CERTIFICATE OF COUNSEL.....7527

2061 Highway 52
Moncks Corner, SC 29461

September 10, 2008

Mr. David L. Dunlap
President & CEO
Roper St. Francis Healthcare
125 Doughty Street Ste. 760
Charleston, SC 29403

Mr. Dunlap,

I am a family practice physician in Moncks Corner and I am writing in support of a new Roper St. Francis Hospital in Goose Creek. Berkeley is ranked as one of the top 10 counties in the state for population and yet it still does not have a hospital.

I believe Roper St. Francis would be a good fit for our community. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles Bounds".

Charles Bounds, M.D.
Berkeley Family Practice

Mr. David L. Dunlap
President & CEO
Roper St. Francis Healthcare
125 Doughty Street Ste. 760
Charleston, SC 29403

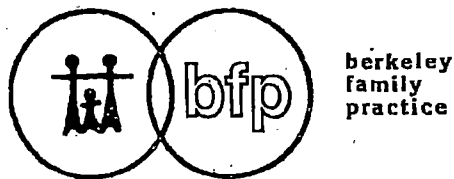

Mr. Dunlap,

I am a physician with Berkeley Family Practice and I am in support of a new Roper St. Francis hospital in Goose Creek. As communities grow, so too should healthcare facilities to support them. Roper St. Francis has a reputation for providing quality care and I believe they will be a good fit for the Berkeley community.

Sincerely,

Jeff Santi, M.D.
Berkeley Family Practice

125 Doughty Street Ste. 760
Charleston, SC 29403

Mr. Dunlap,

I am family physician practicing in Moncks Corner and I am writing to express my support for the new Roper St. Francis hospital in Goose Creek. I know that the Roper St. Francis system is committed to providing high quality care at all of its facilities. The addition of this hospital will give the people of Berkeley County a choice in where they receive their care.

Thank you for your kind consideration.

Sincerely,

Jeremy Ackermann, D.O.

September 12, 2008

Mr. David L. Dunlap, President and CEO
Roper/St. Francis Healthcare
125 Doughty St.
Charleston, SC 29403

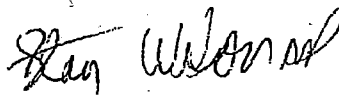

Dear Mr. Dunlap:

I would like to write in support of the important efforts of the Roper/St. Francis Healthcare System to expand its services to support citizens in Berkeley County. The growth progressions in that area are impressive and there is certainly a need which I believe Roper/St. Francis Healthcare should attempt to support.

Our mission as a not-for-profit healthcare system will be of significant benefit to the citizens of Berkeley County and I certainly agree that we should support this. I was surprised to read that there will be more than 100,000 residents near the Carnes Crossroad area where the proposed hospital would be built.

If there is anything that I can do to help in the further support of this project, please let me know.

Sincerely,

Stanley M. Wilson, M.D., F.A.C.S.

September 08, 2008

David L. Dunlap, President and CEO
Roper St. Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear David:

I am writing to strongly support the Certificate of Need for the Roper St. Francis Hospital-Berkeley.

As Director of the Roper St. Francis Heart and Vascular Center, I understand the need to provide this type of service in an area that is growing rapidly. Many of the new residents of Berkeley County are in the age group where heart and vascular problems will occur. Having a center of excellence in that area will provide the type of prompt initial evaluation that is necessary to save lives and limbs. With our intention to have our system connected by rapid transport, the hospital in Berkeley County would allow for us to assess patients with serious heart and vascular problems and move them quickly to the Roper St. Francis Heart and Vascular Center if they need this level of sophisticated care.

If we are putting "patients first", the addition of the Roper St. Francis-Berkeley Hospital makes a lot of sense, and it certainly receives my strong endorsement.

Best regards,

A handwritten signature in cursive script, appearing to read "Jeb".

WEST ASHLEY FAMILY MEDICINE

1483 Tobias Gadson Blvd Suite 107
Charleston, SC 29407

South Carolina Department of Health and Environmental Control

September 12, 2008

Dear Sir/Maam:

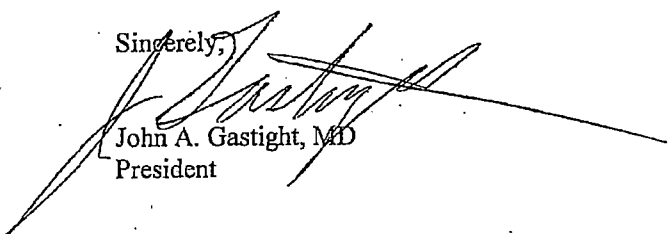

I am writing in support of Roper St. Francis Hospital's application to build a new full service hospital in Berkley County.

West Ashley Family Medicine is a five Physician Primary Care Practice with four Family Physicians and One Internist. While we are located in the West Ashley area of Charleston County we are convenient to Berkley County patients due to our proximity to I 526 and I 26. We in fact have a large number of patients from Berkley County and a number of them are active duty and retired military since we accept their insurance. All of our Physicians are on staff at Roper St Francis and refer to the Specialists on the staff.

It would be greatly beneficial to our patients to have Roper St Francis with a hospital in Berkley County. It would benefit them when emergency care is needed and also would be helpful for elective admissions and outpatient procedures. Since we are on staff of Roper St Francis it would facilitate communication of test results, emergency room visits and hospitalization discharge summaries.

Roper St Francis has a long history of providing excellent medical care which the patients in Berkley County will appreciate. Please give favorable consideration to the hospital's request.

Sincerely,

John A. Gastight, MD
President

RE: Proposed Roper St. Francis Hospital -- Berkeley

To Whom It May Concern:

I am writing in support of allowing construction of Roper Saint Francis Hospital Berkeley at Carnes Crossroads.

I believe it goes without saying that construction of this facility would be of unimaginable benefit to the members of the growing population in this area on a numbers basis alone. The burgeoning population in Berkeley County literally cries out for construction of this facility. Literally tens of thousands of Berkeley County residents already utilize Roper Saint Francis facilities for every component of their healthcare needs, and locating a new facility in this area will serve to make the lives of residents there safer and happier.

The unique perspective I can provide as a physician stems from the fact that I see a great number of Berkeley County residents as patients in my primary care practice. This is despite the fact that my office is in Charleston County and a good distance away from Berkeley County. The fact is that the care provided by the Roper Saint Francis system of hospitals and ancillary services is of such high quality and reputation in the Lowcountry that people will literally venture hours out of their way to obtain their care from RSF facilities and physicians. Therefore, construction of this hospital will allow RSF to much more efficiently serve the needs of the good people of Berkeley County.

Thanks for your consideration.

Sincerely,

R. Stewart Eads, Jr., M.D.

RE: CON Application for 50 Bed Hospital at Goose Creek, SC

Dear Mr. Dunlap:

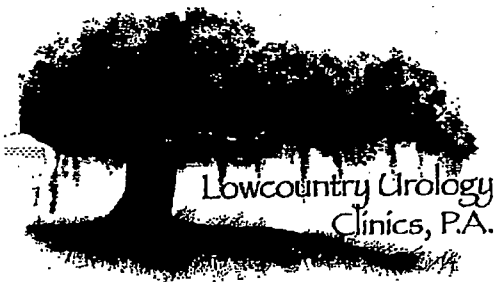

Please accept this letter in support of your CON application for a 50 bed hospital in Goose Creek, SC. This area is experiencing considerable growth, and it is abundantly clear that the citizens of Berkeley County need a small community hospital in this growth area.

As a practicing physician in the North area of Charleston County, I have witnessed firsthand the explosive commercial and residential growth in this area. I believe this CON should be approved by SC DHEC. I will be happy to provide additional support if requested.

Sincerely,

Salvatore A. Moscatello

Charleston, SC 29403

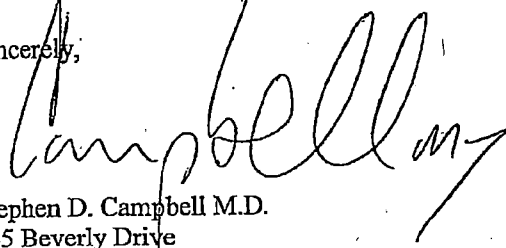

Dear Mr. Dunlap:

As a physician working in our Roper St. Francis Medical Center – Berkeley in Moncks Corner, I am writing today in support of the proposed Roper St. Francis hospital to be located at Carnes Crossroads in Berkeley County. A region undergoing tremendous growth with ever expanding needs for quality health care. I know the area residents will benefit greatly from this new facility.

By locating this new, not-for-profit hospital in Berkeley County, residents will have state-of-the-art care much closer to home. While the Moncks Corner facility offers exceptional care, it is clear that a full service hospital is needed.

I look forward to practicing in the new facility.

Roper St. Francis Healthcare
125 Doughty Street, Suite 760
Charleston, SC 29403

Dear Mr. Dunlap,

I am a member of the medical community in Charleston and am writing to you in full support of the proposed Roper St. Francis Hospital – Berkeley. As the most populated area in Berkeley County, Goose Creek desperately needs a full-service hospital that can serve the healthcare needs of its growing population. Roper Hospital in downtown Charleston and Bon Secours St. Francis Hospital in West Ashley have done an excellent job serving the needs of residents in those communities for many years. Now it is time for the residents of Goose Creek and the surrounding area to receive the same high quality healthcare in their community.

Thank you for your time and consideration.

Sincerely,

Jennifer Nelson, DO

Dear Mr. Dunlap,

I am physician with the Carolina Center of Gynecologic Oncology and have practiced in the Charleston area for many years. I would like to express my support for a new Roper St. Francis hospital in Goose Creek.

Berkeley County is the ninth largest county in the state and one of only five counties without a hospital. As a community's population grows, the healthcare facilities in the area should too.

Roper St. Francis has a reputation for providing quality care and I believe they will be a perfect fit for the Berkeley community.

