Dear Ms. Kitchings and counselors,

I feel it necessary to immediately communicate by email since Judge Cureton's order provided that Plaintiff's motion to reinstate would be considered upon receipt of the Record on Appeal.

I was out of town for a few days and after returning, discovered that I had been served with a Record on Appeal that did not include the transcript of testimony which transcript Plaintiff had included in his designation of matters be included in appeal or the errata sheet and certificate of court reporter I had designated.

If no decision has been made on the motion, I would request that Plaintiff's counsel immediately correct this deficiency and the Court consider the motion based upon the entire Record on Appeal.

I sincerely thank each of you for attention to this matter as I cited the transcript multiple times in my initial brief.

John E. White, Jr.  
Respondent, pro se

Thank you. Apparently, my concern was not necessary. Thank you for your concern about my health. I am doing okay, not full-speed, but better than many. I have a consultation in Atlanta on February 25 after which time I hope to know more.
