11:10 PM, woke up early because of pain, 3:28 AM
Yesterday, Dr. Gillispie took X-rays, no signs
of bad root. Surg. is scheduled for Jan. 6, 2012,
at 4:45 PM, in Dr. Gregg McKenzie's office. The
procedure is called bone-graft, to eliminate
the on-going pain from fractured bone from
Dr. Joel Johnson Dentist. The pain this morn-
ing is louder in the same areas of mouth and
face.

12-30-11 - Woke up early due to unnatural feelings
Fri;

Cont. in my gum. It seem as though the Anti-biotic
12-20-11- takes care of the ~~p~~ Infection, but does very
Fri little towards the pain. The feelings of discom-
fort is getting worse. However the same feelings
just louder.

12-31-11 - my ^R eye is pulling, with a shock (wave)
Sat. in my R ear. My Sinus hurts the worst, I
get a headache everyday, and my tongue feels
as if I can push out #8, all the time. What
a way to bring in the New Year, with pain.

1-1-12 - The same, some days are worst than others. My
Sun; R eye hurts in extreme, my R Nostril (Sinus), hurts
like hell and my R ear sometimes feels as if I'm go-
ing deaf.

1-2-12 - The day started out with extreme pain in the
mon; gums which caused the R eye to ache the entire
day. The same applies to the R ear. Headache's
lasted most of the day, but the R eye aching
like it does scares the heck out of me.

1-3-12 - The pain is somewhat bearable this morning. But
Tues. Other parts of the body aches R shoulder + feet.
Ears feel as if they are stopped-up, R eye feels
as if its closing shut, R Nostril is causing the
aches, I do believe.

1-4-12 - The irritating nagging pain lasted for most of
Wed today. I woke-up w/ pain. Later this evening I
went the bed w/ pain.

1-5-12 - ~~W~~ Waking up with throbbing pain is no
Thurs; joke. My right cheek hurts right up under the
R eye. Headache persist, with the same nagging
feeling that is becoming a norm, that is not
normal.

12-6-12 - Woke-up, pain wasn't bad, nevertheless pain
Fri; was there. I prepared myself for surgery, mostly
fearing the cutting. At 4:15 PM we Larry & me went
to Dr. McKenzie's office. Surg. was done at 5:00 PM
as schedule by Dr. McKenzie. According to Dr. M
the post had went through the bone on #7, and
that was why I had so many infections as well as
other problems with my mouth. This was seen
from the gingival flat. A bone graft was done on
#7. Excursiating pain arose, not for a minute,
but for a while. However, when this heal, all pains
should be gone. Given more Anti-biotics & Vicodin.

12-7-12 - woke-up, my face was so big I even hurt to look
Sat. at it. All will subside. I called Atty Matthews, left
a message on his machine. Stayed in the house
slept on & off. Took meds as needed.

12-8-12 - Having pain is nothing new, but since the surg.
Sun; 12-6-12, this is a new feeling of pain. Hell, I have
seen. I did went to hell and fought my way back to
hell on earth. I can barely see out of my R eye be-
cause of swelling.

12-9-12 - woke up with extreme pain due to surg., Face is
Mon; swollen, gums hurting like hell. I'm hoping the surg.
does exactly what it is suppose to do. The 3 Doctors
(Dentist), that is involved in this equation,

1. Dr. Joel Johnson - who started the process
2. Dr. Greg McKenzie - who discovered the broken bone
3. Dr. Gillispie - who went along w/ their program - perfor-
med 3 surg. on one tooth #8.

I feel as thou these Dentist's are looking solely
at my color and not the issue.

I called Ken Matthews (Atty), and discussed the
exact surg. that was performed.

12-10-12 - I keep thinking how pathetic the entire
Wed;

Cont

Process around my mouth has become around what is
17th 12th suppose to be S.C.'s finess. My face is still swollen
Tues, And painful because once Doctor messed-up.

1-11-12 - Gum is very sore & tender. Because of one Doctor's
wed; (Dentist), error, I have lost time I normally would
spend with my mother, who will be 91 yrs. of Age
Next month. For this, I can't forget and it's very
hard for me to forgive. I'm still spitting out blood,
And since the surg., I have yet to go out the house.

1-12-12 The Spitting of blood Awoke me this A.M. 4:00^{am}
Thurs; I couldn't go back the sleep, so I got up for to-
day. I'm still having the same problems I
had yesterday. I called Dr. McKenzie's office,
*Junkie, Answered, I requested a nurse. So
she gave me Cindy's voice mail. Cindy called
back at 10:00^{am} and I asked a few?'s, which
were the same?'s, I ask on her voice mail. 'my
Gum is very tender & sore, I'm still spitting out
blood', can I go outside? When she called back
because of the defect, that is why I'm still hav-
ing problems. How did it become so defective? As
for going outside, I could.

1-13-12 - I notice early this A.M., the swelling has dectas-
Fri; ed substantially, and the majority of pain has dimi-
nished. However, I still have pain in tooth #8 and sinus.
As for pain shooting into my R eye & R ear the pain is
eliminating itself. I'm praying that this last surg.
1/14/12, will take care of all the pains that aroused
me daily.
I'm going to call the Ins. (Delta Dental), request

Cont

1-13-12 All transactions made to each Dentist.

Fri; I don't want to feel paranoid to what my Atty, Kren Matthews, may or maynot be doing therefore I may call him. At 8:40am I did contacted Delta Dental and requested all financial transactions on my behalf and reasons given for transactions.

1-14-12 - mouth sore (Gums), very tender. No twitching of sat; the eye and no pain in R ear. Having pain in Gums #8 & 7, Area, otherwise normal.

1-15-12 - Today started out to be almost perfect. We sun; went to church, and there was minor pain only above R side top lip beneath R side nostril in sinus Area.

1-16-12 - I woke without pain. The day went well, only mon. minor pain occurred over empty space #7.

1-17-12 Throbbing, but not painful over #7 Area & #8. Tues;

1-18-12 - no noticeable pain, except late evening. Area wed; cut wake gingival flap was done became inflame & hurtful. Otherwise no pain

1-19-12 - with the exceptions of aggravating problems, Thurs; swelling, tenderness w/ minor pain in Area #7, no real hurtful pain or twitching in R ear. Nostril on R side in sore, but in time I expect that to go away.

1-20-12 - Late yesterday, I started having sensitivity Fri; pain in #7 Area. This has happen before but not as long. Today I awoke with no pain but soreness in my gum. There is no headaches or blinking of the eye. No problem with the R ear. However, there has been some pulling in the gum, as for me when I open the mouth wide.

Cont

12-12- I spoke to Becky yesterday. Atty. Matthews
Fri; Aide About perjury statements said and written
by Dr. Gregg McKenzie. I have an appt. today at
11:30AM with Dr. McKenzie.

1-21-12 - yesterday, I went to Dr. Gregg McKenzie on an
sat; appointment to have stitches removed. Stitches were
removed, not all of them. After stitches were removed,
Dr. Gregg McKenzie came in asking "How was I
doing?" I told him that I was fine and there
was no sign of pain anywhere except for the
aftermaths from surg. I also told him about the
~~pulling~~ when I talk. I then asked him (Dr.
McKenzie) "how come he didn't do this (surg.) be-
fore?" He replied, "he fixed what he broke". I said
'no', you didn't cause the problem, the problem was
there long before you put a post in my mouth. I then
said, 'don't perjure yourself.' I then quoted a state-
ment from the Bible, 'Jesus said, what greater
love for a man to lay down his soul for another'
Adding but not for one will do this again." He looked
at me strange, and saying to his aide, "make an
appt. for Brenda in 2 months." He left the room,
she and I headed toward the front, I was given an
appt. card + a copy of what was done and left. For
the rest of that day I could fill the stitches that
were left with my tongue, which was annoying.
I woke up this A.M., no pain, so far today I'm
doing well.

1-22-12 - Late evening yesterday I began to ache in
sun; Aken #8. I began to wonder if Dr. Gillispie
put a root canal over a broken bone. I had asked
that?, 2 wks earlier to his secretary. However,
the reply was, 'I do not know.' On this day, I
woke-up around 3:10am with a nagging sensation
(feeling), in my Rear and the same in my R eye. My
Sinus flared-up once again. I thought maybe, I'm
going to have these problems for a while because
of the long time it took before something was
actually done to straighten-out my mouth. Maybe
because the 9 mos. I took 130 bottles of anti-
biotic pills (30 p/bottle). I don't know why I'm
having these sensations. There is no pain I'm
experiencing, just uncomfortability.

1-23-12 - no real pain in the mouth. However, Last Friday
mon; 1-20-12, ~~some of the~~ some of the stitches were left
in the gum, which now is very aggravating. I
was sitting in Larry's Doctor's office when one of
them came out. I have one left in the upper part
of the gum, R/side, that is very aggravating.

1-24-12 - Woke up very early with no pain.
Tues;

1-25-12 - no pain to speak of but irritated by the
Wed; stitches left in my mouth. Two of them
came out but one is left in the upper
Gum that refuses to come out. It is as
if it is knotted there. I called Dr. Mc-
Kenzie's office, I go in tomorrow at 10:00^{am}
to have it removed. Otherwise, so far the
the day is fine.

1-26-12 ^{Don't} NO PAIN this AM., just AGGRAVATION from the Stitches
Thurs. Still hanging in my Gum. I'm on my way now to
have it removed.

1-27-12 - For a while, since the surgery on Jan. 6,
Fri; 2012, there's a nagging pain in tooth #8, but
its not constant. It (pain) comes & goes
but only come when I'm laying down. I tell
myself, it will go away and it does, but a
few days pass and the nagging pain is back.
It's not a hurtful pain, its just an AGGRAVATION.
Otherwise, the day went well.

1-28-12 Woke-up in excruciating pain, which I've had
Sat: for about 2 1/2 wks., in my right shoulder & Arm.
I thought I might be having a stroke, so I decide
to go to the emergency rm. Baptist Hosp. I felt
All Along that this was Arteritis which I do
have, but the long time of pain with pain
stemming from tooth #8 is nothing to ignore.
The pain in #8 is getting worst.

1-29-12 - Went to E.R. yesterday at Baptist Hosp., was
Sun; seen by Dr. Steven Cruik. The pain I was (is)
having in my upper-back right shoulder is indeed
Fibro-myalgia. The pain in my mouth is nerve
damage. I was given a shot in the hip and a
prescription for Cataflam 50 mg. and told to do
A follow-up with my Primary Care Physician.
Today there is minor pain in the mouth area
however it is pain. Sinus is sore and has been
for a while.

1-30-12 - After taking pills, pain easing-up in R
Mon; shoulder & Arm. As for my mouth, I now know

1-30-12

can't
mon; that I have nerve damage from tooth #7 & 8.

Reason I know, because I have pain every day. Be it minor or major, there is an un-normal feeling in my mouth. Today is no different than any other day as for pain. What I don't know is, there's a hard knot in my gum where surg. began - tooth #7, that is sore when touched and swelling still there on the r/side of my face. No major pain. I called Atty. Matthews office.

1-31-12 - Pain escalated in R/shoulder, R/eye & R/ear, and
Tues; R/arm. However, it is not as painful as it has been. My R/nostril has been sore for the last 2 days and a knot in the gum above the R/nostril is very sore upon touch. The area that was cut during surg. has opened and painful when biting/chewing. I called Dr. Reed's office informing him of what took place Saturday past, keeping the appt. I have scheduled.

2-1-12 - Slept well, woke-up to sensitivity to mouth.
Wed; This comes and goes but when there is a chill in the air, I can definitely feel & expect to feel some discomfort. R/eye & R/ear, seems to react with discomfort everyday. R/shoulder hurts from fibromyalgia

2-2-12 - R/eye, R/ear & R/side nostril is not feeling the
Thurs; normal action, but it is not pain. I'm feeling the same as I do most days now. No change as to how I have been feeling since I went to the emergency room.

2-3-12 - The cold weather flare into my mouth, as I yawn,
or drink cold beverages causes pain in the mouth.
Fri; No severe headache, but a nasty pain in the
R/eye, R/ear + R/nostril. These are chronic
symptoms that happen everyday. Other parts of
my mouth does not ache like this, meaning the
left side.

2-4-12 - I didn't sleep well because of pain in tooth #8, and
Sat; #7 area. #7 hurts upon touch and #8 everyday. Some-
times the pain ease-up, but rarely. I was told
everything was fixed, I don't think so. It is evi-
dent that nerve damage exist from pains that I'm
having. This am, I'm having minor pain as the
day linger on by the hour. It is still am as I write.
my R/eye, R/nostril, and R/ear drum is hurtful.

2-5-12 Chills hurt the gum when yawning. Pain persist
Sun; from tooth #8 + area #7. Shoulders still hurt esp.
R/shoulder along with R/eye, R/ear, right side of neck.

2-6-12 - Woke up early a.m. due to pain in mouth. It's
Mon; not a loud pain, but a nagging pain that refuse
to let me sleep. Cold air aches gum, esp. when
yawning. Bones ache in back, esp. R/side as
well as tooth #8. I hope and pray that Dr. Gil-
lipse didn't put in new root, ~~enah~~ over a broken
bone. I seem to be having a lot of unnecessary
pain dealing with these Dentalists, who refuse
and will not tell me the truth.

Tues; - I was having severe pain in my R/arm + R/shoulder,
2-7-12 with pulling from my neck. However, this has been
going on, starting just after having Surg. Jan. 6, 12,
in the mouth. Monday past I went to Dr. Reed only a
scheduled appt., because prior to I had went to

^{Con}
Tues, the emergency room, Baptist Hospital. Dr. Reed sent
2-7-12 me for X-ray's mon, After seeing him. I didn't know
what to expect from evidence of X-rays and the
Anticipation was just bearable. So in the meantime
while waiting to find out the results I continued to
have pains in my mouth, ^R eye, ^R ear, ^R nostril, ^R shoulder,
^R arm & right side of neck. It was after 2:00 PM,
I called and Dr. Reed's office said it was severe
Arthritist. The pain did not ease up for the remain-
ing of the day.

2-8-12: - Somehow the pain wasn't as bad as yesterday,
Wed. probably because I was taking medicines, that
were prescribed by Dr. Reed.

2-9-12: - Early AM, having pain like I did before
Thurs, Surg., I asked the ? before, 'did Dr. Gillispie
fill the tooth (crown), over a broken bone?' This
pain is more hurtful in the early AM,
mostly when I'm laying down. My nostril is
aching more this AM, I can't explain it, I
wish there was a machine I could be put on
and it shows exactly where the pain is, by
flashing a red dot exactly where pain is lo-
cated. With my situation, revolving around
pain, I can't see my mother on the normal
daily basis that I had started. The areas
of pain is the same, just that some days
are more prevalent than others.

2-10-12 - Pain is minimum this AM, with the
Fri; exception of ringing in the ^R ear.

2-11-12 - I noticed late yesterday evening that AREA #7 is
SAT; still open showing redness of gum. It hurts but not
severely. Today the pain is like yesterday. The symptom
- ms of the pains that is constant with me is nerve
damage.

2-12-12 - Same pains as yesterday, deprived sleep. Went to
Sun; Church, Mother's, - returned home.

2-13-12 - No change in the mouth, esp. in the A.M. How-
mon; ever, for the last few wks., it feels as thou I
can push tooth #8 out and AREA #7 is still raw.
The pain escalates to a higher degree in the
P.M.

2-14-12 - It has been 10 mos., & I'm still having the
Tues; same problems with my mouth. ^REyes, ^Rear, ^Rnostril,
tooth #8, and AREA #7. Coldness, from yawning,
drinking, etc., brings about pain of sensitivity. Sad
isn't it.

2-15-12 - Woke-up w/minor pain in ^Reye, ^R/nostril &
Wed; ^Rear. Nothing major but aggravating feelings
of discomfort that is not normal for the hum-
an body.

2-16-12 - Today, is nasty wet and chilly. I notice that
Thurs; my mouth ached most of the day. Tooth #8,
back with my tongue. My head ached all day, ^Rear,
^Reye, ^R/nostril and ^R/side of my neck. On the right
side of my face there is still some swelling at the
^Rear, as well as below ^R/nostril. Yawning brings
about pain, harder when air hits the gum. Since I
went to Dr. Joel Johnson, I've had nothing but
problems.

2-17-12 - Woke up w/minor pain, but a nagging feeling.
Fri; Throughout the day, the same.

2-18-12 - No extreme pain, but the same old sat; nagging irritations from days past, esp. the ^{upper} R/ear.

2-19-12 - Wet and rainy day. Mouth very sensitive to pain; sun; causing problems to my R/eye, R/ear + neck, R/nos^{tril} and R/side jaw.

2-20-12 - EAR is ringing, with soreness around my ^Rmon, face. The symptoms are the same mostly every day some days it gets worst.

2-21-12 - Early morning, no different than yesterday with Tues; pain on right side of face, esp. nostril. Went to Atty. Matthew's office, signed papers to release records from Hosp., Rich Mem., Dr. McKenzie + others.

2-26-12; for the past 4 days I have not log any sun; feelings that I felt, because of the emerging problems with my sinus. It feels as thou I can't breathe, eyes puffy, especially the R/eye. my R/ear is ringing off the hook. My sinus + throat is the worst. For the last 5 days, it has been the same.

2-27-12 - Wet + rainy this morning. Sinus Achey + sore. Mon; R/eye, R/ear R/nos^{tril} and R/side neck all ache. Not so but Ache ~~no~~ hurtful. These are the same problems I have been having on a daily basis since I met Dr. J. Johnson.

2-28-12. Went will the discomfort end? It feels as Tues. if I have cement under tooth #8, cold weather from a yawn irritates my gum.

2-29-12 - No difference from yesterday, Having Wed; a little more of a headache.

Cont:

3-1-12 - Some days are worst than others. Today is Thurs; fair. R Ear Aches a little and R Nostril have Simmer.

3-2-12 - Woke up early 2:00 AM pain in tooth #8. ? why Fri; Am I still having these pains? I'm aching so bad this Am., I'm thinking I can pull the tooth out with pliers. My R eye giving me the worst, my R Nostril follows, and my R ear All Along the R side of my neck. I've got to go to another Doctor.

3-3-12 - For the past few days my R eye, R Nostril, & Sat; R ear have been in pain, but its a pain I could not explain the feel. However, this morning I can say, it feels as though someone is drilling in back of the R eye ball, a sting, mixed with burning sensation in the R Nostril with traveling heavy pain in the R ear flowing down the right side of the neck. As for the mouth. Tooth #8, is always hurting, but for the last few days it feels like I'm carrying a load of cement, that holds the tooth in place. Area #7, is soke and painful upon touch.

3-4-12; It has been 11 mos, that I have had problems Sun; with my mouth. All the Surg., that these Dental Surgeons / Dentist cannot seem to fix is Astrocious. No-one should have to go through this much pain and suffering is not normal. Sometimes, it is

Cont

3-4-12 - more of a nagging Aggravation. Today is no diff
Sun; event than yesterday, the exception is I figured
out why my mouth - tooth #8 is heavy as if I
Carrying cement. The powered bone that was inserted
After the Surg. Jan 6, 2012 Causes the feeling of
extra weight, and the nerve damage.

3-5-12 - Slept good, but woke-up early. As the day began
Mon; this morning, I began with a tightness around the
head with a headache. My R eye is blinking and
sounded in my R ear is low, meaning sound has to be
Louder than usual. My R nostril is sore, same as
my upper gum. I still have swelling on the right
side of my face.

3-6-12 - Each day the pain shifts but the R eye, R nostril,
Tues; R ear reacts the same on a daily basis.
However, this AM, I have a minor headache
with the same problems. This makes the
Continuance 'Chronic', and 'Acute'.