Sincerely,

Ward A. Katsanis, MD
Carolina Center of Gynecologic Oncology

Dear Mr. Dunlap,

I support the building of a Roper St. Francis hospital in Goose Creek for Berkeley County. Goose Creek is the most populated city in Berkeley County and the ninth largest county in the state of South Carolina. With your long tradition of serving Berkeley County, you will give the county one more choice of quality healthcare without having to drive to downtown Charleston

Thanks for your consideration,

Michael A. Sagatelian, MD

Dear Mr. Dunlap,

As a physician with a practice in Berkeley County, I fully support the construction of a new Roper St. Francis Healthcare hospital to be built in Goose Creek.

The proposed facility will provide several services that are currently not available in the area. In addition, Berkeley County has a large and growing population and no hospital close to home. The proposed hospital would be a huge benefit to the surrounding community.

I appreciate your consideration on this matter.

Sincerely,

Aaron B. Domm, MD

Dear Mr. Dunlap,

I am a physician with practices in Charleston, Dorchester and Berkeley Counties and I am writing to express my support for a Roper St. Francis hospital in Goose Creek.

Berkeley County is seeing tremendous growth and can support the addition of another healthcare facility. More than 25,000 Berkeley County residents are using Roper St. Francis facilities. By locating a new hospital in Goose Creek, residents will have the option for quality care much closer to home. Berkeley County residents deserve to have a community hospital.

Thank you for your consideration.

Best regards,

James W. Schnell, MD

Dear Mr. Dunlap,

I have practiced family medicine on James Island for 22 years and my practice, James Island Medical Care, has been affiliated with Roper St. Francis Healthcare (formerly Roper CareAlliance) since 1994. I fully support the construction of the new Roper St. Francis Hospital – Berkeley.

Roper St. Francis Healthcare has a long-standing history of providing quality healthcare to residents in the Lowcountry. As the ninth largest county in the state with a burgeoning population in excess of 155,000, Berkeley County is in great need of a state-of-the-art, not for profit hospital facility to serve the medical needs of the residents in the surrounding community.

Sincerely,

Milton Costa, MD

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

I would like to express my support for a new hospital to be built in Berkeley County. One of South Carolina's largest counties and there is not a full service hospital in the entire county. There is a large and fast growing population in Berkeley County and there is no healthcare close to them. Young families and elderly that all need quality, low cost services within a reasonable driving distance of where they live.

Please consider this important project, Thank you.

Sincerely,

C. Willy Schwenzfeier, MD, F.A.C.S.
Charleston Ear, Nose and Throat Associates

Roper St. Francis Healthcare
125 Doughty Street
Suite 760
Charleston, SC 29403

Dear Mr. Dunlap,

I have been an ENT in Charleston for many years and I am writing in support of a new Roper St. Francis Hospital in Goose Creek. Berkeley County is ranked as having one of the fastest growing populations in the state and yet still does not have a hospital. A Roper St. Francis Hospital would give patients and residents an additional choice for receiving affordable healthcare in their community.

I believe the Roper St. Francis family would be a good fit for Berkeley County. Thank you for your consideration.

Sincerely,

Michael C. Noone, MD
Charleston Ear, Nose, and Throat Associates

000515

September 15, 2008

David Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street #760
Charleston, SC 29403

Dear Mr. Dunlap:

As a practicing surgeon in the Charleston area I have seen a growing and aging population that could benefit from a new hospital in the Goose Creek area. Roper would help to bring quality care to the people in Berkeley County and a more affordable choice.

Thank you for considering this project.

Sincerely,

Samuel Hazell, MD

Dear Mr. Dunlap,

I am an obstetrician and gynecologist at Carolina OB/GYN. I wanted to take this time to let you know that I fully support the plans to build the Roper St. Francis Hospital – Berkeley near the Carnes Crossroads development. I understand that Berkeley County is one of only five counties in South Carolina without a hospital, despite the fact that it is the ninth largest county in the state. The need is great, and I think the solution to build a high-quality Roper St. Francis facility is a good one for the residents in this area.

Sincerely,

Dahlmon Smoak, MD

125 Doughty Street, Suite 760
Charleston, SC 29403

Dear Mr. Dunlap,

As an obstetrician and gynecologist at Carolina OB/GYN, I am writing to you in full support of the proposed Roper St. Francis Hospital – Berkeley. The large population of women in the Berkeley County area (including members of the military and wives of those currently serving on active duty) must have a state-of-the-art, quality hospital close to home where they can deliver their babies without having to travel to Charleston. A new RSF Hospital in Goose Creek is a great solution to this need.

I appreciate your consideration on this matter.

Sincerely,

Bertram Finch, MD
Carolina OB/GYN

Dear Mr. Dunlap,

I am a member of the medical community in Charleston and am writing to you in full support of the proposed Roper St. Francis Hospital – Berkeley. As the most populated area in Berkeley County, Goose Creek desperately needs a full-service hospital that can serve the healthcare needs of its growing population. Roper Hospital in downtown Charleston and Bon Secours St. Francis Hospital in West Ashley have done an excellent job serving the needs of residents in those communities for many years. Now it is time for the residents of Goose Creek and the surrounding area to receive the same high quality healthcare in their community.

Thank you for your time and consideration.

Sincerely,

C. Edward Huggins

Charleston, SC 29403

Dear Mr. Dunlap,

I am a member of the medical community in Charleston and am writing to you in full support of the proposed Roper St. Francis Hospital - Berkeley. As the most populated area in Berkeley County, Goose Creek desperately needs a full-service hospital that can serve the healthcare needs of its growing population. Roper Hospital in downtown Charleston and Bon Secours St. Francis Hospital in West Ashley have done an excellent job serving the needs of residents in those communities for many years. Now it is time for the residents of Goose Creek and the surrounding area to receive the same high quality healthcare in their community.

Sincerely,

Carlyle Barfield, MD

Dear Mr. Dunlap,

I am a rheumatologist practicing in West Ashley. I wanted to take this time to let you know that I fully support the plans to build the Roper St. Francis Hospital -- Berkeley near the Carnes Crossroads development. I understand that Berkeley County is one of only five counties in South Carolina without a hospital, despite the fact that it is the ninth largest county in the state. The need is great, and I think the solution to build a high-quality Roper St. Francis facility is a good one for the residents in this area.

Sincerely,

Alan Nussbaum, MD

Dear Mr. Dunlap,

I am a family practice physician with an office in Mt. Pleasant, and am writing in support of a new Roper St. Francis Hospital in the rapidly growing Berkeley County/Goose Creek area.

As a regional leader in healthcare, Roper has a longstanding reputation for reaching out and meeting the community's needs. As one of only five counties in the state without a hospital, and one of the fastest growing areas, Berkeley County deserves quality healthcare from Roper St. Francis.

Thank you for considering this letter of support.

Dear David:

I am excited about the opportunity presented to Roper St. Francis to establish a hospital in Berkeley County. The population in this area is obviously growing rapidly and it is undoubtedly underserved with respect to local medical care. The opportunity for a not-for-profit hospital certainly, I feel, would benefit present and prospective patients. In addition, the transfer of existing beds from Roper's downtown facility will not create unnecessary beds in the Tri-County area. I hope we will be able to proceed with this in a timely fashion.

Sincerely,

Victor J. Weinstein, M.D.

Charleston, SC 29403

Dear Mr. Dunlap:

I am writing in support of the new, full-service hospital, Roper St. Francis Hospital-Berkeley, to serve the healthcare needs of Berkeley County. As a resident of Berkeley County since the age of seven (24 years), I have witnessed first hand the incredible growth that this area has seen. I believe that a new hospital will be vital to ensuring that the population of Berkeley County, which includes myself and my family, has access to excellent healthcare. While we are very grateful to have Roper Berkeley and Roper Northwoods Emergency Facilities close by in the case of an emergency, the ability to meet all of our healthcare needs closer to home will be greatly appreciated. As a nine year employee of Roper St. Francis Healthcare, I have also witnessed first hand the excellence in patient care that is RSFH. Many, many residents of Berkeley county travel to Roper or St. Francis Hospitals on a daily basis because they desire the top of the line care and facilities that RSFH offers. To extend this excellent organization's services in Berkeley County in a new full-service hospital is strongly supported by this Berkeley County resident.

Thank you for this wonderful opportunity,

Tanya Lott, RN-BC, MSN

Charleston, SC 29403

Dear Mr. Dunlap,

This is a letter in support of Roper Saint Francis Healthcare's intent to build a full service hospital in Berkeley County at the Carnes Crossroads intersection. As a long time resident of Charleston and a long time employee of Roper Saint Francis Healthcare, I appreciate the importance of providing healthcare close to the population we serve. I understand that Berkeley County is one of only 5 counties in our state that do not have a hospital to serve them. With the rapid population growth in this area and the expected continued growth, I believe the population of this community deserves to have available local health care.

As the only not for profit local healthcare system, I believe that Roper Saint Francis Healthcare would be perfectly positioned to serve the growing community in Berkeley County. Our organization can draw upon its experience, its resources, and its mission in order to provide state of the art care in an effective and efficient manner. Please accept my letter of support for this very worthwhile endeavor for the citizens of Berkeley County.

125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

As a Roper St. Francis Healthcare employee who lives in Holly Hill near Berkeley County, I am writing today to offer my wholehearted support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

I support this endeavor because I know that Roper St. Francis Healthcare is indeed the best place to work as well as the best place to receive healthcare. I have referred friends, family, and neighbors as far as Orangeburg County to a Roper St. Francis facility.

This new, not-for-profit hospital in Berkeley County is needed for this area as well as surrounding areas. More than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007. This is an important fact when regarding not just the need for a new hospital but for a Roper St. Francis hospital that provides excellent care to patients, excellent jobs for staff, and excellent service for doctors.

We provide excellent care to our patients and anyone living in or near Berkeley County will benefit from a new Roper St. Francis facility closer to home.

