Division of Appellate Defense (with copy of motion)

¹ The Division of Appellate Defense is being provided with a copy of the motion made by petitioner's counsel since counsel indicates that Appellate Defense will be providing representation in this matter. The records of this Court reflect that Appellate Defense earlier advised counsel that it would not be providing representation in this matter. Since this appellate matter has been pending since the end of March 2016, any issue regarding representation by Appellate Defense should be resolved before July 6, 2016.

² The database maintained by the Office of Court Administration indicates that two requests for transcripts were made in this case in 2013, and these transcripts were delivered in June 2013.