3-7-12 - It almost feels right, meaning no loud pain. How
Wed; ever a small glitch of pain in my R eye, no severe
of pain in my R ear. Minor sinus pain, w/ slight
headache. Other than problems mentioned, I'm
O.K. this AM.

3-8-12 - right nostril is Aching more than usual, R ear
Thurs; seems as if I can't hear sometimes. R eye is
Aching but not as bad as R ear.

3-9-12 - It is now 4:00 PM I waited to write to see if
Fri; there would be much difference. It is worse at
this time. Severe (Chronic) pain on R side of
neck stemming from pain in R ear. R eye, producing
A nasty headache + sinus hurts as if its burning.

3-10-12: Same as yesterday.

Sat.

3-11-12 - Early A.M., when yawning cold air hits gum and sun; cause severe pain. This has been happening for a while. Daily routine of pain continue to exist with my mouth. Some days are worst than others.

3-12-12 - Headache continues w/ same problems. Mon; The R eye, R nostril, R ear and R side of neck.

3-13-12 - woke up early, R nostril feels as if its Tues; burning; causing R eye to ache as well as R ear stemming downward to R side of neck. My head aches all the time. These problems with my R eye + R ear does not ache all day to my notice. Every morning its the same.

3-14-12 - Same problems. Never ending especially Wed; with sinus, R eye + R ear... neck. Headache persists, etc.

3-15-12 - woke up with tongue sore, tooth #8, Thurs; sharp point cut edge of tongue. This has happened repeatedly, but this time is worst. Still, same symptoms, R eye, R nostril, R ear, R side of neck, headache, etc.

3-16-12 - R ear is ringing, R eye aches. R nostril Fri; sore and tongue is sore as well. No change in how I feel. It is now a routine.

3-17-12 - Mouth is very sore, esp. from tooth #8, cutting Sat; my tongue, ~~making~~ ^{causing} the tongue to swell. Same problems exist that existed yesterday.

3-18-12 - Today feels worst. My ears feels as if they are Sun; stopped-up. The back of my R eye, in the socket

Cont

3-18-12 feels like A continuous shock wave. my R/Nostril
Sun; feels as if it is burning in pain. Headache and
R/side of neck aches.

3-19-12; Some days, the pain is more bearable than
Mon; other days however the same feelings, like
R/Nostril, Headaches, happened everyday.

3-22-12; Today, I had A Doctor's Appt. w/ Dr. Gregg
Thur McKenzie. He took an X-ray of the powder bones,
gave me his Assessment and Scheduled me for
Surg., implant April 16, 12. For the last few days
my R/Nostril felt & feels as though my nose is go-
ing to burst. I still have swelling on my R/side.

3-23-12 - This A.M., I have A nagging headache. Yesterday
Fri; Dr. McKenzie (drilled) shaped the corner of tooth
#8, to keep it from cutting my tongue. My right
Nostril is Aching/burning. Shooting discomfort
to the R/eye. The R/ear has lost some tone of
Sound, with swelling lingering from the Surg.

3-24-12 - Slept good w/ pain in R/ear, not A loud pain, but
Sat; pain nevertheless. R/eye is puffy with slight head-
ache. R/Nostril hurts All the time.

3-25-12 - I Ached from my R/Nostril All through the
Sun; night with pain in the R/eye. Woke-up with
the same feelings that I went to bed with and
my Awakening in the Night with the same
feeling. My R/ear is ringing and my head is
hurting. The symptoms are louder today.
I realize, I don't go to Church much be-
cause of pain.

3-26-12 - It feels as if tooth #8 ^{is} ~~can't be~~ pushed out
Mon;

cont
3-26-12 out when I touch the back with my tongue.
now, All other problems are the same

3-27-12 - This morning was the worst yet.!! I woke-up
Tues. at 3:10 AM with hard hitting pain in the nose
R/side, to the R/eye, slanting across to the R/ear.
It was as if the pain was a roving vial, my
R/ear was clogged and the R/eye felt as though
it was swollen. The pain is stemming from
tooth #8. The bone must be broken or nerve dam-
age has (set in) to deteriorate. You can still see
swelling in my face on the R/side.

3-28-12; The pain from my nostril to my eye is getting
worse, worst, especially when I'm lying down. It is
hard for me to sleep for long periods.

3-29-12 - Same as yesterday this A.M.
Thurs;

3-30-12 - Headache, very mild. R/nostril, painful to
Fri; R/eye + R/ear. Right side hurts period. Dr.'s.
Appt. Monday 2, 12, with Dr. Gillispie, dreading.
Having pain everyday - something is wrong.

3-31-12 - Woke up early with pain in tooth #8. The pain
Sat; was sharp and very loud, as to let me know some-
thing is very wrong. This pain is identical to the
pain I had before I had the surg. to #7. The swell-
ing still exist in my face, R/side. my eye, feels as
if its about to lose sight, at times. My hearing,
in my R/ear hurts upon sound - Above 27 volume, on
the television.

4-1-12; Ached most of the day, with the same problems
Sun; in the same areas, esp, the nostril.

4-2-12 - I pray that I don't lose my sight and I pray
mon; that I don't lose my hearing. At times it feels
|| As if both are going, esp., when my Rhinostriil
hurts. This morning I have a bad headache.

~~Cont~~ Went to Dr. Trent Gillispie, Arrived 8:05 AM,
~~Thurs~~; Monday, 4-2-12, still some sensitivity in
teeth. Dr. Gillispie says the problems I'm
having, pains in Reye, Rhinostriil, Rlear, etc,
have nothing to do with him. I asked again
did he put a root canal over a broken bone.
He claim he didn't see that when he examined.
However, I was told earlier by his staff ^{emp}
^{Tracy} that they sometimes put a root canal over a
broken bone, in hopes that it heal.

I called him back around 10:30 AM,
and Theresa answered the phone, I asked
did Dr. Gillispie released me, She checked
and was told yes. Dr. Gillispie shaved my
bottom teeth a little and tried to shave my
top teeth, #8, but it was too sensitive. Dr.
Gillispie said the reasons I'm having problems
is my bite.

4-3-12 - I slept long + Hard. my body was exhausted from
Tues; lack of sleep caused by damage to my mouth. In
lie of pain from my mouth, it is very hard for any-
one to sleep peacefully with this type of pain. How-
ever, I'm not as tired and I'm more attentive to
the overall of myself. What I notice this morning is
I am experiencing the pain running from my nostril
R side to my Reye + Rlear. It is the same as

Cont;

4-3-12 - yesterday
Tues:

4-4-12 - This am, is no different than most morning. My ~~whole~~ most concern is the swelling on the right side of my face that persists and refuse to go down. My R/nostril is painful, but not loud. All else is the same as days pass.

4-5-12 - Awoke early, due to pain in R/nostril. In the ~~Thurs.~~ Last few days, I noticed, when the weather is hot I have less pain except for R/nostril + yawning. I still have pains, but no way severe when its hot outside.

4-6-12 - I notice this morning a weakness in my R/eye, Fii; AND my R/ear. Pain is sharp in my R/nostril, with a loud headache.

4-7-12 - my Birthday is today, however, it did not eliminate ~~Sat;~~ the pain. My R/eye, R/ear R/side of neck - which is by the way getting worst, R/nostril, causing me to have tingling in R/arm + fingers. These problems have existed for months.

4-8-12 - Easter; Same problems on a new day. The ~~Sun.~~ tingling in my R/arm + fingers (Right hand), is worsening. ^REye, aches more than the everyday pattern. R/ear is louder in symptom and my neck hurts like hell, as well as my R/nostril.

4-9-12 - Couldn't sleep, due to tingling + numbness ~~mon;~~ in R/hand + R/arm. It is getting worst.

4-10-12 Awoke with severe pain in R/arm + R/hand ~~Tues:~~ (tingling). It was 1:00am and up going to center room, (Palmetto Baptist), to confirmed-nerve damage. However, It was insisted that I con-

Cont

- 4-10-12 - tact my primary care Dr., Dr. M. Reed, ASAP
Tues; for a follow-up - nerve damage. I was given
(2) prescriptions and medical advice, sent home
came home 4:59pm, went to sleep, wake-up, contin-
uation of same problems. Called Dr. Reed, will see
him at 3:00pm.
- 4-11-12 - my days begging to be aggravating in body more
Wed: movement with pains moving nervously tingling
my fingers on my R hand crawling up my R arm.
my Neck aches more with swelling still on the
right side of my face. The problems with R Ear,
R eye + R Nostril never cease.
- 4-12-12 - Woke-up, not feeling any better, but not feeling
Thurs: any worst either. What I noticed is, the neck
have more tightness in the muscles. Same with the
R ear, R eye, + R Nostril. Right hand tingling, R arm
numbness (spasms), running up and down - just pro-
in discomfort on R side of body. Yesterday 4-11-12,
came home from visiting with my mother, Dr.
Joel E. Johnson had called, he left no message.
I called Atty. Matthews, who later called me
back. I also went to the pharmacy and retained
the medication for muscle relaxer.
- 4-13-12 - Nerves in R arm + R hand still tingling and going
Fri: numb, no contact about neurologist from Dr.
Reed (Nancy). R Ear, R Eye + Nostril still ex-
plifying the same problems.
- 4-14-12 - same problems,
Sat:
- 4-15-12; Everyday is a new day with old problems
Sun; that exemplify themselves with the same feeling
However, the numbness persist in my R arm, but the

cont

4-15-12 tingling in my R/fingers is not as hurtful than the sun, last few days. My Neck is worsen in pain as All else within my body.

4-16-12 woke-up to pain in my neck + Right Arm. The mon; pain in my Rear is worse this Am; but the R/eye is silent. my R/shoulder feels the nerve. my nostril (right side) hurts, etc. I'm ^{not} getting ~~no~~ better, It feels as if I'm falling apart All because of my mouth.

4-17-12. my body really feels different than the regular Tues; pains I have been experiencing. The tingling in the fingers - minimized, not as active as well as the Arm, which is not all day, but still persists. However, when these pains arouse they are worst. My neck feels heavy. The Eyes, they are getting worst making the ^Rear acceptable to pain. I feel as if I have an internal infection.

4-18-12; woke-up early from numbness in my R/Arm, Wed; with tingling in my R/hand-fingers. Ears, R/nostril, R/eye, etc. is the same.

4-19-12 - woke-up early A.M.; 12:02, with a nagging Thurs; pain on my left side + on my R/side. However, the pain on the left was sharp in numbness down the L/Arm as if it (nerve damage) is moving across the Neck downward. I had cramps as if the L/hand was frozen to locking itself in one position. About an hour later the left side sharpness went away. All else is the same as yesterday.

4-20-12 - Every day I wake up with pain starting from Fri; my nostril, eyes, ears, back, neck, R/Arm + hands. It is getting worst, esp. the numbness in my R/Arm. Sometimes it feels as if the right side of my face

4-20-12 Cont
12 is going numb as well as the spread of pain grow-
Fri. ing across my back. I write each day to tell how
my body feels from what was done to me from
mouth (Dental), Surg.

4-21-12 - Nothing has changed. Yawning seems to push
Sat; pain in the gum. All-else doesn't fail.

4-22-12 - The Headaches wake me more than most
Sun; of the pain. Swelling on my R side of the face
refuse to leave. It is hard to sleep on right or
Left side because the center of the ear hurts.

4-23-12 - Pain was more in the mouth at tooth #8. Headaches
Mon; which has never stop, nor has any other pain I de-
scribed. The center of the ear (drum), is noticeable to
pain, R nostril, eyes + ears, neck + back. R arm still
giving off numbness, but not as often as yesterday
- Late in the day, I got a call from Nancy, Dr. Reed's
Nurse informing of the necessary appointment to the
Neurologist. Dr. Venkatesh, May 2, 2012, at 2:00pm,
#8, Med. Park, Suite #420, Richland Memorial.

4-24-12 - Late evening, I experience a lengthy time of
Tues; pain in my R arm, and all other components of my
body that is mentioned. This am. I am experiencing
the same.

4-25-12; - Some numbness in R arm, but pain is severe
Wed; in tooth #8. Same ailments on other parts of my
body, however, not as bad. The ear-drum is very
hurtful.

4-26-12
Thur Pain is getting worst. Just having pain in my
R nostril, R eye + R ear, is nothing compared
to pain I'm now receiving from nerve-damage.
The pain has spread in my face worst and to other

Cont

7/25/12 parts of my body, giving pains I never imagined a person could feel. Shoulders, Neck, R Arm, head ache, eyes, Nostril, ears, etc.

4-27-12: Pains are still there. I recieved a call Fri; canceling my appt-ment to an indefinitely date. After I went to Dr. Venkatesh office to receive help with filling out all the paper requiring info on me. Attitudes bumped with me + receptionist. Statement given, was 'the machine is broke'. This was quoted from 'Robin', who sent the info packet to the correct address, but the wrong name. This was also mentioned when I visited the office. A large facility like Richland Memorial does not go days with broken machines. ????

4-28-12 - The center of my ear-drum is very tight. The sat. Right side of my face feels as if the skin is dead, numbed, traveling through the neck, shoulders, eyes + nost, mostly on the right side. It was + is very important that I have this test. My eyes are wet at the bottom.

4-29-12 - Today or this am, I did not wake-up with a sun, lot of pain, but pain nevertheless. My neck feels as if 200lbs sitting on it, my eyes are wet at the bottom. My Ears hurt, numbness still persist in my R Arm, all else is the same.

4-30-12 - Body parts are sore as if someone benched them. Headache, Eyes hurt, Ears stopped-up with pain, Neck feels as if 200lbs sitting on the nerve, R Nostril sore, shoulders carrying the weight from the neck, and R Arm is numb, just as the flesh on the right side of my face.

Cont

5-1-12; - Same problems that existed yesterday and Tues; All days that have passed. I'm trying on my own to get a neurologist to examine me, instead of listening to people on the telephone sending me here + there making me look like a fool. However, no matter how bad I feel in the mornings, A very hot cup of coffee or tea ease the pain for a short while.

5-2-12- Every day is now a day for crying, mostly wed; when I'm alone. I can't seem to get the help I need with the pains being the same as yesterday or the days before. The pressure built up, so I called Dr. Reed's Nurse Nancy several times with no response, till finally I called and left a message that Friday 5/4/12, I'm going to carry my 'Black Ass' to Dr. Venkatesh's office and seek help. Being in the business to make money for the same reason I was prescribed to go to him, it is no way that the Doctor's office would leave this type of machine broke. I personally ~~can't~~ refuse to believe this woman (Robin), just I'm beginning to distrust Nancy, Dr. Reed's nurse.

5/3/12; Pain does not subside ~~at~~ at all. I need to see Thurs; the Doctor now. My God, I'm going tomorrow & find out myself.

5-4-12; I woke up this AM., with the pain not as severe Fri; as it has been. Pain is still with me. In one sense, it acts as if blindness, hearing loss, swelling, etc. will happen regardless to any amount of pain.

Cont'

- 5-5-12 Pain continues, sometimes loud, but the R/Arm sat; continues to experience nerve damage of numbness. The mouth (tooth #8) area is ^{very} sore. The same for all areas mentioned.
- 5-6-12; Quiet day, not much pain, at least not as loud as in some areas. However, I woke up with R/jaw swollen. Face, R/Arm & hand painful throughout the day.
- 5-7-12 Same quantity of pain. Swelling gone down, but now; numbness increased in R/Arm. Neck & shoulders never stop hurting. It feels as if I have 200lbs, sitting on my neck. Tooth #8, shooting off painful vibes.
- 5-8-12 - I woke up with the same symptoms I've been having for quiet a while now. I've rant and raved for help at the beginning, so this morning I was glad that everything was the same because, finally, I was going to have the tests and find out exactly what is wrong with me.
- 5-9-12 - Woke up early A.M., 1:00 AM or so, ~~Face~~ Face is aching especially the ears, nose & eyes. Lots of swelling around R side face (Jaw & ear). However, later in the day, I received a call from Nancy, Dr. Reed's nurse telling me that Dr. Venkatesh sent the reading from the EMG performed yesterday and found nothing. I can't understand, having pain in my R/Arm & hand, nose, ears and eyes, etc; and there is nothing. This is clearly a mis-diagnose.
- 5-10-12 - I woke up early, having the same problems this A.M., with pains in the same areas. However, the swelling is worst. I have an appt. with the Dental Clinic, after I leave the clinic, I'm going to Dr. Reed and

Con't

5-10-12
Thurs, show him my face.

5/11/12 - Pain was not severe but still with me whereas Fri; I couldn't sleep. I woke up at 2:48am. I noticed again when I drank (sip), hot coffee it sometimes eases the pain. My RHM is giving me the most pain this am.

5-12-12 - This am, I woke up at 1:59am due to pain in my sat. face & ears, which is becoming a normal thing for me however uncomfortable. I sat up moaning in pain for 1 hour before making myself return to bed. While I was up, I contemplated on the fact that I now knew what was wrong, from my visit with the Dental Clinic when I went Thursday, 5/10/12, that I have a broken bone-tooth, in #8. I spoke w/ Dr. McKenzie's office Fri; 5/11/12, which an appt. was set-up for Mon; 5/14/12, at 10:30am. I had been asking for some time, to Dr. Gillispie who did the root canal whether the bone was broken in that area #8, as well. He didn't know. I have been through hell with my mouth since Dr. Joel Johnson entered my life. I also found out that my jaw bone has shifted from chewing to bypass hurtful pain in #8. This is why I am having all these pains that is so unnecessary. Today is no different. ^{did}

5-15-12 - For the last 2 days I ~~have~~ not written any Tues. notes because there is no change in how I feel and I was quite busy. Yesterday I had an appointment with Dr. Greg McKenzie, 10:30am, who assured me that the tooth was fractured and not the bone in tooth #8, but still he must do a bone graft. This,

Cont

5-15-12- I don't understand. He will also do the implants Tues; on # 7 + 8, extracting #8, at the same time. He will perform this task tomorrow 5/15/12, at 1:30 PM which time lapse of about 1 1/2 hrs. Two meds, were called in at Wal-mart, preparing me for the surg. This A.M., no difference in Pain. The R/nostiril is extra sore, my R/eye + R/ear experiencing pain as well. Dulce from Dr. McKenzie's office called and said 'she would have to move my surg, until tomorrow' at 11:15 AM. I asked why? And she said, 'the Doctor' is not feeling well'. I then agreed.

5-16-12-- Pain is calm but still there. I'm trying to put wed; All pains out of my mind but the R/aim + hand won't let me. My R/nostiril is painful and ears are stopped. R/eye a little discomfort. All else is the same as yesterday.

5-17-12- Had the surgery yesterday A.M., procedure went thru went well. As for this day, I'm in a lot of pain w/ swelling. The twitching in my R/aim had stopped for a small moment, but has returned. The ears are clear, but the surg. but new light on my R/eye. Yesterday, after surg. Dr. McKenzie said "I had a lesion on tooth #8, that could not be seen and that's what was causing the pain." Lesion's can be seen regardless.

5-18-12- I woke up this A.M., noticing the pain (stop-Fri; page), in my ears were gone. The pain in my R/eye, was gone. Just a little soreness around the R/nostiril, and that is because of the surg. My face is swollen, but the most nagging pains are gone. The pain from are #8, gone.

Cont

5-18-12 - The summation of it all is that most pains Fri; from the tooth are gone. My jaw is swollen and the twitching or numbness in R arm + fingers is still with me.

5-19-12 - I really didn't feel much pain this morning Sat; with the exception of pain from the surg. As the day progress into evening, it appears that today is pretty much like yesterday.

5-20-12; I Awoke without any pain that was noticeable Sun; There's still some swelling from the surg. Later in the A.M., I notice that my R eye began open + shut (twitching), without the enforce of me doing. The R nostril still have minor pain, but not very hurtful. I noticed yesterday that there was little twitching in my R arm, and there was no pain still til this Am.