Sincerely,

Kelly Boyd, BS, RN, CGRN

Charleston, SC 29403

Dear Mr. Dunlap,

As a member of the Nursing profession who works at Roper Hospital, I am writing today to offer my strong support for a Roper St. Francis hospital in Goose Creek. With more than 25,800 Berkeley County residents coming to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization, it is evident that services we provide are necessary and would serve the citizens of Berkeley County more effectively if located closer to their homes. By locating a new, not-for-profit hospital at Carnes Crossroads, these residents will have state-of-the-art care brought to them rather than having to make the travels to our current facilities. This is truly an opportunity for RSFH to reach further into the community, bringing excellent health care closer to the homes of those in Berkeley County where friends and families are more immediately available. It is one more demonstration of how we truly live by our mission of healing ALL people with compassion, faith, and excellence and do it in such a fashion that is least disruptive to the lives of our patients and their loved ones.

President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

I am writing you today to offer my strong support for Roper St. Francis Healthcare to have a hospital facility in Berkeley County. As the Director of Home Care Services, I strongly see the need for a hospital facility in this area to provide residents with convenient and rapid access to quality medical care.

In 2007, Roper St. Francis Home Health furnished 497 Berkeley County residents with home care services. This was a 44% growth rate from the prior year, which reinforces the imperative need of the residents of Berkeley County to have access to a local hospital facility.

More than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization. By locating a new, not-for-profit hospital at Carnes Crossroads, these residents will have state-of-the-art care much closer to home.

Berkeley County is one of only five counties in South Carolina without a hospital facility, yet it is the ninth largest county in this state. Roper St. Francis has a proud and long-standing tradition of providing for the healthcare needs of Berkeley County, and should have the opportunity to move this tradition to a convenient location for those residents.

September 9, 2008

Mr. David Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap,

I am writing this letter in support of the new hospital, Roper St. Francis Hospital – Berkeley. As a resident of Crowfield Plantation in Goose Creek and an employee of Roper St. Francis Healthcare, I am excited about the new hospital for many reasons.

As you may know, Northwood Assembly Church and Northwood Academy will be relocating to the Carnes area within the next two years. I have been an active member of the church for over 12 years. The location of both the church and hospital will be within a 10-minute drive from my home, and many of our church members will be relocating to this area soon. I am very excited about the opportunity that the church will have in providing ministry to Berkeley County residents. Having a hospital located in this area will greatly impact the quality of life of area residents.

It is important that a convenient location for quality healthcare is available to residents of Carnes, as in other areas of the Lowcountry. As a hospital employee, I realize the need for a facility in Berkeley County that offers both inpatient and outpatient care. Offering the variety of services that this hospital will provide will greatly meet the needs of area residents. Roper St. Francis Healthcare's reputation in the community will continue by having another facility in which to receive compassionate and excellent care.

I look forward to the day that this new hospital opens, and that we will be able to provide the best of care in a state-of-the-art facility. Berkeley County residents deserve this choice and opportunity, and to include the hospital in the foundation of residential and commercial development is an important part of establishing this new community. I am excited about the possibility of living, worshipping, and working in the Carnes area and watching the community grow, thanks to institutions that care enough to take an active role in ensuring this community's success!

Sincerely,

Starla Spade, RNC, IBCLC

Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

As a Registered nurse who works at St. Francis and someone routinely cares for patients from Berkeley County, I am writing today to offer my strong support for a Roper St. Francis hospital in Goose Creek.

More than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization. By locating a new, not-for-profit hospital at Carnes Crossroads, these residents will have state-of-the-art care much closer to home.

Sincerely,

Ginger Ballentine, BSN, RNC-OB

Charleston, SC 29403

Dear Mr. Dunlap,

As a Roper St. Francis Healthcare employee who lives in Dorchester County, I am writing today to offer my wholehearted support for the new Roper St. Francis Hospital planned for Carnes Crossroads in Goose Creek, Berkley County.

Berkley County is the ninth largest in the state and the population is expected to grow 7.8 percent in the next five years. Plus, it is one of only five counties in the state currently without a hospital.

A Roper St. Francis facility would give me along with my family, friends and neighbors, as well as my patients a convenient choice for receiving quality healthcare closer to home,

Sincerely,

Linda Will, RN

October 1, 2008

Mr. David Dunlap
President and CEO
Roper Saint Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap,

This is a letter in support of Roper Saint Francis Healthcare's intent to build a full service hospital in Berkeley County at the Carnes Crossroads intersection. As a long time resident of Summerville and a long time employee of Roper Saint Francis Healthcare, I appreciate the importance of providing healthcare close to the population we serve. I am excited that Roper Saint Francis Healthcare will have representation in Berkeley County. With the rapid population growth in this area and the expected continued growth, I believe the population of this community deserves to have the best available local health care.

I believe that Roper Saint Francis Healthcare would be positioned to serve the growing community in Berkeley County. Our organization can draw upon its experience, its resources, and its mission in order to provide state of the art care in an effective and efficient manner. Please accept my letter of support for this very worthwhile endeavor for the citizens of Berkeley County.

Sincerely,

Tally Ann Smyth, RN

Mr. Joel Grice, Director
Bureau of Health Facilities and Services Development
SC DHEC
2600 Bull Street
Columbia, SC 29201

Dear Mr. Grice:

I would like to lend my full support for Roper St. Francis Healthcare's CON application to construct a new 50-bed hospital to be located in Berkeley County at Carnes Crossroads.

This hospital would be a vital addition to address the healthcare issues and needs for this area of our state with a population of 104,370 within a 7-mile radius and which is expected to grow by 7.8 percent in the next few years and is critical for quality healthcare for our citizens.

In the very near future the hospital will bring 500 jobs with a payroll of \$28 million to the area. This facility will also bring other services and facilities located in close proximity to accommodate the needs of the hospital.

I believe this Certificate of Need is absolutely essential to meet the growing population in Berkeley County for compassionate, quality healthcare.

Please feel free to contact me should I be able to provide further information.

Sincerely,

Joe Daning

Dear Mr. David Dunlap:

It has been brought to my attention that a 50-bed hospital is being proposed and recommended for construction in the town of Moncks Corner, S.C. I would welcome this thought with hopes of it becoming a reality. So many people realize that timing is of the essence, especially when faced with emergencies such as: caring for the elderly, appendicitis, stroke, heart attack, snakebite, gunshot wound, and the list goes on and on.

To have access to this kind of medical facility would go a long way in preventing premature deaths. I applaud the Roper/St. Francis Hospital Organization for making such a bold move. You can certainly count on my support in making this facility a reality.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Joe Jefferson", written over the typed name.

CHARLESTON COUNTY COUNCIL
LONNIE HAMILTON, III PUBLIC SERVICES BUILDING
4045 BRIDGE VIEW DRIVE
CHARLESTON, SOUTH CAROLINA
29405-7464
October 7, 2008

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap:

I have recently been informed that Roper Saint Francis Healthcare has recently submitted a Certificate of Need to build a new, full-service hospital to serve the healthcare needs of Berkeley County.

Berkeley County is one of only five counties in South Carolina without a hospital, despite its population size in excess of 155,000 and ranking as the ninth largest county in the state. In addition, the population of Berkeley County is projected to grow 7.8 percent in the next five years.

I understand that the proposed hospital site is to be at the intersection of US Highway 17A and SC Highway 176, also known as Carnes Crossroads. Carnes Crossroads is an emerging population center in Berkeley County with more than 104,370 residents within a 7-mile radius of the proposed hospital site.

In 2007, more than 25,800 Berkeley County residents came to a Roper-Saint Francis facility for outpatient surgery, emergency care, or inpatient hospitalization. By locating a new, not-for-profit hospital in Berkeley County, residents will have state-of-the-art care much closer to home as well as a convenient choice. With its long tradition of serving Berkeley County residents with existing facilities in Moncks Corner and Goose Creek, and its reputation of providing quality healthcare, a new Roper Saint Francis hospital with the proposed scope of services would simply be a good fit for the area.

Thank you for the opportunity to express my support for this project. If I can be of any further help in your application process, please do not hesitate to contact me.

Sincerely

A handwritten signature in dark ink, appearing to read "Timothy E. Scott".

Timothy E. Scott

September 30, 2008

Mr. David Dunlap, CEO
Roper St. Francis Healthcare
325 Calhoun Street
Charleston, SC 29401

Dear Mr. Dunlap,

Please forward this note to the South Carolina Department of Health and Environmental Control as an addendum to your request for a permit to build and operate a hospital in the City of Goose Creek.

On behalf of the people of the City of Goose Creek, I remind the permitting officials that the City is the largest city in Berkeley County and the eleventh most populated municipality in South Carolina, but currently the citizens must travel into a neighboring county for hospital care.

Roper St. Francis Healthcare wishes to erect a hospital at Carnes Crossroads, an emerging residential and commercial center destined to be one of the busiest in the Tri-County Area. This ideal location in the City of Goose Creek, will bring convenient health services to the fastest growing sector in South Carolina, as well as create jobs and opportunities.

I hope that the South Carolina Department of Health and Environmental Control will take all of these factors under consideration.

Sincerely,

Michael J. Heitzler Ed.D.

Mr. David Dunlap, CEO
Roper St. Francis Healthcare
325 Calhoun Street
Charleston, SC 29401

Dear Mr. Dunlap,

I wanted to thank you and your team at Roper St. Francis Healthcare for your intent to erect a hospital at the Carnes Crossroads development in Goose Creek. I fully support this endeavor and would appreciate if you would include this letter to the South Carolina Department of Health and Environmental Control to be included in your documentation as you request a permit to build and operate a hospital in the City of Goose Creek.

With a population of 36,466, Goose Creek is the 10th largest city in our state. Currently, the citizen's of Goose Creek have to travel, not only outside our City but outside of Berkeley County to receive the medical care that your hospital will provide. This requires extensive time travel and very well may result in critical care being delayed as a result.

If you would need anything further from me, please do not hesitate to ask and would appreciate if you would keep me informed while you continue to work through the permitting process with the South Carolina Department of Health and Environmental Control.

