**Subject:** Weatherholtz v. SCDHEC, Appellate Case No. 2014-001939

Good morning. The above referenced matter is scheduled for oral arguments on February 10, 2016 at 10:40 AM in

Courtroom 2. Attached please find three (3) exhibits Brad Churdar, attorney for the Department, would like to have on the overhead during oral arguments.

Also, will a laser pointer be available during oral arguments or will he need to bring one?

Thank you in advance for your assistance. Please let me know if you have any questions or concerns, or need any additional information.

M. Denise Crawford

**Site Visit 7/11/2013**

**Jeff Thompson & Fred Mallett**

Jeff Thompson and Fred Mallett visited the above site by boat between 10:00-10:20 AM. Tide chart information indicated a high tide at 10:44 AM with a projected 4.7' high tide. The purpose of the site visit was to determine the width of the creek at the proposed location of a dock described in the referenced permit application. The mouth of the creek was very narrow, 5-6' in width. At the location of the proposed dock, the creek was measured to be slightly under 8' in width, measured marsh grass to marsh grass. Areas both floodside and ebbside of the proposed dock location were also less than 10' in width. Photographs were taken of the survey rod used to measure the width and of locations ebbside and floodside. It was determined that this creek is less than 10' in width and does not qualify for permitting of a dock per current OCRM Regulations.