5/21/12 - yesterday, around 3:20pm the numbness return Mon; ned to my R arm + fingers' but left around 8:00pm. Eyes were fine, plus ears, etc. Today I Awoke with freshness, no pain except for soreness from surg.

5/22/12 - Mouth has been very sore from surg., And Tues: today is no different. No pain in my R eye or any other pain except from the surg.

5/23/12 - I felt fine during the Am; and as the pro- Wed: gressed to later hrs. (pm), I felt fine as well. The only pain that I feel is the pain from the surg.

5-24-12 - This Am, I feel the same as yesterday. I'm Hop- Thurs: ing it stays that way. The healing from the surg, Wed the 16th, May, 2012, is very slow.

Cont

- 5/25/12 - Pain is a factor in my mouth. However, pains, has
Fri; Left areas of eyes, nose, ears, neck. Pain still persists
in R/Arm + R/hand but not as bad than before surg.
under the ~~the~~ teeth, area of gum, where stitches are
it is very, very sore + tender.
- 5/26/12 - Having pain is an everyday fact from my mouth.
Sat; But there's a different kind of pain far from the
pain I had before the last surg. However, today
the area where the stitches are feels as if my
gum is inflame. Most other pains have disappeared.
- 5/27/12 - This am, I feel no different than yesterday.
Sun; I have been noticing that the few teeth I have
left in the top of my mouth has with an extra over-
lap of the teeth at the bottom. I have 2 crowns,
when I pd. for 4.
- 5-28-12; It is now 8:00am, and I feel relief from the
Mon; nagging pain that I've experience for such a
long time, but I have pain in the area of tooth
#8, where the surg. was performed. I noticed
for the last few days, my gum is very blister, st
and tender where stitches are, causing a lot of
soreness. It is shameful that all this pain was
caused by a dentist!! how unnecessarily??
- 5-29-12: Pain is something that stays with me regard-
Tues; less. I couldn't sleep due to pain at 12:52am so
I rose-up til about 3:00am, before returning back
to bed. My R/Arm + hand hurt worst this time
than any before. I don't understand, the pain
in the Arm + hand comes and goes, which I
thought it was disappearing. Since the surg. on
the 16th May, I have not felt any pain in my

Cont

5-29-12: eyes, esp, my R eye, nor in my ears. However,

Tues! the pain in my mouth has escalated to an all time high point. The gum was enlarge and the hurt is worst. I knew I had an appointment with Dr. McKenzie at 10:00am. When I sat in the Surg. Chair, the stitches were removed by Cindy. Dr. McKenzie came in, looked in my mouth, felt the gums in the tender spot and told me that the last tooth that was taken out, #8, was broken. I could not believe my ears.

5-30-12 - The pain wasn't as bad as yesterday. No pain Wed! in my eyes or ears. The pain in my mouth is stemming from the surg. However, the numbness & twitching in my R arm is still with me, but today is not as bad as yesterday.

5-31-12 - It is amazing to wake up without pain in the Thur! mouth. The pain I'm having this AM, is pain from the Surg. I had on the 16th of this month, and it's getting less & less. No ringing, closing of the ear drums, no pain in my R eye. I have lived with pain everyday for over 14 months, that's sad, because it was because of someone who was suppose to be professional.

6-1-12 - Today was or is starting out like yesterday. Fri! Very pleasant. The only problem I notice is my R arm numbness comes and goes, but the pain does the same when that happens.

6-2-12 - Today, I awoke from tiredness, but otherwise I Sat! see the day like the days past. Isn't it wonderful. Some numbness in the R arm & hand.

6-3-12 - Today has been wonderful because my mouth, ears, eyes, nose, neck, throat, R arm & hand has been free from the annoying pain that I have faced daily for over one year. I do have a small amount of

Cont 4

6-3-12 - Under tooth #8 but not very painful at all. My Rham
2000 6-3-12 still goes numb, but even that has been minor today.

6-4-12 - Today started smoothly, without the nagging pain
now; I had been having for so long. However, since the
Surg. on May 14, 12, I've been experiencing pain
(soreness), where the incision is. My gum in this
area is swollen and very hurtful. It may be the
implants. #7 + #8.

6-5-12 - This morning is identical to yesterday. My
Tues eyes + ears are doing just fine.

6-6-12 - It is really good to wake-up without that nagging
pain that prolonged for such a long time around
the facial areas of my body. I still have pain, but
I should say soreness stemming from the area
where I was cut in the mouth. I can now open
my mouth fully and see the damage where my
teeth have been taken away from me. I now
have the raggedist mouth in S.C. I no longer
give that beautiful smile I once did.

6-7-12 - No pain this morning except for the area of
Thurs; Surg. This am, is like yesterday.

6-8-12 - This morning was a ray of sunshine
Fri; that lifted my spirits to greater beliefs do
exist. The swelling from the mouth is
diminishing as well as the soreness.
Everything else is fine. I do have some
soreness under tooth #8, in the gum as
if I developed a gum ball. I can't chew
well because of the bald gum - no teeth.
My upper lip gets stuck in the space

6-8-12 Cont
Fri; where I had teeth #7 + #8. My smile
of beauty is gone.

6-9-12: Woke-up this am., being one of the best
Sat; mornings since April, 2011. There is pain, but not
bad as it has been. There is still soreness, minor swell-
ling in face, no headache, no pain in eyes or ears.
Slight pain in nostril, but nothing to become alarm
about. I'm thankful.

6-10-12 - For the last few days I felt no pain except for
mon; the same soreness I now have under the gum area
of tooth #8. This a.m., starting as a pleasant day.

6-12-12 - Woke-up with little pain under the gum, area
Tues; #8. All else is doing O.K. There seems to be
superficial problems arising. Having no teeth
which highlights my looks. Trying harder to eat;
I eat mostly soft foods, very little meats.

6-13-12 - It is an amazing feeling to wake up without
Wed; that nagging + consistent pain in my mouth that
was causing other problems for my body. The
pain that I have been having since May 16, 12,
due to the surg. that was done on tooth #8 area.
It is hard for me to brush my teeth because of
the soreness and so little (few), of them.

6-14-12 - I woke-up this morning feeling the same
Thurs; as I did yesterday, not a lot of pain, but
soreness in the mouth that causes it to
hurt, from the incision on the gum. All
else is fine.

6-15-12 - Today is no different than yesterday. I had
Fri; an appointment w/ Dr. Reed, and to my amazement
it went very well.

6-16-12 - I woke up feeling different. There is very
Sat; little soreness, and barely a notice of pain.

Cont:

4-16-12 There is no pain in my ears, eyes, nose, no
sat; headache, no twitching in R arm-hand, only
an incy-bit of soreness in the gum. I am somewhat
free from pain, and I'm glad and thankful to 'God'
and Dr. McKenzie. In noticing, the right side of my
face is larger than the left side. The empty space
where there was once ^{teeths} ~~teeth~~, gives me the appear-
ance of early man (Java, Peking), but I'm pain free.

4-17-12: I'm very thankful that I ~~know~~ no longer have
gum; that nagging pain that caused problems with my eyes,
ears, nose, nostril, throat, neck, etc., but now the
soreness is a continued aggravation. It's not very
hurtful, mostly just knowing when you touch it, it
becomes hurtful.

4-18-12 - where there is no pain the mouth feels as if
more to much bone has developed from the mixture of in-
stant bone. It looks as if the bone is growing at a
rapid speed. Other than what is being said, there is
no other pains that is noticeable.

4-21-12 - For the last few days I skipped writing because
Thurs. I wanted to weigh the effects of how the powder
bone was developing in my gum. This is the eye notice,
The p/bone is growing fast, and for some reason I see
a walrus (sea otter), approaching. The bone is very
heavy in the gum, feeling like a cinder block. I have
developed a hard knot in the gum, and that is go-
ing away. When touching the lip, pressing the area
of tooth 7+8, it hurts, not much. However, there
is no other pain or symptom I was experiencing
before the surg. May 16, 12.

4-22-12 - The day went well, no noticeable pain that is
Fri; Active, no other than days before mentioned.

Cont

6-22-12- About the powdered bone growing, and the hard
Fri; Area (knot), in the gum that is hurtful when touched.
6-23-12 - Happy birthday Larry. Today, so far is basically
Sat; like yesterday.

6-24-12; This Am. there is no pain that is noticeable.
Sun; From the time, of the beginning, of my troubles
with my mouth, and all that I have gone through,
gh, my words are unclear, my lip & tongue
get stuck or scrape against tooth #9. My
sight is not as clear nor is my hearing. There
is no pain. After church, I was driving to
visit w/ my mother when all of a sudden it felt
as if something was hanging from my gum. It
was the Layer (membrane). It smells like a
piece of raw shit. Instead of going to mother, I
went home. Out of all the aggravations
with my mouth, this is the worst.

6-25-12- I had called Dr. McKenzie's office yesterday to
mon; inform him about the membrane hanging from the
gum, stating I wanted to come in and have it re-
moved. This morning I got a returned call. I didn't
feel any pain. I went to McKenzie at 10:00 am
was taken to a cubicle, not 2 sec. the membrane
was removed. I was fitted for the temp. ~~teeth~~, and
I was given a X-ray. I have an infection in one of
the implants. I was given an antibiotic, Amoxicillin.
It is now late in the day, no pain.

6-26-12; This morning there was no visible pain (in
Tues; the head/mind). I've had so many infections
since the beginning of these problems with my
mouth, until having one now (infection) is nothing
new. It feels as if this is a norm.

6-27-12; Having infections in my mouth is nothing new,

Cont

6-27-12, Wed
is as a matter of fact, considering the fact of broken bones from one tooth to the next staying in my mouth for long periods of time makes you wonder, 'why it took so long?' for "Doctors" - Dental to find the problem. This situation was supposed to have been treated, or was it a game for these Doctors? I am tired. No pain this morning at all. What I notice is my face is slimming down from the swelling.

6-28-12, Thurs
Trying times is around me. Waking up to take an Antibiotic causes a lack of sleep. My smile is the ugliest smile one can offer with looks. I am bald at the gum like a bald headed man. However, there's no pain, but I can feel the difference in my body minutes later after taking the anti. My gum is decreasing in size.

6-29-12 - Fri
I slept pretty good thru the night. No pain of notice, A slight headache. Everything else is fine. I cut my tongue a lot, as well as my tongue get stuck in the space. I look

like 'daddy man', Java, Peking, Neanethal, etc.

6-30-12 - Sat
There is no pain, but I'm left with a few concerns. ¹My R jaw area has been enlarged or I should say larger than the left. ²My eyes, esp. the right, feel tired most 90% of the time. ³My R nose-
tril stings all the time. All other problems feels as though they have evaporated. Still taking an antibiotic for infection in tooth #7 or 8 area.

7-1-12 - Sun
It is well into the day and I am experiencing no pain. Still taking antibiotic, but no pain.

cont

7-1-12 - I know the infection is in my mouth, which
Sun; is too close to the brain.

7-2-12: I Awoke with a slight headache, other than
Mon; that, all's well. There is some pain in my R Arm
only when I'm trying to sleep. However, it's not
long lasting painful.

7-3-12 - my R Arm continues to have numbness, as ~~these~~
Tues; tho it shoots off spasms. I don't sleep or rest well
with this. My R eye, feels differently than the left
which is now more visual. However, these continue
Ancees, does not hurt but is aggravating. I have no
other atrocities to speak of.

7-4-12: Family Day, no pain but I can feel the effects
Wed; of having infection in the gum. Still, no pain.

7-5-12 - Same as yesterday. No pain to speak of, but
Thurs; an itch in the corner of my R eye. My face is
swollen in the R cheek area when touched or
pressed on, causing pain when pressed against.

7-6-12: Woke-up feeling as I did yesterday. Headache
Fri; but no hard pain. I do feel as thou my ears
are closing-up again.

7-7-12: It (the day) started with lots of sunlight and
Sat; no pain in my mouth. However, the numbness in
my R Arm comes and goes, not very often. I cut my
tongue occasionally, because tooth #8, has no
partner.

7/8/12: Today is another scorcher of heat. No pain
Sun; that is noticeable. Same as yesterday.

7-9-12: The past few days ~~are~~ have been the same.
Mon. no pain.

Cont

7-10-12: Woke up with ^Reye 'Sore' as if it is glued
Tues. Shut. Small Amount of pain in Reye. Small A-
mount below Reye, Cheek. No other pain noticeable. Went
to Dr. Gregg McKenzie, infection still in gums. I
told Dr. McKenzie, I took the med. (Antibiotics)
As prescribed. Nevertheless, the implants must come
out and later a bone graft performed. However, Dr.
~~Gregg~~ McKenzie said, "it's not your fault, it's mine." Being
honest with words is one thing, trying to do harm is
another. I Am tired. This is not good, especially for a
diabetic. I never have nor will I ever deny being a diab.

7-11-12: I was restless all through the night, thinking about
Wed; the surg; I'm to have this Am. performed by Dr.
Gregg McKenzie. This is the 10th (tenth), surg. En-
ough is Enough. The world is watching. No
major pain, but I can feel the infecting traveling
through my face.

7-12-12: I survived the surg., but I had more pain than
Thur. other surgeries. Pain is in the gum Area of
tooth # 7 + 8, causing an up-hill to R/side of
Cheek and Reye. Dr. McKenzie called me
At 8:00 PM checking on me, This, he does
each time. I asked Mandy (nurse), concerns
of having too many surg., in the same Area.
She quoted, "it will change the tissue-make
up but not severe."

7-13-12: Face (Mouth) is very sore, causing R/jaw + Reye
to pain as well. Slight headache. R/Arm, still
goes numb at times. R/nostril very sore. No problems
in R/ear.

7-14-12 / SAME AS yesterday.
Sat;

Cont.

7-15-12: With all the problems from the Surg., performed
Sun. in my mouth, the last 2, May 16, 12 + July 11, 12,
gave me extreme pain for a longer length of time
than the other Surg. I have decided to heal my
body on my time and not let the Doctor (McKenzie),
tell me when. I believe that the reason I'm hav-
ing all these problems + the continuation of
Surg., is that I don't completely heal. Therefore,
the next surg., will be when I'm healed on my
time.

7-16-12 - Today the day began quiet, no pain ^{notice} (noticeable). At
mon; least I felt no pain. It was later in the evening when
I began to experience the numbness in my R/Arm.

7-17-12 - The day began quiet away from pain, but
Tues. As the day progress so did numbness in my
R/Arm; in periods of time, some times longer
than others. As for the infection stemming from
tooth #7, it feels as if its still there and I'm
taking the Anti-biotic pills. I feel as though I
have had too many surg., and I'm not letting
my body heal properly. My gums are reBleeding
upward leaving less room to implant. The
pain is smeltering in my R/jaw (cheek).

7-18-12: I Awoke with symptoms of yesterday. I keep
Wed. praying. No one likes to have pain.

7-19-12 - my mouth, the area where the incision is, is u
Thurs. very sore. It feels as if infection is still in
the gum. R/Jaw is sore, no other pains exist.

7-20-12; Today is no different in feelings (mouth)
Fri; than yesterday. Hard to chew but I do get it
(food) down. Through this problem (teethless), it

7-21-12, Takes longer to brush.

Sat. 12 - So far today, 2:00 PM, no new problems.

Cont

7-22-12 - Today was quiet, no pain. However numbness persists in my R Arm & hand. This symptom is now a condition. It does not occur everyday, nevertheless, it does come. As for any other pain from the mouth, none!!

7-23-12 - No pain this morning that is noticeable, however, now, there is a minor feel of numbness in R Arm & hand. All else is fine. Atty Matthews 2:00pm

7-24-12: R Jaw is sore from tooth #7. Leak of blood oozing Tues. out from that area of the gum. No pain elsewhere.

7-25-12 - Slept Good, no significant change from yesterday. Wed. When I brush my teeth, blood eks out from incision area. Appt. this morning w/ Dr. Mc Kenzie.

7-26-12: Yesterday went well. No major pain to speak of. I Thurs. went to my appointment with Dr. McKinze, had stitches removed, however a few was left in due to tightness. When Dr. McKinze entered the room, I asked, "when would this process end." He replied, "About 10 months." We spoke casually to each other.

7-27-12 - Nothing new, no pains, mouth feels O.K. Fri; However, the numbness returned in my R Arm & hand. Having a little discomfort of opening & closing the R eye.

7-28-12; no further pains exist, same as yesterday. Sat;

7-29-12: Mouth feels fine, R jaw & R eye, having Sun; discomfort. Sore when I touch jaw (cheek). R Arm & R Hand numbness, persist in increments of time. No pain in mouth.

7-30-12 - As for pain, minor in the teeth #7 & 8 area & the Monday, cheek. Health wise I'm O.K. We went to take care of some business and see mother. When we returned the mail had arrived. I received a bill from

MON 7-30-12

Dr. McKenzie. It wasn't shocking that I received a bill, because I had received bills from him before. This time, the bill had an envelope, and it made me think... Tonda... was trying to intimidate me. Only for a moment. I called Atty Matthew, spoke to Becky, then called Tonda, who was busy, so I left a voice mail asking 'was she trying to intimidate me?' I said she need to fax this bill (total) to my Atty #252-6484 (fax).

7-31-12: The Day went well, no pain to notice. Tonda, from Tues. Dr. McKenzie's office called in the AM, responding to my calling her the day before concerning the bill that I receive. Otherwise the day was content.

8-1-12: Woke-up to no pain in the mouth. Starting out used to be a great day.

8-2-12 - No pain of notice, all is well. Still experiencing some Thurs. numbness in R/Arm + hand. Little tenderness in R/jaw, otherwise pain free. Lauren, from Dr. McKenzie's office called to change the time of my appt. 8-28-12, twenty-six days early, for an 1/2 hr. ???

8-3-12; I awoke this morning feeling the same as Fri; yesterday. I'm thankful.

8-4-12: I'm sleeping better, due to lack of pain from the Sat. mouth. I am thankful.

8-5-12; Woke up this morning feeling the best of better. Sun. It has been a long time since I have not experience pain. As for the numbness in the R/Arm + hands, it is coming more frequent and learning less. Otherwise, today is one of the better days. Thank you Jesus!

8-6-12: no difference in how I feel from yesterday. Mon; However, later in the day, I touched the gum with my tongue and noticed the gum (flesh) is soft, as

... if it is a raw piece of liver that shakes
com't BACK & forth.
8-6-12

8-7-12 - The gum is flimsy AND movable with the
Tues. tongue. No pain exist.

8-8-12 - Awoke w/ flesh hanging from gum where many
Wed. Surgeries have been perform, Area 7+8. The flesh was
very soft AND I can push it with my tongue. I called
Atty Matthews office informing Becky. I mentioned
that I was going to call Dr McKenzie's office + I would
call her back. I called Dr. McKenzie AND spoke with
Tonda who said that was normal. I returned the call
to Atty. Matthews AND told Becky what was said. I
have no pain, just the annoying hanging flesh. Later
in the day, the flesh fell off.

8-9-12 - I woke up relieved that the flesh had fallen off.
Thurs. No pains of notice from my mouth.

8-10-12 - This AM. I Awoke free from any type of
Fri, pain in the mouth. However, the agonizing pest-
like of jelly flesh hanging from my gum is
something to shake my head at. No vision prob-
lem or hearing problem. A little numbness in
my R Arm + hand at times, all else is fine.

8-11-12; The day was pleasant, No pain but a return
Sat. of soft tissue hanging from Area (tooth) 7+8,
in the mouth. No headaches or any other extrem-
ity, other than what is mentioned.

8-12-12; This AM, is the exact copy of yesterday.
Sun. Nothing has changed overnight. Soft tissue is
still hanging, AND I hope it will fall off soon.