Sincerely,

Jerry Tekac
Goose Creek Council Member

HARVEY BECKER
CHIEF OF POLICE

September 30, 2008

Mr. David Dunlap, CEO
Roper St. Francis Healthcare
325 Calhoun Street
Charleston, SC 29401

Dear Mr. Dunlap:

Please allow this letter to serve as an indication of my full support and endorsement of the proposed hospital to be located at Carnes Crossroads at the intersection of Highway 17-A and US Highway 176 within the jurisdiction of the City of Goose Creek.

Goose Creek with a 2006 population of 34,000 is the largest municipality in Berkeley County, while Berkeley County with a 2007 population of 155,009 is the ninth largest county in South Carolina.

The Goose Creek Police Department employs sixty-four (64) police officers; in 2009 it will employ sixty-five (65) officers. There are direct benefits to the Goose Creek Police Department having a hospital with 24-hour emergency care services in its jurisdiction. First and foremost would be the rapidly available treatment of on-duty police officers who suffer on the job injuries and secondly for treatment of persons in police custody who require medical attention prior to incarceration.

I wish you good success in your endeavor of bringing this proposed hospital to reality. In my view it would be vitally significant to the Goose Creek Police Department.

Sincerely,

Harvey Becker
Chief of Police

September 24, 2008

Mr. David L. Dunlap
President & CEO, Roper St. Francis Healthcare
125 Doughty St.
Charleston, SC 29403

Dear Mr. Dunlap:

As Mayor of Jamestown, I am fully supportive of Roper St. Francis submission of a certificate of need application for the construction of a new 50 bed hospital to be located at Carnes Crossroads, South Carolina. This is good news for Berkeley County.

Roper St. Francis has proven to be a reliable, caring, capable asset to our growing community and the proposed hospital would satisfy a critical need.

With the substantial development of residential communities in progress, as well as the rapidly growing population of the tri-county area of Berkeley, Charleston and Dorchester Counties, convenient access to health care services will become more and more difficult due to increased traffic and congested roads.

Therefore, I strongly encourage the Department of Health and Environmental control to give a favorable decision to Roper St. Francis Healthcare application to establish a new hospital in Berkeley County at Carnes Crossroads, South Carolina.

Sincerely,

ROY P. PIPKIN
Mayor

Re: New 'Proposed' Hospital for Carnes Crossroads

Dear Mr. Dunlap:

As a Director on the Roper St. Francis Medical Center Berkeley Advisory Board, I feel compelled to write you in support of the proposed hospital for the Berkeley County area in Carnes Crossroads. As you know, Berkeley is the ninth largest county and still growing. The projected growth in the next five (5) years is expected to reach almost 8% during this period. The most tragic of all statistics is that Berkeley is one of five (5) counties without a hospital.

Carnes Crossroads is a fast-growing center area expected to receive the most growth in this five (5) year period; currently 104,370 residents are within a 7-mile radius of the proposed hospital site. Due to this growth probability, the transfer of fifty (50) beds from the downtown facility would help redistribute hospital beds to better serve population centers within the greater low country area.

The convenience of having a facility of this caliber closer to home will serve the residence of Berkeley County as well as surrounding areas such as eastern Dorchester County faster - saving lives and lowering transportation costs to everyone. More than 25,800 Berkeley County residents came to a Roper St. Francis facility during 2007 for various needs; my family included.

We love the convenience of the medical center/emergency room facility in Moncks Corner that serves the town as well as the farther reaches of our large county. This coupled with a 'state of the art' hospital facility would certainly assist with fulfilling the medical needs in our fast growing area. Please register my support as a resident of our county and Director faithfully serving the needs of our residents.

Cordially,

R. Michael Holcombe
Senior Vice President
Regional Executive

Charleston, South Carolina 29403

Dear Mr. Dunlap,

As you are aware, I have served on the Roper Berkeley advisory board for the past several years and have witnessed the dedication and passion the staff at this facility demonstrates on a daily basis. It is because of these personal experiences with Roper that I write this letter of support for the new hospital Roper is proposing for the Carnes Crossroads area.

As President of Home Telephone Company, I have a vested interest in the health and well being of over 165 employees and their families. Most of these employees live and work in Berkeley County and ready access to quality hospital facilities has always been a challenge.

The Carnes Crossroads area is one of the fastest growing regions in the state with new residential developments totaling over 50,000 households currently under construction in addition to a large existing residential base. The new Cane Bay High School has recently open, a new elementary school is currently under construction, and additional schools are planned for this region. Having ready access to quality hospital facilities is imperative to the health and well being of those living, working, attending school in this region.

I applaud Roper's decision to build the new hospital at Carnes Crossroads and I strongly encourage the Department of Health and Environmental Control to make a favorable decision of Roper's Certificate of Need application. If I can be of any assistance during this process, please do not hesitate to contact me.

Sincerely,

William S. Helmly

September 23, 2008

Roper St. Francis Healthcare
Mr. David L. Dunlap
President and CEO
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap,

This letter is to show my support of Roper St. Francis' decision to build a 50 bed facility at the Carnes Cross Roads area of Berkeley County. A hospital in Berkeley County has been a long awaited need. The only hospital located in Berkeley County was closed over twenty five years ago. For years the citizens of Berkeley County have had to travel outside the county for hospital needs. Berkeley County is the ninth largest county and one of five counties without a hospital. It has been a hardship on many of its citizens, especially those who travel from the more rural northern part of the county (over thirty miles) for hospital care. A facility centrally located in the Carnes Cross Roads area of Berkeley County would greatly enhance the medical services of Berkeley County as well as the citizens of Charleston and Dorchester counties near this area.

I am aware of the fact that past studies have shown that our population does not support a full care hospital. However, Berkeley County is rapidly growing, action needs to be taken now in order to meet the county's growing medical needs. Now is the time to act for the future. Roper St. Francis has been providing quality health care services for Berkeley County through its Moncks Corner facility. It is critical to Moncks Corner and Berkeley County that Roper St. Francis provide hospital services for our area as well. The citizens need to have a choice between the medical service providers. Right now our choice is to accept the closest services provided or travel the extra forty plus miles for the desired services of Roper and St. Francis Hospitals. For some this is possible, for many others it is fiscally and physically impossible and they must accept the services of the closest hospital. The citizens of Berkeley County deserve a choice.

On behalf of my family and all of Berkeley County, I would like to thank you and the Officers of Roper St Francis Healthcare for taking this most important step toward providing hospital services to the citizens of Berkeley County.

Sincerely,

Sarah H Steele

Charleston, SC 29403

Dear Mr. Dunlap,

I am writing to voice my support for the new facility planned at the Carnes Crossroads location. I presently serve on the Berkeley County Advisory Board and am also chairman of the Berkeley County Planning Commission. I am also president and owner of Cooper River Construction Company in Moncks Corner.

In the past four years there have been residential developments approved for about 30,000 new residents. The new Cane Bay High School opened this past August and the elementary school is presently under construction with completion scheduled for August 2009.

Serving on the planning commission board and in the construction business, I am obviously aware of the future plans. Berkeley County has approved the development plans for 17 million square feet of industrial growth along I-26 and exit 194. Along with this is a new Spine Road planned from Moncks Corner to Summerville 3 miles north of the proposed hospital location.

As you can see, the projected growth is here and I feel the need for the hospital is fully justified and warranted.

Sincerely,

Edward L. Southard

Mr. Dunlap,

As a life long resident and business owner in Berkeley County, I would like to express my support of Roper's proposed hospital at Carnes Crossroads. With Berkeley County being one of the largest counties in the state and being one of only five counties not to have a hospital, this news was welcome and long overdue. Business leaders have tried for many years to make this a reality. With the recent and proposed growth in Berkeley County, I firmly believe this will be a good fit for Roper's non-for-profit hospital system. The residents of Berkeley County will be the ultimate winners because Roper St. Francis has such a long standing tradition of providing excellent healthcare in this area.

I thank you for your interest in serving Berkeley County. If I may be of assistance in this matter, please feel free to give me a call.

Sincerely,

W. Tony Thomas

Mr. David L. Dunlap
President & CEO
Roper St. Francis Healthcare
125 Doughty St.
Charleston, SC 29403

Dear Mr. Dunlap:

As a member of the board of directors for Roper Berkeley, I strongly support the new 50 bed hospital proposed by Roper St. Francis Healthcare at Carnes Cross Road, South Carolina. Berkeley County is the ninth largest county in the state. In addition, the county population is projected to grow 7.8 percent in the next five years. The entire Tri County area is growing very rapidly, we need our health care needs to keep up with the growth. The citizens of Berkeley County will be at a disadvantage as it pertains to health care if this facility is disapproved. Planning infrastructure needs is the only way that we can insure our citizens will be taken care of and stay up with future growth.

Roper St. Francis is a proven quality health care system and a not for-profit hospital. The new facility will help provide the needed medical services that a growing Berkeley County needs.

I strongly encourage the Department of Health and Environmental Control to give a favorable decision to Roper St. Francis Healthcare's application to establish a new hospital at Carnes Cross Road, South Carolina.

Sincerely

Chris Pipkin

Kunkle & Kunkle

Mr. David Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty St.
Charleston, S.C. 29403

September 24, 2008

Dear Mr. Dunlap,

As a board member and past chairman of Roper St. Francis Berkeley and as President of Drs. Kunkle and Kunkle, DMD, PA, I strongly support the new hospital proposed for the Carnes Crossroads area of Berkeley County.

Berkeley County has been without a local hospital since the closure of its hospital in Moncks Corner years ago and is only one of five counties in South Carolina without a hospital. The projected population growth of 7.8 percent in the next five years, along with the success of the Roper St. Francis Berkeley Emergency Out Patient Facility over the past fifteen years would indicate that a new, state-of-the-art, not-for-profit hospital in Berkeley County would enhance the healthcare of the 104,370 residents within a seven mile radius of the proposed facility.

Roper St. Francis has a proud and long-standing tradition of providing for the healthcare needs of Berkeley County.

