Julia Fludd v. Angela Dingle

Appellate case No. 2015-002021

I Julia Fludd again do not want this case ever dismiss i will always ask for continues because of the following reason i keep reading my transcript over and over and see that all of the defendants has lied. I was not going to bother the Dingles family, but Vivian Alston come on my property and bother me first with a lot of what people are saying what i did. I am to forward and to professional to listen to and low lifed woman who neglect and abuse thier father. I am not a violent person ,but the law say you can not come on other people property and start cursing, plus she could have got hurt, but i am not a violent person..never was ,what she said to me was very negative and not professional so i asked her to leave i have did so much for her father why she came on my property and telling me what people say. The neighbors and nobody in the community and her family members have NEVER did what i done. I know one day that the anger and jealousy conspiracy and old grudge would have come out of all those girls system because its in the family genes . She and her sister Angela Dingle violate the 10th commandment they commit adultry, not me. The oldest sister and her husband Laverne Capers and Harold Capers are very conseited in this case i did most of my investigation and being very smart woman and observe alot of things they think that i dont know about but God give me this gift no one can take it away ever. When this incident happen i went to take some pictures of my neighbor property Angela Dingle assault me and knock the camera out of my hand, Laverne Capers called the police but i told her not to call the police because they said i tresspassed honest to God I will never do that, So i left and called the police and told the police to go down there and tell them to send my camera that Angela Dingle assault out of my hand. The police came back and said all three girls said i did not have a camera. My neighbor Breggett and family is on that photo, my girlfriend Breggett is in my will for my three great grandchildren. I will be sending more imformation on this case because i have all the opputunity to do so ,Please dont try to dismiss it you all think you low lifed me disrespect me for no reason, you dont stop a person to stop helping a elderly person who were nobody there at the time but me always remember this think ,think and think before you say something and come on people property and use profanity words. Reminder that judge Geoffrey Young knew i was telling the truth thats why he dismiss it with pregudise because that was not his case in his court room that's why he put it in my transcript to take it to a higher court and i did. Couple more things Angela Dingle said when her mother was living i came to the house and said bad things about her father i have nerver been to Jessie Sr. house while ^{she} he was living thats a lie. Remember i want yall to remember lie is purgering, it carries up to five years and all them lied on the transcript. All of the people that i subpoena did not come. why? Conspiracy even i know you talked to Heidi M. Warren MA. from mental health post office man your cousin peggy she refuse the subpeona and the wrong police officer remember when someone calls somebody to your house it is a report sled investigator in columbia is waiting on me DSS in columbia lienutenant office the governor Haley office they all are very proud of me because the abuse and neglect on elder and children was going on a very long time and im here to stop some of it and tell my story. All these people names that i mentioned is my social worker. Angela please find the paperwork that you sent to the court before the hearing because they dont have it, Vivian i want you to tell the judge what you know about me i told the jury i went to jail for my son and my daughter who was on drugs and lied and she was living with a register sex offender if i wanted to exspondged all of these things off my record i can do so but i didnt do so let them do it i will show the the court where i have exspondged two crimes off somebody record that they did not do it true i've helped people all over the world witness will be their to speak for me. Angela you asked me if i took my medicine after the coat on june the 22th (smiled) no because the metal health lady Heidi M. Warren was not there to give it to me. Thank you very much i will have more imformantion later it will be sent to the court.