8-13-12; No pain that is noticeable but the agonizing
Mon. though that I'm swallowing the soft tissue
from the gum is really, nasty.

Cont

- 8-13-12: There's nothing I can do for this problem.
now, It is amazing that most 92% of my pain
from the mouth has disappeared with the exception
of numbness that comes & goes in the R Arm & hand.
- 8-14-12: No pain. Spent day w/ Larry at V.A., while I was
there in the pharmacy my 3 teeth pallet fell out of
my mouth, when I reached down another patient
in a wheel chair, rolled his chair over the teeth
Almost injuring my hand.
- 8-15-12, Dejected from what happened yesterday
concerning my teeth. It hit me that I had to
inform Dr. McKenzie & Attorney Ken Matthews.
I proceeded and called both.
- 8-16-12 - mouth is doing well with the exception of soft
gum, hanging tissue. No problem with eyes, ears,
nose or any other facial mold. However, there's still
tingling of numbness in R Arm & hand.
- 8-17-12. So far this A.M. (9:00am), no problem seem to
exist. I'm going to Dr. McKenzie to have an
impression made of my teeth because the set
I had was crushed beyond comparison, no longer of
use.
- 8-18-12, On this date it appears that the majority of
SAT. pain has left the facial extremities, however
the numbness in the R Arm & hand has not. My
R eye feels in different (aches), sometimes, but
that's about it for pain. I know and dread the up-
coming surgery, knowing it will cause more
pain. The soft tissues in the gum (#7+8), is also
disappearing.
- 8-19-12; No change in mouth. Only problem I'm having
SAT. is the numbness (twitching) in R Arm & hand.

Court

mon;

Awoke this A.M. with no problems as
8-20-12: yesterday. However, I noticed that
I had an annoying headache, and neck
was hurting. My Arm (twitching) numbness
is in high alert. No pain.

8-21-12

Tues:

The day began normal, no pain. However, the numb-
ness in my R Arm + hand exist. It's more of a hurtful
tingling as if the Arm is sleep. Other than this ail-
ment the day is going along fine.

8-22-12

Wed;

This Am., is starting but like yesterday. No
numbness thou. The pain is not completely gone,
but 96% of pain has left the mouth. I know there
is more surgery in the foreseeable future and I am
beginning to dread the thought, because I feel as
thou they are killing me.

8-23-12

Thur;

The morning began normal, no pain. Numb-
ness occurred last night (p.m.), but nothing this
morning. I called Atty. Matthews spoke w/ Becky, in-
formed her that my upcoming surg. If it don't

8-24-12

Fri;

This morning seems to be a copy-cat like
yesterday. No numbness in R Arm + hand. How-
ever, there seem to be a piece of gum. Flesh
hanging down from Area #7, touching the tongue

8-25-12

Sat;

if it don't work, be successful, I plan to ask
Dr. McKenzie to release me, because my gums are
receding upward giving me less + less. I feel as
thou they (Dr. McKenzie + others), are trying to kill
me with pain.

8-26-12

Sun;

Today is starting out without pain but numb-
ness in R Arm + shoulder.

8-27-12

Sun;

I do believe that the severe pain has dis-
appeared. The fact before me is another surg,
that will bring more pain. It hurts me to even
think about what's ahead. ~~I planned to call ma Atty,~~
~~and inform him that the bail is in his Court.~~

Cont

- 8-26-12: This morning I awoke with a weird feel-
~~ing~~ ^{ing} as if the infection had return. I noticed
that my nerves (psychological) are shaky about
being cut and I'm expressing myself by over-
eating, this I am very tired of.
- 8-27-12: This A.M., is identical to yesterday. However
~~the~~ ^{the} fear of the upcoming surg., in the mouth
is an unwanted expectation. Because 92% of
the pain was left my facial nerves, it is a deva-
stating surge to bring back pain. I have a 11:30
Appointment w/ Dr. McKenzie for a follow-up and
to receive a new pallet. The pallet is 329.00. It
is amazing, the Doctor's (Dentists), who up-aped
me, have the Adacity to charge me for anything.
- 8-28-12: Woke-up to Numbness in R Arm + fingers
~~Wed.~~ No other pains prevail this morning. Next Appt. w/
Tues. Dr. McKenzie, Monday, Oct. 29, 12, 1000 AM
- 8-29-12: This morning is no different than yesterday. The
Wed. Annoying numbness is persistant. No other
pains.
- 8-30-12: R Arm + fingers experiencing numbness one and
Thurs. off. Otherwise pain free.
- 8-31-12: This morning is no different than yesterday.
Fri; The thought is on Dr. McKenzie + Dr. Gillispie.
According to Record, I was suppose to be tre-
ated in Area #8, 3 times and ^{Root} Canal placed in
Area, by Dr. Gillispie. If that is true, ?, How
come I have such a bad infection in that Area, ?
especially treating that Area with a broken bone.
There is a fly in the buttermilk!!! Some one is
lying.
- 9-1-12 Woke-up to sunlight feeling fine. No pain but
Sat; Numbness continue. It is like nerves gone
dead, reversing itself (nerves), back and forth.

Cont

- 9-2-12: Today, A.M., is an identical copy of yesterday.
Sunday.
- 9-3-12: NO pain at least for the morning hours. I
mon: did experience some numbness (tingling) in the
right arm + hand.
- 9-4-12: The area of the mouth, feel no pain, but does
Tues: have some numbness in R Arm + hand.
- 9-5-12: NO pain in the mouth area + no pain from face
Wed: However, there is still numbness in R Arm + hand
that escalates in height on + off. Otherwise I
Am doing fine.
- 9-6-12: Today, this Am., is exactly like yester-
Thursday: with the exception of numbness.
- 9-7-12: Wet day, NO pain with the exception of numb-
Fri: ness in R Arm + R Hand.
- 9-8-12: Today is a copycat of yesterday Am., No
Sat: pain, however, the right arm + hand gives me
trouble.
- 9-9-12: NO pain in sight. Today is very pleasant con-
Sun: sidering what I have endured over one + a half
years, relating from Dr. Joel Johnson's mess in
my mouth.
- 9-10-12: Today began as a replica of yesterday. The
mon: closer it gets to my up-coming surgery the more
fearful I become.
- 9-11-12: The morning began to what seem like a perfect
Tues: day. The weather was magnificent. No pain occurring,
Just perfect. The thought came, surg., how unfortunate
- 9-12-12: This morning I awoke w/ problems. R side
Wed: Area; 7 + 8 Aching like CRAZY; R ear ringing. No
pain in nose, eyes or neck. Called Atty; Matt-
news. Called Dr. McKinsey.
- 9-13-12: Yesterday I went to Pharmacy and got Anti-
Thur:

Cont

9-13-12: biotic prescribed by Dr. McKinney, And
Thurs; immediately began to take them. Today I awoke
without pain, but a nagging/shaggy feeling, as
if I'm tired. I slept well. I'm hoping today will be
more excitable and free from all discomforts.
medicine prescribed, Augmentin-875 mg.

9-14-12: Not having a lot of pain but a lot of dis-
Frid; comfort. I notice my gums around area 7 +
8 where surgeries have occurred, the gum is
swollen + infected. I'm taking the Antibiotic
but thru no avail the infection remain. The
Ridge is Aching, not to the point of hurting.
All else is O.K. I took pictures of tooth area
of 7 + 8.

9-15-12: I noticed the R side of my face behind the
Sat; ear lobe is swelling, and painful when touch-
ed. My Ridge had began to ache as well. The
pills (Augmentin), is too large to swallow
whole so I cut them in half as I take them
no other pains noticed.

9-16-12: my face has really enlarged behind the
Sun; R/ear lobe. It is more painful than yesterday.
I went to the store + purchased a pill crusher,
and used it quickly after washing it out my
Ridge Aches.

9-17-12: After taking the medicine (Augmentin) Cr-
Mon; ushed 2, times, the swelling and pain
eased-up some. Having some pain in my Ridge,
w/ a small amount behind the Rear lobe. I
called Atty: Matthews to inform him that I
would not continue with the on-going surgery
as suggested. However, Becky wasn't available,
so I informed another secretary.

Cont.

After my conversation with Atty. Matthews, I called Dr. McKenzie's office. Tonda came to the phone. I told her that I had decided not to have anymore surgeries to correct a problem that would increase problems for me in the future. I also mentioned that I had been told by a person (medicine) that I had an Abscess and they would (Abscess) continue to come, especially if I continue to have surgeries. I also mentioned that I was aging and the pain from the surgeries was beginning to hurt like hell. I told her that I have had 10 (ten) surg. for one problem and that was ridiculous to continue.

She said, "well let me talk with Dr. McKenzie, he's with some one" and "he will return your call." "Is your number, 865-1952?" I said "yes, if I'm not home leave a message." I hung-up, went and crushed an Augmentin pill and swallowed the powder. It was 10:07 am., Monday, Sept. 17, 2012. At 4:05 pm the telephone rang. It was Dr. Gregg McKenzie. We talked for a moment concerning taking out the implant. He insisted that we talk before he took them (it), out. I'm to be in his office at 9:30 A.M., at that point a decision will be made. He did ask about Larry.

9-18-12; Couldn't sleep, so at 3:00 am, I was awake, Tues: taking medicine. The only thing I could think about besides the news, was the meeting I was soon to have w/ Dr. McKenzie. At 9:00 am I left for the meeting. I was having pain in my R eye, little discomfort in my R ear, however swelling have decreased but still some left behind the R ear lobe. Arrived at Dr. McKenzie office early and was seen at 12:50 pm; I was taken

to the exam rm. by Lauren, Dr. McKenzie entered the room asking, "What can he do for me?", I replied, "I told you last night, this implant need to come out of my mouth." I continued, "don't you feel that I had too many surgeries. The antibiotics no longer work." Look at my face, I have bumps of infection appearing on and across my face. "I have a film of scab laying in my R ear as if I don't wash my ear, this is nothing but infection." Dr. McKenzie stated, "no I don't feel you had too many surg., I'm not going to talk you out of it because you've made-up your mind." I said, "your attempt isn't working, don't you see that." McKenzie asked, "Are you going back to Johnson or are you going to Dr. Kline - next door." I looked at him quickly giving him a disappointing look, asking, "Are you CRAZY?" This all started from the work Dr. J. Johnson, and Dr. McKenzie knows about the lawsuit. I then asked him, "what would you do? He said for me to heal and if I wanted to come back I can. I also asked him, "when are you going to release me?" he replied, "release you, you want to be release." I said "you cannot keep me as your patient forever, that's when I said can't you see the surg., are not working. Don't you feel 10 (ten) surgeries are too many. He replied - he would release me.

4-19-12: Late yesterday evening the phone rang, it was Fri; Shirley from Dr. McKenzie's office reminding ^{me of} the do's + don't before surgery.

Cont:

9-19-12: However, the morning start out with Prayer. I had Fri; some pain in the Eye, Ear, Rhinostri, but little swelling behind the Rlobe of the ear. Otherwise my morning began pretty fair. I took all meds between 5:50am & 6:30am. Arrived At Dr. McKenzie's office early, June was at the Front Desk, She hand me two surgery policies to read. Soon After I was sitting in the Surgery Chair. Dr. McKenzie entered the room and I immediately Apologize for statement of Question I asked him. He began A Prayer.. He stuck me twice in the left Arm, No I.V. Sedation began. He transferred to my R Arm and I was quickly out of it. (sleep). The next thing I remembered, I was ready to leave his office. When I returned home my body was still out of it from the I.V., so I went straight to bed. Around 4:40pm the pain Sanged Loud where as I had to get up.

9-20-12 - After rinsing out my mouth numerous^{of} time to Thur; Clear the blood that packed the incision Area #8, it finally came clean around 10:00pm. I slept quite A bit to rid myself of pain, from the surgery, but the pain became unbearable right At 10:00pm. What I noticed At that moment, there were no stitches And the incision was opened. I Also noticed that Dr. McKenzie didn't call, like normally do after Any procedure of cutting. It is his Modest Operandi to contact the patient to see how they are doing. However, I went back to sleep and slept until 2:41am, waiting on daylight to see if what I saw (no-stitches), really is what I saw. I began to wonder, did Dr. McKenzie really did Contact Dr. Kline, to fit me for a partial. I was still in pain At 5:00am, so I took all medicine

9-20-12 cont

And continue to wait. Pain still remained at

8:40 AM, I decided to concentrate on something else. My face was still swollen, but the touch was most hurtful. Pain had left Right lobe. Nose R nostril very sore when touched. Called Dr. McKenzie's office, mentioned Shirley. I felt Dr. McE had not stitched my gums shut. I stated, I didn't see Any and I couldn't feel Any, before & after brushing my teeth. She placed me on hold, returned saying I do have stitches and I am to expect a call informing me ~~that~~ when to come in and have them removed. I immediately went and took pictures (2) of the gum. ... It is now 4:16 PM, no call came from his office. ... 5:07 PM Atty: Matthews office (Becky), called because I had called earlier. I told her that there is no stitches where surg. was performed. And what I was told from Shirley, from Dr. McKenzie's office. He or no! anyone from his staff called. It is decided that I go to another Dentist to confirm my disbelief.

9-21-12: Not much pain this morning unless you press against the face, (nose, ears or mouth). Swelling is another issue, there's lots of it. It feels as if my face have fluid passing through it, I think it is infection. It is 9:00 AM, I'm going to the Dental Clinic to confirm or deny my assumption. I would then go to Dr. McKenzie's office to retrieve info or documentation of the Surg. that was performed Wed., 9-19-12. As I was about to leave for the Clinic, a string hung down from the incision and I knew that there were stitches. I went by Dr. McKenzie's office, pick up a sch. appt. card.

^{cont}
9-22-12- Still taking antibiotics, healing quite nice-
Sat; 14. Slept well, don't feel infection flowing around
the face. No head or eye problems this Am.

Sun: 9-23-12: → Due to the ordeal of my mouth, I have not
been able to attend Church much, but I have decided
that I shouldn't let that interfere today. My mouth is
very sore, esp., when touch. I have minor pain else-
where. My concern is a hard knot, like a large boil,
forming in the top of my gum. It's very sore and feels
dry in the mouth.

Mon: 9-24-12: Today or this m.m., is pretty much an exact
copy of yesterday. However, the knot in the upper gum
is still sore. No increase or decrease in size.

Tues: 9-25-12: All is well this A.M., no pain, but some swelling
still exist. Late in the day, mouth area (face), remained
the same.

Wed: 9-26-12: I didn't sleep well and for some reason, I can't
say why.!! I was in no pain nor did I feel the
movement of infection. Otherwise we're looking at a
copy of yesterday. Today is the last day I take
Antibiotic Augmentin. Called Dr. Gillispie's office, told
9-27-12: ^{Sun} this was the best day yet.

Thurs: 9-27-12: Awoke early 4:50 AM, not because of pain, but
feeling the strings (stitches), changing in my mouth
around 6:00 AM. A loud ^{annoying} feeling appeared in
area's 7+8. I thought about yesterday, thinking of
when I took the last antibiotic (Augmentin),
at 5:00 PM. Now, 9:00 AM feeling more vibrant &
Alert, having minimal pain around R eye & R ear.
I thought about these Dentist, who ~~say~~ suppose to
know what they were doing, how much medicine I
have taken, how many surg. I have had and the
effects of how I am left. I think about how un-
attractive I've become looking like early man,
(Java, Rekind, Neanthal, Lect. Observation this

9-27-12 cont

morning, swelling on R side of face I'm on my way to Dr. McKenzie's office, I will find out whether he can order me more Augmentin. Went to Dr. McKenzie's office, no appt, to pick-up a visitation report & findings. While there I asked Tonya for a prescription for a refill of Augmentin. She went to McKenzie who saw me minutes later, told me that I was healing nicely, he requested that the stitches come out and they did by Ms. Lauren. We joked around "I'm going to be your bodyguard." I don't have to return on Oct. 4, 2012. He did some swelling on the R side, nothing of great significance. Feeling for pain, only above area 7 & 8, due to surg.

9-28-12: Today started with a plus; no ~~any~~ pain in the Fri; mouth area or anywhere else of the face. No pain throughout the day.

9-29-12 - Facial entities, R eye, R ear, etc. feels tired. No smt; extreme pain, hardly noticeable (pain). Slight headache what I do not is for quite some time I have felt the damage (nerve), in my R arm. The damage comes & goes sporadically like my symptoms generally do.

9-30-12 - Didn't sleep well. I laid awake thinking about sun; what happened to my mouth and the things that went wrong. My gums are receding upward towards the nose, and the platelet does not cover the hole. I think about the medical problems I now face. I think about my mother, who, by the 'Grace of God', that has let her live past 90 years of age. What a blessing!!! I'm not in a lot of pain at this time it's just that I'm looking at what could have happen.

can't

10-1-12: Slept well considering what I'm being
mon; called. My husband says I look like the people
in the movie 'Wrong Turn'. Numbness, (tingling), in
my R Arm + hand. NO headaches or any other effect
except for the numbness, esp., when drinking some-
thing cold.

10-2-12; Still can't touch face (suppress), face with fingers
Tues: Around AREA 7 + 8, because of soreness. Some
tingling in R Arm + hand. All else is fine.

10/3/12: Late yesterday-evening, my tongue touched the
used: AREA where surgeries have been performed on me
Numerous of time, I felt something hanging down.
Stitches, which I thought were taken out. The
Assistant to Dr. McKenzie missed a few. I
will call. Other than that issue no problems in-
cluding the numbness was left.

10:4: 12: Pain free this morning. R Arm + Hand (numbness)
Thurs: fell asleep early this A.M. I was suppose to call
Dr. McKenzie's concerning the string hanging (stitches),
+ didn't, so I called today. Spoke w/ June who relayed
the message.

10-5-12- Slept well, no pain, but some tingling in R Arm +
Fri; hand. All else is O.K.

10-6-12- I ~~woke~~^{up} to a beautiful sunny day, without any
Sat: pain or numbness. The 'day' began to give me hope
that I can enjoy life free from pain. I brushed my
teeth touching the AREA's 7 + 8, creeping back the
pain which is very tender. As the day continued
I tried my best not to inflick touch to that AREA.

10-7-12- This morning did not start out like yesterday, but
Sun: it wasn't bad.

10-8-12: It feels wonderful to be able to wake-up with
mon;

Count

10-8-12; Out pain of Any Source in the face. This is true
mon this morning, I'm free from pain or numbness.

10-9-12 - This morning is not as free like yesterday. The
Tues; numbness shadows my mouth like a cold chill sits
on my gums. My Arm + hand is throbbing. No major
pain, one that would cause me to hurt from extreme, its
just an uncomfortable feel.

10-10-12 - I hadn't worn my (partial-3-teeth) due to
Wed. Swelling of the gum. However, yesterday, I wore
them and what I noticed, the teeth (plate) #7,
is gouging the gum because the gum have ex-
posed, whereas its higher than the teeth (pl-
ate). It causes a pinching pain when I wear
the plate. Today was (is), the same from the
plate and the same with pain.

10-11-12; No pain of Any sort, however, I noticed for
Thurs; the past week or so, I've been biting my
lip, and not because I want to.

10-12-12 - No pain. Today is more like yesterday. I
Fri; have a dental Appt. coming-up, 10-29-12, for
which time I will tell and show them how the
plate (3-teeth), is gouging in the gum of Area
#7. So far, a beautiful day.

10-13-12; No pain when I woke-up, but gum is still
Sat; tender and sore when pressed against.

10-14-12; Today start out beautiful, no pain at all.
Sun; However, when pressed against Area 7 + 8, it
hurts terrible. All else is O.K.

10-15-12; This A.M., started out as a beautiful morning.
Mon; There is no pain in the facial Area to speak of,
only minor stiffness of right side/neck.