Sincerely,

Terry L. Kunkle, Sr. DMD

RECORD 005963

October 1, 2008

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

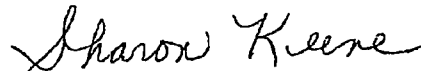

I am a Roper St. Francis Healthcare employee who has lived in Berkeley County for the last 38 years and am presently working at the St. Francis Hospital facility. Even before becoming employed by Roper St. Francis Healthcare, I have preferred this medical facility over all others in the tri-county area. Since becoming an employee, I have been overwhelmed by the care and dedication my fellow coworkers extend toward our patients.

With Berkeley County ranking ninth in the state and on a continuous rise, as well as being one of only five counties in the state without a hospital, I would like to offer my wholehearted support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

Recently, my husband was sent via ambulance to Trident Hospital with severe pneumonia, having to be taken to Trident because of the life threatening nature of his illness and that being the closest hospital. As soon as he was stable, I had him immediately moved to Roper Hospital, but it would have given me so much more peace of mind for him to have had the new proposed hospital available to him. I wish this option strongly for future needs should they arise for my family as well as all Berkeley county residents.

I look forward to the future to the bright prospect of having a Roper St. Francis Healthcare Hospital in Berkeley County.

Sincerely,

Sharon Keene, Radiology transcriptionist
1018 West Recess Road
Hanahan, SC 29410

Dear Mr. Dunlap:

As a Roper St. Francis Healthcare employee who lives in Berkeley County, I am writing today to offer my wholehearted support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

Our county is the ninth largest in the state and the population is expected to grow 7.8 percent in the next five years. Plus, we are one of only five counties in the state currently without a hospital.

A Roper St. Francis facility would give me along with my family, friends and neighbors as well as my patients a convenient choice for receiving quality healthcare closer to home.

Sincerely,

Christina E. Sauls

October 3, 2008

Mr. David Dunlap
Roper St. Francis Healthcare
125 Doughty St. Suite 760
Charleston, SC 29403

Dear Mr. Dunlap:

I was pleased to be part of the presentation on Wednesday for the proposed Roper St. Francis Hospital in Berkeley County (Carnes Crossroad location).

Having worked in Berkeley County and know several, if not many of the residents, and I realized long ago that there is a growing need for a good, compassionate and caring healthcare system to have a significant presence there. Your Outpatient Facility in Moncks Corner has certainly proven that this is the case.

I know this is another big undertaking but feel confident that this is the right step to take to expand in an area whose residents have traveled many miles to receive care at Roper and St. Francis Hospital for years! As one of the counties in our state that is growing rapidly this need will only increase.

I add my prayers and support that this project will succeed at all levels of the long and involved approval process.

God bless you and your staff for this vision.

Sincerely yours,

Sr. Bridget Sullivan, OLM
General Superior

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

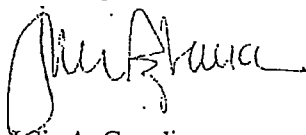

I am writing today in support of the proposed Roper St. Francis hospital to be located at Carnes Crossroads in Berkeley County.

As a long time resident of the tri-county area, I have seen the tremendous growth in Berkeley County. With the population expected to grow at least eight percent over the next five years, the need for a hospital in Berkeley County has never been more important. More than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization.

By locating a new, not-for-profit hospital in Berkeley County, residents will have state-of-the-art care much closer to home as well as a convenient choice. Roper St. Francis has a proud and long-standing tradition of providing for the healthcare needs of Berkeley County, and I'm very glad to be a part of it.

Congratulations on your decision to locate a hospital in Berkeley County!

Sincerely,

Julie A. Graudin

September 26, 2008

Mr. David L. Dunlap, President & CEO
Roper St. Francis Healthcare
125 Doughty Street, Suite 760
Charleston, SC 29403

Dear Mr. Dunlap:

I am writing to express my support for Roper St. Francis Healthcare's Certificate of Need request to build an in-patient facility in the Goose Creek area of Berkeley County. At present, Berkeley County's healthcare needs are underserved as it is one of the few counties in the state without an in-patient facility. Significant population growth projected for the area makes the proposed hospital especially important for the community it will serve.

I appreciate your efforts in attempting to meet a clearly demonstrated need for improved access to care in Berkeley County and wish you well as the project moves forward in the coming years.

Sincerely,

Robert A. Faile III

RE: Roper St. Francis-- Berkeley

Dear Mr. Dunlap:

The purpose of this letter is to express my support for a Roper St. Francis Hospital in Berkeley County.

I have lived in the lowcountry all my life. Berkeley County is one of five counties in South Carolina without a hospital. Many of my friends and relatives have traveled out of the county to seek medical care at a Roper St. Francis facility. The new hospital would help redistribute hospital beds in the lowcountry for more efficient service.

I was born in St. Francis hospital and had several outpatient procedures and hospital stays at Roper. These are long standing, community oriented non-profits that have a tradition of quality health care services.

Roper St. Francis has already been serving the needs of Berkeley County for years, and a new hospital would make that service easier and even more effective.

With kind regards, I am

Sincerely,

Michael A. Molony

Dear Mr. Dunlap,

RE: PROPOSED NEW ROPER ST. FRANCIS HOSPITAL – BERKELEY COUNTY

I am writing in support of the proposed new hospital in Berkeley in my capacity as a Board Member of Roper Hospital, as well as in my personal capacity.

With Berkeley County's significant size and projected growth rate, residents would be well served by having a conveniently located, not-for-profit hospital to address their medical needs. It is my opinion that the medical needs of Berkeley County residents could easily support such a facility. Over 104,000 people live within a 7-mile radius of the proposed Carnes Crossroads location alone.

For these and other reasons, I believe that the addition of a new, state-of-the-art medical facility would be of great benefit to this growing and vibrant community.

Yours truly,

James M. Stelling

October 7, 2008

Mr. David Dunlap, CEO.
Roper St. Francis Healthcare
325 Calhoun Street
Charleston, SC.

Dear Mr. Dunlap,

I am writing on behalf of the support and guidance provided to patients by Roper St. Francis in other areas and a need for Roper St. Francis to establish a hospital in the Goose Creek area. There is one primary point of contact to answer general calls. But medical and benefits field representative and the entire Roper St. Francis Hospital staff also would be available to respond as needed in Goose Creek and surrounding area.

Things change and so must the medical organization. Simply, but we cannot hold on to concepts from a bygone era and expect to survive. This may sound dire but the time for a wake-up call is long overdue. Technology has literally turned society upside down. How we live and communicate

000595

II.

radically different from even a quarter century ago. We must help the medical field provide services. The roads to these centers are getting more congested and the travel distance is greater when the transportation is limited to roads to reach your destination which create barriers throughout every community when your medical facilities are so far spread. We need to start tearing down those walls now as if someone's life depends on a nearby medical facility. The nation and state roads. Just keep clogging up and we must stand up and make things better.

Sincerely,
John B. McLonts
Council member

Date: 25 September 2008

To: David Dunlap, CEO
Roper Saint Francis Healthcare

From: William G. Riley
100 Old Tree Rd.
Goose Creek, S.C 29445

Subj: New Roper Hospital, Berkeley Co.

1. I send this letter to express my excitement that the Roper-Saint Francis Healthcare system has elected to build a hospital here in Berkeley County. Our community is in need of a quality healthcare facility, as you are aware our area has rapidly expanded over the past decade. My family and I utilize the Roper facilities for over eighteen years, this organization has always provided affordable and compassionate health care to us.
2. Our physicians that my family and I have utilize the Roper facilities, which is very convenient for us. I have a daughter with serious health issues, and for the first 8 years of her life we spent many days & nights in the hospital. The nursing staff always made as comfortable and were very supportive to our emotional needs, these same members continue to provide care at your facility. I 'm very concerned that as we age and the only facility available for inpatient care within your network continues to be in the downtown, West Ashley area will be a burden for us.
3. I know that if Roper moves forward to gain approval from DHEC to build this facility, our community in Berkeley County will support the hospital. I currently work as a contract employee with Roper-Berkeley with AlliedBarton Security Services as site supervisor. I along with this facilities staff take pride in providing the best care possible to our patients, and I know if Roper-Saint Francis builds a new hospital this will continue. I wish to thank you and the Roper Saint Francis Healthcare System for their commitment to our community.

Sincerely,
William G. Riley

RE: Support of New Hospital

Dear Mr. Dunlap,

Having served on the Advisory Board at Roper Berkeley for several years, I have had the opportunity to learn about the need for a new hospital in Berkeley County. Many of our employees at Albany International commute from the Goose Creek area as well as Moncks Corner, Summerville, etc. With the population growth in the Goose Creek area, it only makes good business sense to locate a hospital in the Carnes Crossroads area. As I understand there are more than 100,000 residents in a 7-mile radius of the proposed hospital.

Berkeley is the ninth largest county in the state and is projected to grow almost 8 percent in the next five years. Berkeley is one of only five counties without a hospital. I'm sure Roper St. Francis would like to change that while addressing a very real need for the citizens of our county.

By locating a new, not-for-profit hospital in Berkeley County, residents will have state-of-the-art care much closer home as well as a convenient choice. This hospital calls for the transfer of 50 existing beds from Roper's downtown facility and helps redistribute hospital beds to better serve population centers within the greater Charleston area.

Thank you for your support of the citizens of Berkeley County and for your continuing tradition of providing for the healthcare needs of Berkeley County.

Sincerely,

Steve Bolen
Human Resources Manager
Albany International

I think we need a Hospital over in the Berkeley County area. The open fields around Carver Cross Roads would be an ideal place to locate one. The hospital could serve Moncks Corner and parts of the Hally Hill Area and surrounding communities.

**Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
123 Doughty Street
Charleston, S. C. 29403**

Dear David:

Those of us in Berkeley County are very excited about your proposed plans to build a hospital at Carnes Cross Roads. I know that you are aware that Berkeley County is one of 5 counties in the state with no hospital and we have been without a hospital for the past 32 year, as our Berkeley County Hospital closed in 1976. You are aware that our population is approaching 170,000 and the proposed site is in the fastest growing section of our county.

