SC Appellate Case # 2011-195272

~~Case~~ / Opinion number

27334 heard 10-16-2016

Filed Dec 4, 2013

Dear Daniel E Steunouze

You provided me a copy of the CD of the oral argument concerning my case held before the S.C. Supreme Court on (Oct 16, 2013) for \$20.00. In which my mother paid for and you sent it to her. Because you were not aware of any SCD Policy that would allow me to have the CD inside of SCD. My mother listened to this CD and said it is very unclear, and the audio is horrible to the point she couldn't even understand what was being said. That it seem like everyone was talking at once, and you could hear echos in the back ground of other people talking as well, which made it impossible to determine if any legal issues or grounds concerning my legal right were properly argued or even addressed. I am therefore pursuing means to have that proceeding transcribed into a transcript of that proceeding a record of that proceedings made. I therefore need the name of the Court Reporter and their address. So that I can have the record transcribed: and if you can please let me know how much this would cost. Thank you and
May God Bless you.