10-15-12: I do sometimes feel pressure in the mouth as if an infection trying to reappear but even that symptom disappears, and I feel nothing.

10-16-12: No pain (on-going), to speak of, but AREAS 7+8, Tues: is very tender as if the gum is raw. The 3rd tooth Pallet gouches into the gum.

10-17-12: Same as yesterday. It certainly feels great, being free from pain in the mouth. However, with the gum feeling raw it feels as if I have an infection in the gum somewhere. For so long that (infections), went on, I can't help but think about it.

10-18-12: Woke up to the same condition as yesterday. Thurs: no major pain, except the tingling in R/Arm + hand. No other facial nerve damage. Spoke to Becky, Atty; ~~Matthew's~~ Matthews Secretary yesterday, 10-17-12, all is well.

10-19-12 This A.M., was somewhat different than what Fri: has been for the last couple of wks. I'm not in severe pain, regardless I'm in pain. AREAS #s 7+8, gum is very tender. I'm having problems touching with my tongue. Tooth #9, keep cutting my tongue.

10-20-12: Woke up to no pain. Matter of fact, it was a Sat: very pleasant day without pain or numbness.

10-21-12: This A.M., is starting the day like yesterday. Sun:

10/22/12: I noticed yesterday how big the empty space is that covers Area 7+8. The opening is large enough that a quarter (0.25) will fit in that space. The gum is raw and soft, like it just got cut. No pain though.

Cont:

- 10-23-12: No pain from the surgeries, however, for quite
Tues; some time now, tooth #9, cuts my tongue from
the sharp edge. Otherwise, pain free. I can't eat
popcorns due to the soft tissues from surgeries.
- 10-24-12: Things happens to me that goes unnoticed
Wed; when it comes to my facial tissues & nerves. I
noticed this A.M., that when I brush my teeth, a
sparkling chill runs through my body that cause the
nerve in the R Arm to react. Other than this, I'm
in no pain.
- 10/25/12: It is refreshing to wake-up free from pain in
Thurs; the mouth and limited amount of pain in R Arm &
hand. Spoke to Becky, Atty. Matthews Asst, this
morning, just keeping in contact.
- 10-26-12: No visible pain or non-notice. However the
Fri; few minor glitches still happens, and it seems
to be everlasting. My beautiful smile is gone.
I'm so relieved for the major pain that was
left me.
- 10-27-12: No discrepancies of discomfort in the face
SAT; NO PAIN ANYWHERE.
- 10-28-12: It is amazing that my facial have no pain
Sun; at all, at this particular moment. No signs of
infections at all. I'm leary, tomorrow I go to
Dr. McKinsey.
- 10-29-12: Pain free, that's my blessing. No infections,
Mon; swelling or signs of swelling. I went to Dr. Mc-
Kinsey today and was released. Thank God. I
was recommended to Dr. Klink to have plate
made. Called Atty. Matthews, spoke w/ Becky.
- 10-30-12: Pain free, except for the biting of the tongue
Tues; que. For the last few days, no numbness
has happen in the R Arm & hand.

Cont.

10-30-12 I feel rejuvenated from the lack of pain
Tues; From the mouth. The major problem I have
~~and~~ had and still having is chewing my
food properly.

11-1-12: No pain. It is certainly amazing how the
Thurs; pain exasperated, since there is no more
surgery. My look is - uck, - uck, but I'm free from
pain.

11-2-12: This am., is identical to yesterday. Body is
Fri; well rested + I'm ready to start the day.

11-3-12: No pain this A.M., however, I need to remind
Sat. myself to call Dr. Klien to make a set of (top)
teeth. He was recommended by Dr. Greg McKin-
zey. The weather is beautiful.

11-4-12: No major problem in the mouth, however there
Sun; is some pain (very minor) in the gum, areas 7+8.
My ears ached in the night especially the right
ear. No other pains expressed.

11-5-12: Woke up, free from direct pain. Pressing against
Mon; Areas #7+8 is very tender. I called Dr. Klien
set-up an appointment, for Tues. 11/06/12, at 12:00.
For an Impression. Me and talked about 10 min.
I called Atty. Matthews, Becky answered, I informed her
of the appt., and our conversation. She connected me
to Ken (Atty).

11-6-12: Election Day: No pain this A.M., some stiffness in
Tues; the mouth at Areas 7+8. Numbness comes and goes
this morning, not hurting but a sizzle in joints where
muscles are froze and can't move until I pump-up the
R Arm and R Hand.

11-7-12: President Obama - Re-elected: 303 electoral votes
Wed; I woke-up alleviated from pain but tenderness
makes my mouth sore, especially when pressed-

cont

11-7-12 Mon. I went to Dr. Richard Kline as suggested by
Wed; Dr. McKenzie. He pressed in AREAS 7+8, which
soreness is still there. The gums are soft. I was
match against a color for the plate (teeth). How-
ever today, I called Dr. Kline's office and was
told that my Dental Ins., may not pay any of
the bill, because they have paid for the Cro-
whs, and the implants for which I have
neither. It is curious that I now need a
partial. I called Atty; Matthews and explain-
ed to Becky ^{what} was verbally transpired between
me & the Doctor's office. I gave her all the
the info on who and what from Delta Dental
and Doctor Kline's office.

11-8-12: Not feeling my best, which I haven't been for
Thurs the last week or so. The type of pain I'm experi-
encing is cranial. It is on the right side
however I don't feel as if it is connected to my
mouth. The type of pain is not loud, but it comes
and goes. I'm going to the E.R., at Richland
Memorial.

11/9/12; Well it wasn't what I thought it might be
Fri; At the E.R., yesterday. It is combinations of
stress and diabetes. The pains slowed down a
minute.

11/10/12; Awoke this Am., no pains in the face.
Sat. I feel O.K. at this moment.

11/11/12 - no major problems in the facial/mouth area
Sun;

11/12/12: The morning again was great. No pain any-
more where in the face. Little numbness on the
Right side (Arm).

11-13-12 ^{Mon}

Tues; no pain this morning. However, the feelings of how I was treated aroused in my mind as hate. This is what I felt and what I saw from the dental professionals. Each Dentist I went to only had a white staff. Dr. Joel Johnson had 1 black, only because he was intern through the state, (S.C.)

11-14-12 - I do believe the major problem of having Wed; pain in the mouth has left. However, there still maybe some occurrences in the future. I am left with some numbness at times in the R/Arm & hand, small aches & pains that is really un-noticable. So far, this A.M., has started out nicely.

11-15-12: Still having pains on the R/side of my head, it's Thur. A different type of pain than the pain that stemmed from my mouth, and yet the area of pain (R/side), is where the pain is located. Is there a connection from the many surg., I had from the Dental.

11-16-12 - woke up early, 3:20am due to pains I was Fri; having. I'm going to call Dr. Reed and have him take X-rays to determine.

11-17-12: Did not sleep as long, rising early. Nothing Sat; ing major, body tire and restless. Slight headache, R/eye jumping, R/ear, R/jaw, R/side/neck, not as bad as it has been. Same symptoms I had when I went to E.R., a wk., or so ago. However, the pain is very minimum. Went to Fayetteville, N.C., to see the baby.

11-18-12: no change from yesterday.
Sun;

11-19-12: The pain is ^{beginning} ~~beginning~~ to escalate. my R/ear now is swollen. I thought there infection maybe

11-19-12 cont
Mon.

back. I prayed that it wasn't. I returned home.

I tried to relax.

11-20-12 - feeling the same, but managing the pain. I'm
Tues. going to have this problem for the rest of my life.

11-21-12: Couldn't sleep. Got up early. Pain was (is),
Wed. light.

11-22-12: Happy Thanksgiving. It is shameful to wake up
Thurs. with pain. When I went to the E.R., 11/08/12, I
was told it was a migraine headache stemming
A lot of things happening that causes stress.
However, the pains are the same, in the same
Areas of the face, neck, etc. As time passes, they
(pains), are not as severe.

11-23-12; Some pain, not real bad. Otherwise, I'm O.K.
Fri. The weather is gorgeous.

Nov. 24, 12, I'm trying my best not to think about the pain
Sat. I'm having. There is no difference than days past.
My rear is somewhat swollen. My eye aches, as
do other parts of the face on the right side. Stiff-
ness and pain continues on the R side.

11-25-12: Woke up early, not because of facial pain
Sun. because of worry and anxiety. R side of
neck aches all the time causing the R side (in
back) of the head to ache. Everything that aches
me is on the right side. Therefore, I wonder,
1-26-12: no pain that would express itself loudly. Minor
Mon. aches that would go unnoticed. Otherwise, I
felt fine.

* 1-27-12: Today is more like yesterday. I called Dr. Kline
Thurs. office. Appt. tomorrow.

* 1-28-12: Called Dr. Kline's office. Appt. for Thurs.
Wed. (tomorrow), 11:00 AM

1-29-12: The anticipation (anxiety) is high, knowing
Thurs.

Con't

1-29-12
Thurs.

that the final summation of completing the task of fixing my mouth is near. However, there have been many times I thought I was dead from the pains of surgery. There were many times I thought I was dead from the infections that aroused in my system. There have been many 'trying' times, I'm still here. Thank-you 'Jesus.' I arrived at Dr. Kline's office early, but was taken (escorted), to the back late. Dr. Kline did a scrap, (sawing the teeth down shaping them to fit the top plate), shaving tooth #4 & #12. He was gentle but touching the gum in area 7+8 hurt upon touch & when he tried to wiggle #9 & #10. Lots of sensitivity still exist in the mouth. I heard Dr. Kline mentioned that I had a red spot on the gum. He later said I was still healing, very slowly. Upon completion of his work on me, I went to the front, asked Mr. Sissy for copies of what transpired, reviewed into on all documents, pd. \$100.00, and left.

11-30-12: Woke-up filling fine. Thought about yesterday, Fri; and what I've been through the last 2 yrs. & 8 months.

12-1-12: I Awoke with extreme pain in my head as if my brain was about to burst. My neck had stiffened where it was hard for me to turn my head. My R eye was aching as if blood was flowing out of my eye. My R ear was hurting as well. All this pain was on the right side of the cranial (head), and I knew something was wrong. It was 3:21am when I woke-up Larry and told him I needed to go to the Emerg; rm. We both got dress and left. It was the same as before, migraine/stress. Test were taken, no abnormalities in the brain. However, I need to do a follow-up with Dr. Reed not the emerg; rm. I later went to get the prescription and out

Sat 12-1-12 Cont

Like a DARK Light. I slept through the entire night. (Percocet 5/325 + Ibuprofen 800mg). Dr. Joseph Campbell

Sun: 12-2-12 I Awoke refreshed, and thankful. Headache returned but not loud. We went to Church and it was great. I only took the medicine prescribed at bed time. Otherwise I felt great.

12-3-12 I Slept good Another night. Minor headache like yesterday.

12-4-12 Today I Awoke with a mere Fraction of pain that I have had. Otherwise the day went well.

12-5-12 no pain, slight headache. So far, the day is progressing quite well.

12-6-12: Woke-up with headache, esp., on right side. Very little pain down right side of neck + right Arm. Otherwise all else is O.K. Made Appt. w/ Dr. Reed for 12-12-12, 11:00 am.

12-7-12: No pain at all most of the day and what Fri: little pain that occurred, was so un-noticable to say I had any. I noticed my gum has different shades (colors) which look infected but I don't feel any pain.

12-8-12 - The pains that I have concerning my mouth seem to be less and less, including the numbness in my R Arm + neck. However, I could never regulate my diabetes the entire time, but I'm still living. My gum on the R side is still sore and tender.

12-9-12 This morning is much like yesterday. Very Sun: Little pain.

12-10-12 ^{Cont} It is clear to be that I will forever have problems with
mon. my mouth. I don't have as much pain, however, some
pain is still there. My gum is soft with color distiguration of pink, brown, & red. Infection, feels as though it is returning.

12-11-12: As of this moment, 1:45pm I feel fine. This morning
Tues. I felt fine with the exception of a headache for a brief moment.

12-12-12 - Woke-up free from pain. Headache returned
Wed. 9:15am w/ stiffness in neck on right side. Leaving
at 9:25am to go to Dr. Reed, my primary Doctor.

12-13-12 - Had pain in the middle of the night, got-up
Thur. Around 3:20am took med., prescribed by Dr. Reed.
Returned to bed 4:15am slept until 6:52am when
I awoke for the day, headache was gone. R side of
neck have some stiffness. According to Dr. Reed, my
headaches are coming from my neck, R side, which is
a reaction to nerves. However, it is now noon, 12:00pm,
and I am having no pain.

12-14-12 - no noticeable pain this morning to speak of.
Fri; However, there's still some stiffness in the (my),
neck on the right side.

12-15-12 - Little headache, stiffness on R side of neck.
SAT. Nothing is severe. I'm more than tire of dealing
(feeling) the way I feel from a Doctor (Dentist)
mistake. The headaches, etc.

12-16-12: This morning is trying. I'm ~~not~~ having pain thru my
Sun, nostrils on the R side, traveling upward to my R eye. However its not very hurtful in the eye. The pain also
rolls down the right side of the neck causing stiffness.
It feels like it did before, when infection was there.
I feel tire most of the time. Can't sleep most nights. I
think about what Dr. Reed said, "Its coming from my mouth

12-16-12
cont.
sub. and neck: I say nerve damage.

12-17-12: I do believe the infection is back. I think there
now may be broken bone somewhere in the face, connected
to the mouth because of the pain. Pain pills and shots
is not the answer. The pain is identical to the pains
I had yesterday with the exception of the R/ear. It is
aching as well. The right side of my face feel as
tho' it is numb at times.

12-18-12- Can't sleep because pain in mouth, heading upward to nos-
Tues; tril + eye aches in sporadic occasions. All pain is on
Right side of my face. My neck aches but stiffness on
the this side of neck (right), makes it worst. I believe
Dr. Michael Reed is right, that the problems I'm hav-
ing comes from the jaw + mouth.

12-19-12- Awakened early, 3:48 AM, feeling the same as
wed; yesterday morning. The day went well, no
change symptoms from yesterday. My biggest
fear, I'm permanently damage.

12-20-12: Slept better: 4:50 AM, woke up. No pain
Thurs. this AM.

12-21-12- Slept well all through the night. Woke up
Fri; without any amount of significant pain that is
noticeable. Praying that today continue to be
pain free.

12-22-12: Today has been wonderful to me. I experience
SAT. No pain. It is now 6:38 PM

12-23-12: Today started without pain, except for my lip on
Sun; the r/side (tooth #4) where biting into the lip. I
felt pain from that area all day. Since 04-06-10,
I have felt pain one way or the other from my mouth
neck, back or anything that connects to the chin/area.
I am tired. Other than the lip, I am O.K.

12-24-12: It is now 11:00 AM, no pain.
mon:

Can't

- Merry Xmas! What I noticed that my lip (top) on the right side
Dec. 25, 12 incidents itself into the gapping hole, left in the gum
Tues. period of time it makes a knot in the lip. This am., I
am O.K., no pain.
- 12-26-12 - no loud pain, just aggravating feeling of discom-
Wed. fort. It is as if my ears stop-up, then clear, then stop-
up, then clear. This is what happened most of the a.m.
I suspect some of the problems come from my diabetes,
since I have a problem controlling my diabetes since
04/06/10.
- 12-27-12: This morning is just like yesterday. However, due
Thur. to exercises this morning, I didn't think much about my
symptoms or problems. I feel fine from the cranial.
- 12-28-12 - woke up early because of phone call 3:48am
Fri.; concerning mother. Body is stiff, R leg swollen at
the knee. No other major pain, which might come
from the mouth. I'm O.K.
- 12-29-12: The entire day went well. Body stiff, but
Sat. no pain.
- 12-30-12: This am. R eye aches, I think because of the
Sun; cold, little aches that comes & goes on the R side of
face edging into R shoulder & R arm. No major pain to
speak of.
- 12-31-12: I slept well, without pain in the face or arm.
Mon. However, around 10:32am my face, (mouth, R ear,
R eye) felt as if it was shut down on me. I began
to have a headache, which stopped on its own. Other-
wise I had a pleasant day.
- Jan. 1, 2013; Happy New Year!! I'm so thankful to be a-
Tues., live. I relished on the thought of what happen-
ed to me last year and on-going. I don't carry

Cont
1-1-13
Tues. myself the same like I use to. I differently
don't look the same nor do I feel the same. I
look Old + tire as if my body drop me in a
hole that I can't crawl out.

1-2-13: - I woke up early in the A.M., with the feeling of
wed: draining (flow) of infection running across the face. I
pray that it wasn't that. I noticed that the numb-
ness has returned on the right side / arm, but that
went away. I feel that I'm going to have problems
steaming from my mouth the rest of my life. I'm too
old to keep getting cut-on, because it makes the
prints worst. As of this particular moment, I'll be
O.K.

1-3-13: Same applies to this morning as yesterday.
Thur: When I returned back to bed, 4:08am, my head be-
gan to hurt, as if the migraine has returned. I
Laid still, the headache quickly went away.

1-4-13: I seem to have a problem sleeping thru the night
Fri; because of pain. The feelings of infection has
return and I ache in the eyes, ears, and nose. on +
off, mostly on especially when I'm trying to be
still. My neck is sore as well. Dr. Klink's office
called me yesterday informing me that the top
plate is in setting up and appt. for today, 10:00am.
I called Atty. Matthews yesterday after making the
Appt. with Dr. Klink. I told Becky about what I
see with Crowns 9 + 10, she asked what was I
going to do. I really feel that I have been abuse
medically from the Dental Doctors. I have major
problems that needs to be address.

Cont
1-5-13: I didn't sleep well, but the day otherwise was
SAT: nice. I don't know whether its a natural reaction to
pain (migraines) I get, headaches. Dr. Reed quoted they
come because of the mouth. The pains that I get
from the neck to the arm don't last long anymore. They
are short briefs.

1-6-13: The day starts well, no pain. Later in the day
Sun: the face gave no pain as well.

1-7-13: Today is no different from days past since the
Mon: beginning of devastation to my mouth. The auto-
cites of infections and pain linger from day to
day, however, the area of 7+8, on the gum where
surgery was performed, leaves the gum soft as
if its a jelly roll. My diabetes is something
I can't hide so I don't dare try. The Dental
Doctors, should have known because I informed
them before any procedure was done. Today,
no headache but I do feel stress in the neck.

1-8-13: I slept well. I woke-up early but quickly feel
Tues: back to sleep. When I got up at 5:30am for
the day, no pain. The day started off well.

1-9-13: To a surprise, no pain from my mouth this
Wed: morning. Bones ache all over from the flu.

1-10-13: I went yesterday and pd. Dr. Kline \$100.00 on
Thur. my bill. I love the teeth I received Friday
the 4th of Jan. from his office with the except-
ion of a few minor glitches. They fit beautifully
in my mouth, but need to be shaved down in a
few areas. This morning I really did wake-up
not feeling as though I have the flu. No aches to
the bones or in my face. Officially, it is now in
my atty. court.

cont

1-10-13: Called Atty: Matthews 10:30^{AM} spoke to Becky,
she put Kene on the phone. I said, "the ball is in
your court" he asked "what do you mean" I said
the Doctor's all 4, have completed their work,
nothing else can be done." I told him that "the
teeth that was made is really nice and fit
well". He ~~stated~~ ^{said} "well alright let's see what
will be done" we ^{both} said O.K., and hung-up.

1-11-13: Woke-up feeling better than I have been
for the last 2 wks. Dwindling eyesight is
something I can't help, pain in Rear is also
something I can't help. The same goes for
all problems I have stemming from the mouth.
The problems that I have is a norm of what
is. As for lots of pain, none this morning. I
noticed late in the evenings, for short periods
of time I get migraines. I mentioned to Atty:
Matthews yesterday about these problems.