I served as chairman of a blue ribbon countywide committee back in 1990 with the specific purpose of attracting an updated medical facility to Moncks Corner and although the competition was keen the certificate of need was awarded to Roper. Roper has done an outstanding job in answering this call and has provided exceptional services including the much needed emergency room for some time now. Roper has always responded to our needs and we are excited about the proposed hospital becoming a reality. When this becomes a reality your state of the art medical facility will provided health care much closer to our home in a much more convenient location.

Very truly yours,

F. Eugene Williams

Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

As a Biomedical Equipment Technician who works at Roper Hospital, a non-profit institution, and whose efforts support the delivery of healthcare to patients from Berkeley County, I am writing, today, to provide my strongest encouragement and support for the approval of a new Roper St. Francis hospital located in the Carnes Crossroads area of Berkeley County.

Berkeley County has seen and will continue to see tremendous population growth over the coming years and is sorely lacking a fixed medical treatment facility. Thus, it is my opinion that Roper Saint Francis hospitals' patients and area residents will benefit greatly from this new facility. In fact, more than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization, so it is obvious, to me, that there is a enough demand to support a facility in that area. Not to mention, that Berkeley County is one of only five counties in the state currently without a hospital. Please approve Roper Saint Francis Health System's request so that we can treat and heal all people of Berkeley County with compassion, faith, and excellence.

In closing, I will add that Roper St. Francis has a proud history and long-standing tradition of providing the healthcare needs of Berkeley County, and I'm very glad and privileged to be a part of it.

Sincerely,

Vohn G. Busby

Charleston, SC 29403

Dear Mr. Dunlap,

I would like to offer the wholehearted support of my family for the new hospital Roper St. Francis hopes to establish in Berkeley County.

For decades, the Roper St. Francis Healthcare system has been the preferred health care provider for my family. We live in Summerville and have commuted the 25 miles to reach your facilities in Charleston, passing by other healthcare system facilities, to ensure we received the best care in the metropolitan Charleston area.

My husband and I are loyal patients. We have raised our children to recognize the quality of Roper St. Francis and to choose it as their healthcare system. My elderly parents also prefer the state-of-the-art, patient friendly care they receive from your organization. They too, drive considerable distance, passing Trident Hospital, to reach your facilities.

We all excitedly await the establishment of the 50 bed hospital in Berkeley County. This is yet another example of Roper St. Francis' commitment to community and patients. We will appreciate being able to have the quality medical care we are accustomed to in a facility much closer to home.

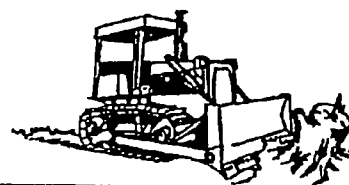

Again, on behalf of all my family, I am enthusiastically expressing my support for Roper St. Francis' proposal to transfer 50 beds from downtown to establish a hospital in Berkeley County.

Sincerely,

September 23, 2008

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap,

I am writing to voice my support for the new facility planned at the Carnes Crossroads location. I presently serve on the Berkeley County Advisory Board and am also chairman of the Berkeley County Planning Commission. I am also president and owner of Cooper River Construction Company in Moncks Corner.

In the past four years there have been residential developments approved for about 30,000 new residents. The new Cane Bay High School opened this past August and the elementary school is presently under construction with completion scheduled for August 2009.

Serving on the planning commission board and in the construction business, I am obviously aware of the future plans. Berkeley County has approved the development plans for 17 million square feet of industrial growth along I-26 and exit 194. Along with this is a new Spine Road planned from Moncks Corner to Summerville 3 miles north of the proposed hospital location.

As you can see, the projected growth is here and I feel the need for the hospital is fully justified and warranted.

Sincerely,

Edward L. Southard

9/18/08

Dear Mr. Dunlap,

I am a long standing resident of Summerville South Carolina. I have resided in this community for 32 years and I have watched it slowly grow. I remember the days of main street when there was no traffic lights and not a building within miles of each other. It has been a booming town along with its surrounding cities which are steadily growing every day. The one thing that has not changed is the availability of preferred healthcare within the area. There is only one hospital in the area and that choice is not the one I would like to take. I have drove 40 minutes in an emergency to seek help at a Roper St. Francis facility in order to avoid the alternative and to seek help in a name I trusted. A facility that could offer surgery, x-ray, CT, mammography, MRI, and an ER would be a welcome and very needed addition to our growing community.

Sincerely,

Guinette Robinson

Regarding: **Roper Saint Francis Hospital in Berkeley County**

Dear Mr. Dunlap,

I have recently re-joined the Roper Saint Francis Healthcare team in July 2008 via the acquisition of Roper West Ashley Surgery Center. I believe for me it was a win-win situation as I have the opportunity to continue to grow in my present role as well as re-align with everyone on the hospital side. I enjoyed working with the hospital staff very much in the past.

The reason for my letter today is related to the your plans for building a full service hospital facility in Berkeley county. I learned of these plans as I was in orientation. I can't tell you how excited I was to hear this news. Rural areas such as Berkeley county are very limited to choices and options when it comes to health care and unfortunately I know this first hand.

On May 9th of this year, my sister-in-law was working but was not feeling well that day. She went home to lay down. When she could not get up the next day, my mother-in-law became very concerned and from Moncks Corner, she drove to the nearest hospital facility. Within 24 hours she had cardiac-arrest, and within 48 hours she passed away from multiple organ failure. I don't want to say anything negative about any other hospital, but the one thing that weighs heavily on every family member's mind is what would have happened if we could have made to Roper that day? Not having that option, we'll never know.

Roper's heart care program is one of the best and I think it is desperately needed for people in Berkeley County. With the new communities and the new school, Cane Bay, opening this year, more people are moving to that area. The need for this facility is now greater than ever.

RE: RSFH Berkeley/Carnes Crossroads Hospital

Dear Mr. Dunlap,

I just wanted to share my experience that I had at the Roper St Francis Hospital in west Ashley. I had surgery in August 2007 my stay there was the best experience I have had at any Hospital. The only thing that was hard was for my family to drive so far to visit me. That's why I am writing this letter because I support the Roper Hospital that is planning to come to the Carnes Crossroad. It would be great medical health care and you don't have to drive so far away. Thanks for taking the time to listen to me. I fully support the Roper Hospital coming to Carnes Crossroad and hope to see it soon.

Sincerely,

Angel & Lisa Martinez

In Re: Roper St. Francis Hospital -- Berkeley/Carnes Crossroads

Dear Mr. Dunlap,

I am writing to express my family's excitement and support for the new Roper St. Francis Hospital at Carnes Crossroads Berkeley County. As a longtime resident of the Berkeley County /Carnes Crossroads area this hospital will be a vital addition with the present and the expected growth for Goose Creek/Carnes Cross roads.

My previous experience at Roper Hospital was excellent and to know that you are building in our area brings excitement. During my stay at Roper it was very difficult for my family to come and visit. Now the residents in Carnes Crossroads will have a choice of location, quality and excellent care with your new hospital. I can't tell you how excited we are to have this not for profit hospital in our area.

As a longtime resident of Berkeley County/Carnes crossroads I fully support and welcome Roper St. Francis Healthcare to our community.

Sincerely,

Billy and Caroleen Varner

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. As you know we do not presently have a hospital in Berkeley County. It would be great to be able to choose where I want to receive medical services closer to home.

Roper St. Francis has a reputation for having great doctors and providing excellent services to its patients. Also, with the population increase that has occurred and that will occur over the next few years, we need a hospital in our county.

As a resident of Goose Creek, I whole-heartedly welcome Roper St. Francis to my community. Please accept this letter as my support for this project.

Sincerely,

Phyllis D. Bar

Dear Mr. Dunlap,

I have learned that Roper St. Francis has plans to build a new hospital in Goose Creek and am writing you to express my support for this project. As a resident of Berkeley County, I am keenly aware of Roper St. Francis' long tradition of providing quality health care through your existing facility in Moncks Corner. By building a hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my neighborhood and will provide residents with an additional choice for receiving health care closer to home.

Charleston, SC 29403

Dear Mr. Dunlap:

I am submitting this letter to formally voice my support for the new not-for-profit hospital that Roper Saint Francis has proposed for Berkeley County. Berkeley County is one of a handful of counties throughout the state that does not have an acute care facility. This is in light of the county's significant geographic size, current population, and population growth forecasts. Clearly, the county is poised for future growth and the growing population needs the services that only an acute care facility can provide. Roper has a long tradition of service to the tri-county area, and I was not surprised to learn that Roper provided service to almost 26,000 residents of Berkeley County in 2007.

In my mind, it is time for the citizens of Berkeley County to have a non-profit hospital to call their own. I am fully supportive of this project and hope you may be able to use this letter to make your case to the South Carolina Department of Health and Environmental Control.

Sincerely,

Jason McKinney

Dear Mr. Dunlap:

I am writing today to offer my utmost support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

With the tremendous growth anticipated for this area, offering the best health care in the region (Roper St. Francis) is paramount to the quality of life that will keep this an attractive place to live. Moreover, with the financial strife currently plaguing our country, improved delivery of health care at reasonable cost should be a top priority for any new community, and I am convinced that Roper St. Francis is the best organization to offer that to the citizens of Berkeley County.

Sincerely,

Peter DiNicola

Associate Superintendent

I have become keenly aware of the many health issues our students and their families have had to overcome. Although health care in our region has improved, I feel we still have an uphill battle. A few years ago I became involved in the Roper St. Francis Healthcare System serving on the Board of Directors at Bons Secours St. Francis Hospital. My experience as a board member has been enlightening. I have been privileged to an "insider view" of a very caring, effective and efficient organization serving the needs of the community. In addition to providing excellent healthcare to its patients, the organization has immersed itself in many community events and functions.

I was excited to hear that Roper St. Francis Healthcare is requesting to build a healthcare facility in Berkeley County. I was surprised to learn that Berkeley County is one of only six counties in our state with out a hospital. As this is fast becoming a growth area in our region, the number of individuals needing health care will increase as the population grows.

