Mrs. Garrison refuses to check her work, attached is one of the complaints that's recent. She has issues as a court reporter and it's costing people hardships in their cases. Something needs to be done. The court transcripts she sent me was so wrong and when Judge Nicholson was speaking to me, she has Ann Nicholson name and it should have Sebrina Walker. Her work is not on point and accurate, there are multiple complaints and she is still working as a court reporter, something needs to be done, Mrs. Garrison is getting away with too much. Cases that need further review and or need to be reopened, will not be because of her so call court room reporting. It's not right and it is not fair by the courts of law to have transcripts that is not the full truth of a hearing, and or court room sessions. There is a whole paragraph missing from the transcript she sent me. What else can you do if she refuses to correct her issues or share the audio recordings. If she is so correct, the audio would clear up everything. But she won't because she knows she is wrong.

Beware of the court reporter Debra Garrison. She falsified my court transcript and can falsify yours, too.

Here is the front and the last pages of a transcript of the pre-scheduling conference in my disciplinary proceeding that was held on January 12, 2015, as well as the "Exhibits" page.

The front page of the transcript shows that court reporter Debra Garrison took the record and calls it mysteriously "proceeding of Tatiana Neroni" instead of a "pre-trial scheduling conference".