1-12-13: Woke up early 2:37^{AM} but quickly went
back to bed, within one hr. No pain this AM,
nor is there numbness. Things or symptoms
happen sporadically. I can't make them happ-
ened. However, my gum is sore all the time and
it hurts when you press on it.

1-13-13: Today began to a better start, without pain.
we went to Church, which is a blessing
to see church members. No pain throughout
the day.

1-14-13: Didn't sleep well due to headache, migraine.
The migraine doesn't last long, I guess
that is the best thing about it. No other pro-
blems came about.

1-15-13: I slept well, no pain in the face or head.

Sat.

Sun.

Mon.

Tues.

1-16-13: I didn't sleep well, I WAS UP AT 1:12 AM I re-
wed, turned back to bed at 2:00 AM It feels as thou I
have infection running through the face, when I
got up for the day, 6:58 AM I WAS fine. Feeling no
MAJOR PAINS to speak of.

1-17-13: It is now a wonder, will I completely heal? As for the
Thur: problems that Aroused from my mouth, it is a continuing
cycle. It gets better but never stops. I don't ache as bad
as I have in the past, but pain is omnipresent never the less.
The nerve on the right side of my face, neck, arm is still
there, twitching in the arm today.

1-18-13: NO MAJOR PAINS to mention this morning, except I
Fri; realize that some of the pain comes from brushing
the teeth AROUND AREAS of surg, whereas gum is
very tender. Everything else is O.K.

1-19-13: I woke up with the same feel in the mouth
SAT: AS yesterday. I brush more gently AROUND AREAS
tooth connecting to clean. All else is fine.

1-20-13: Woke up to a beautiful day of sunshine. No pain
Sun; about my face. I felt fine. Set out linens.

1-21-13: Happy Holiday! 'Martin Luther King Day.' The out-
mon; side was pleasant, weather wise. My face felt
the same as yesterday, except the nose ached, very
minor pain. I pray that the infection had not re-
turned.

1-22-13: AS for this morning I feel fine.
Tues.

1-23-13: Today began beautiful; no pain in my face, ears, or
Wed: neck. Weather's cold, wrapped tight, if not, will
bring about pain.

1-24-13: No pain to mention.
Thurs:

1-25-13: Body aches in the face, however it is not of
Fri great significance toward pain. my please have

1-25-13 Cowt
Fri; the Strongest reaction to pain. Weather's cold
wrapped tight and warm. I will always have
problems that stems from my mouth. I now have
the most ugliest mouth in All S.C.

1-26-13: SAT. Slept well thru the night. No pains that some-
times deprive me of sleep. However, when I did
AWAKE I had a moldering headache stemming
from my nose and eyes on the R/side of my
face. It is evident that I am going to have pro-
blems for the rest of my life. No other pains to
write about at this time. Spoke with atty. Matt-
news yesterday shortly after 2:00pm in ref-
erence to the insurance (Delta Dental) in-
quiry about All Dental Doctors and what I
don't have.

1-27-13: Woke-up early in the A.M., Around 12:47am. due
Sun; to the feeling of drainage running up + down the
right nostril. I decided to stay up a while. When I
finally returned to bed, I was so tired until I just
slept. When I Arised for the day I felt O.K.

1-28-13: No facial pain this A.M., I feel better than
Mon; yesterday at this time.

1-29-13: Woke-up early 1:59am, which seem to be a
Tues; Norm for me since the wrongful act perform-
ed in my mouth. The headaches, the pain in
the R/ear, R/nostril, R/eye, etc. is a continual
habit that now behoves me. The pains are
not as loud, but ~~not~~ nevertheless they are
there. I'm O.K. at this particular moment.

1-30-13 The morning began free from pain and
Wed; continued through out the day.

Cont

- 1-31-13: Woke up free from pain, but painful still to the touch when pressed in the area of #7+8. No other pain, but thoughts of how I feel when I don't have teeth in my mouth. The plate that was made by Dr. Kline is beautiful and even more beautiful in my mouth, but awkward to the original.
- 2-1-13 - Slept well. No pain to write about but still some complications of pain in the facial fracture of the face; stemming from daily (minor) activities on the right side of face, neck, and arm. These are problems I foresee that maybe permanent. The beauty of the plate that was made by Dr. Kline, comes out and when it does, ugly prevail, and that is permanent.
- 2-2-13: No pain, Discomfort yes. Otherwise I'm o.k.
Sat:
- 2-3-13: more discomfort this morning with problems that aroused from the ordeal of my mouth. Slight headache, with minor twitching in the R shoulder and arm. It's been a while since this has happened.
- 2-4-13 The same feelings like yesterday. A slight headache. No twitching.
Mon:
- 2-5-13: minor pains. This is a daily activity for my facial nerves. It has not changed for quite a while, nor will it. However, the pain in the R side of my shoulder stemming down my R arm is a little more painful, but not hurting to the point of screams.
- 2-6-13 - It is now 9:05 AM and I'm feeling the same as to how I felt when I got up this a.m. at 5:30 AM. A headache, Almost as if I'm having a

Cont

2-6-13 - Sinus drain, R ear, etc. All bear noticeable pain this Wed morning. The pain is not severe but noticeable. R arm & shoulder as well. I'm praying that this not the norm for me.

2-7-13 - This morning is great, free from pain. Weather is damp, but as of this moment 10:00am, body is fine.

2-8-13: All day has been pain free, at least from pain Fri; that is not severe or noticeable. It is no different from the daily routines of pain that is now normal to me, from the mouth (face), and nerves.

2-9-13 - Same as yesterday, without severe pains in Sat. the face and neck. More headaches.

2-10-13 - Woke up early, 4:00am nerves, causing tingling in my R arm. Weather most likely plays a role in what's happening. Slight headache, all else is fine.

2-11-13 - Woke up free from facial pain. I feel no difference than I have been from last few years. It has become a norm for me, making my symptoms no different to feel. I'm O.K.

2-12-13 - R eye hurts, nostril (sinus) painful. All else (Blood) is fine in the face. R arm tingling in R hand. No major pain.

2-13-13 - tired, but O.K. Didn't sleep well. No major Wed. pains to write about, basically the same as yesterday, just tired.

2-14-13 - Happy Valentine's, no major pain but some pain Thurs. in the gum (top) areas 7+8 that is causing pain in the sinus. Pain is an inevitable feeling that engulfs my life from someone's else mistakes. This is what I must live with for the rest of my life.

Cont.

2-15-13. Woke up early 4:10 am not because of pain,
Fri; just restless. Feeling O.K. At this moment.

Time gives me lots of time to think (reminisce)
About what happened. When I think about it, and
what's going to happen in the future, it brings
about sadness.

12-14-13 - All is well today. No viable pains in the facial area
Sat. of notice. Gums are sore & tender, no change since
the last surgery. Rainy day.

10-17-13 - Sunny day. Same as yesterday, especially the
Sun; tenderness in the gum.

1-18-13 - Happy holiday!! No pain in the facial, but lots of
Mon; pain is traveling to R shoulder downward to R side in-
to R leg & feet. Very, very painful in R feet.

2-19-13 - I noticed early this morning that all pains
Tues; are on the R side of my body. Lot's of nerve
pain from my head to my feet.

2-20-13: Slight headache, ringing has returned to the
Wed. R/ear. Other pains are nerve pain on the R side.
Heat helps. It was nice to speak w/ Becky yesterday.

2-21-13 - Same as yesterday. I notice that only
Thurs; time can change things, and most of the time,
it takes a very long time or never.

2-22-13 - Today is gloomy & wet. Same as the
Fri; last 2 days past.

2-23-13: Happy birthday mother 92. I look at my
Sat. mother and sometimes wonder about the longevity
that I might have. Can I have the same?

2-24-13: No major pains today or yesterday.
Sun;

Cont

2-25-13: Rainy day!! Nerves are hurting in R/shoulder, R/arm, now; neck, R/buttock, R/thigh, R/leg, R/ankle & R/foot. Cold and damp. Today I asked the Lord, for relief.

2-26-13 - The day is copy cat of yesterday. Body is same as yesterday. Called Atty. Ken Matthews, spoke to Becky. No facial pain.

2-27-13: Weather was beautiful later in the day. Wed: As for this morning pain on the gums like any where else there is Arthritic in my body.

2-28-13: I woke up early this morning, 3:00 AM, not because of pain in my face, but pain in my R/arm and hand. I've experienced this pain many times, so this is not something new. Body seem to be tired and cold.

3-1-13: no pain near face. Still. Continuing to be Fri, very cautious brushing teeth, gum is very tender still.

3-2-13 - Slept well, Arised early. my gum is still sore in Sat. Areas 7 + 8, causing major tenderness. It has been and still is hard for me to brush my teeth, making me angry when I think about what happened to me. Having only soreness in the gum this A.M. is a blessing.

3-3-13: no pain this morning. The day was chilly. Sun. I'm gonna have problems, that is inevitable. my gums ~~is~~ are sore and tender. ? , when will my gums heal?

3-4-13: some pain comes at night, like Arthritis in Mon, my leg. However, the pain in the head area comes like a nasty form of headaches behind the R/ear when its cold outside.

3-5-13 - Today began no different than yesterday. Wed. Very chilly and I ache terrible.

Continued Daily notes:

- 3-6-13: Weather Windy and Cold, making face +
wed: body Ache greater than normal feels. my
Body is reacting to Life trauma's and my face is
reacting to mouth issues.
- 3-7-13: Spent most of the day at the V.A. Hosp, Cyst. Felt
Thurs. fine practically All day. Pains, but none were
loud or made me feel hurtful. The day went well.
- 3-8-13: I woke-up early, not because of pain. So far
Fri; this Am, I'm having no problems or pain in
the facial area or any part of the body (neck,
Arm, etc.) connected to the mouth.
- 3-9-13 - Having minor aches in the face and numbness in
Sat: the R shoulder, Arm, and hand. Mouth has soreness,
especially under R nostril. It is evident that I'm
going to have these problems for life or for quite
some time not due to my control.
- 3-10-13: The entire day went well, no pain that express
Sun: ed itself to be noticeable. Weather was clear
which helped.
- 3-11-13: Slept well, no visible pain to speak of.
Mon: weather this A.M., Shaping-up to be a great
day. All is well.
- 3-12-13: Weather is wet, making it cooler than yester-
Tues; day. Body aches, especially the nose + mouth
areas. Eyes (R eye), in particular is weak and
dazed.
- 3-13-13: No visible pain this morning. Spoke
Wed: w/ Becky, Atty: Matthews Secretary yes
day.
- 3-14-13: Have a Doctor's appointment this morn
Thur. w/ Dr. Reed. I woke up to no visible p.

Cont

3-14-13: Of notice. Slight pain in nose, as
Thurs: if there is sinus. Arrived to Dr Reed's
office 30 min, early. Dr. Reed asked about
the headaches I was having. I said I didn't,
have anymore, at least none lately. I
told Dr. Reed about how I ached all over my
body, esp. my feet.

3-15-13: Feeling O.K. this morning. Nose (R/side)
Fri; Aches. R/side of Neck and Shoulder hurt.
Otherwise I'm O.K.

3-16-13: Numbness in R Arm this morning, causing me
Sat. to squeeze hand, shaking arm back and forth to
bring back feeling. R Nostril has some burning
sensation. All else is O.K. Weather is clear this
morning.

3-17-13: Beautiful day with lots of Sunshine
Sun; which made the day start off pleasant
with very little pain, hardly to notice any
discomfort in the face.

3-18-13: Different beginning for this day compared
Mon: to yesterday. Still little pain in R Nostril and
R/side of Neck. Otherwise I am fine.

3-19-13: This morning is bleak. Yesterday I called
Tues: Atty: Matthews when I was at the V. A.
Hospital w/ Larry. I spoke with Becky. I
will call back Mon., 3/25/13. There is
little pain in my face, however, there's
an annoying headache, not as severe as

Cont

3-19-13 They generally are. Since the beginning of hav-
ing problems with my mouth, It is never
A day of peace from having even a small
Amount of pain. It is still unnecessary pain.

3-20-13: I'm free this morning from pain. The days
of having lots of pain has narrowed down sub-
stantially. All is well this morning. It really
is an ugly look for a woman to have no teeth.
I often get reminded of the movie 'Wrong Turn', for
what the people look like without teeth.

3/21/13 - This morning is identical to yesterday
This morning. No pain in the facial area.

3/22/13: I woke up wondering, when will the day come
Fri: that I return back to having a normal day free of
Any kind of pain, twitch, ache, etc.? It has been
3 years since I went to Dentist Joel Johnson
And I'm still having problems from what he did to
me. However, this morning the pain is very minor, but
Cause is real.

3-23-13: The weather is cold and very wet this morn-
ing causing me to ache all over, esp., in the
face. It is as if I have arthritis in the face.
However, it nothing new about pain. I'm not
Aching as bad as I normally do, but I am ac-
hing regardless.

3-24-13: I woke up to a very cold & wet morning,
Sun; Aching as if I have a bad sinus. Pain runn-
ing from my mouth thru my R nostril to my
R eye. I'm having no pains elsewhere.

Cont

3-25-13: What a difference a day makes. The pain^s Mon: I'm having this morning are minor. They are there, just not as painful. All else is fine. No rain this morning.

3-26-13: Happy Birthday Charlotte, 61. Today is identical Tues: to yesterday morning. The R/eye, R/nostil, and R/top gum is drained as if I have developed a sinus problem to cold air. All is fine.

3-27-13: I woke up feeling there will never be changes Wed: as to how I actually feel from the problems that arrived from my mouth. I'm at the ending point. I will have these twitches, R/nostil, R/eye, R/ear, R/side neck, etc. There is always some feel. but not as painful as it has been. My Gums will always be soft and hurtful. However, the pains I have on a daily basis, I've learned how to live with them.

3-28-13: Slept good thru the night. No visible Thurs: pain of notice. Have a doctor's appt., this A.M., for my eyes. Otherwise, feeling O.K.

3-29-13: When I returned home yesterday from see- Fri: ing the Eye Doctor + mother, the Caller I.D., was blinking, it was Becky, from Atty: Mathews office. I returned the call, it was to reschedule my appt. from today's date to Monday 4/1/13. As for me having pain, very little, not much to write or talk about.

3-30-13: The day (morning), was beginning to be Sat: bright w/ plenty of sunshine. I have no pain to write about. The pains that I have

I have them everyday. These are pains that I don't write about nor, should I. They occur on a daily basis. The Pain is most definitely damage to the point that I can barely cope w/ the pain. Happy Easter!!

3-31-13: Happy Easter. My face feels the same like yesterday. Hope the weather is as great.

4-1-13 - It's a new day of having the same feelings now: (facial), that have been with me for years or since I began to have trouble with my mouth (Dr. Joel Johnson). My gum, Area 7+8, will never heal. Tender + Sore seems like a normal thing for me, however there's not much pain unless I press on the gum. Other wise this A.M., is starting out as a good day. Met w/ Atty Matt-hews at 10:00am. Very interesting meeting. It appears that the 3 Doctors involved in surgeries or lack of care in my mouth, trying to make it look like I am crazy and that another Dentist is responsible that Dr. Sykes (Dental), is responsible for my mouth who is black.

4-2-13: No viable pain noticeable, no more than yesterday. I still have sore gum in Area's of 7+8. My last surg. w/ Dr. McKenzie 9-~~11~~ 19/12. Took notes to Becky.

4-3/13: This morning I feel better than I have been for a long, long time. No headaches or

Cont

4/3/13: facial pain to speak of. At least none to
Wed write about. RArm from neck to fingers have
been giving me some reaction at night, And that
has been minor. But this A.M., no problem this
morning.

4-4-13: Didn't sleep well, up at 3:00AM Morning
Thurs. is wet & Cold. Nerves ache as if Arthritis is
in the facial bone. I'm not a Doctor, but since
the beginning 2 yrs. Ago, I've lived with pain
everyday. Some days are more subseptible
to severity than others. Lately, it is more
tolerable, because my body has Adjust^{ed} over
time. Today is the beginning of a nasty day.

4-5-13: This morning I woke up with a headache.
Fri; RArm, cold and twitching. Nothing major

4-6-13: No viable pain to write about, however
SAT, twitching in RArm. Weather is beautiful
this morning.

4-7-13: - Happy Birthday to me, Its a milestone,
Sun: no more 50's. Entering 60's. Glad to feel
good enough to go to Church. No viable pain
to write about. It is starting to be a good day.

4-8-13- woke up with gum area 7+8 hurting, because
Mon: I missed And touch hard, in my sleep. My
gum Ached as if my Sinus (nose) was drain-
ing from a cold. As the day progressed I
felt finte on through.

4-9-13- No pain except for a minor headache. Other
Tues: wise I'm O.K.

4-10-13- Didn't sleep well, humid, No pain in face
to write about. I'm O.K., weather is hot.

Cont

4-11-13 - It appears to be silent (pain), and noticeable other days. However, this A.M., minor pain in the nostril area, below tooth 7+8, noticeable but not as loud as months past. Weather is spring like, very warm that gives me a relief from pain, but too hot for other parts of the body. Late in the day, pain left facial area.

4-12-13: Woke up to damp weather. Facial pain is very Friday; noticeable, especially w/ nose (R nostril), and R side of neck. Other than pain mentioned, I'm doing O.K.

4-13-13: Cool morning; weather shaping up for a Sat; beautiful day with temperatures rising. No pain anywhere.

4-14-13: Morning ~~was~~ ^{is} chilly + wet. No pain to write Sun; About. Late in the day, minor pain in gum, #7+8, area of distractions/surg. My gum in this area is still tender + sore, hard to heal.

4-15-13: Woke up early, 4:00 am, with pain in nostril, R side, Mon. Above gums. Otherwise morning is free from pain.

4-16-13 - Had a significant amount of pain late Tues. yesterday in my mouth for a short while. I thought about what I ate, that could have caused the pain, from what I chewed. That was late yesterday, today or this morning no pain to write about. Didn't sleep well, but I'm O.K.

4-17-13: Had a good night sleep, no pain interrupt my Wed. sleep, whatsoever. However, from R eye to R gum

Cont'd

- 4-17-13: PASSING thru the R nostril Aches as if Wed: the sinus is stretching. No problem with the R ear or elsewhere from the mouth.
- 4-18-13 - Gums are still sore + tender. Since the Thurs: beginning of this chaotic mess, it is very hard for me to brush the few teeth that I have left. It sometimes takes over 5 min. to brush, especially due to gum being so tender.
- 4-19-13: Had a good night sleep. No pain on or about Fri: my face. R Arm feels like a streak of cold running against the nerve, it is not painful, but Aggravating. Otherwise, I'm feeling fine.
- 4-20-13 - No immediate pain, gums are soft hurting mildly. SAT: slight headache. Slept good with pleasant dreams. Saw Atty. Matthews yesterday, leaving all paperwork for another case, because he was busy, and he really was. I later spoke to Becky, who was not there when I arrive, informing her of what was left.
- 4-21-13: - No hard pain to write about. A few aches Sun: gums; in the gum from cold, but other than that I feel O.K.
- 4-22-13: Body feels cool, face feels the same. No Mon: major problem.
- 4-23-13: Slept well without pain. It felt as if I was Tues: back to normalcy before all the suffering.
- 4-24-13: I woke up early in the am; I touched my gum with my tongue and it caused pain. I returned back to sleep after being up for 35 min. Woke-up after 6:00 am, feeling fine.