I enthusiastically support the Roper St. Francis Healthcare System in their efforts to expand and better meet the needs of this underserved area of our region.

Sincerely,

Director
School Choice, Staff Allocations and Accreditation
Charleston County School District

MR David Dunlap
President And CEO
Roper St Francis Healthcare
125 Doughty St. Ste. 760.
Charleston, SC 29403

Dear MR Dunlap,

AS A ST Francis Healthcare
employee who lives in Berkeley County
I Am writing today to offer my whole hearted
support for the new Roper/St Francis
hospital planned for Carter Crossroads in
Goose Creek.

Our county is the 9th largest in the
state and still growing! Plus, we are
one of the only 5 counties in the state
currently without a hospital.

I was so excited to hear we were potentially
getting a hospital in our county. My husband
has a history of a heart attack & suffers from
John's Disease. If he has a problem, I
want nothing else but the quality of
Roper St Francis. Thank you for
your time to read my letter. Sincerely,
Dana Reid

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is proposing to build a new, full service hospital in Goose Creek. As a resident of Berkeley County, I wholeheartedly welcome these plans for my community.

Currently, there is no hospital in Berkeley County. In addition, we are among one of the largest counties in the state and also one of the fastest growing.

For these reasons, I support your project and feel it will serve a real need for people living and working in my community. Please accept this letter as a show of my strong support for Roper St. Francis Healthcare and your new hospital.

Sincerely,

Jim Scott

President & CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

I understand that Roper St. Francis Healthcare plans to build a new hospital in Goose Creek, and I'm writing you today to express my support for this important project.

As a resident of Berkeley County, I am very aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my community and will provide residents with a convenient choice for receiving health care services closer to home.

Sincerely,

Samantha Wooten

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

It is my understanding that Roper St. Francis is proposing to build a new, full service hospital in Goose Creek. As a resident of Berkeley County, I wholeheartedly welcome these plans for my community.

Currently, there is no hospital in Berkeley County. In addition, we are among one of the largest counties in the state and also one of the fastest growing.

For these reasons, I support your project and feel it will serve a real need for people living and working in my community. Please accept this letter as a show of my strong support for Roper St. Francis Healthcare and your new hospital.

Sincerely,

Homer Young

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. I would like to voice my support for this important project.

As you know, we do not presently have a hospital in Berkeley County. With the population increase that has occurred in recent years and is projected to continue in the future, it has become very clear to me that we need a hospital here in our county.

Roper St. Francis has a reputation for having great doctors and nurses and providing excellent services to its patients. It would be great for me and my family to be able to receive this care closer to home.

Sincerely,

Michael P. Wilkinson

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Sincerely,

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. I would like to voice my support for this important project.

As you know, we do not presently have a hospital in Berkeley County. With the population increase that has occurred in recent years and is projected to continue in the future, it has become very clear to me that we need a hospital here in our county.

Roper St. Francis has a reputation for having great doctors and nurses and providing excellent services to its patients. It would be great for me and my family to be able to receive this care closer to home.

Sincerely,

J CORAL Dn

Dear Mr. Dunlap:

As a local resident, I am writing today to show my support for your plans to build Roper St. Francis Hospital – Berkeley right here in Goose Creek.

Berkeley County is a growing and thriving community, and deserves a full-service hospital. Citizens of Berkeley County should have access to quality healthcare close to home, and I appreciate your efforts to fill this need.

Sincerely,

Amy Bebe

Dear Mr. Dunlap:

I understand that Roper St. Francis Healthcare plans to build a new hospital in Goose Creek, and I'm writing you today to express my support for this important project.

As a resident of Berkeley County, I am very aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my community and will provide residents with a convenient choice for receiving health care services closer to home.

Sincerely,

333 Breckinridge Dr.

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Mr. David L. Dunlap
President & CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is proposing to build a new, full service hospital in Goose Creek. As a resident of Berkeley County, I wholeheartedly welcome these plans for my community.

Currently, there is no hospital in Berkeley County. In addition, we are among one of the largest counties in the state and also one of the fastest growing.

For these reasons, I support your project and feel it will serve a real need for people living and working in my community. Please accept this letter as a show of my strong support for Roper St. Francis Healthcare and your new hospital.

Sincerely,

243 Darcy Avenue
Goose Creek SC 29445

Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. I would like to voice my support for this important project.

As you know, we do not presently have a hospital in Berkeley County. With the population increase that has occurred in recent years and is projected to continue in the future, it has become very clear to me that we need a hospital here in our county.

Roper St. Francis has a reputation for having great doctors and nurses and providing excellent services to its patients. It would be great for me and my family to be able to receive this care closer to home.

Sincerely,

Arthia Palantzas

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Sincerely,

Charleston, SC 29403

Dear Mr. Dunlap:

I understand that Roper St. Francis Healthcare plans to build a new hospital in Goose Creek, and I'm writing you today to express my support for this important project.

As a resident of Berkeley County, I am very aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my community and will provide residents with a convenient choice for receiving health care services closer to home.

Sincerely,

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

As an employee at the Roper St. Francis MedShare located in Moncks Corner and Goose Creek, I am writing today in support of the proposed Roper St. Francis Hospital to be located at Carnes Crossroads in Berkeley County.

Berkeley County has seen and will continue to see tremendous growth, and I know my patients and area residents will benefit greatly from this new facility. In our MedShare offices in Goose Creek and Moncks Corner, there were over 18,000 patient encounters in 2007. In addition, more than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization. By locating a new, not-for-profit hospital in Berkeley County, residents will have state-of-the-art care much closer to home as well as a convenient choice.

Roper St. Francis has a proud and long-standing tradition of providing for the healthcare needs of Berkeley County and I am extremely proud to have been a part of providing care in Berkeley County for 13 years.

Sincerely,

Sybil S. Kellam
MedShare Administrator
Roper St. Francis Healthcare

Roper St Francis Healthcare
125 Doughty Street, suite 760
Charleston, South Carolina 29403

Dear Mr. Dunlap,

Please accept this letter as support for Roper St Francis Healthcare to build a new hospital in Berkeley County. As one of the largest counties in South Carolina that continues to grow, the residents of the county deserve their own hospital and emergency facilities within reasonable distance from their homes. This hospital will also give some of the north Dorchester County residents the opportunity for choice in healthcare. Thank you for your leadership with this matter.

Sincerely,

Gigi Pieretti
Medical Office Manager

Dear Mr. Dunlap:

As a Roper St. Francis Healthcare Employee who lives in Berkeley County, I wholeheartedly support the new Roper St. Francis hospital planned for Goose Creek. Our county is the ninth largest in the state and the population is expected to grow 7.8 percent in the next five years. A Roper St. Francis facility would give patients and residents an additional; much needed choice for receiving healthcare closer to their home.

Sincerely,

Diane Bethea

Dear Mr. Dunlap,

I am a resident of Berkeley County and understand that Roper Saint Francis Healthcare plans to build a new hospital in Goose Creek at Carnes Crossroads. Since we do not have a hospital in our county I agree that it is time to build one. With the growing population in our area this would be the natural choice for such a facility. I am sure that I am only one voice, but know that all our friends and neighbors are in full support of having a hospital in our community that will meet the needs of us all.

Thanks you for your kind consideration.

Sincerely,

October 3, 2008

Mr. David L. Dunlap
President & CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Sincerely,

Carol Swisher

Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

I understand that Roper St. Francis Healthcare plans to build a new hospital in Goose Creek, and I'm writing you today to express my support for this important project.

As a resident of Berkeley County, I am very aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my community and will provide residents with a convenient choice for receiving health care services closer to home.

Sincerely,

Joseph A. Smith
1435 Foxtail Pine Road
Ladson, SC 29456

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

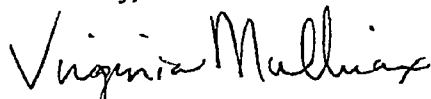

Dear Mr. Dunlap:

As a Berkeley County resident, I am writing today to offer my wholehearted support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

Our county is the ninth largest in the state and the population is expected to grow 7.8 percent in the next five years. Plus, we are one of only five counties in the state currently without a hospital.

A Roper St. Francis facility would give me along with my family, friends and neighbors a convenient choice for receiving quality healthcare closer to home.

Sincerely,

Virginia Mullinax
163 Gaillard Road
Moncks Corner, SC 29461

Dear Mr. Dunlap:

As a local resident, I am writing today to show my support for your plans to build Roper St. Francis Hospital – Berkeley right here in Goose Creek.

Berkeley County is a growing and thriving community, and deserves a full-service hospital. Citizens of Berkeley County should have access to quality healthcare close to home, and I appreciate your efforts to fill this need.

Sincerely,

Ronnie A. Ward

Roper St. Francis Healthcare
125 Doughty Street, Ste. 760
Charleston, SC 29403

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is proposing to build a new, full service hospital in Goose Creek. As a ~~resident~~ ^{an employee} of Berkeley County, I wholeheartedly welcome these plans for my community.

Currently, there is no hospital in Berkeley County. In addition, we are among one of the largest counties in the state and also one of the fastest growing.

For these reasons, I support your project and feel it will serve a real need for people living and working in my community. Please accept this letter as a show of my strong support for Roper St. Francis Healthcare and your new hospital.

Sincerely,

Charleston, SC 29403

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. As you know we do not presently have a hospital in Berkeley County. It would be great to be able to choose where I want to receive medical services closer to home.

Roper St. Francis has a reputation for having great doctors and providing excellent services to its patients. Also, with the population increase that has occurred and that will occur over the next few years, we need a hospital in our county.

As a resident of Berkeley County, I wholeheartedly welcome Roper St. Francis to my community. Please accept this letter as my support for this project.

Sincerely,

Christa Maynard

Dear Mr. Dunlap,

I have learned that Roper St. Francis plans to build a new hospital in Goose Creek, and am writing you today to express my support for this important project.

As a resident of Berkeley County, I am keenly aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my neighborhood and will provide residents with an additional choice for receiving health care closer to home.

Sincerely,

Wendi Nolen

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Sincerely,

Lillie Miller

Dear Mr. Dunlap:

As a Berkeley County resident, I am writing today to offer my wholehearted support for the new Roper St. Francis hospital planned for Carnes Crossroads in Goose Creek.

Our county is the ninth largest in the state and the population is expected to grow 7.8 percent in the next five years. Plus, we are one of only five counties in the state currently without a hospital.

A Roper St. Francis facility would give me along with my family, friends and neighbors a convenient choice for receiving quality healthcare closer to home.

Sincerely,

Brianna Stevick

Charleston, SC 29403

Dear Mr. Dunlap,

I have learned that Roper St. Francis plans to build a new hospital in Goose Creek, and am writing you today to express my support for this important project.

As a resident of Berkeley County, I am keenly aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my neighborhood and will provide residents with an additional choice for receiving health care closer to home.

Sincerely,

Joyce L. Harley

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. As you know we do not presently have a hospital in Berkeley County. It would be great to be able to choose where I want to receive medical services closer to home.

Roper St. Francis has a reputation for having great doctors and providing excellent services to its patients. Also, with the population increase that has occurred and that will occur over the next few years, we need a hospital in our county.

As a resident of Berkeley County, I wholeheartedly welcome Roper St. Francis to my community. Please accept this letter as my support for this project.

Sincerely,

Tammy Worton

Dear Mr. Dunlap:

I am a member of Greater St. James AME Church here in Berkeley County and am writing to express my support for the new Roper St. Francis hospital in Goose Creek.

Roper St. Francis is the only faith-based hospital organization in the Lowcountry and that's important to me. In addition, Roper St. Francis is the only community-based, not-for-profit health system in the Lowcountry, which means that everyone – regardless of ability to pay – receives the best care.

A new Roper St. Francis Hospital in Berkeley County will give residents an additional choice for receiving health care closer to home.

Dear Mr. Dunlap:

It is my understanding that Roper St. Francis is planning to build a new, full service hospital in Goose Creek. I would like to voice my support for this important project.

As you know, we do not presently have a hospital in Berkeley County. With the population increase that has occurred in recent years and is projected to continue in the future, it has become very clear to me that we need a hospital here in our county.

Roper St. Francis has a reputation for having great doctors and nurses and providing excellent services to its patients. It would be great for me and my family to be able to receive this care closer to home.

Sincerely,

Jeff Tyson

Dear Mr. Dunlap:

As a local resident, I am writing today to show my support for your plans to build Roper St. Francis Hospital – Berkeley right here in Goose Creek.

Berkeley County is a growing and thriving community, and deserves a full-service hospital. Citizens of Berkeley County should have access to quality healthcare close to home, and I appreciate your efforts to fill this need.

Sincerely,

Melissa de la Cruz

Dear Mr. Dunlap,

I am a resident of Berkeley County and have learned of your healthcare system's plans to build a new hospital in Goose Creek. As you are well aware, we do not have a hospital in this county. With our growing population, Berkeley County seems like a natural choice! I along with friends and neighbors are thrilled at the prospect of having a state-of-the art facility here closer to home.

Thank you for your kind consideration.

Sincerely,

Dora Chapman

Dear Mr. Dunlap:

I understand that Roper St. Francis Healthcare plans to build a new hospital in Goose Creek, and I'm writing you today to express my support for this important project.

As a resident of Berkeley County, I am very aware of Roper St. Francis' long tradition of providing quality health care, including your existing outpatient facility in Moncks Corner. By building a new hospital in Goose Creek, both sides of the county will be served.

A new hospital in Goose Creek is good for my community and will provide residents with a convenient choice for receiving health care services closer to home.

Sincerely,

Barbara L. Blene

October 6, 2008

Mr. David L. Dunlap
President and CEO
Roper St. Francis Healthcare
125 Doughty Street
Charleston, SC 29403

Dear Mr. Dunlap:

The purpose of this letter is to offer support for the decision to build a hospital in Berkeley County at Carnes Crossroads. As a person who is active in the Moncks Corner community through my church and other community service organizations and is in touch with many Berkeley County people, this proposal for a hospital at Carnes Crossroads has been received with a great deal of enthusiasm.

A hospital for Berkeley County is long overdue. Not only is Berkeley County one of the largest counties in the state it is rapidly growing each year and the Carnes Crossroad area is projected to have over 100,000 residents. So the proposal for the hospital to be at Carnes Crossroads is a good one.

Any thing else I can do to help make this proposal a reality, please advise me.

Sincerely,

Robert W. Mitchell, Jr.

Mr. Dunlap:

I am writing you this letter in support of the new Roper St. Francis Hospital to be located at Carnes Crossroads in Berkeley County. As an employee at Roper St. Francis Healthcare, I have heard a great deal about the growing need for a hospital in Berkeley County.

Roper St. Francis Healthcare (RSFH) is the only not-for-profit, community hospital in the Tri-County region. As our mission states, we are committed to "Healing all people with compassion, faith and excellence." If given the opportunity, we can further extend our mission to an emerging population center with more than 104,370 residents within a 7-mile radius. More than 25,800 people who reside in Berkeley County received care at a RSFH facility last year, which required them to drive 30 minutes or more to reach one of our hospitals. A new, not-for-profit hospital in Berkeley County will provide residents state-of-the-art care much closer to home.

Roper St. Francis has a tradition of providing for the healthcare needs of Berkeley County. I am proud to be a member of the Roper St. Francis family and I'm glad that we are working to provide more accessible care to Berkeley County Residents.

Sincerely,

Bryan Cox

Re: Roper St. Francis Healthcare's proposed Berkeley Facility

To Whom It May Concern:

This letter is being submitted in support of Roper St. Francis Healthcare providing a new, full-service hospital to Berkeley County. With the expected growth of Berkeley County, Roper St. Francis will give the community a choice for their healthcare services. It is my understanding that over 25,000 Berkeley County residents used Roper St. Francis facilities in 2007 and that the community is expected to grow by approximately 8% over the next 5 years. With a facility in the community, the residents of Berkeley County will have fast access to healthcare within a close proximity to their home.

Roper St. Francis is an excellent healthcare provider. Once again, I am please to support the efforts of Roper St. Francis, to place a facility in Berkeley County, providing for the needs of its citizens.

Respectfully,

Mary D. Garcia
Senior Vice President

oper St Francis Healthcare

25 Doughty Street

Suite 760

Charleston, SC 29403

Mr. Dunlap:

I am a home health physical therapist with your company. I treat patients in Berkeley County. It is a shame that there are no hospitals in Berkeley County. Patients complain that in an emergency, an ambulance will have to drive farther to reach a hospital. In addition, unless they are conscious enough to request Roper, the ambulance will take them to the nearest hospital, which is most likely not a Roper/St. Francis facility due to the great distance between their homes and all other Roper hospital facilities.

Berkeley County is the ninth largest county in the state and its population is multiplying rapidly. Such a large population deserves a high quality hospital within a minimal driving distance in order to receive excellent care and favorable outcomes.

I sincerely hope you will proceed with the prospective plan to build and develop an excellent inpatient facility in Berkeley County.

Thank you for your consideration,

Michelle Miller, PT

Dear Mr. Dunlap:

As the Ryan White Program Manager who works at St. Francis Hospital and routinely cares for patients from Berkeley County, I am writing today to offer my strong support for a Roper St. Francis hospital in Goose Creek. We currently have 39 Berkeley County patients enrolled in our program, 15% of our total, up from 9% in 2007.

More than 25,800 Berkeley County residents came to a Roper St. Francis facility in 2007 for outpatient surgery, emergency care or inpatient hospitalization. By locating a new, not-for-profit hospital at Carnes Crossroads, these residents will have state-of-the-art care much closer to home.

Sincerely,

Ashley Redmond, MPH

EXHIBIT A
PROPERTY DESCRIPTION
North Tract Parcel One
95.88 acres

ALL that certain piece, parcel or tract of land, situate, lying and being in Carnes Crossroads, in the City of Goose Creek, Berkeley County, South Carolina, containing approximately 95.88 acres, more or less, and known as "Carnes Crossroads North Tract Parcel One, TMS #209-00-01-080, 95.88 Acres" on that certain survey prepared by F. Elliotte Quinn III, R.L.S., of Thomas & Hutton Engineering Co., dated January 28, 2008 entitled "PLAT OF THE ADJUSTMENT OF PROPERTY LINES BETWEEN CARNES CROSSROADS NORTH TRACT (RESIDUAL A), CARNES CROSSROADS NORTH TRACT-PARCEL ONE & CARNES CROSSROADS NORTH TRACT (RESIDUAL B), OWNED BY CARNES CROSSROADS ASSOCIATES, LLC, CARNES CROSSROADS, CITY OF GOOSE CREEK, BERKELEY COUNTY, SC" recorded January 29, 2008 in Plat Cabinet N, at page 320-H in the Office of the Berkeley County Register of Deeds, reference to which is craved for a more complete description (the "Plat").

Together with a non-exclusive, permanent, assignable, commercial, transmissible access easement fifty feet in width for pedestrian and vehicular ingress and egress on, over, and across a strip of land running from Highway 176 across Carnes Crossroads North Tract (Residual A 105.29 acres) to the Hospital Site as defined on Exhibit C at a location to be determined by Grantor. Grantor shall have the right to relocate the easement, at Grantor's expense. Grantee and Grantor agree to join in the dedication of any road constructed within the easement area. The easement contains only one access point into the Hospital Site.

BEING a portion of the property conveyed to Grantor by Deed from Harmon Crossing, LLC, Harmon Run One, LLC, Harmon Run Two, LLC, Harmon Run Three, LLC, Harmon Run Four, LLC, and Carnes Water Tower, LLC to Carnes Crossroads Associates LLC dated April 16, 2007 and recorded April 18, 2007 in Book 6497, Page 246; and Deed from DIA/Carnes, LLC to Carnes Crossroads Associates LLC dated April 16, 2007 and recorded April 18, 2007 in Book 6497, Page 261, Berkeley County Register of Deeds Office.