Cont

- 4-25-13: This morning is a copy cat to yesterday.
Thurs: As of this morning no signs of pain unless I touch the gums. The gum is tender + sore, not painful, like having a continual nag.
- 4/26/13: Not in pain anywhere but gums are tender and sore.
Fri: Not a pleasant day with Larry because of his desires. Otherwise I'm O.K.. Spoke with Becky briefly.
- 4-27/13: Slept fine, woke up to no pain, but sore-
Sat: Mess in the gum. Otherwise, day is going on like a normal day.
- 4/28/13: No drastic pain, but pain in my gum. Slight
Sun: ht headache, w/ R nostril feeling as if my sinus is bothering me. Cold + Wet this A.M.
- 4/29/13: Gums are sore, only painful when pressure
Mon: is applied to it. R side of neck is stiff, but that could come from many things since there is no other pains from the mouth.
- 4-30-13: Woke-up early, 1:38 AM. Stayed awake until
Tues: 9:00 AM. Looked-up and realized I was late for my mother's appt. At 8:00 AM with my gums feeling extra sore + tender it became harder for me to think.
- 5-1-13: Slept well, no pains about the facial
Wed: Area or connecting Area.
- 5-2-13: Something awoke me in the early A.M., 1:48:
Thur: It was my gum. Being sore + tender like it is, is causing problems at times. Nerves from my mouth makes a reaction on the right side of my body where as my R arm + R hand tremble. I stayed awake for at least an hour before returning back to bed.

cont

5/3/13: Slept well, no pain, but sore & tenderness in
Fri; gum AREA. When pressed against the gum, it becomes
painful. Otherwise, everything is O.K. I am living
I must to survive when it comes to the problems that
faces me from this situation.

5/4/13: Weather is very chilly this morning. Having Little
Sat; pain in the gums, but what is noticed, the tender-
ness and soreness feels as thou it will soon erupt
into flames. Slept in parts through the night.

5/7/13: Two days has passed by since I last wrote any
Tues; feelings of how I was doing, however, this A.M.
I feeling fine. No headache or any pain ex-
cept in the gum where the surgeries were per-
formed. Lots of tenderness and soreness causing
pain that way.

5/8/13: No pain in the face at all. However, the R Arm
Wed; is having some difficulties this morning, other-
wise I'm doing O.K.

5/9/13: R ear is hurting on a minor scale and R Arm
Thurs. is doing the same as yesterday. Slight headache,
not to extreme where I am actually slumped
over. It is mainly in the A.M; that gives me problems.

5-10-13: The day is starting out fine, no pain this morn-
Fri; ing about the face or neck. Spoke w/ Becky (Atty Matthews)

5/11/12: No pain this morning that is of need for me
Sat; to write about.

5/12/13: Woke-up to the beginning of a beautiful
Sun; day, only minor pain in the gums. Happy Mother's
day!!! I thought little about the nagging pain
in my gums, setting my mind on enjoying my
mother.

5-13-13 cont
Mon: Today began more like yesterday with the weather
And the pain. No pain elsewhere in the face.

5-14-13: I woke up with the same feelings in the
Tues. mouth, like yesterday and days before. No major
pains in the face.

5/15/13: Pain + swelling developing at R side of jaw
Wed. bone and behind R ear. Gums are still sore + tender.

5/16/13- This morning was a difficult morning, had
Thurs. problems sleeping, however waking up early
and staying up for a while, I returned back
to bed within an hr. and quickly fell back to
sleep. Yesterday morning was terrible with drip-
ping from my nose like a bad sinus. This is the
R nostril. I also had pain (pink eye) in my R eye. When
I got to the nursing home to visit my mother I
showed one of the nurses who said I may need
an antibiotic if its pink eye, but it could be
sinus, a problem I never had until I began
these problem with my mouth. Today I was O.K.
most of the day.

5/17/13- For the last couple of weeks, most nights I
Fri; wake up real early soon returning back to bed.
The pattern (sleep-break) is becoming habit due
to either pain or stress. The pain in my gums
is annoying, being tender + sore every-day. No
other pains of distraction. I'm O.K.

5/18/13: Slept pretty fair. Its becoming a routine to wake
Sat: up in the middle of the night from pain stemming from
my gum. However, all else is well.

5/19/13: Slept good. Lip is swollen from bites I have
Sun. inflicted on myself from the corners of the
remaining teeth. No pain elsewhere except for
Arthristist.

5/20/13: It feels as though I will never get
mon. rid of sore gum w/ tenderness. I won-
der what else can be going on. Other wise
I'm O.K.

5/21/13 - Same as yesterday no change in how my
Tues. mouth feels. It is devastating being so sore
but it is something I must endure. I called
Becky (Atty. Matthews), had a beautiful conversa-
tion. Larry agitated as always. So far so
good, for ^{now} now pains elsewhere.

5/22/13: Slept well, no pain of difference from days
Wed. passed. I feel that my gums will never be the
same than before Dr. Joel Johnson.

5/28/13 - It has been a week since I last
Tues. wrote any notes of how I fill on a
daily basis since Dr. Joel Johnson. Noth-
ing significant of change from May 22.
However, there are some new discoveries,
like my biting on a slice of melon. I
can't do it, must cut melon into pieces
+ chew on remaining teeth. Same tenderness
in gum area. I stay tire all the time.

5/29/13, Slept well throughout the night. No pain, except
Wed. the gums. I'm O.K.

Cont'd:

5/30/13: As for facial pains, my complete head is in misery. Thurs; I believe I have the summer flu. Other than that, this is all wrong, at least of what I can detect.

5/31/13- Still miserable from the flu. My Sinus Fri: is the worst.

6-1-13- Not feeling my best with this cold, Flu or Sat: whatever it is. But, I feel better than yesterday. However, when I squeeze my nose to open my sinus and sometimes touch my top lip above area of gum that was cut, it hurts as if the surg. was yesterday. No other hurtful areas except my ears feel as though the sound is cut-off.

6/2/13- Didn't sleep well, but I did not stay awake long Sun: in the night. No pain, just coughing and ears ringing. Stayed home all day. My gums are still tender + sore.

6/5/13: It has been a few days since I last wrote Wed: notes concerning the mouth issue. However, the gums are still sore + tender. I have ~~pains~~ pains in the sinus + throat. Other wise I'm O.K. I still have a cold, which could count for some of the feel in my sinus.

6/6/13: no pain this A.M., except for gums. They are Thu: very sore and tender especially in area of surgeries. You can't touch above lip over that area without some pain. All else is fine.

6/7/13: Woke-up early Am., 12:15 Am. Stayed awake Fri: for hrs; before returning back to bed at 2:45

Cont'd

4/7/13^{am}, However, A couple of hrs. passed (sleeping, Fr. when we (both) woke up with coughs, Larry's A little worst than me. I took a shower at 3:50^{am}, AS the (Larry), And we went to the E.R., at the V.A. - finding out we have Sinus Colds.

4/8/13 - Feeling a lot better this morning. Still coughing, but not as bad. The main part of my face that ails is the Lip/Gum. I can't touch my mouth. I'm otherwise O.K.

4/9/13 - Woke up to A wet + drizzling day. We went Sun. to Church, then to mother. I had no pain to write about but my Sinus dripped like crazy + I had A terrible cough. Otherwise, the day went well.

4/10/13: Bad cough due to Sinus that may have an mon. infection. Ironic, I have never had A problem with my Sinus until the problem developed in my mouth (teeth/Dr. J. Johnson). It has occurred in my mind the reality of what is happening. I am black, And each Dental Doctor that is involved is white with an All white Staff. This is Fact.

4/13/13 - For the last couple of days I have been Thurs. Monitoring my mouth AS to what hurts And to its degree of pain. My gums hurts all the time, except most of the time the level of pain is low. I have problems with brushing considering the gaps.

4-13-13 cont

I have headaches most of the time, and fear is a common sense whenever I think about my mouth. My ear/right, aches sporadically as to me Rleye. I feel that I will have problems for the rest of my life when it comes to pain.

4/14/13 - This A.M., I woke up feeling better than Fri; days past. No significant pain except for the daily pain in the gum which is minimum. Other than what is written, I O.K. — Dr. Reed 9:00am

4/15/13: Had an appt., yesterday with Dr. Reed, my SAT: primary Care Doctor at 9:00am. I was delighted to hear results. It has been quite a while since all results was positive (good). My diabetes (glucose, Bp, Cholesterol, etc.), rated good. My eating has changed due to pains in the face.

4/14/13: Happy Father's Day. My day began nicely, no Sun; (Viable) pain to write about. Weather is great.

4-17-13: Today is a different day compared to yesterday. Mon. I have a (slight) headache, with my R/ear Aching. The pain is not harsh, but noticeable.

4/18/13: It really has been 'trying times' with pains, Tues. feelings (body + mind), for extremities of what happened to me --- (mouth). There were times I felt as though I wasn't going to make it, but God pulled me through. Today, at least this A.M., I have "

- 4/18/13: Cowit
 Tues: no pain and hope I continue to feel the same.
 speak throughout this day and time to come. My gums
 to ~~matter~~ are another problem. They are painful and refuse
 to heal. They are soft and tender, which I feel
 they are going to remain this way due to diabetes.
- 4-19-13: Day is pleasant, Gums are inflamed. Sore
 wed: and raw, but all other pains are minimal.
- 4-20-13: no pains to write about except for my gums.
 Thurs: I'm having the same feelings like yesterday
 otherwise I'm feeling O.K.
- 4-21-13: welcome Summer: I feel the same as
 Fri; yesterday. Will call Atty Matthews upon request
 today.
- 4-22-13: Gums are tender and sore as if they are
 Sat: inflamed. The problem has been hurtful to
 touch outer lip around area of Surg. Diabetes
 is a culprit to this non-healing process,
 Nevertheless, it is something I have and
 would never say I don't have it. I am tired
 of pain, regardless.
- 4-23-13: Happy B-day Larry!!! #45. This morning
 Sun: is no different than yesterday.
- 4/24/13; The realization is, 'this is how I'm going
 Mon: to be, pain in the gum, occasional pain in
 the other extremities of the face, (R eye, R ear,
 R nostril, R side of neck and shoulder. Pressing
 on the lip, R side - #7 & #8, have not heal, how-
 ever what I'm feeling is there is an indentation
 in the gum, so when I touch it the lip sinks
 farther into the mouth.

6/25/13: The days are now the same. For the
Tues: Last month, there is no major pain, ex-
cept for the gum, making the days the same
6-26-13: no change in mouth from yesterday.
Wed: when there is change I will write about it.

6-27-13: no change in how I feel from the mouth.
Thurs. what I noticed, my gums are flat in the
area of surgeries. Normally the gum is puffed
and round, however my gums have flattened
from the cuts. Today, I pray for a good day.

6-7-1-13: For the last 3 days, I wrote nothing a-
bout how I feel concerning the issue of my
mouth. There was no change, same as to-
day. I do have a small bit of tingling in my
R Arm, hand (etc.), nothing major. It has
taken me a long time to get to this point.
I feel a lot different from the start of
this travesty.

7/2/13: Today is no different than yesterday
Tues. except (except), my gum is very sore and
tender ~~making~~ ^{causing} ~~it to~~ ^{ache} ~~through~~ ^{out} the day.
I called Becky (Atty Matthews) she wasn't
in nor did she return my phone call. It
has been a week today since I spoke
w/ Atty: Matthews.

7/7/13: Well, the last wk, I have been tested by
~~some~~ faith. I don't feel as though I will get no
better than where I am at this

Cont

7/7/13
time with my mouth. I'm not suffering, it's just aggravating. The insyncresides that I have are permanent. I'm glad the major pains have left me.

7/10/13: I don't write every day anymore, due to the fact Thurs. there is no change in how I feel from what happened with my mouth. It shows a sign of how I am as being permanent. The soreness & tenderness of the gum is permanent. The problems with the R eye, R side of neck, arm + hand, plus the R nostril R ear, etc. does not feel as bad. However, on occasion problems flair-up in areas mentioned. I pray that I continue to get better. I know now for sure, I have developed a fear of Dentist.

7/13/13: No change for the last few days, but the gum Sat. is more painful this morning. Tender to the touch even with the tongue. No severe pain any where about the face but you can feel something. The ears, esp. the R ear is clogged as if I need to shake it. Otherwise I'm O.K.

7/14/13: There is no difference this morning than Sun; yesterday, except the gum is very tender and sore. I can't touch with my tongue.

7/15/13: There is no change this morning. Mon.

7/16/13: No change, nothing is changing for me, Tues except soreness has become a norm. I'm sure most of the soreness is from Diabetes and the

Cont

7/14/13 error in so many surgeries in the same
Tues: AREA.

7/17/13 - No major problem, however I'm having prob-
lem with dripping (sinus), which I never
had this problem until I had surg., in my
mouth. This has been going on (dripping) for the
last 4 or 5, days. No pain other than the gum.

7-18-13: When I touch my Gums in the area where
Thurs. surg. was done, the gums feels like jelly, and
they are soft, very sore & tender. No other prob-
lems to write about, even though they (problems) are
there.

7-19-13: No problems greater than yesterday. As a matter
Fri; of fact, my mouth don't feel as bad. It's still sore
but not as tender today. All else is the same.

7/20/13 - pleasant, but not great. No pains to write A-
Sat: bout, however still having problems, especially
with my gums. Otherwise I'm O.K. It is written
ed, "Time is the healer of all things," so true. I am
A living example of that, however time does not
heal all things.

7/23/13: There's no change from days past with the
Tues. condition of my mouth. I have no greater pains
in the extrimities of my face, however I still
feel some pain, just minor. I spoke w/Becky (Ally Mat
Healy's Asst.), for a short moment.

7/24/13: This morning my gums are very sore
Wed; mainly because I put my hand over my
mouth and the pain burst into tenderness.

cont

7/24/13: I'm not having problems with pain
wed: that of recognized to see, but the gum is
not cheating at all. Otherwise, I'm O. K.

7/25/13 - No change in what is happening with me
Thurs: my gums are sore & tender, especially when I
press against them.

7/27/13: I wake up most mornings with minor pains, and
sat. This morning is no different. I pray and hope that
I can return to the way I felt before all the
extrimities of surgeries in my mouth, due to care-
lessness. I hope & pray that I wake up, just to
wake up free from any un-normal feel.

Sun: The same as yesterday.
7/28/13

7/29/13: I have not heard from Atty: Matthews since
mon. I like this case. I'm beginning to think ~~it~~
he's in co-acts with these boys from the STAT,
because they all know each other. I spoke to
Atty Matthews today approx. 3:28 PM. What I found
out is the statute of limitations runs out in
3 yrs., and he has yet to file with the courts.
I'm angry, because I've been lead-on by this Atty;
for over 2 yrs. The good-old boys network is not
going to work, I will file myself with the courts.
I called 2 other Attorneys who refuse to answer
Any ?'s, because I am represent by Atty: Matthews.
I never gave his (Matthew) name. The fact is, he's
an Attorney, and it's against ethics for another Atty.

7/30/13^{Cont} - I wake up early, not because of pain but what I wrote about suspicions concerning the conversation I had yesterday with Atty. Matthews. It is very hard for me to believe the idea that Atty. Matthews would jeopardize his practice. I just can't and won't believe otherwise. The only problem I have is soreness in the gum, along with much tenderness. This has been for a long while now and it does not appear as if it is going to change.

8-2-13 - Days passed and there is no difference in my Fri; mouth where surg. were performed. However, the more I think about the conversation that Atty. Matthews & I had over the telephone, I'm being deprived of my rights, Constitution & Civil. Example, If I was the dentist and I performed like Joel Johnson, wouldn't he sue me? These Dental professionals have conspired to deny me a right that I am entitled to simply because I'm female and black. The 1st mistake was performed by Dr. Joel Johnson who fracture the bones in my mouth. 2nd the Dentist who diagnosis the problem. When I contacted an Attorney, this same Doctor advise me against it. Dr. McKi performed numerous surgeries and to no avail or to this day I still don't have what was pd. for. Still having painful symptoms I was sent to (Dental) Gillispie for treatment of tooth #8, however when treatment was completed the pain in the gum was just like it was when I was told I had a fracture. I asked Dr. Gillispie, did you treat me knowing that the bone was fracture. The tooth he treated had to be remove because the problem

8-2-13 Cont

Fri; was the same as in #7. These 3 Doctors are friends who will like for one another. Since I'm black and female, 'who's going to believe her?' Dates speak for itself. Between the Doctors, I was given Antibiotics, pain med, etc., both pharmacy + given by the doctors which I kept all the bottles. I kept the card sent to me by mail, telling me how kind I was. In light of this there is much validity to confirm conspiracy to deny me my rights.

8-6-13 - Time has passed, and there is no change in Tues! my mouth or face. However, I am to meet w/ Atty Matthews Thurs., 8/8/13 to find out exactly his intent. Nothing has happened within the last 2 yrs. of him even filing this case. Why??? It is as if he's trying to discourage me, which is really hard for me to believe. There is enough evidence for this case, having lots of merit to back it up. A Prima Facial Case does exist.

8-7-13 - I am praying that the severe pain remains Wed: non-existent. I've come to the conclusion that my gums will never heal. It's been 2 yrs, 4 mos.

Cont

8-8-13 - Today I feel the same like the past few days, wks, this month, there is no difference. I meet with Atty. Matthews today, hoping he gives me something to lean on. He has showed me negativity from this case. Maybe, because he knows one of them, I don't know. It is time for him to act.

8/9/13: Went to Atty. Matthews yesterday. After our Fri. conversation he said, "I don't think you will be happy with me." It was 12:03pm I was released from him as my Atty. I could now seek an Atty. elsewhere. I called Attorney Dessas. Spoke with Terry his legal assistant. She would have him call me later. I called back around 2:40pm and asked, about whether this would interfere or be conflict of interest since he was representing my mother. Only he could answer that, and he would call me later today or tomorrow. As for this a.m., I feel the same, however, it is apparent that the gums will not heal, they are still tender & sore.

8-11-13 - Today is no different in how I feel in the sun, mouth. The top gum is tender & sore. Yesterday was the same. It is still painful to press, on the inside of the mouth, or the outside.

8/14/13 - Last week got off with rough edges as for wed, this case. As of ~~Wed~~ ^(last w) I was released as a client w/ Atty. Matthews. I had wonder, not be-cause of pain, but fear that shouldn't have never arise about my mouth. However, the discussion I had with my mother on Sunday granted me a

8-14-13 Don't
Wed: New look about everything that was said. On Monday:
I did what my mother said, I asked 'Ken' to re-
consider, and he did. My mouth is the same, no
major pain, but lots of tenderness/soreness on the
top gum. Otherwise all else is O.K.

8-20-13: A week has passed since I spoke with Atty.
Tue Matthews about my case. 'Give me 2 wks', quoted
by him to file with courts - expert is reading,
you have to pay an expert. . . Case + point. I am
having the feel now like the past few months, no
change.

8-21-13 - I keep thinking, 'we're all entitled to make
Wed: mistakes', however this mistake took so much
from me. No viable pain of notice except for
the upper gum, (Arens: 7+8) sore + tender. Mother's
days was yesterday.

8-24-13: It is ~~inconceivable~~ inconceivable for me to
believe what I was told by Atty. Matthews. The
bottom line is, no medical Doctor or medical
Dentist that is license to practice medical
procedures has the right to make any patient
suffer with pain, and deprive them of what
they pd. for, destroying beauty features. ~~causes~~
causing harm to their personal well being.
It is called Mal-practice (medical), no other
name need to be added. Today, I'm O.K. Two
wks has passed since I spoke with Matthews
asking him to reconsider. No response yet.

26-13 CONT

8-28-13: his findings. I'm still waiting to be contacted

8-28-13: I feel no pain physically. I feel pain

used: physiologically, ugly, after looking at myself
real hard in the mirror. No one has the
right to make another person look like this.
No Dentist has the right to make a per-
son suffer like I did, and sometimes still
do.

8-30-13: I'm feeling torn about this case. I like my Atty.
Fri; however, I feel he's between a rock + a hard place
to be, considering he knows these (Doctors-Dental)
boys. I feel he (Atty: Matthews), know at least
one. I feel that this makes him too close to
the case making his interest in handling the
case-negatively. What I do know is 'Ignorance
of the Law' is not a good enough reason to
just wait until time runs out, when there's so
many lawyers you can talk to. I've been told
negative feedback when I did talk to Atty:
Matthews, and he's never contacted me on
his own ~~verbal~~ accord concerning this case.
I like to know the truth.

8-31-13: Something is not sitting well in my thoughts.
I know it could be 'Conflict of Interest', with
Atty: Matthews, I just can't get out of my head
what was said to me by Atty: Matthews, "I

8-31-13

Sat. might not have a case, I can't see where they did anything wrong." It is inconceivable, I had so much pain, infection, that I thought I was going to die, and yet my atty., don't see anything wrong with that. ... Why??? I was swollen so bad I almost lost my sight, hearing, and I now have a problem with sinus. My top gum is still sore from cut after cut. Why?

9/2/13: no change in my gum (upper), still sore & tender. As for my case, I put it in the hands of the Lord.

9-6-13: Today, we have exactly 7 mos. to file papers with the Courts, showing cause of mal-practice.

Fri: 9:00 AM I spoke with Atty: Matthews, asking what he heard, one way or the other, referring to those who read all the statements and documents from all medical personnel involved in this case. Atty Matthews replied, "I have to call them with a follow-up", then we talked about what I was doing + Larry (my husband). I'm not having any loud pain anymore, just soreness + tenderness in the top gum, where surg. was performed 11 times. The gums won't heal.

9-15-13: It has been 9 days since I wrote, there is nothing to write about. However, this morning I feel rejuvenated, no pressure, no pain anywhere. My body is well rested. My mouth is still tender + sore

Cont

9-15-13 - from surgeries, but I'm learning how to ignore pain in
Sun, my mouth. I also learned a little more about the law & this
case, nothing bad. Later in the day, I went to
sit w/ mother like I normally do. I began to read
the paper, and to my surprise there was a large
item concerning lawyers who steal from their
clients in the state of S.C. I had put my mind to
rest but this article made me wonder for a short
while. The need for an attorney to steal, however,
it does happen. I was determined to call
Atty; Matthews Monday.

9-19-13: Monday came, I called Atty Matthews, he was
Thurs. very busy, because no one had showed-up.
He was doing it all. We talked, I called back
later and spoke w/ Becky. We talked about the
article in the paper. Time began to pass but
the thought had been planted in my mind to won-
der about me & Matthews. No viable pain to speak
or write about but the thought lingered. I look in
the mirror and see the ugliest mouth and there
is no way I don't have a case. Every-day I
try and think the best.

9-23-13 - no noticeable pain to write about. Just
Mon; thoughts on what was said. It is so much
news about theft, I hope I'm not being
the fool. I must check. I don't have a
case #, never been contacted, or heard

9-23-13 Con't

mon; Any mention, except 'I might not have a case', this has resonated in my ear. Other wise I feel the same what I am noticing, I don't get bills any more from Dr. Greg Mc-Kenzie.

9-24-13: I spoke with Becky (Matthews), Tues. + ^{Thurs.} ~~mon~~ ^{owed} to her that Atty Matthews needed to contact me & say something. Later that day he did, saying he would call me the next day after speaking to a gentleman about my case. I really don't understand why he's procrastinating. -- The next day I called back because his word is not his bond. I called another firm (Law), no response from them. Today, I heard from the firm, but not Atty. Matthews. It is best I leave everyone alone and wait. People are pressuring me, but that is something I must learn to overlook. No pain, but sookeness.

9-28-13: Yesterday I awoke feeling fresh about all sat; that has transpired about this case and my Atty. I realized that I was putting pressure on myself, because of those that know about me & this case was pressuring me so they could get me to help them. It may be too late for me, with Atty. Matthew. Still, I realized what is happening. I have made up in my mind to leave him be, let him contact me -- within the next 3 mos., leaving me 3 mos. to file. If there is no case -- as an Atty. it is his duty to

Cont.

9-28-13 SAT. Contact me. What I really began to understand is the type of attorney he is, and the severity of what he do. I am ashamed of how I let others pressured me. I have no pain, but what I notice due to the change in the A.M., weather, I'm getting a numb feeling like before in areas connected to my mouth.

9-30-13: For the last few days I have awake feeling re-mot., fresh & rejuvenated about Atty. Matthews & my case, I don't understand why. All I know is that I prayed to Jesus, I'm feeling joyous. I called Atty. Matthews office at 8:30am and spoke to Becky. I told her that I loved them all, thanking them, telling her that I would be calling for 2 or 3 months. I also told her that the damage nerves are back in action.

10-4-13 - Except for the mornings, I feel fine throughout Fri; the day. The early mornings I feel as if my sinus is running, squirmish/shaky, or nervous with a twitching reaction to parts of my head & pain, due to the change in weather... nerve damage. As for the past few days I am showing no difference in how I feel in the mornings.

10-10-13: The last few days never changed in my mouth Thurs. but today, early A.M., I felt the nagging pain from empty area's 7 & 8, as if an infection was rising in the gum. My R eye is aching, with my R nostril feeling as if it wants to bleed. My gum (top), never healed, and it has been soft since the surgeries.

10-12-13 SAT. woke-up with pain in the gums, however I know the problem may be stemming from my diabetes. The

10-12-13

Sat. is not healing well because of my diabetes. The problems started when I started having or I should say when I had worked done in my mouth and the fractures / surgeries too many times, the mouth won't heal, so my diabetes escalates into high sugar in the mouth. This is the only way I can explain it, why I ache so bad.

10-22-13 - It ~~has~~ has been over a wk, since I last wrote notes about my mouth, that is because there is nothing new to write about. The gum is still tender and sore, when cold weather flake I feel a numbness in parts of the facial extremities + pain. I have resided to the fact that this is how I will be, though 'I pray not.' Otherwise I'm O.K.

11/4/13 Oct. 28, 13, was last that I called Atty. Matthews and spoke to Becky. It was more of fun than the case. Being that it had been awhile since I had last call, I want to know whether they were missing me, (smile). As for the next few days the facial area is beginning to have the same problems it had last year in winter. The sinus, some infection, etc. As for this a.m., no change appearing from the past weeks, esp; the sinus.

11/7/13: Today I began to notice that I can brush my re-
Thurs; maining teeth without complications of rubbing the gums, whereas they get sore. The problems that I have are the same problems I had last year, mainly due to weather (cold).

11/12/13: my gums has yet to heal, however I do believe
Tues: that this is the permanent solution to what happened and what I have went thru. The continuation of ext. problems that will prevail due to weather.

Cont

11/12/13: I got a call at 9:42^{pm} mother passed away. Her
NO last breath was 9:35^{pm} due to complications she
sustained at Magnolia Manor, (injuries).

11-25-13: This Am, I have an appt. w/ Atty Matthews
Monday at 11:00 am. I had appt. for Thurs, but it
was canceled to today. As for my mouth, I'm
biting my lip all the time. Headaches, ear
Rheye, R/nostriL, & gums reacts to cold weather, like
a bad sinus. I am sixty (60) years of age and I
never had a problem with my sinus until what
happened to me in April-2011. I have constantly
thought about how ~~fast~~ ^{long} my mother suffered before
her demise from earth from complications of what
happened to her. I can't shake it out of my mind.

12-11-13 - I no longer write everyday but I still write.
Wed: For the past few wks. I have been experiencing
pain in my R/nostriL as if its the sinus. Pain
in the gum where surgeries were perform, and I
now have a dark spot in that area. I'm not heal-
ing like I want to.

12-24-13: Happy holidays!!! I feel as if the infection
Tues: is back and has been back for quite a while.
It is a feeling that is not normal, having pains
and aches as if there is tightness in the
facial muscles.

12-25-13: Merry X-mas.
Wed:

12-31-13: Goodbye year 2013, hello new year 2014. There
is no difference in facial tensions, except I
fell that the severity of it all, its getting worst
Especially, the ears and the Rheye. The gum is swollen

Jan 1, 2014; Happy New Year. I'm having problems.
Wed. Sleeping due to pain. I am afraid of
Doctors.

Jan 17, 2014: I woke with more pain, like the infect-
Fri; ion is spreading over the face. I have a
Doctor's Appt, this morning with Dr. Kneese.
I will mention it to him. My skin feels as
if its strecting in the R/eye, headaches,
R/nostril hurts like crazy. Same problems.

Jan 22, 14: I went to my appt. w/ Dr. Kneese, in
Thurs; Middleburg and to my surprise I like the
New Doctor. I told him about the problems I
was having w/ my R/foot, my L/leg, RSD, and
A few other problems that jarred at the time.
Dr. Kneese gave me a once over, including
A PAP smear. It appeared as if all things
are good. The Doctor gave me a prescription
for medicine to clear-up the infection I
had in my gums, however, since I started
taking the medicine, as of today I feel
no pain in my mouth or anywhere else.
I recieved a call to go for a colonoscopy, order-
ed by this Doctor. He is theral.

Feb. 21-14 - It has been over a month since I last wrote
Fri; in this journal. Some days are worst than
others. Pain is an existing factor in my life.
The month past was a continuing factor for
facial pain, with infections. My nose (sinus),

Cont

Feb. 21, 14, will never stop hurting, as well with the R/eye + R/ear. Today, I feel somewhat better, not by much in degree, but not as bad as the last month.

March 6, 14. It has been almost 3 yrs., lacking 1 mo. to Thurs. the day of the beginning of the atrocity of my

mouth. What is AMAZING is, there's no change in the pain that I'm experiencing. It is to the assumption, this is how I will be!! Some days of pain, and infections. I have suffered and will continue to do so from the cranial nerves steaming from the mouth. I know I'm going to die from these pains, aches, and conditions that was caused by Dr. Joel Johnson's hand. Dr. Gregg McKenzie and Dr. Gillispie, contributed to my death.

March 11, 14 - It is getting worry-some not hearing anything Tues; from Atty: Matthews. This A.M., I called and spoke with Atty: Matthews. I asked point blank "What is happening with my case?" He replied, "nothing." He said he had someone looking at it, but they had to have surgery not giving him an answer to their findings. "I stated that the statute of limitations is near" and I wanted to know have he in anyway settle this case without me." He said "no." Other words were said between the both of us, but he said that he'll let me know this wk., I mention the fact of arbitration, still his word was he'll let me know. I will never heal, that I know.

March 17, 14 - This Am; I'm going to Atty. Math mon; take these final notes, because of the dr

3-17-14

mat, that began this atrocity of pain that I continue to have, along with infections, R eye blinking, R ear sounds, etc. I am at a point noticing there will never be a change from pains from the mouth that developed into facial / cranial damages. This is a story of truth !!!

3-21-14: I had an appointment with ~~Dr~~ Atty Matthews, Fri, who made a decision to release me.

Medical Notes

CASE # 2014 CP 400 2507

* May 31, 2014: my pains never changed for the best, but Saturday: increased noticeably in the face. However, I must go backwards from the last date I wrote notes, which was Friday, March 21, 2014, whereas I had an appointment with Attorney Kenneth Mathews who had made a decision to release me. I could not understand why he waited 3 yrs, to release me just before the deadline of my having to file with the courts. His claim was, he could not find any Doctor that could find anything done wrong from what they had written up in their notes on me. I immediately went to the courts and

~~filed on~~ March 22, 14, having being dismissed by my atty; I immediately began to look for an attorney and a Doctor who would examine me, on their own accord and informed me differently from what was written. I went to the library and started searching the web. I got a lot of lawyers and doctors off the internet. I went home check off a list of Attorney's and doctor's who may comply with true facts of what is wrong with me.

March 23, 14: Pains went no where, except my sinus Sunday: escalated with pain in the R eye, R ear and R nostril, that burned in side like heat. Still, I checked over and over the list I had gotten off the internet and became eager to

Cont:

March 23.14: Contact these individuals Monday
Sunday:

3/24/14; no change in medical. However, I knew that Monday: it wasn't normal for anyone to have pains this long. As time continued this morning I began to call attorneys, none would take the case, it was too late in the game to get started. With my case, especially since it had already been with an attorney. I reflected on what Ken Matthews (Attg) told me on the day he released me. "He would make sure that I had all the necessary forms to file 10 days before the deadline."

I remember thinking he wasn't (wasn't), going to do that. I began to look harder for both, in & out of the State of S.C., to no avail, no help. I became more determined to get relief and satisfaction from the courts, because Dr. Joel Johnson was and showed himself as an arrogant piece of dentist who could not be touched since his friends helped or thought they were helping by doing surgery on me to cover-up the evidence. Dr. Greg McKenzie and Dr. Gillispie. Here I am in pain on a constant daily activity and they are making my health worse without care.

3/25/14: I did nothing but go to the libraries and
Tues;

Cont.

3/25/14; Pains persisted, not seeking any medical
Tues attention, because I wanted to make sure

these Doctor's did not get away (go-free), with what they
done to me. I thought long and hard, asking myself
was it because I was black or was it because I ^{Am} ~~was~~
a black female. I kept calling around, to Dentist
in the state (S.C.), but out of town. I began to
call dental offices in Charleston, S.C., suddenly
when one of the office that I called referred me
to J. ^{Edward T. Murphy} ~~Darnton Keith~~, D.M.D., at Periodontal Associates,
L.L.C. in Charleston on 3/30/14. A letter was
written to me on April 1, 2014, thanking me for my
business.. My appointment was scheduled for
4/16/2014, at 3:00 pm with Edward T. Murphy, D.M.D.,
I was excited to know what is wrong with me
finally. Still having pain and signs of infection just
like I felt before with infection. However, as
the past I still looked for Doctors and Lawyers
on the internet. Un

~~4/11/14; I called Attorney Matthews and informed
his office that I was go~~

4/16/14; I awoke early, prepared to go to Charles-
Wed, ton. I arrived early, so we (husband), left
and came back closer to my time to be there.
What I discovered that at that time he couldn't
find anything wrong but may find it later.

Cont:

4/14/14: I found his findings very odd, but he
Wed, suggested that I see a Neurologist. My ? was
why? He suggested Dr. Bumgartner, M.D. of
Charleston, S.C., However, a different Doctor
was later assigned for me to see. I ~~went to~~
~~my appointment and was seen by a doctor~~
~~named~~ However, Dr. Murphy took measurements
of my gums in height, they are too high.

4/17/14: I came back home from Charleston, Calling
Thurs; Attorney Matthews office, telling him what
the doctor had found, suggesting that I really
needed to see a neurologist. He sounded as if
it was shocking to him. "No other Doctor can
state a fact from what is written by the Doctor
(friends/associates) who I am seeing. It's just is
not logical for a doctor to say otherwise."

4-18-14: Pain persist. I just waited to go to my Appt.
Fri; to the neurologist.

5/1/14: no change for the better. Headaches
Sat. worse, R. nostril feels like a burning sensa-
tion, traveling to the eye, across the face
to the ear. Harder for me to see at times
and definitely harder for me to hear out of
the ear sometimes. All in all, some days
are better than others.

5/2/14 my symptoms never change, except for the
Sun. worst. Infections come + go. I gargle with warm
water most of the time.

Cont

5-13-14: The day was here, I felt that being out of Tues. the Columbia Area + NO pressure I can finally find out what is wrong with me. I went to

Charleston to the Neurology Clinic L.L.P., I saw Dr. Hamid R. Bahadori. After I informed him of the symptoms I was having, he did quite a few test And told me that I have Trigeminal Neuralgia, & nerve damage in the face from broken (fracture) bone in the face. I ask him would he put that in writing. He wrote 3 prescriptions, 1. medication, 2. ENT (doctor for Pain), 3. A MRI - to see how severe the damage for Trigeminal Neuralgia - at the bottom of the prescription. I was glad to know what is wrong with me.

MAY 17/14 SAT. I went back to Charleston for the MRI that showed infection +

I'm waiting to go to the ENT in Charleston for further treatment. I am taking the medication *Barbital for my pain + ailment. Going backward, on April 17, 2014, I went to Attorney Mathews office and got the forms to file suit against Dr. Joel Johnson, who initiated this whole mess. I immediately went to the courts and filed on that same day.

MAY 18, 14: Larry's (husband) Cancer is back, I'm running sun. back and forth with him. Pain with still exist refuse to quit. I will suffer for the rest of my life, I know. The medicine helps a little.

Cont

May 27, 14: Larry's cyst in the back had enlarged,
Tues. bursting w/ infection / blood seeping out of
his skin, I took him to the emergency rm.
at the V.A. Hosp., so that he could get medical
attention that he needed. While I was at
the V.A., I used the library / computer. I
wrote an addition to what I gave the Courts,
just in that order. I didn't address the
paper directly to my case no., but I did
address it to the Courts. After leaving
the V.A., I immediately took it to the
Courts. I guess people there thought I
was crazy handing them such a letter
even knowing my case #, but I did not
go home, I just went straight to the Courts,
after hearing Larry needs surgery and I
have an appt. for my health on June 5/14.
Stress, building-up. We went back to the
V.A., on Friday, 5/30/14, surgery is
scheduled.

6/1/14: I woke-up with pain like no other. I'm
still taking the medicine, but it feels
as if the infection is moving across the
face to the left side of my face + deep into
the center of my nose / brain.

Cont
Sun; This is what they done to me.
6-1/14: Yesterday 5/31/14, I received a

— response in the mail to Dr. Joel Johnson, 'this case is frivolous.' Look at my mouth, is it frivolous? or is it fact?

June 2, 14: I woke with minor pain, not as prevalent to ~~mouth~~; yesterday observance. Still pain exist. It is hard for me to believe that a person who knows what happened to me think it is frivolous.

June 3, 14: Pain very mild this morning, taking meds ~~thru~~ ~~Tues~~ as prescribed. Have just minor pain in Rear + Nostril, otherwise I'm O.K. Atty. Matthews did not return the call.

June 4, 14: I Awoke this morning pretty much with the ~~wed~~; same feelings (sensations) as yesterday. This is how I will be. Tomorrow, I go to ENT dr. in Goose Creek, S.C.

June 5th 14 I went to my appointment, not noticing it was not to ENT, but for Eye. Retina's are good. Face had completely swollen on the left jaw area with little swelling on the right. In any case I was having a bad reaction to medicine prescribed. It was the right medicine for the problem, just a bad reaction to ingredients in medicine. I discontinued yesterday June 4, 14.

6/7/14: Face swells, gets smaller then back to swollen ~~Sat~~. (Large) ^{Frame} fromes on the right, Nostril burns leading to slight pain in Eye. Amazing, the Rear

can't

6/7/14; does not ache but do have a small a-sat; mount of swelling.

6/25/14; It has been a while since I last wrote wed. my daily activity of pains. However, there is little difference since I started treatment 6/18/14. There was one day 6/20/14, that I was completely relieved of pain, any pain. Tomorrow 6/26/14, I go back to Charleston, S.C. for general cleaning. I am afraid to go to my dental (doctor) in the Columbia area because of the band to lie.

6/28/14 - Pain is inevitable, this is why Doctors say it sat, is a 'Chronic' disease. This morning, and the last few days - past - is no different. I was suppose to go to Charleston last week (6/24/14), and didn't due to pain. The infection is back. For the last three months I have traveled back and forth to Charleston, my body is tired. I'm going to relax (try), today. Go no where or do nothing.

6/30/14 - Taking the Gabapentin^{medication} somehow eases the pain mon; that is shooting off from the nerve. I asked myself, do I have to take this medication for the rest of my life? However, this a.m., I feel fine at this moment. This is now my life, a life of pain because of my mouth. I feel that my life has been shorten from this nerve damage, because of the infections that come & go in the head, brain, eyes, ears, etc.
